

DenizBank Supports Farmers Harmed by Natural Disasters

As always, DenizBank provides repayment facilities to farmers victim of the recent natural disasters such as floods and landslides. Considering this situation, all payables such farmers in difficulty to DenizBank will be restructured over a time span up to 5 years and in line with harvest periods.

Aiming at contributing to Turkish agriculture with financial support provided to the sector by becoming the biggest private lender over the last 3 years along with advisory support to raise knowledge and awareness level of producers, **DenizBank** provides facilities for agricultural producers harmed by natural disasters.

“We are restructuring debts of farmers who are victims of disasters”

“We have a heartfelt relation with agriculture” said DenizBank’s EVP **Gökhan Sun**, who stated that DenizBank is a bank that stands beside farmers in their bad days too. Sun continued: “As the leading private agricultural lender in Turkey, we are well aware of our responsibilities towards our farmers. We stand beside them in their bad times along with good times. In this framework, we are providing some repayment facilities for our producers who have been victim of recent natural disasters such as flood and landslides. If farmers apply to our branches with damage determination reports obtained from Provincial Directorates of Agriculture, all their debts to our Bank will be restructured **over a time span up to 5 years and in line with harvest periods**. As a bank that firmly believes in strategic importance of agriculture sector for our country, we are proud of carrying the leader’s flag with our investments in this field”.
