

Two new nominations within DenizBank Financial Services Group

Murat Çelik, General Manager of Intertech was nominated as Executive Vice President in charge of the newly established Digital Generation Banking Group of DenizBank. Intertech's new General Manager is now Ömer Uyar, who was formerly Assistant General Manager of the same company.

Two important nominations and a new structure took place within DenizBank Financial Services Group (DFSG). To be able to respond quickly to banking needs driven by changing motivation and preferences of a new generation who spend big part of their life online in digital world, it was decided to establish **Digital Generation Banking Group** within **DenizBank**.

Murat Çelik, DenizBank's Executive Vice President in charge of Digital Generation Banking

Murat Çelik, who had been working as General Manager of Intertech, the technology company of DFSG was nominated as Executive Vice President in charge of Digital Generation Banking Group of DenizBank. Having joined Intertech family in 1995 as Software Engineer, Çelik joined DFSG family in 2004. Graduate of Computer Engineering Department of Boğaziçi University, Çelik has two children and speaks English.

Ömer Uyar, Intertech's new General Manager

General Manager function of **Intertech**, a subsidiary of DFSG providing IT services and solutions with its more than 400 staff members to various sectors, mainly the finance sector is to be fulfilled by **Ömer Uyar**, who had been working as Assistant General Manager in charge of International Projects and Sales & Marketing. Having joined DFSG family in 2000 as Unix and Security Associate, Uyar then worked for DFSG as R&D Department Head, IT Governance Department Head and joined Intertech family in 2009. Graduate of Computer Engineering Department of İstanbul Technical University, Uyar is married and speaks English.
