Having been named as "The Most Innovative" in the U.S. and Europe three years in a row is an honor for us. Organizations that are rewarded in this prestigious event shape the banking industry with their innovative perspective. As DenizBank, we have

always been open to development and innovation, designed our banking operations in line with digitization and turned our route towards the digital world long ago and managed to become a brand that has unique achievements in the international platform, marking our name in all global innovation awards. We made a hat-trick to speak in football terms. In this perspective, we consider ourselves as an organization that makes people's lives easier via technology, rather than a bank.
