

New Gold Fund from DenizBank

DenizBank is issuing 100% Capital Protected Gold Fund Estimating Increase between the dates of January 30th – February 3rd for those who wish to invest in the increase in gold prices. The new gold fund of DenizBank aims 100% capital protection therefore those who wish to benefit must not miss the application dates.

Providing a wide range of investment opportunities to its customers, **DenizBank** is issuing a new gold fund for investors who find decreasing gold prices as an opportunity. "DenizBank A.Ş 100% Capital Protected Gold Fund Estimating Increase" shall be issued between the dates of January 30th and February 3rd 2012. This new gold fund was developed for investors who estimate an increase in gold prices in the next year yet do not want to risk any loss from capital.

More opportunities will be provided for investors

DenizBank Executive Vice President in charge of Retail Banking, Mr. **Gökhan Ertürk** stated that they shall provide yet another new instrument for investors with this new fund. Ertürk said "The main factor that makes our gold fund attractive is the fact that the fund aims at 100% capital protection, gold being preferred as a safe port and more attraction on precious metals in periods when inflation pressures arise. Denizbank will provide more opportunities for investors by broadening its product range."

Investors may apply to a Denizbank branch between the dates of January 30th and February 3rd or access Internet Branch through www.denizbank.com in order to benefit from this fund. It will not be possible to buy this fund after application dates. Minimum buy amount is TL 5000 regarding this fund. Fund maturity shall be 383 days.
