

PRESS RELEASE**21 September 2016**

DenizBank offers Home Saver Account with Government Contribution

Standing out with its innovative products and services focused on the needs of customers, DenizBank now offers home saver account. DenizBank customers who make savings for at least three years in Home Saver Account can benefit from government contribution up to 20% in addition to their savings.

DenizBank, which continues to work in line with the expectations and needs of its customers, expands its deposit product scale. In order to support the first house purchased for the customer or his/her child, government contribution up to 20% will be offered in addition to the savings of the customers who make savings for three years.

“We aim to be besides our customers by providing them innovative solutions”

Acting quickly in offering Home Saver Account as the Dowry Account to its customers and stating that DenizBank is among the first banks promoting Home Saver Account, **DenizBank Retail Banking Group Executive Vice President Oğuzhan Özark** added that; “The customers who regularly make savings for at least three years in Home Saver Account and meet the conditions related to this account can benefit from 20% of government contribution (up to 15.837 TL as maximum) in addition to the savings on the date of acquisition of the house. The customers who open Home Saver Accounts in DenizBank for themselves or their children may give monthly payment order through DenizBank credit cards or demand deposit accounts, and determine a payment amount between 263,95 - 2.639,50 TL, or may give quarterly payment order and determine a payment amount between 791,85 - 7.918,50 TL and they can regularly make savings for their future and benefit from 12.50% interest rate. We will continue to be besides our customers by providing them advantages.”
