

## **DenizLeasing and Proparco sign 50 Million Euro green loan agreement**

**DenizLeasing signed a 50 Million Euro loan agreement with Proparco, a subsidiary of the French Development Agency. The funding will be used to support renewable energy investments and projects aiming at reducing carbon emissions.**

With the resources secured, DenizLeasing will provide financing on favorable terms for investments that will reduce carbon emissions by supporting clean energy investments, expand renewable energy production, and contribute to increasing energy efficiency.

**DenizLeasing General Manager Burak Koçak** said:

"As DenizLeasing, supporting investments that focus on energy efficiency, carbon reduction, and environmental sustainability is not only a financial goal for us but also our responsibility to society. The agreement we have made with Proparco, in line with the objectives of the Paris Agreement, is a concrete demonstration of our vision to contribute to our country's transition to a green, low-carbon, and sustainable economy, and thus to achieving its climate goals. In the coming period, we will continue to support environmentally compatible economic growth by standing alongside businesses on their green transformation journey."

Commenting on the matter, **Proparco Deputy CEO Djalal Khimdjee** said, "With our partnership with DenizLeasing, we are demonstrating our commitment to supporting green finance, one of the fundamental elements of inclusive and reliable economic growth. At the same time, by supporting investments in renewable energy and energy efficiency, we are also contributing to Türkiye's net zero emissions targets. We are also delighted that our long-standing partnership with DenizBank continues to grow stronger with DenizLeasing under this 50 Million Euro project, which will serve the United Nations Sustainable Development Goals of 'Decent Work and Economic Growth' and 'Climate Action'."
