

PRESS RELEASE

29 April 2011

DenizBank support for İnegöl Municipality

Considering its customers' expectations and providing innovative financial solutions with its financial supermarket approach, **DenizBank** continues its activities in public finance. In this framework, with the collaboration with the European Investment Bank, İnegöl Municipality obtained European Investment Bank grant credit through DenizBank for funding its projects. The meeting held on this occasion at the İnegöl Municipality Premises on Friday, April 29th, 2011 was realized with the participation of Alinur AKTAŞ, İnegöl Mayor; Burak Bozkaya, DenizBank Regional Manager and Okan Öz, DenizBank İnegöl Branch Manager.

DenizBank is the largest private bank in municipality funding

Speaking at the meeting, Burak Bozkaya, DenizBank Regional Manager stressed the fact that DenizBank is the first and only bank that restructured public finance as a separate unit among private banks. Bozkaya said, "As DenizBank, we provided finance support of TL 2 billion to municipalities in the last 4 years. We are the largest private bank in terms of municipality funding. DenizBank Public Finance Group was established in 2007 to direct DenizBank's existing relations with all public institutions, primarily municipalities. In 2009, it was restructured as a separate business line of the Bank. DenizBank's contribution to the public sector is not limited to only banking activities. Our bank also exerts efforts in education and social responsibility. As DenizBank, we continue our activities to serve more in public finance. We hope this grant credit is beneficial for the people of İnegöl."
