

**PRESS RELEASE****16 April 2011**

# **DenizBank's new fund will make you earn from metal**

**DenizBank will offer to public Capital Protected B Type Metal Fund between the dates of 18 – 25 April. The new fund offered by DenizBank aims to benefit from the foreseen positive return of gold, silver, aluminum, copper, lead, nickel and zinc metals which are included in S&P GSCI All Metals Index.**

Providing innovative and special solutions suitable with the needs of customers with its financial portal approach, **DenizBank** is offering a new metal fund in order for a larger sphere to be able to benefit from the returns of metal sector which has attracted a lot of attention lately. DenizBank **Capital Protected B Type Metal Fund** shall be offered to public between the dates of 18 – 25 April 2011. B Type Metal Fund having a capital protection of 93% aims to benefit from the positive return foreseen in the S&P GSCI All Metals Index. In this environment of ambiguity and insecurity in global markets, these types of attractive investment tools become prominent as a result of precious metals such as gold being perceived as safe ports.

## **For those expecting precious metals to go up**

The new product DenizBank will offer to the fund market attracts attention by investing in the metal sector which has become an attraction in the whole world. DenizBank continues to extend its fund variety by focusing on alternative fields. The fund of the bank having 93% capital protection is evaluated as an appropriate investment tool for investors expecting the metals to go up on a US Dollar basis in future.

## **Early exit option**

In order to buy Capital Protected B Type Metal Fund, it is required to be a DenizBank customer and to participate in the IPO which will take place between 18-25 April. For the 326-day fund, public offering requests will be taken at all DenizBank branches and after that, there will not be any other chance to buy metal fund until maturity date. Therefore investors should not miss public offering dates. Deniz Portföy A.Ş. will act as an intermediary for investors who wish to buy this fund. For the ones who wish to exit from the fund, the price which will be calculated twice a month, being 2nd and 16th, will be taken as basis. It will be possible to buy from DenizBank Capital Protected B Type Metal Fund at an amount of multiples of TL 1000 with minimum TL 10.000.

**About the S&P GSCI All Metals Index:** S&P GSCI (Standard & Poors Goldman Sachs Commodity Index) is an index which is accepted as the leading indicator of movements and inflation of commodity prices in global markets and is traded in the market. S&P GSCI All Metals Index, which is a sub index of S&P GSCI has the feature of an indicator whereby investors can compare the performances of precious and industrial metals. This index is made up of two indexes which are S&P GSCI Industrial Metals Index and S&P GSCI Precious Metals Index. While metals included in S&P GSCI Industrial Metals Index are aluminum, copper, lead, nickel and zinc; metals that are included in S&P GSCI Precious Metals Index are gold and silver.
