

Henceforth Forex winds will blow from Deniz

Launching Forex transactions since last July, Deniz Invest added a new brokerage service to its trading platform with DenizFX

Continuously standing by the investor with its innovative products and services, **DenizInvest** launched brokerage services in July 2012 after Forex markets were taken under control of the Capital Markets Board and necessary infrastructure operations were completed with due official authorizations. DenizInvest provides uninterrupted and narrow price ranges to its investors with its new platform DenizFX 24 hours per day and 5 days per week thus ensuring the opportunity to use Internet and mobile devices in transactions.

Reliable Forex compliant with legal regulations

Executive Committee Member of DenizInvest **Melih Akosman** made a statement regarding the provided Forex service: "Aiming at ensuring the best services for investors at all times, DenizInvest entered into the Forex market and demonstrated its strength also here. With DenizFX, investors will be able to carry out Forex transactions in a secure way meeting the requirements of legal regulations. DenizInvest's Internet strength combined with abundance of sales channels acquired via DenizBank branches puts us one step ahead. We are awaiting all the parties interested in Forex markets and wishing to reach the exchange markets faster in DenizInvest."
