Yalçıntaş, made the following remarks: "As ICC, we have been implementing a credit mechanism for members of the Chamber since the crisis in 2001. With this mechanism, we are trying to ensure that banks grant our members credits under more favorable conditions by signing protocols with prominent banks in Turkey. Thanks to the protocols we signed with 8 banks, two participation banks and one financial leasing company, we ensured that 14.304 ICC members are granted credits under very attractive conditions compared to market conditions. Today, we are renewing the protocol we signed with DenizBank first in 2008."

Hakan Ateş, President of the DenizBank Financial Services Group said: "Compared to the examples in developed countries, we see that small and medium scale enterprises, which are probably one of the most important dynamos of our economy, do not have sufficient access to financial intermediaries and cannot benefit from financial intermediaries as much as desired. As DenizBank, we did our part by realizing this important gap and granting special support credits to SMEs which are members of the ICC thanks to the cooperation we established with the Chamber. We made an important progress in terms of enabling SMEs to access and make use of financial intermediaries by establishing cooperation with 230 Chamber of Commerce and Chamber of Artisans across the country along with ICC. We are maintaining our activities in this direction and renewing our cooperation protocol with ICC. As of today, the number of SMEs who have used SME Banking products and services has reached 400.000. Our target is to raise this number to 500.000 by the end of the year by sharing the distinguished position of DenizBank in SME Banking. We granted a total of TL 70 million credit last year; and we are aiming to offer ICC members a credit facility amounting to a total of TL 100-150 million with interest rates down to 1.33 in 2009.
