### **Dexia in Brief**

Universal banking > Dexia is a European bank and the world leader in local public finance. Dexia is one of the top 15 banking groups in the euro zone with a stock market capitalization of EUR 20.3 billion and 35,500 employees in 37 countries as of December 31, 2007.

### **Group Profile**

Dexia is a European bank and the world leader in local public finance. Dexia is one of the top 15 banking groups in the euro zone with a stock market capitalization of EUR 20.3 billion and 35,500 employees in 37 countries as of December 31, 2007.

### A Unique Model in the Banking Sector Two Pillars

Dexia's future is built on two pillars: its Universal Banking business in Europe and world leadership in Public/Project Finance.

Dexia intends to expand its Universal Banking business beyond its traditional markets of Belgium, Luxembourg, Slovakia, and Turkey to become a top-level European player while building upon its global leadership in Public/Project Finance to expand geographically.

Dexia is confident that it can deliver exceptional operational and financial results, including a dividend per share increase of at least 10% per annum, one of the Group's objectives announced in September 2006.

### Financial Stability

Dexia has vigorous yet prudent growth plans which adhere to its core values for managing risk and maintaining financial stability. The Group maintains the highest standards for underwriting, risk management, operational discipline and product performance.

Dexia has one of the highest credit ratings in the banking industry. The Group's principal banking entities -Dexia Crédit Local, Dexia Bank and Dexia BIL- are all rated AA/Aa1/AA+; three of Dexia's European subsidiaries issue Triple-A rated secured bonds; and FSA, one of the world's three largest bond insurers, is a Triple-A rated company (recently affirmed).

### Long-term Commitment to Group Values

Dexia has made a long-term commitment to the needs and well-being of its customers, the harmonious development of society, protection of the environment and sustainable growth. Dexia expresses its unique corporate culture through its motto - the short term has no future. This well describes our approach to the concept we use to manage our business lines.

Dexia's actions and goals are driven by the:

- Ambition to constantly improve operational and financial performance while adhering to our social and environmental values,
- Respect for all, including customers, shareholders, employees, suppliers, and other stakeholders in our businesses,
- Passion for innovation that allows us to meet our goals while contributing to the society.

# **Dexia's Business Lines**Public/Project Finance and Credit Enhancement

Over the last decade, Dexia has become the world leader in Public/Project Finance. Dexia operates in more than 30 countries including France, Belgium, Italy, North America, Mexico, Germany, Spain, the UK, Scandinavia, Switzerland, Austria, Slovakia, Poland, Romania, the Czech Republic, Australia, Israel, Bulgaria, Hungary and Japan.

Dexia meets the financing needs of local public administrations and other public services through direct loans, signed commitments, liquidity guarantees and the purchase of their securities. The Group offers its customers a full range of products that include structured loans and debt management.

Dexia deploys its know-how to project finance across the globe while adhering to highly selective policies in line with the Group's risk-management standards. Dexia focuses on transportation, environmental and other

essential infrastructure projects as well as the renewable energy sector. The Group finances corporate borrowers in countries where it is active in Universal Banking, such as Belgium, Luxembourg, Turkey and Slovakia.

Through its U.S. subsidiary Financial Security Assurance (FSA), Dexia provides credit enhancement for municipal bonds, infrastructure projects and asset-backed securities. Today FSA occupies a dominant position in the U.S. municipal bond insurance market.

### Retail Financial Services

Offering a wide range of banking and insurance services to more than six million customers, Dexia is a leading European retail bank with a focus ranging from individuals to small and medium-sized companies in Belgium, Luxembourg, Slovakia and Turkey.

Dexia is one of the top retail banks in Belgium and Luxembourg and has a local bank in Slovakia. Dexia's DenizBank is the sixth-largest privately owned bank in Turkey. Supplying all the life and non-life insurance products sold in the retail networks of the Group in Belgium and Luxembourg as well as in France, Dexia Insurance Services are a major provider in these countries.

Dexia is also a major private banking services provider through various entities, including joint ventures operating principally in Belgium, Luxembourg, France, Spain, Switzerland and Denmark.

### Treasury and Financial Markets

Dexia's principal businesses give the Group a strong presence in the capital markets, where it funds and manages the Group's balance sheet and structures sophisticated products and solutions for the clients of various business lines. In addition to providing support to the entire Group, the Treasury and Financial Markets business segment generates substantial earnings.

#### Asset Management

Dexia Asset Management is a top-tier Western European asset manager with a complete range of investment vehicles from traditional and alternative funds to socially responsible investments-an area in which Dexia is a leader. Dexia specializes in the management of mutual funds and institutional and private mandates.

Dexia Asset Management operates through offices in Brussels, Luxembourg, Paris and Sydney, and via locally organized client relationship teams throughout Europe, the Middle East and Australia.

#### **Investor Services**

RBC Dexia Investor Services was created in 2006 as a joint venture with Royal Bank of Canada to offer its expertise in global custody, fund and pension administration and shareholder services to institutions around the world. The company ranks among the world's top 10 global custodians and does business in fifteen countries on four continents.

Dexia's Key Figures as December 31, 2007	of
Balance-sheet Total	EUR 604.6 billion
Net Income-Group Share	EUR 2,533 million
Earnings Per Share	EUR 2.18
Tier 1 Ratio	9.1%
Return on Equity	17.8%

(\*) As of December 31, 2007

# Message from the Chairman

I am very pleased to report the second year that DenizBank completed with Dexia as its partner has resulted in continued success. As it has done since its inception, the Bank continued to display rapid but healthy growth this year, strengthening its position in its customer segment and continuing its notable financial performance by adding areas such as public finance to its operations.

In world economic history, 2007 will be remembered for the record losses in the value of the US dollar, steep price increases in oil and other major commodities, and perhaps most importantly, the mortgage credit crisis that originated in the United States and led to a loss of confidence and a liquidity crunch that particularly affected the banking systems of developed countries. Turkey was not significantly impacted by this crisis that deeply undermined the global markets thanks to its continued implementation of proper macroeconomic policies. Undoubtedly, the absence of the widespread use of derivative products and mortgage credits in Turkey also played a role in the relative calm of its markets. Turkish banking system did not lose any ground in 2007, it further proved its stability when leading Turkish banks provided liquidity support to the banks in developed countries grappling with the mortgage crisis.

Foreign capital inflows into the banking system continued and the share of foreigners as part of the total assets rose to 14%. As a result of the entry of foreign banks into the system bringing significant amounts of capital, banks further strengthened their financial structures and enhanced the durability of the economy against crises with successful risk management and strong capital structures.

Target 2009 > In 2009, DenizBank's net income contribution to the Dexia group is targeted to be over 5% in public and project finance, approximately 20% in personal retail services and around 10% in total net profits.

Turkey has successfully taken advantage of the global growth and liquidity surplus of the last few years. Thanks to the measures it has taken to ensure fiscal stability and a high growth rate, the country has become the 17th largest economy and the 16th largest recipient of foreign direct investment. The goal in front of Turkey now is to ensure that these favorable developments are sustainable. The slowdown that the global economy will undergo in 2008 and beyond is going to be a challenge that Turkey will have to overcome. A lower growth rate, an increase in the unemployment rate, and a slowdown in foreign direct investment, as well as the deceleration in export growth, are some potential upcoming developments.

In order to maintain its growth rate, Turkey needs to follow proper macroeconomic policies, maintain its structural improvement by undertaking social security, legal, tax and labor reforms, and support long-term foreign capital inflows by continuing its privatization efforts. The Turkish economy can easily overcome the hurdles it may encounter in the future if it follows these practices. Turkey has many safety valves to protect it against potential economic difficulties. Its strong banking system and competitive global power in manufacturing and services industries are locomotives of the economy, and its young, entrepreneurial, and well-educated population provide a positive, dynamic force.

The commitment of our majority shareholder Dexia to DenizBank creates strategic value. While transferring this value to our economic shareholders, we are targeting further growth in public and project finance, seeking to provide global leadership in this segment. Already "the address" for all of the needs of the public sector, Dexia, via DenizBank, began to provide debt management, project finance, insurance, wealth management, payments, credit development, long-term credit, short-term credit, structured credit services and capital markets solutions to the local public sector in Turkey. Expansion of the universal banking franchise network is also among our plans for the future.

To further these goals, we are bringing Dexia's global expertise in universal banking and public and project finance to Turkey, creating a leading financial group that serves these segments in Turkey and the surrounding region. In 2009, DenizBank's net income contribution in public and project finance segments to the Dexia Group will be over 5%, around 20% in personal retail services and approximately 10% in total net profits.

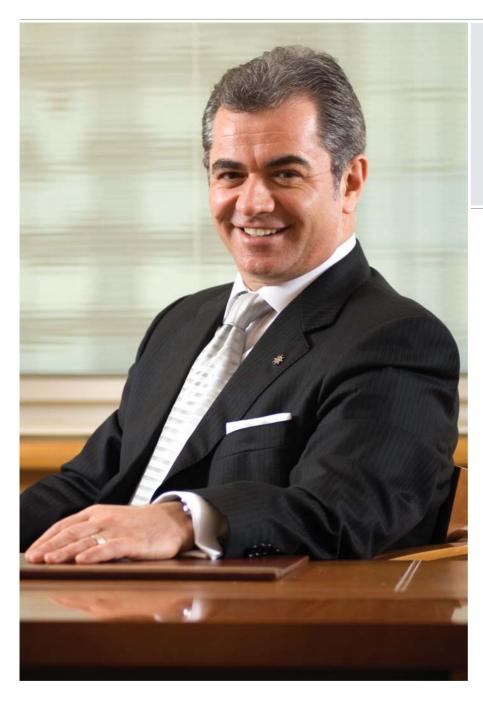

Within the next three years we are planning to launch approximately 200 new branches and hire 4,000 new personnel for DenizBank's retail and SME banking segments. Dexia will provide significant support for the Bank to enable it increase its revenues and expand its product portfolio in mortgage credit, insurance, wealth management and private banking areas.

Being a member of the Dexia Group provides DenizBank with enhanced competitive power in corporate and commercial banking segments, as well as higher-volume and cheaper funding opportunities. The synergy the Group provides will also lead to more effective utilization of the international correspondent bank network. As a result of access to Dexia's customer network, DenizBank is able to offer our customers a more extensive product portfolio. This increases the Bank's capacity to create new business opportunities..

A bank's most important asset is its human resources and our achievements are a reflection of our employees' exceptional qualities. Their dedication to our bank and high level of motivation has built true team spirit, one of DenizBank's primary corporate values and the single most important factor in our achievements. I would like to take this opportunity to sincerely thank all of my colleagues individually. I also extend my thanks to our valued customers and business partners and hope that we are worthy of their trust.

**Dirk Bruneel**Chairman of the Board of Directors

# **Message from the President and CEO**

It gives me great joy to see DenizBank today with a global bank as its partner, standing tall among the top rank of Turkey's leading banks. From now on, DenizBank's goal is to move beyond its national boundaries and become a regional player in various areas of operation. Thanks to the surge provided by Dexia, I am confident that we will witness much greater achievements in the near future.

DenizBank maintained its robust asset and shareholders' equity growth in 2007. Based on our year-end consolidated financial statements, total assets grew 27% over the previous year to YTL 18,647 million (EUR 10,930 million) and our shareholders' equity increased 24% to YTL 1,678 million (EUR 984 million). As yet another indication of our continued healthy growth, net profit reached YTL 341 million (EUR 200 million).

I would like to summarize our successful operations by the products and services we offer in 2007:

### Loans

Total loans grew 51% during the past year. Loans to small and medium-sized enterprises (SMEs), one of the growth segments that we focus on, registered 69% growth. The retail banking segment which serves personal customers and consumer loans excluding credit cards, increased by 52%. Consumer loans grew 51% in

Continued growth > Based on our year-end consolidated financial statements, total assets grew 27% over the previous year to YTL 18,647 million (EUR 10,930 million) whereas our shareholders' equity increased 24% to reach YTL 1,678 million (EUR 984 million).

2007, a result of campaigns for loans with a term structure tailored to the needs of individual consumers and that were designed to appeal to specific institutions and occupational groups. Commercial segment loans grew 64% as a result of our newly launched commercial centers and corporate loans showed an increase of 33%.

We will maintain the strong surge we have achieved through innovative and creative products in credit cards as well as other retail banking products and services. We will continue to increase the share of loans allocated to the retail and small-enterprise segments as a percentage of the total loans in the coming years. With the loan volume reaching YTL 5,623 million in these segments at the end of 2007, we have made significant progress towards achieving this goal. As of the end of this year, revenues from retail banking, SME banking and credit cards constituted 51% of our total revenues.

Presently we are trying to utilize all possible resources in order to serve the financing needs of our customers in all business lines. Within the scope of the framework agreement signed with the EIB (European Investment Bank) in July 2007, DenizBank procured a EUR 250 million loan, of which EUR 150 million is for meeting financing needs of small and medium-size enterprises and EUR 100 million committed to the financing needs of commercial and corporate customers.

In 2007 we continued to expand our commercial and corporate banking customer base by focusing on sectors that we considered to be niche markets. A strong supporter of the maritime sector since its inception, DenizBank was named the "Shipping Financier of the Year" at the "Lloyd's List Turkish Shipping Awards", organized for the first time this year by Lloyd's of London, one of the world's most prestigious companies in the maritime sector. An announcement about the award was published in its renowned Lloyd's List.

#### **Project Finance**

2007 has been a successful year for DenizBank's project finance business. Despite the fact that it was the first year of partnership with Dexia, the strong synergy that has been created between the two partners has already begun to bear fruit. In addition to the targeted sectors, the loan volume reached US\$ 760 million as the Bank entered many new sectors, including dairy husbandry, foundry work and cement.

### **Public Finance**

Structuring of public finance, Dexia's primary business line, was completed by DenizBank in the third quarter of 2007. As of year-end 2007, total cash and non-cash loans in this segment reached YTL 374 million.

### **Foreign Trade Finance**

Thanks to DenizBank's growing reputation in the international banking community, foreign trade finance was a rising star in 2007. The number of correspondent banks surpassed 1,100 in 2007, and letter of credit volume reached US\$ 2.4 billion, a 35% increase over the previous year.

### **Agricultural Loans**

DenizBank is the only private sector bank to create a designated team and a branch network dedicated to the agricultural sector. In 2007 the Bank's agricultural banking outlets grew to 120 branches as the Bank expanded its geographical area of operation. In the process DenizBank reached more than 100,000 producers and extended YTL 565 million in loans. Within the scope of our agricultural banking services, we extended short-term agricultural loans via the Üretici Kart (Producer Card), a service offered for the first time anywhere in the world to Turkish agricultural producers, For medium- and long-term investments, tractor and equipment loans, loans specific to operation segments, special-project investment loans were offered in equal installments or flexible repayment schedules, tailored to the farmers' production cycles and cash flow patterns.

### **Deposits**

Paralleling its expanding branch network and growing customer base, DenizBank's customer deposits rose 21% in 2007 to YTL 10,822 million.

## Message from the President and CEO

Regional player > Sailing confidently towards new horizons with the support of its majority shareholder the global player Dexia, DenizBank's experienced captains keep a firm hand on the wheel. Using these navigation skills, There can be no doubt that DenizBank will become a regional player in the near future.

### **Retail Banking**

The volume of consumer loans registered a significant increase in 2007, thanks to various campaigns for individually-tailored consumer loans. Loans allow customers to choose the most suitable repayment plan and offer grace periods with a minimum of formalities. Consumer loans reached YTL 2,590 million in 2007 while DenizBank's market share rose to 4%.

Consumer loans were extended to more than 2 million retail banking customers in 2007 and constituted 19% of total loans. The deposit volume of retail banking customers reached YTL 4,832 million and comprised 45% of our total deposit volume.

Home loans also registered an increase despite the global crisis. In addition to the individual home loans extended to consumers, we continued to enter project-based joint ventures with contractor firms. With 66 new protocols signed during 2007, the number of residential projects DenizBank is involved with rose to 110. The Bank increased its market share in home loans by 90% in 2007, raising its market share to 3.2%. This increase provided DenizBank with the largest gain in terms of market share of any private bank in Turkey.

During 2007 active use of credit cards was promoted through campaigns tailored to the segment. Campaigns for increasing revenues and the number of cards, as well as cost-reduction campaigns, were organized for the Miles&More and Bonus credit cards.

### **Corporate and Commercial Banking**

In the corporate and commercial segment our customer base showed solid growth through our continued focus on our niche markets of energy, construction, infrastructure, maritime, education and healthcare, logistics, agriculture and iron and steel sectors. The share of corporate banking operations in terms of total deposits and total loans were 17% and 27%, respectively. We intend to further raise our cross-selling ratio by penetrating the niche sectors with cash-flow management products.

In the corporate and commercial segments Our goal is to increase DenizBank's market share by providing high-quality banking products and services and accordingly maintaining stronger customer loyalty. The Commercial Banking Group launched 10 new commercial centers during 2007, raising their total number to 14.

### **SME Banking**

In order to engage in mass marketing to small businesses we undertook product standardization and developed cash management tools tailored specifically to the needs of this segment. We enhanced DenizBank's profitability by penetrating into new and profitable but undiscovered areas in the small business segment. The Bank built effective marketing campaigns and utilized alternative distribution channels to build its customer base.

As of year-end 2007, the number of customers we served reached 275,000 and the total credit limit extended and credit risk reached YTL 3.2 billion and YTL 2.0 billion, respectively. The total deposit and investment accounts of our SME Banking clients stand at YTL 1.7 billion.

#### **Bancassurance**

Bancassurance is another one of our strategic areas of interest. DenizBank branches offer a wide range of insurance services from workplace insurance, agricultural insurance and accident insurance. to fire insurance, home insurance and life insurance. After 99.6% of its shares were acquired by Dexia at the end of 2006, Global Hayat Sigorta A.Ş. (Global Life Insurance Inc.) was integrated into the DenizBank Financial Services Group in March, 2007 and the Group began providing insurance services under the Deniz Hayat (Deniz Life) brand. The Group generated YTL 53.8 million in premiums and earned YTL 10.7 million in commission

In summarizing the results of the 2007 operations, I have tried to explain how DenizBank has had a markedly successful financial performance this year. These results encourage us to continue with our growth strategy with the same resolution and determination. We will continue to adhere to our prudent lending principles and give priority to effective risk management practices as we have always done. We will continue to increase our efficiency by controlling our costs via effective systems and enhance our commercial and corporate banking profitability by focusing on the niche sectors that have served us so well.

Sailing confidently towards new horizons with the support of its majority shareholder, the global player Dexia, DenizBank's experienced captains keep a firm hand on the wheel. I know that all of DenizBank Financial Services Group managers and employees will be with us during this journey, providing the Bank with their usual resolution, determination and devotion. No doubt they will share even greater accomplishments with us. I would like to take this opportunity to thank all of them. I also would like to thank our valued partners for the vision they bring, our social and economic stakeholders for their support, and all of our customers for their trust.

Hakan Ateş President and CEO

Soluth

### **Market Position of DenizBank**

We are focusing > The primary segments DenizBank Financial Services Group focuses on are retail customers. small and medium-size enterprises, exporters, public and project finance and corporate customers.

In addition to DenizBank, DenizBank Financial Services Group has eight domestic and two international financial subsidiaries; a branch in Bahrain and EuroDeniz Off-Shore Bank Ltd., an off-shore banking subsidiary in the Turkish Republic of Northern Cyprus. DenizYatırım Securities, EkspresInvest Securities, Deniz Investment Trust, Deniz Portfolio Management, DenizTürev Securities. DenizLeasing. DenizFactoring. Deniz Life Insurance. Intertech and DenizKültür are the Group's domestic companies, and DenizBank AG and DenizBank Moscow are its international subsidiaries.

The primary segments DenizBank Financial Services Group focuses on are retail customers, small and medium-size enterprises, exporters, public and project finance and corporate clients. The Group also operates in niche markets such as shipbuilding finance, tourism, agricultural loans, construction projects abroad, healthcare services and education.

DenizBank Financial Services Group operates in European Union countries through its Vienna-based subsidiary DenizBank AG. DenizBank Moscow provides services to customers engaged in commerce with Russia and serves a variety of their financial needs.

DenizBank Financial Services Group possesses a service network that reaches all segments of the society throughout Turkey. Thanks to its Alternative Distribution Channels, DenizBank empowers both individual and corporate customers all over the world carrying out financial transactions over the internet. In 2007 DenizBank became the first Turkish bank offering its customers the "Card Login" service. "Card Login" allows a customer with any DenizBank card to instantaneously use the Internet Banking service.

# **Research and Development Activities**

Customer-centric R&D > DenizBank is engaged in research and development activities in order to better serve its extensive client base, a significant portion of which is made up of retail accounts.

DenizBank continues its research and development activities to improve its services to the more than two million retail banking customers who constitute the majority of its customer base.

As a result of these activities, a new banking product was developed that aims at expanding the current product portfolio in credit card usage and targets a larger customer group. Turkey's fastest credit card, the contactless credit card, was launched in June 2007. DenizBank became the first company in Turkey to deploy a contactless credit card just for the marine transportation sector. Transactions up to YTL 35 are completed under half a second with the contactless Sea&Miles credit cards. Thanks to the fully automated turnstiles at the İDO (Istanbul Deniz Otobüsleri İşletmeleri- Istanbul Seabuses and Fast Ferries Inc.) Kadıköy and Bakırköy seabus terminals, Sea&Miles credit card holders have the opportunity of faster and cheaper access when commuting by sea.

Thanks to its R&D efforts, the goal of maintaining customer service quality at the highest level continues to be a primary concern for DenizBank. The Bank's partner in innovation, Intertech, is helping carry out many successful projects towards the utilization and widespread adoption of new technologies.

As part of its infrastructure improvements, DenizBank launched a new call center in 2007. All calls are now automatically forwarded to the correct operators, taking into account tariffs, pricing and calling costs in order to maximize efficiency and minimize costs. As the smart system can be integrated with the inter-Next Banking platform, it will be possible to make outbound phone calls to customers and record the results into the system without leaving the banking screens.

Through DenizBank's recently launched mobile signature system, Internet users can now perform their transactions securely with digital signature verification.

Providing more than 17 years of experience, know-how and staff expertise, Intertech is providing DenizBank with data mining consulting services for effective CRM (customer relations management). Operational system data in the data warehouse are converted into information and analyzed using data-mining statistical methods. A full variety of analyses on subjects such as the loyalty of DenizBank customers to the Company, the products they use, and their product purchasing propensities are presented to the marketing units.

The primary goals of DenizBank's R&D efforts are effectively managing campaigns through the findings of its data mining effort, meeting sales goals with minimum cost by reaching the right customer through the right channel, and enhancing customer loyalty by meeting the highest customer expectations.

# **Banking Services**

### **DenizBank**

DenizBank AG (Vienna)
DenizBank Moscow (Moscow)
EuroDeniz Off-Shore Bank (Nicosia)

Serving a client base of primarily retail customers, DenizBank effectively presents its product portfolio in such a manner as to best serve their interests.

At the end of a year of favorable results for the Bank, DenizBank's total assets rose 27% to EUR 10,930 million in 2007. Bank's shareholders' equity grew 24% to EUR 984 million. As of year-end 2007, DenizBank has 320 branches and a Contact Center in Turkey.

Loans by Segment (%)	2007	2006	
Corporate Loans	26.8	30.3	
Commercial Loans	31.3	28.8	
Consumer Loans	19.3	19.1	
SME Loans	19.2	17.1	
Credit Card Loans	3.4	4.7	
Total Loans (EUR million)	7,862	4,806	

### **Customer Segmentation**

DenizBank serves retail and small and medium-size enterprise banking (SME banking) customers, as well as corporate and commercial banking customers. Corporate and commercial banking activities are divided into three segments: the Commercial Banking Group, Public/Project Finance Group and Corporate Banking Group. Public/Project Finance Group is in turn divided into three separate segments; Foreign Trade, Project and Public Finance.

These three customer segments each serve a different clientele base: The Corporate Banking segment serves companies with an annual turnover of over US\$ 25 million, the Commercial Banking segment serves companies with an annual turnover of between US\$ 5 million and US\$ 25 million, and the SME Banking segment serves companies with an annual turnover of less than US\$ 5 million.

### **Retail Banking Group**

DenizBank expects to launch approximately 200 branches and hire approximately 4,000 new personnel within the next three years in the retail and SME banking segments. Dexia will provide significant support to DenizBank in increasing its revenues as the Bank expands its product portfolio in mortgages, insurance, asset management and private banking areas.

DenizBank's Retail Banking Group offers its customers all the high-quality products and services of the DenizBank Financial Services Group. Turkish Lira-denominated loans extended to more than two million retail banking customers in 2007 amounted to YTL 2,590 million, and the share of these loans in total loan volume was 19.3%. The deposit volume of retail banking customers rose 17% and reached a value of YTL 4,832 million, which constituted 45% of the Bank's total deposit volume.

DenizBank implemented important new initiatives in the retail banking field during 2007. Segmentation efforts, finalized at the beginning of the year, were undertaken in order to offer the customers products and services tailored to their needs through the right channels and at the right cost. This new segmentation structure was placed at the core of DenizBank's approach to retail banking. In 2007, favorable results from the segmentation efforts were reflected in the deposit and loan figures. 242 Personal Consultants and 343 Sales Managers employed at the branches now serve in a more customer-centric and proactive manner. In addition to the branches, the financial needs of the customers are served via 433 ATM/Kiosks, the Contact Center and Internet Banking channels.

# Performance of Retail Banking Products

Credit Cards

DenizBank credit card products portfolio is comprised of credit cards that appeal to different segments and have characteristics that are distinct from each other. The Bank's goal is to solidify its market position by entering into major business collaborations in order to reach card users with different lifestyles and shopping habits by offering special products and services that appeal to them.

## DenizBank credit card products portfolio includes:

- DenizBank Bonus Card: Used since 2002 as part of the Bonus Program Partnership for customer in all segments who love to shop and pay in installments, and who are responsive to the idea of free shopping and campaigns,
- Miles&More Credit Card: Used since 2005 in partnership with Lufthansa for customers who often travel abroad and have high entertainment, dining, accommodation and travel expenditures,
- Sea&Miles Credit Card: Used since 2006 in partnership with İDO (Istanbul seabuses and Fast Ferries Inc.), for customers living in the Marmara region who often travel with IDO and who have adopted sea travel as part of their lives,
- There are also DenizBank Credit Cards for customers who are not conducive to paying in installments but who enjoy accumulating bonus points with each transaction and using them to select gifts from the gift catalogue.

### **DenizBank**

### Performance of DenizBank **Credit Cards**

		Number of Customers	Volume (YTL)
2007	1,220,538	808,000	2.9 million
2006	1,508,525	715,000	2.5 million

While the number of customers increased DenizBank enhanced its efficiency and effectiveness in cost and risk management by canceling credit cards that were inactive for more than 36 months.

DenizBank promoted active use of its credit and revenue increases through regular campaigns designed specifically for the segment.

### DenizBank completed the following credit card projects in 2007:

- Turkey's fastest credit card, the Sea&Miles credit card, was launched in June 2007. DenizBank became the first company in Turkey to deploy a credit card just for the marine transportation sector. Transactions up to YTL 35 are completed under half a second with the contactless Sea&Miles credit cards. Thanks to the fully automated turnstiles at the IDO (Istanbul Deniz Otobüsleri İşletmeleri- Istanbul Seabuses and Fast Ferries Inc.) Kadıköy and Bakırköy seabus terminals, Sea&Miles credit card holders have the opportunity of faster and cheaper access when commuting by sea.
- Within the Bonus loyalty program, DenizBank Bonus Card holders were introduced to the Bonus Plus and Bonus Premium products and began to earn more Bonus points.
- The Red Royal VIP Selection Platinum Credit Card product, geared towards Büyük Kulüp members, joined the DenizBank credit cards portfolio in December 2007.
- DenizBank's Direct Sales Team sold 120,000 personal credit cards and 25,000 Producer and Cash Cards to new customers during 2007.

- The number of DenizBank POS terminals rose from 52.582 at the end of December 2006 to 63,288 at the end of December 2007.
- DenizBank began offering services geared towards making the lives of card holders easier. These DenizBank card advantages include Medical Assistance and Information Services with Assistline to Platinum card holders. PROMED Healthcare Services to Sea&Miles credit card holders, and the opportunity to purchase plane tickets in installments with one phone call to the DenizBank Travel Line service for all cardholders

### Consumer Loans

DenizBank Retail Banking Group added dynamism to the sector with the creative and innovative products it launched in 2007. Consequently, DenizBank's consumer loans reached YTL 2,590 million in 2007 and the Bank's market share rose to 4%.

### **DenizBank Consumer Loans** (YTL million)

	Total Loans	Market Share (%)
2007	2,590	4.0
2006	1,702	3.7

### General Purpose Loans

DenizBank became the first bank to offer its customers a maturity of 66 months and a 6-month grace period with its "Loan 6-6" product. Doubling the payback periods for customers who transferred their outstanding debt balances at other banks and consolidated them at DenizBank with its "Balance Transfer" product was also a first in the sector. Loans were approved in five minutes with the "CebimdeKredi" service and were extended without any formalities. free of documents and fees. The last product launched in 2007 is "FitKredi" (FitLoan), which allows customers to design their repayment plans according to their own income levels and lifestyles.

YTL 722.8 million in loans were extended to 100,000 people through these campaigns.

### Home Loans

DenizBank increased its home loans by approximately 90% in 2007, raising its market share to 3.2%. This was the largest increase in market share among private banks.

### Performance of DenizBank Home Loans (YTL million)

	Number of	Loan	Market
	Loans	Volume	Share (%)
2007	14,000	993	3.2
2006	3,000	522	2.4

With 66 new protocols signed during 2007, the number of residential projects DenizBank is involved with rose to 110. Home loans are offered with the added benefit of DenizBank's reputation for financing the most distinguished and significant housing projects throughout Turkey.

### Salary Payment Service

DenizBank provides salary payment services to 163,000 individuals as of year-end 2007, up from 133,000 at year-end 2006. The total amount of salaries paid increased from YTL 115 million a year earlier to YTL 143 million in 2007. In 2007, DenizBank provided salary payment services to 559 private and 935 public companies.

### Composition of DenizBank's Deposits

Composition	of DenizBan	k's Deposits
	2007 (%)	2006 (%)
Time YTL	75	81
Demand YTL	25	19
Total YTL	EUR 2,834 million	EUR 1,650 million
Time FX	78	81
Demand FX	22	19
Total FX Deposits	EUR 3,510 million	EUR 2,285 million

# Alternative Distribution Channels Segment

Customers can perform most banking transactions easily without a visit to a branch using DenizBank's Alternative Distribution Channels. Account management, money transfer, credit card, investment, foreign exchange, stock market, bill payment and automatic payment transactions can be performed via the Internet Branch, Contact Center, ATMs, Kiosks and GPRS Banking. Beginning with the introduction of Expres Counter in 2008, cash transactions, such as deposits, withdrawals, dispensing petty cash, bill payments and card transactions will be possible at this venue.

Alternative distribution channels also facilitate CRM applications and cross-selling activities through information exchange and one-on-one marketing support. In 2007, DenizBank focused on offering various customer-specific products determined by customers' products, service utilization and habits, primarily loans and credit cards, as well as the processes supporting these efforts. Employing resources such as internet branches, the Contact Center and kiosks, DenizBank began making product offerings called "Opportunities from Deniz". These are available to customers who are compatible with the CRM customer analyses and consistent with its product utilization habits and behavior.

DenizBank concentrated on Alternative Distribution Channels programs that result in keeping and expanding customer loyalty and creating new projects for 2008.

### Internet Banking

In service since 1999, DenizBank's Internet Banking provides modular transactions and information search capabilities. Bank customers can perform all their banking and investment transactions online.

### "Card Login" - a product of the "User Friendly" approach

DenizBank began offering its customers the "Card Login" service in 2007. "Card Login" allows a customer with any DenizBank card to instantaneously use the Internet Banking service. This service provides real value-added by saving customers from formalities and wait times. The Bank's customers benefit from the speed and ease of Card Login" and the Bank increases the efficiency of its operational processes.

# Security Measures - "Safe sailing at 'AcıkDeniz'"

In addition to the two-prong identity confirmation that SMS Confirmation and ŞifreTek (One Password) provide for all customers, DenizBank now provides its Internet Banking customers with additional security via "Mobil İmza" (Mobile Signature), a service launched in 2007.

Mobil İmza is a service that allows customers to easily obtain and use a qualified electronic certificate in order to facilitate secure transactions. In other words, using their GSM SIM cards, customers can take advantage of Mobil İmza, which allows them to use a digital signature as defined in the Digital Signature Law No: 5070 and which is considered the equivalent of a handwritten signature.

# GPRS Banking (MobilDeniz) - "We are where you want to be"

Through the GPRS Banking service launched two years ago for the first time in Turkey, DenizBank offers its customers the capability to monitor their accounts via cell phones and other handheld mobile devices from any location. Whether a client wishes to transfer money, perform foreign exchange and mutual fund transactions, receive credit card balance information, make credit card payments, or follow stock portfolio information, DenizBank's Internet Banking platform is available wherever a client might need to do business.

Customers can perform most banking transactions easily without a visit to a branch using DenizBank's Alternative Distribution Channels. Account management, money transfer, credit card, investment, foreign exchange, stock market, bill payment and automatic payment transactions can be performed via an internet branch, the Contact Center, ATMs, kiosks or GPRS Banking.

### **DenizBank**

### SMS Banking

DenizBank initiated SMS Banking to increase accessibility and build confidence in remotely-conducted banking transactions. Using the Bank's SMS Banking services, customers can access retail account information (account balances, mutual fund, repo and stock holdings) as well as general market information (mutual fund prices, repo rates, foreign exchange rates and loan rates) through the short SMS message service. The short SMS message service number for all cellular networks in Turkey is 3280.

### **Contact Center**

Using the Contact Center as a central sales channel, 170,000 product sales were made to different customer segments. Using effective external source utilization, credit cards, overdraft accounts, automatic payments, insurance and other similar products and services were offered via telemarketing activities. DenizBank will continue to use this low-cost, rapid and effective sales channel increasingly in the future

In contrast to the current practices in the sector, the Contact Center improved its services to its upper-segment customers thanks to its advanced technology infrastructure. Consequently, A/A+ segment customers began receiving service without any delays on the phone. In addition, similar practices were implemented for other segment customers and incoming calls were converted into sales and product/service information opportunities.

# ATMs and Kiosks *ATMs*

Customers can perform banking transactions at DenizBank ATMs 24 hours a day, seven days a week and withdraw cash up to a specified limit. Although there are 433 DenizBank-owned ATMs, this figure increases to above 6,800 when Ortak Nokta (Common Point) network and affiliated banks are included. In addition, routine banking activities such as money transfers, investment transactions, credit card transactions and bill payments can be performed using the ATMs as well. In 2007, new interfaces designed for better and faster use were installed in the ATMs.

### Kiosk Banking

Kiosks are aesthetically and ergonomically designed cabins with personal computers used for advertisement, promotion and information purposes. Customers can reach DenizBank Internet Banking and perform their banking transactions securely using the personal computers located in these Kiosks

Customers who are not Internet Banking users but who have DenizBank ATM or credit cards can reach the AçıkDeniz Internet Branch by scanning their cards in the card reader at the Kiosk. After entering their passwords using the keyboard, they can view their accounts and perform their transactions within allowed limits.

By scanning the credit card in the card reader, customers can access information on the card limit, statement closing date, payment due date, balance, minimum payment due and available Bonus/DenizYıldızı (Sea Star) points.

DenizBank continues to develop integrated projects for providing customers with platforms where they can perform their banking transactions quickly, easily and securely wherever and whenever they want. DenizBank makes banking access a part of their lives.

### **Insurance Products Department**

An insurance services provider with an extensive product portfolio tailored to its customer and sector needs, DenizBank was one of the truly successful performers in the bancassurance business in 2007. Using its financial market approach, the Bank effectively implemented its marketing and sales-oriented policies.

Through cooperation between Axa Oyak Insurance and Deniz Life Insurance, DenizBank experienced the following dynamic developments in bancassurance during 2007:

- Strengthening the insurance IT infrastructure,
- Offering banking and insurance serviceso
   Offering banking and insurance services iointly.
- Developing new products in response to customer needs.
- Focusing on insurance sales via branch employees with insurance education and training backgrounds,
- Offering insurance products to customers via the Contact Center.

DenizBank offers extensive insurance services, including workplace, agricultural, accident, fire, home and life insurance. All of the existing insurance policies of customers are monitored and renewed by the Contact Center.

Working in cooperation with Garanti Pension Company, DenizBank branches sold 7,100 private pension plans. "Public Borrowing Instruments Retirement Fund," one of the Pension Fund options within the private pension portfolio, is being managed by Deniz Portfolio Management. This Fund's assets reached YTL 10.5 million as of yearend 2007.

Performance of DenizBank Alternative Distribution Channels (ADC)				
	2007	2006	Increase (%)	
Internet Branch				
Number of Customers	241,000	184,228	30	
Total Number of Transactions	8,550,000	6,527,148	31	
Contact Center				
Total Number of Calls	5,750,000	5,200,000	10	
Number of Kiosks	98	98	-	
Number of ATMs	443	349	24	
ADC Transactions/Total Transactions	34%	31%	10	

DenizBank Bancassurance Performance (YTL million)			
	2007	2006	
Premium Generation	53.8	51.4	
Commission Income	10.7	9.4	

After 99.6% of its shares were acquired at the end of 2006 by Dexia, Global Hayat Sigorta A.Ş. (Global Life Insurance Inc.) was integrated into the DenizBank Financial Services Group as of March 30, 2007, and the Group began providing insurance services under the Deniz Life (Deniz Hayat) brand.

In tandem with its optimistic expectations about the future of bancassurance, DenizBank aims to be a major player in this sector and provide higher quality service than its competitors for its customers.

### **Retail Loans Department** Loan Allocation

All credit card and retail loan applications are evaluated on the ROTA System (application evaluation system). This system allows the Consumer Credit Bureau and Central Bank of Turkey databases to automatically perform rating and flagged record investigations. Applications that do not meet the predetermined conditions are rejected. During the campaigns, loan applications received via SMS are run through the system, which evaluates and set the limits for approved loans.

The ROTA System provides a response time for loan applications at the Loan Allocation Department in fewer than 24 hours.

#### Risk Monitoring

In the Risk Monitoring Department, where credit risk concerning retail loans and credit cards is overseen, close monitoring activities are conducted centrally and customers are initially notified of any overdue payments by SMS messages. Customers whose payments are seven days overdue are then notified by phone. Search results are coded and stored on the system and the incident codes that require further action are attended to. The files of customers who fail to make timely payments are transferred to the Legal Department for the initiation of legal proceedings.

### Loan Follow-up Department

The non-performing loan files are forwarded from the Retail Loan Department to the Bank' attorneys via the YTS (Yasal Takip Sistemi - Legal Monitoring System) program and are traced at every step of the process with this same program until the collection process begins.

The collection performances of the attorneys are monitored regularly, and they are guided and monitored by the Legal department when any legal action is taken.

# Customer Relations Management (CRM) and Branch Planning Department

### **Branch Planning**

In 2007, DenizBank expanded its domestic distribution network to 320 branches and 433 ATMs in 60 cities. The Bank now has 14 Commercial Centers in nine cities, up from 3 Commercial Centers in 3 cities in 2006. The Bank continued to launch new branches, in line with its strategy of working more effectively by maintaining closer contact with customers in Retail Banking, SME Banking, and especially the Agricultural Banking segments.

The Bank's regional configuration was reviewed based on branch network expansion and strategic priorities. Consequently, Central Anatolian region was restructured to form the Central Anatolia and Northern Anatolia Regional Offices, whereas the Aegean Region was restructured to form the Western Anatolia and Aegean Regional Offices. The number of DenizBank Regional Offices rose from 9 to 11 accordingly.

### CRM

At the beginning of 2007, Retail customer segmentation was implemented. As a result, new procedures on how to conduct business and new job definitions were adopted. Based on a review of customer segments and customer relations, the Personal Consultant and Sales Manager staffs were separated to create more effective and proactive product sales.

To increase both product sales and customer mindshare, the Head Office Central Sales organization was restructured and necessary steps were taken to effectively utilize non-branch channels such as the Contact Center, SMS and Internet Banking, in line with the Bank's strategic priorities and customer segments.

Calculated since 2005 and constantly improved and updated in 2007, the blue screens (M.A.V.İ.) allow the sales staff to review the character of the products clients purchase. DenizBank also initiated infrastructure efforts that will allow the products offered to customers to be made available through all non-branch channels of the Bank.

Periodically carried out since 2005, market research continued to be undertaken in 2007 as well. DenizBank's market position and its trends in customer satisfaction and brand recognition continued to be monitored via surveys as well as one-on-one meetings.

At the beginning of 2007, Retail customer segmentation was implemented. As a result, new procedures on how to conduct business and new job definitions were adopted. Based on a review of customer segments and customer relations, the Personal Consultant and Sales Manager staffs were separated to create more effective and proactive product sales.

### **DenizBank**

### **SME and Agricultural Banking Group**

As of year-end 2007, the number of customers DenizBank served reached 275,000, and the total credit limit extended and credit risk reached YTL 3.2 billion and YTL 2.0 billion, respectively. The total deposit and investment accounts of the Bank's SME clients stand at YTL 1.7 billion.

### SME Banking

Geared towards serving businesses with annual sales of less than US\$ 5 million. DenizBank SME Banking continued its rapid growth in 2007. At year's-end, the number of customers served reached 275,000 whereas the total credit limit extended and credit risk reached YTL 3.2 billion and YTL 2.0 billion, respectively. Total deposit and investment accounts of the SME Banking clients stand at YTL 1.7 billion.

Using a loan appraisal system developed to respond to the loan applications of businesses in the most accurate and fastest possible way, customers are given a decision on their loan applications within 72 hours. The most important feature of the loan appraisal system is that it considers not only the financial data of the companies, but also qualitative factors that demonstrate the business owners' commercial reputation such as experience, credibility and background. A total of 1,200 loan applications are evaluated each week using this model.

Making a financial-world first with the introduction of the "Turuncu 24" loan, DenizBank launched the "Tecrübenize Kredi" (Experience Based Loan) in 2007. This product financially supports SMEs and owners with loans up to YTL 50,000 and a maturity of 36 months with a single application form that takes five minutes to fill out. The amount of the loan, collateral

and maturity vary depending on the sectors of the businesses and well-established companies are offered more advantageous conditions. This is the first service to consider experience as the most important evaluation criterion.

Aware of the fact that the investment requirements and cash flow patterns of each sector is different, DenizBank SME Banking develops sector-specific product packages. A "Tourism Package" for companies in the tourism industry and a "Stationery Package" for companies operating in the stationery sector are already in the DenizBank financial supermarket. The most important characteristic of these packages is that they allow businesses with seasonal cash flow patterns to make their loan payments during periods of high cash inflows. DenizBank is also planning to launch special loan packages for customers in the food, furniture and household appliance sectors.

In partnership with Intercity and as a first in Turkey, Europe and the world, DenizBank SME Banking began providing fleet leasing service to SMEs. SMEs that apply at a DenizBank branch or are directed there by Intercity rent-a-car can utilize this service. By entering the market with a sector leader, DenizBank is further enhancing its image in the SME Banking segment as a "SMEfriendly bank that understands their needs".

Thanks to the Hazır Filo (Ready Fleet), SMEs can direct resources used for purchasing vehicles into equity investments. Hazır Filo provides many tax management advantages, such as the absence of an asset without returns on the balance sheet, the ability to pay rents with Hazır Filo account when necessary, not having to budget for tax, insurance and maintenance expenses, not having to spend time on vehicle purchase and sale transactions. and not losing any workforce in cases of accident and breakdown. The Hazır Filo fleet has a Call Center and road assistance services available 24 hours a day, 7 days a week.

As a result of agreements with Chambers of Commerce, Industry and Trade, DenizBank offers chamber members the opportunity to take cash and non-cash loans with low interest rates and commissions.

In an attempt to also serve the non-financial needs of its customers, DenizBank SME Banking and DenizBank Chief Economist Dr. Saruhan Özel jointly organize information seminars on the theme of "Global Economic Developments, their Impact on Turkey and Expectations". These seminars present information on how companies can maintain their competitive advantages with the everchanging global and Turkish market conditions. The seminars touch upon Basel Il criteria as well. To date DenizBank has joined with almost 3,000 businesses in 14 meetings, 5 of which were in tourism zones. The meetings are continuing to be held in locations throughout Turkey.

### **Cash Management**

By offering state-of-the-art technological facilities for payment and collection transactions, DenizBank Cash Management assists its customers in cutting operational costs and creating cost advantages through reducing collection risks.

### **Electronic Collection Services**

Launched for the purpose of facilitating payments between producers/suppliers and distributors/dealers, the "E-ve-t Tahsil Et" (Electronic Data Transfer-Collect) system allows suppliers to automatically collect receivables from their dealers or regular customers. Thanks to this system, suppliers can secure their commercial receivables with the Bank's guarantee and thus achieve operational cost savings.

Since 2004, collection and payment services have been provided via the Nakit Kart (Cash Card). The Nakjt Kart is best described as an electronic checkbook that functions as a closed transaction circuit between the wholesaler and the retailer.

In 2007, approximately 60,000 transactions amounting to YTL 549 million in collections were realized with E-ve-t Tahsil Et and Nakit Kart. A credit limit of YTL 196 million was allocated to the members of this system within the scope of these services, representing a 50% increase in collections and a 56% increase in credit limits over 2006.

DenizBank has taken the collection and payment system it developed a step further and achieved another first in Turkev with the "FamilyCard". Using the framework of an agreement entered into with the Ülker Group, a company-specific and automatic payment system equipped with a credit facility was developed that monitors a company's payment obligations on their behalf for purchases from Ülker. DenizBank makes the company's' payments free of charges and finances them as necessary. The "FamilyCard" is a trademark commercial card that is also Turkey's largest collection project. As of year-end 2007, 21.000 out of the planned 75.000 cards have been sent to users.

### **Electronic Payment Services**

Using the "E-ve-t Öde" (Electronic Data Transfer-Pay) electronic payment system for multiple simultaneous EFT/transfer transactions, customers made 437,000 electronic payments amounting to nearly YTL 2.6 billion in 2007.

### Institutional Collections

DenizBank is one of the leading banks to adopt online collections for SSK (Social Security Institution) premiums, taxes and TEDAŞ (Turkish Electricity Distribution Company) bills. DenizBank achieved a volume of YTL 4.2 billion in total institutional collections in 2007. The Bank also intermediated school and housing collections in 2007 and reached a volume of YTL 353 million from these activities.

#### Western Union

In 2007, DenizBank had over 115,000 transactions totaling more than US\$ 95 million in money transfers through the Western Union system, earning a commission income of over US\$ 1 million.

### **Agricultural Banking**

After the acquisition of Tarişbank in 2002, DenizBank began providing increasing support to the agricultural sector, Tarişbank's traditional area of involvement. DenizBank's efforts bore fruit in 2004 when an Agricultural Banking Department was established within DenizBank, a first in the Turkish banking system. As a result, DenizBank became the only private bank to serve the agricultural sector via a designated branch network and employee group.

DenizBank Agricultural Banking expanded from the Aegean region to the entirety of Turkey as the number of agricultural banking branches rose from 26 in 2004 to 120 in 2007. Accepting YTL 565 million in loans, 100,000 producers from the entire geographical range of Turkey received help from DenizBank. Regional Managers responsible for the branches and Customer Representatives, most of whom are agricultural engineers, provide expertise for the Bank's Agricultural Banking services.

According to a market survey conducted at the beginning of 2007, the first private bank that farmers associate with Agricultural Banking is DenizBank. When asked which banks they associate with Agricultural Banking, 57% of the respondents in the survey named DenizBank without any help. 93% of them named DenizBank when the question was rephrased.

DenizBank Agricultural Banking expanded from the Aegean region to the entirety of Turkey as the number of agricultural banking branches rose from 26 in 2004 to 120 in 2007. Accepting YTL 565 million in loans, 100,000 producers over the entire geographical range of Turkey received help from DenizBank.

### **DenizBank**

Some of the projects undertaken in 2007 are as follows:

### • Petrol Ofisi "Buy Now, Pay 5 Months Later Campaign"

Within the scope of the Üretici Kart campaign transactions, "Buy Now, Pay 5 Months Later Campaign" was organized jointly with Petrol Ofisi and provided farmers the opportunity to buy fuel with a 5 month grace period.

### • Denizkızı (Mermaid) Project

Within the framework of the agreement entered into with the Breeders' Associations. Association members are offered livestock purchasing loans with a 1 year grace period and up to a 4 year maturity period.

### Çukobirlik Kart

Within the scope of the agreement entered into with Cukobirlik, DenizBank issued a card called the Cukobirlik Kart to Cukobirlik members and extended loans to them through that facility.

### • Akıllı Süt (Smart Milk) Project

Through this project initiated jointly with Ör-Koop, dairy operations of dairy businesses and cooperatives were made more effective.

### • TMO (Turkish Grain Board) Produce Payments Agreement

Within the scope of the agreement entered into with the Toprak Mahsulleri Ofisi (Turkish Grain Board). DenizBank became one of the banks chosen to make produce payments.

In 2007, DenizBank participated in 13 fairs and many festivals as DenizBank Agricultural Banking, promoted its Agricultural Banking service through information meetings organized for farmers in 12 cities, and provided for information transfer from area experts to farmers.

DenizBank entered into agreements with agricultural cooperatives, such as Breeders' Associations, Agricultural Credit Cooperatives, Chambers of Agriculture and Dairy Associations. Mass card campaigns were carried out within the framework of these agreements. The Bank will continue to undertake various campaigns and efforts towards increasing the number and volume of Üretici Kart holders in 2008.

Üretici Kart was launched in April and promoted throughout Turkey via the national media. DenizBank visits villages, companies, agricultural trade associations and agricultural cooperatives to promote Agricultural Banking products and services.

### **DenizBank's Agricultural Loans**

### 1. Short-term Agricultural Loans (Üretici Kart)

For the first time in Turkev as well as the world, short-term loans are provided through the use of Üretici Kart (Producer Card). Farmers can use their Producer Cards by withdrawing cash from any DenizBank branch or ATM. Producer Cards offer farmers a variety of opportunities, such as use when shopping at member companies and installments and/or discounts for purchases made with the card. The number of member businesses accepting the Producer Card reached 8,250 in 2007.

### 2. Medium-term Agricultural Loans

Medium and long-term agricultural loans are offered in equal installments or with flexible repayment schedules that are tailored to the farmers' production cycles and cash flow patterns. The products are:

- Tractor and Equipment Loans
- Dairy Husbandry Loans
- Greenhouse Construction Loans
- Field Purchasing Loans
- Fruit Facility Loans
- Small Cattle Loans
- Water Products Loans
- Drip Irrigation Loans
- Special-Project Investment Loans

2005	19,500	173

### **Member Merchant Relations**

DenizBank rose to seventh place in Turkey and reached 63,288 POS terminals in 2007. thanks to its expanding member business network. The network sales volume grew 50% over the previous year, twice the sector growth rate. With its foreign currency

payments service at the POS terminals, DenizBank generated US\$ 20 million and EUR 15 million in revenues in 2007. With the addition of British Pound and the Japanese Yen. DenizBank intends to become a stronger player in the foreign card market.

DenizBank continued to follow the international trends in payment systems and launched the contactless payment service in 2007, a pioneering undertaking for the sector in Turkey. The first application of the system is the use of DenizBank Sea&Miles cards through the turnstiles at IDO (İstanbul Deniz Otobüsleri İşletmeleri-Istanbul Seabuses and Fast Ferries Inc.) terminals. Contactless payment business network is expected to expand in sectors where speed and time are increasingly valuable.

DenizBank rose to seventh place in Turkey in 2007 and reached 63,288 POS. thanks to its expanding member business network. The network sales volume grew 50% over the previous year, twice the sector growth rate.

# Public/Project Finance and Corporate Banking Group

The share of DenizBank Corporate Banking in the Bank's total deposits and total loans were 17% and 27%, respectively. In general, growth rates in both cash and non-cash transactions increased noticeably in 2007.

### **Corporate Banking**

Using the benefit of the know-how and experience of its partner Dexia, DenizBank Corporate Banking is continuing to grow and become one of the major players in the Turkish corporate banking market, where domestic and foreign banks are in fierce competition.

Despite developments in technology and finance practices, one-on-one customer relations maintains its vital importance. DenizBank possesses a service network comprised of five corporate branches in Istanbul, Ankara and Izmir that are structured in line with the distribution of its economic activities. The Bank stays in close proximity to its customers to efficiently offer all kinds of financial products, solutions and services based on their needs.

While constantly deepening its relation with its existing customers, DenizBank Corporate Banking continues to enhance its relations with multinational companies operating in the domestic market. DenizBank combines its commercial success with a strong risk culture and policy. The Bank focuses on construction, infrastructure, maritime, education and healthcare, logistics, agriculture and iron and steel sectors. In addition, activities are expanding towards the growing needs of the increasingly important area of project finance.

Despite the general economic slowdown in the first half of the year, DenizBank Corporate Banking achieved significant growth and met the financing needs of many projects and companies. Share of DenizBank Corporate Banking in terms of the Bank's total deposits and total loans were 17% and 27%, respectively. In general, growth rates in both

cash and non-cash transactions increased noticeably in 2007.

In addition to banking products and services, the synergy DenizBank created with its subsidiaries, each of which is a leading company in its own area, is impressive. DenizBank Corporate Banking continued to offer leasing, factoring, public offering underwriting, private banking, investment funds and similar products to its customer, in addition to banking products and services. The Bank will concentrate on cash management, public offering underwriting, risk management products and structured finance transactions in the upcoming period.

The pillars of DenizBank's Corporate Banking strategies firmly rest on its entrepreneurial, young and innovative relationship with its growing customer base and its powerful foreign partner Dexia. DenizBank Corporate Banking will continue to gain market share by remaining true to its existing strategies based on this firm foundation.

# **Public and Project Finance**Public Finance

The Public Finance Department was initiated to provide financing for the projects of local public administrations, their affiliates and economic enterprises, as well as state economic enterprises, their establishments and affiliates.

The Department, which is beginning to accumulate know-how in the Public finance area, is also interested in Public-Private Partnership activities and Treasury-guaranteed transactions.

The strategy of the DenizBank Public Finance Department is structured respectively to work with the following:

- Istanbul Metropolitan Municipality and its affiliates
- The other 15 Metropolitan Municipalities and their affiliates
- Municipalities with more than 100,000 people and their affiliates
- State Economic Enterprises, their establishments and affiliates.

DenizBank Public Finance Department is on the verge of establishing cooperation with the EIB (European Investment Bank) and the AFD (French Development Bank) in order to provide low-cost and long term financing support to its customers.

Considered to be the primary business line of Dexia DenizBank completed the structuring of its Public Finance Department in the third quarter of 2007. As of year-end, total cash and non-cash loans extended in this area reached YTL 374 million.

### **Project Finance**

The Project Finance Department was established in 2005 to provide medium and long-term structured financing for projects in targeted sectors such as telecommunication, energy, infrastructure (ports and airports), healthcare and education. In addition to these prioritized sectors, industrial investments, privatization and acquisition and financing are also within the scope of operation of this Department.

2007 has been a successful year for DenizBank Project Finance Department. Despite the fact that it was the first year of partnership with Dexia, DenizBank succeeded in creating strong synergy that reflected the potential for business and business volume in the market. In addition to the targeted sectors, the Bank entered many new sectors including dairy husbandry, foundry and cement, and total loan volume created in 2007 reached US\$ 760 million. This successful beginning is expected to accelerate in 2008.

### **DenizBank**

The Project Finance Department's strategy for 2008 is to reinforce its market position and share in target sectors with the contribution of DenizBank's strong customer portfolio. While expecting investments and privatizations to continue at full speed, the Department's goal, by utilizing the global experience of Dexia in project finance, is to assume the most important roles such as the "lead underwriter, co-underwriter" and become the first bank to be considered in the project finance area.

### Foreign Trade Finance

Thanks to the reputation DenizBank is creating in the international banking community, the Foreign Trade Finance Department expanded its foreign trade volume and correspondent network in 2007. Using its ability to satisfy most of its customers' financing needs, DenizBank's correspondent banks surpassed 1,100 in number in 2007, while letter of credit volume reached US\$ 2.4 billion, a 35% increase over the previous year.

Within the scope of the insurance programs of Export Credit Agencies, DenizBank offered customers medium- and long-term loan facilities for their investment good imports. The Bank also continued to act as an intermediary for these loans in 2007 through various organizations based in European and Far East countries, and serviced GSM102 loans provided by the United States Department of Agriculture to finance agricultural imports from the United States.

Having adopted the construction sector as a niche market, DenizBank continued its increasing support of the industry in 2007. The Bank's relationship with this sector has become more important as its corporate clients have increased operations in the Middle East and African countries, creating an expanding correspondent network channel as well as new letters of credit.

### **Commercial Banking Group**

2007 was a successful year for the Commercial Banking Group, whose primary strategies were to increase the customer base, deepen business relations with existing clients and focus on niche sectors

2007 was a successful year for the Commercial Banking Group, whose primary strategies were to increase the customer base, deepen business relations with existing clients and focus on niche sectors. These strategies will also be followed in 2008.

The prevailing view on commercial banking activities in 2007 has been to continue developing the most beneficial relations possible with existing customers. While serving its clients' long-term investment requirements, DenizBank also strived to be their first choice bank for other banking needs. Commercial Banking focused on tourism. energy, education, maritime, healthcare and sports as niche sectors, and increased its volume of transactions in other sectors as

The Commercial Banking Group serves all the financial requirements of its clients on a one-to-one basis with 237 experienced sales and marketing personnel in 59 branches. The Group opened 10 new centers (Istanbul, Ankara, Adana, Gaziantep, Gebze, Kayseri and Konya) in 2007, in addition to the 4 existing commercial centers (Istanbul, Ankara, Izmir and Antalya) creating a total of 14 commercial centers. The Group intends to expand its reach by opening another commercial center in 2008 to increase the number branches to 60.

Increasing its transaction volume. Commercial Banking Group's credit portfolio reached to TRY 4.199 million in 2007, an increase of 64%. The Group will continue its sustainable growth in 2008.

### **Private Banking Group**

Making use of the international synergies of DenizBank Financial Services Group and Dexia, the Private Banking Group strives to provide its customers, who are positioned at the top of the wealth pyramid in terms of savings, the highest level of returns with a minimum of risk.

Defined as the upper segment of retail customers, individuals with liquid assets worth above US\$ 150,000 usually require more sophisticated services in addition to traditional banking services. DenizBank strives to capture a higher market share in private banking by offering solutions tailored to the many demands of customers in this segment.

Private Banking plays a significant role in wealth accumulation in developing countries. With the drop in inflation and nominal interest rates, high net-worth individuals who are not able to earn high rates of return from public borrowing instruments start looking for experts who know how to invest their savings. As it has in other developing countries that have gone through a similar process of growth, Private Banking in Turkey is expected to begin growing rapidly.

Making use of the international collaboration between DenizBank Financial Services Group and Dexia, the Private Banking Group strives to provide its customers, who are at the top of the wealth pyramid in terms of savings the highest level of returns with minimum risk. Dexia creates a very different atmosphere for DenizBank in terms of capital, ratings and know-how. A completely different structure from the Bank's competitors' is being created by merging Dexia's private banking services into DenizBank's existing structure. The goal is to create a new structure that produces

unique solutions to customers' diverse demands. Differentiating itself with its products and services, the Private Banking Group constantly seeks to provide creative solutions. It has the capability to use all the pieces of the DenizBank Financial Services Group separately in order to meet customer needs.

With a new approach that differs in practice from other banks in the sector, DenizBank's Private Banking Centers create positive synergy with the Bank's regional branches by establishing contact with their customers while maintaining constant interaction with existing customers. As the sector quickly matures, DenizBank is creating a dynamic business model that will capture the maximum market share with the right products and services. The primary strategy of DenizBank Private Banking for 2010 is geared towards becoming one of the top three private banking groups in terms of managed assets. In order to achieve this goal, the positioning of Private Banking Centers within DenizBank's regional organizations will be completed as of yearend 2008.

# **Banking Services**

### **DenizBank**

DenizBank AG (Vienna) DenizBank Moscow (Moscow) EuroDeniz Off-Shore Bank (Nicosia)

At the end of 2007, total assets, shareholders' equity and vear-end pre-tax profit stand at EUR 1.14 billion. EUR 77.1 million and EUR 8.7 million, respectively.

### DenizBank AG (Vienna)

Established in 1996 by the former Esbank in Vienna, Esbank AG was acquired by DenizBank in August 2002 and was renamed DenizBank AG in 2003.

DenizBank AG is a member of the Austrian Deposit Insurance Fund, the International Forfaiting Association, the Austrian Bankers Association and the Austrian-Turkish Business Cooperation Council.

### **Widespread Branch Network**

DenizBank AG began further expanding its operations between 2003 and 2005, opening a total of 9 branches: 3 in Austria and 2 in Germany. 2007 was another year of growth with the opening of the Wiener Neustadt and Floridsdorf (Vienna) branches in May and September of 2007, bringing the total number of branches to 11. Currently efforts are also under way to move the Head Office in Vienna to a more spacious location to meet the higher business volume.

A representative office of DenizBank AG, established in Istanbul in 2004 in an effort to follow Turkish market developments more closely, represents the Bank's active interest in the Turkish market.

### **Extensive Product and Service Portfolio**

DenizBank AG is gradually increasing its share of the triangular trade moving between Turkey, Austria, and the Russian Federation by collaborating with its branches in Austria and Germany, and its subsidiary in the Russian Federation, DenizBank Moscow. The Bank acts as an intermediary for the operations of Turkish companies in Euro Zone countries by offering forfaiting, non-cash and cash loans, and foreign currency transfer services.

Other services the Bank offers include retail loans, small business loans, credit cards, money transfers and insurance products. The Bank's customer base and business volume continue to increase with its Internet

Banking service (www.denizbank.at). DenizBank AG's private banking services geared towards its customers domiciled in Turkey continue to grow as well. In addition, DenizBank AG is actively involved in the project finance segment through loans to energy, education and tourism investments in Turkey.

### **Sound Financial Results**

At the end of 2007, total assets, shareholders' equity and year-end pre-tax profit stand at EUR 1.14 billion, EUR 77.1 million and EUR 8.7 million, respectively.

### DenizBank Moscow (Moscow)

DenizBank acquired İktisat Bank Moscow at the beginning of 2003. Soon afterwards its name was changed to DenizBank Moscow, with paid-in capital raised to EUR 19.4 million in 2005. 51% of the DenizBank Moscow shares are owned by DenizBank AG while the remaining 49% are owned by DenizBank. The application process to add approximately EUR 17 million to the Bank's paid-in capital is still ongoing as of yearend 2007 and the capital increase is expected to be finalized in early 2008.

DenizBank Moscow is a member of the State Deposit Insurance System of the Russian Federation, the Association of Russian Federation Banks, the Association of Foreign Banks in the Russian Federation and the Association of Russian-Turkish Businessmen (RTIB).

### **Goals and Core Activities**

DenizBank Moscow was established with the vision of creating a medium-sized commercial bank that would serve as a fullfinancial services provider, primarily to Turkish and Russian businesses in the triangular trade moving between Turkey, Austria, and the Russian Federation.

The strengthening commercial and investment relations between Turkey and the Russian Federation provide a unique opportunity for DenizBank Moscow to become a medium-sized commercial bank offering loans, non-loan financial products

and foreign trade finance products to Turkish entrepreneurs doing business in the Russian Federation.

The Bank serves as a "one-stop shop" for DenizBank clients who are currently conducting business or looking for potential business opportunities in the Russian Federation. In addition to its core business of commercial banking, DenizBank Moscow has also become an active player in the Russian Federation foreign exchange and money markets, as well as in fixed-income securities transactions and investments.

In part with the contributions of its majority shareholder Dexia Group, DenizBank Moscow registered a significant increase in its business volume related to foreign trade finance in 2007, while continuing to expand its domestic and international correspondent bank network. The Bank continued to support notable Turkish companies operating in the Russian Federation, primarily in the contracting, household appliances, energy, glass, and tourism sectors. This assistance included providing large construction projects throughout the Russian Federation with cash and non-cash loans. In the corporate banking segment, the Bank completed its infrastructure investments geared towards serving leading Russian companies in their sectors in 2007 and is now aiming at expanding its existing high-quality portfolio.

Europe's largest country in terms of population, Russian Federation achieved high GDP growth rates in recent years thanks to higher energy prices and accelerating foreign direct investment. In an attempt to take advantage of the retail banking potential created by the rapid increases in per-capita disposable income levels and consumption in parallel to GDP growth, the Bank initiated a retail banking project with the approval of the Dexia Group at the beginning of 2007. The investments for that project are about to be completed. Direct marketing practices and collaborations with large retail chains are being initiated so the Bank may enter the retail banking segment rapidly in mid-2008, primarily by offering potential customers credit cards.

### **Sound Financial Results**

In 2007, total assets and shareholders' equity of DenizBank Moscow increased to EUR 237.8 million and EUR 28.6 million, respectively. The Bank reported EUR 1.2 million in net income before taxes for the year 2007.

## EuroDeniz Off-Shore Bank Ltd. (Nicosia)

DenizBank acquired EuroDeniz Off-Shore Bank, located in the Turkish Republic of Northern Cyprus, from the Savings Deposit Insurance Fund of Turkey at the beginning of 2002. The Bank is an off-shore bank fully licensed to undertake all commercial banking transactions.

As of year-end 2007, EuroDeniz Off-Shore Bank had a balance sheet size of EUR 650 million and shareholders' equity of EUR 37.8 million.

# Investment Banking and Brokerage Services

### **DenizYatırım Securities EkspresInvest Securities DenizTürev Securities Deniz Investment Trust Deniz Portfolio Management**

Fully licensed to perform all transactions in the capital markets, DenizYatırım Securities allows its customers to transact in all investment vehicles from a single address. As the brokerage house with the most widespread branch network in Turkey, the Company provides these services through its 136 branches.

### **DenizYatırım**

### **Strong Presence in Capital Markets**

Offering leadership in meeting the financial return and service quality expectations of its clients. DenizYatırım Securities was established in January 1998 as a DenizBank subsidiary.

Fully licensed to perform all transactions in the capital markets, DenizYatırım Securities allows its customers to transact in all investment vehicles from a single address. As the brokerage house with the most widespread branch network in Turkey, the Company provides services through its 136 branches.

The Company strives to serve its customers in the fullest manner possible with its streamlined corporate structure and professional management team while taking into account the shared concerns of clients, employees, shareholders and regulatory agencies.

In the 9 years between its establishment in 1998 and 2007, DenizYatırım Securities has pioneered investment practices and achieved many milestones in the capital markets.

- 1998: May 15, established
- 1999: 2,431 customers, 0.7% market share and 8 branches

- 78,477 customers, 5.1% market share and 122 branches
- 2006: BankAsya and Vestel Beyaz Eşya (Vestel Household Appliances) initial public offerings.
- 103,897 customers, 5.5% market share and 134 branches

In 2007: As the brokerage house with the most extensive branch network in Turkey, DenizYatırım Securities increased its transaction volume to YTL 37.6 billion (EUR 22 billion) for a 4.83% market share. As of year-end 2007, DenizYatırım Securities has reached 109,553 customers through 136 branches.

### **Corporate Finance**

With its experienced staff and completed and ongoing projects in various sectors, the Corporate Finance Department continued to support its customers and the capital markets. Despite being a relatively new player in the sector,

DenizYatırım Securities has become one of the most important investment banking brands in Turkey.

With total subscriptions of EUR 651 million in public offerings in 2007, DenizYatırım Securities ranked second among brokerage houses in Turkey.

### International Marketing - Electronic Trading

Through its strategic cooperation with GL Trading, DenizBank's International Marketing Department achieved a first in Turkey in June 2007 when it launched its electronic trading platform. The platform provides direct access to the Istanbul Stock Exchange for foreign institutional investors.

# **EkspresInvest Securities**

### Serving Foreign Institutional Investors

Joining DenizBank Financial Services Group at the end of 2002, EkspresInvest continues to grow rapidly, focusing on offering securities investment services for foreign institutional investors.

In 2007, the Company ranked 10th in equity trading volume with a 3.22% market share among all brokerage houses trading on the Istanbul Stock Exchange. EkspresInvest is among the leading brokerage houses that serve foreign institutional investors.

In 2007, the number of EkspresInvest's foreign institutional clients surpassed 150, running parallel to a significant increase in its foreign mutual fund and hedge fund clients. EkspresInvest owes this success to its experienced staff and research infrastructure. Together they generate innovative investment ideas that are distinct from its competitors, offering clients timely, high-quality, value-added services.

### **Research Reports**

In its effort to ensure that its target clientele of foreign institutional investors receive all the relevant information on Turkey necessary to make the fastest and most accurate investment decisions, EkspresInvest publishes periodic macro and micro-level analyses on publicly-traded companies and the economic and political environment. In 2007, the research team increased its coverage of publicly traded companies from 66 to 71, some 81% of the Istanbul Stock Exchange market capitalization.

EkspresInvest research reports have a reputation for forecasting the direction Turkish capital markets are going and rapidly responding to the developments. These reports are published by international information providers such as Bloomberg and Thomson One Analytics.

In 2007, the Company ranked 10th in equity trading volume with a 3.22% market share among all brokerage houses trading on the Istanbul Stock Exchange. EkspresInvest is among the leading brokerage houses that serve foreign institutional investors.

### **DenizTürev Securities**

Established as a Tarişbank subsidiary in 1997, Tariş Securities joined the DenizBank Financial Services Group following DenizBank's acquisition of Tarişbank in 2002. The name of the Company was subsequently changed to DenizTürev Securities in 2005.

### **Target and Strategy**

DenizTürev Securities' prioritized target is to conduct its operations by distinguishing itself from its competitors and specializing in domestic and international derivatives markets. The Company offers services through DenizBank's countrywide network of branches within the framework of the agency agreement signed with the Bank. DenizTürev aims to increase its market share in Turkish Derivatives Exchange in 2008 as a result of its strategic cooperation with DenizBank and DenizYatırım.

### **A First in Turkey**

DenizTürev incorporated international derivatives markets into its service portfolio through international strategic partnerships. The company is the first to receive an authorization certificate from the Captial Market Board providing access to the international derivatives markets for Turkish investors. The Company also entered the risk management field, intermediating the London Metal Exchange transactions of institutional investors that want to hedge their spot market risks.

#### **Services**

Using derivatives market tools based on an investor's risk preferences, DenizTürev searches for and locates diverse investment alternatives and opportunities. In addition to the brokerage services offered in derivatives markets, the Company undertakes research activities in areas that require special expertise and provides risk management consulting services to institutions.

DenizTürev Securities' priority is to conduct its operations by distinguishing itself from its competitors and providing thoughtful insight into the domestic and international derivatives markets.

### **Deniz Investment Trust**

### Small Investors' Gateway to Capital Markets

Established as an A-Type investment trust company in 1995, Demir Investment Trust, a Demirbank subsidiary, joined the DenizBank Financial Services Group as a DenizYatırım subsidiary at the end of 2001. The Company's title was changed to Deniz Investment Trust in 2002.

Out of a total of 33 investment trusts trading on the Istanbul Stock Exchange, Demir Investment Trust is one of the top five in terms of portfolio size. Managed by Deniz Portfolio Management, the Company's portfolio reached YTL 47 million in 2007.

# **Deniz Portfolio Management**

Following the decision to place its mutual fund and asset management activities under separate roofs, DenizYatırım Securities took the first step to establishing itself as an independent entity by acquiring Ege Asset Management from the Savings Deposit Insurance Fund of Turkey (TMSF) in May 2003. Subsequently, the title of the Company was changed to Deniz Portfolio Management on June 1, 2003.

**A High-return Mutual Fund Portfolio** 

With funds structured on the risk preferences and return expectations of investors, all DenizBank mutual funds have been among the top performers within their respective categories since their inceptions. Given that 80% of all mutual funds in Turkey are liquid funds, the B-Type Liquid Fund is the largest of the DenizBank mutual funds and was ranked 8th among 49 funds in its category at the end of 2007. This fund ranks 1st in its category based on total returns since 2000. DenizBank B-Type Hybrid Fund also performed better than many other alternative investment vehicles in its category, finishing 2007 with an impressive 22.45% return and a rank of 2nd among 55 similar funds.

# Synergy with Dexia Asset Management (DAM)

Deniz Portfolio Management and Dexia Asset Management (DAM) have been working together to create synergy since the beginning of 2007. The Company intends to increase its performance by making the structural and organizational changes necessary to enhance its service quality in its Research, Marketing, Risk Management and Treasury Departments.

The Marketing Department initiated coordinated efforts to prepare fund reports with the same format and contents as DAM and share them with the branches. Weekly developments and expectations were shared when possible with the branches through publications with extensive contents. By making on-location visits to the branches, the Department identified their sales and marketing needs and expectations, and produced and implemented solutions.

Risk management in portfolio management companies took on prioritized importance within the scope of the Capital Markets Board regulations. The Company worked in parallel with DAM on this issue and performed the risk analyses of its funds periodically and systematically. As a result, the Company achieved a structure providing quality services that match international standards.

# Deniz Portfolio Management Research Department

Deniz Portfolio Management Research Department contributes in an effective and systematic manner to the decision-making processes of investors and fund managers domestically and internationally. Through its detailed analyses conducted within the framework of its synergy with DAM, a product portfolio comprised of bulletins. macroeconomic reports, industry reports, company analyses and information notes is offered to fund managers and customers. The Company especially analyzes the stocks in the MSCI Turkey index in a detailed manner, thus making significant contributions to the investment decisions of Deniz Portfolio Fund managers.

With funds structured on the risk preferences and return expectations of investors, all DenizBank mutual funds have been among the top performers within their respective categories since their inceptions.

# Leasing and Factoring Services

# DenizLeasing DenizFactoring

DenizLeasing ended 2007 as a major player in its sector based on its transaction volume, profitability and strong balance sheet created by its flexible structure, strong partners and young, ambitious staff.

Being part of a large financial services group has contributed to the growth of DenizFactoring's business volume. As of year-end 2007, the Company achieved total domestic factoring turnover of EUR 1.05 billion.

## **DenizLeasing**

Since the commencement of operations in December 1997 as a member of the DenizBank Financial Services Group, DenizLeasing has adopted a business strategy of cautious growth.

Aided by DenizBank's rapid and efficient growth, DenizLeasing has become one of the important brands in its sector.

Conforming to the strategic plan of the DenizBank Financial Services Group, DenizLeasing focuses on leasing services.

#### **Solid Customer Portfolio**

DenizLeasing's customer portfolio primarily consists of small and medium-sized businesses in Turkey from virtually all sectors. As a result, the customer portfolio is highly diversified.

### **Leasing Products**

DenizLeasing offers medium and long-term financing denominated in both foreign currencies and Turkish lira. DenizLeasing and DenizBank distribution channels are actively utilized to reach customers. To secure funding, DenizLeasing has built strong relationships with international creditors and suppliers by leveraging the

international reputation of DenizBank Financial Services Group.

DenizLeasing ended 2007 as a major player in its sector based on its transaction volume, profitability and strong balance sheet created by its flexible structure, strong partners and young, ambitious staff.

Leasing Vo (EUR millio		
2007	531.5	
2006	284.8	
2005	171.4	

# **DenizFactoring**

Established in 1998, DenizFactoring is a wholly-owned DenizBank subsidiary and a member of the DenizBank Financial Services Group. DenizFactoring is a full member of the Turkish Factoring Association and the FCI (Factors Chain International), offering its customers a full range of international and domestic factoring services.

### **Strategies**

The primary strategy of DenizFactoring is to offer its products to its customers in a faster and easier manner over the DenizBank Financial Services Group portal. The Company has the opportunity to offer factoring services throughout the country by using the 320 DenizBank branches.

In an attempt to take advantage of the competitive environment in a market that has recently become increasingly focused on price, DenizFactoring adopted the strategy of differentiating itself from its competitors by launching the "Collection Management Project". As part of the project, a separate Collections Department and Call Center were established within the Company. This allows DenizFactoring to provide Collection Management Service to corporations that have a large and scattered customer bases and want to outsource their collection activities. DenizFactoring's Collection Management Service is yet another first for DenizBank.

### **Domestic Factoring**

Being part of a large financial services group contributes to the growth of DenizFactoring's business volume. As of year-end 2007, the Company achieved total domestic factoring turnover of EUR 1.05 billion. Based on the total factoring turnover (domestic and international), DenizFactoring is among the four largest players in the Turkish factoring sector in 2007, with EUR 1.16 billion in total turnover and EUR 308 million total assets.

### **International Factoring**

Thanks to its large correspondent base worldwide and high-level service quality, DenizFactoring is among the sector leaders in international factoring transactions.

Based on the total factoring turnover (domestic and international),
DenizFactoring is among the four largest players in the Turkish factoring sector in 2007, with EUR 1.16 billion in total turnover and EUR 308 million total assets.

### Insurance Services

## **Deniz Life Insurance**

In 2007, Deniz Life Insurance achieved YTL 23 million in premium generation through the sale of 164,500 insurance policies, becoming the fastest growing company in the life insurance market.

DenizBank entered the life insurance market by acquiring Global Hayat Sigorta A.Ş. (Global Life Insurance Inc.) from Global Yatırım Holding (Global Investment Holding) on March 30, 2007. The title of the company was changed to DenizHayat Sigorta (Deniz Life Insurance) on August 14, 2007.

After its acquisition, the company's product structures and business flows were completely renewed. The IT infrastructure and organization were strengthened and integrated into the main distribution channel of DenizBank as of May 2007. After this date, DenizBank customers began receiving life insurance products and services under the Deniz brand.

Deniz Life Insurance achieved YTL 23 million in premium generation through the sale of 164,500 insurance policies in 2007, becoming the fastest growing company in the Turkish life insurance market.

The goal of Deniz Life Insurance is to become a company that steers the sector and strives to provide its customers the best service under all circumstances, thanks to:

- The strength of DenizBank and PTT (The General Directorate of Post and Telegraph Organization) distribution channels,
- Its experience and service quality in bancassurance,
- Its qualified human resources and strong technology infrastructure.
- Dexia's 75-year insurance experience and know-how in Europe as well as around the world.

# Information Technology Services

# Intertech

The inter-Next banking platform was deemed the "Most Successful Project of the Year" by Microsoft Turkey in 2007.

# inter-Next

## **New Generation Banking Platform**

As of June 2007, Denizbank began using the inter-Next Integrated Banking Platform developed by Intertech with all of its modules and components. Created in line with Denizbank's growth targets, inter-Next is the first banking platform developed with the CPM (Customer Process Management) approach. Inter-Next will sustain and enhance brand value by making differentiation in service offerings a constant process.

The inter-Next applications, built on the principles of customer focus, fast, high-quality services for the marketplace and operational efficiency, differentiate this product from other banking applications. Its support system and business intelligence solutions that feed operational CRM (Customer Relations Management) are state-of-the-art and put DenizBank ahead of its competitors.

The inter-Next banking platform was deemed the "Most Successful Project of the Year" by Microsoft Turkey in 2007.

Initiated in 2005, inter-Next was finalized during a two year refining process before being transferred to the production environment. By automating most customer processes an annual business-load saving of 430 employees was achieved. Thanks to the operational efficiency, branches were transformed from operation centers to sales centers.

Aside from DenizBank's partnership with Dexia, which allows the Bank to operate as a strong international presence, its innovative organizational structure and young, dynamic staff allow it to keep abreast of new technological developments. By gaining the ability to offer its tailored, high-technology products and services through all channels at the same high quality, DenizBank was able to further differentiate itself in the eyes of its customers.

## **inter-Next Components**

Developed in line with the principal DenizBank has held since its inception that each customer is unique, inter-Pusula, the main CRM application, feeds decision support systems and allows monitoring of customers by providing demographic information, relationships, documents, processes and portfolio definitions to ensure the most personalized profile possible.

Inter-Pusula applications such as Görevlerim (My Tasks), Varlıklarım (My Assets), Müşteri Araştırma ve İletişim (Customer Research and Communication), Satış Fırsatları (Sales Opportunities) and Gişe Satış Modülü (Counter sales Module), transformed data into information. The profile created during processing at the decision support warehouse is shared with users at every point of contact to be sure it is factually correct and directs the customer to the highest quality service possible.

Inter-Face is an application within the inter-Next integrated banking platform that performs the full range of fundamental banking functions. Thanks to its parametric product and service definitions, processed-focused structure and supreme integration capabilities, inter-Face makes it easier to offer fast and innovative products that meet customer needs and expectations.

Inter-Rota, another innovative program, has completely automated DenizBank business processes, allowing a culture of cooperation to be adopted across the organization while minimizing operational risk and error ratios. Allowing the management and restructuring of customer processes, the advanced reporting and analysis capabilities of inter-Rota allow constant measurement of process and resource performances, and the ability to revise them quickly in response to changing and developing requirements.

DenizBank Decision Warehouse infrastructure and DenizBank business intelligence applications, which feed the operational CRM and support decision making processes of users at all levels, facilitate the business decision-making process. This futuristic software will keep the Bank on course well into the future, managing the Bank's performance in the best possible way.

# **Cultural Services**

# **DenizKültür**

World Cultural Heritage Documentary / DVD

The following projects are in production and will be completed in 2008:

- In the second volume of the "Sesli Edebiyat Dizisi / Öyküler "Ses"leniyor" (Audio Literature Series / Stories Speak Out) project, the first volume of which was released in 2007, Turkish short story authors who were born after 1952 are covered. In this volume of the series, 100 short stories written by Turkish authors and spoken by prominent theatre artists will be presented in 20 Audio CDs.
- Completed in 2007, 5,000 copies of the documentary "Istanbul Historic Peninsula" will be offered for purchase at historic and touristic locations in Istanbul in 2008, and touristy locations in Istanbul in 2008.
- Completed in 2007, produced by Nebil Özgentürk and comprised of 13 parts, the documentary series "Diary of Turkey" will be released as a five DVD set in 2008. This project also includes ongoing preparations for a book on this subject.
- DenizBank Chief Economist Dr. Saruhan Özel's new book, "Balance of Global Imbalances", is among the Company's book projects in 2008 as well. Another book by Dr. Saruhan Özel titled "Global Financial Crises" was also published by DenizKültür in 2005.

- Within the scope of the Agricultural Banking Department's social responsibility efforts, the Company will work on a project package composed of books and documentary films towards development of agricultural awareness. The Project is being undertaken with the goal of establishing an agricultural library in the villages.
- New internal projects as well as external projects asking for support will be taken into consideration during the year.
- Pursuant to the agreement entered into with Alfa Dağıtım (Alfa Distribution) during 2007, domestic distribution and sales organization of agricultural products will be completed in the early part of 2008. Negotiations for international sales organization are still ongoing.
- The Company will begin sales over the Internet website in 2008. The design work is already completed and the test process is expected to be complete shortly. Through the stands that are to be set up in DenizBank branches during the year, the Company is targeting an effective promotion campaign for every new product launched, thereby increasing its sales.

DenizKültür is currently publishing books in the fields of science, arts and literature, providing audio and visual cultural material, supporting performing arts activities, collections and exhibitions of visual arts and handcrafts. DenizKültür supports campaigns in line with its social mission and is open to proposals for new cultural activities.

- Communications Committee
- Promotions Committee
- Executive Board

## **Committee Meetings**

All members of the Board of Directors, Audit Committee and other committees attended all meetings fully and regularly during the reporting period.

# **Summary Board of Directors Report Presented to the General Assembly**

DenizBank continued its successful financial performance in 2007, the 10th year since its inception.

DenizBank continued its prudent growth strategy by giving priority to effective risk management practices.

DenizBank continued its successful financial performance in 2007, the 10th year since its inception.

DenizBank continued its prudent growth strategy by giving priority to effective risk management practices. In partnership with Dexia, a bank that has a strong standing in the global arena, DenizBank maintained its rapid and healthy growth by adding many products to its portfolio and bringing public finance into its areas of operation.

DenizBank further raised its successful performance in 2007 with its continued asset and shareholders' equity growth. Based on the year-end consolidated financial statements, total assets grew 27% over the previous year to YTL 18,647 million and shareholders' equity increased 24% to reach YTL 1,678 million. As another indication of the Bank's continued healthy growth, net income reached YTL 341 million. Running parallel to its expanding branch network and growing customer base, DenizBank's customer deposits rose to YTL 10,822 million in 2007.

As an indication of DenizBank's impressive growth, total loans rose 51% during the past year. Loans to small and medium-sized enterprises (SMEs), one of DenizBank's priority growth segments, registered a 69% increase. The retail banking segment that serves personal customers and consumer loans, excluding credit cards, grew 52%. Personals loans, another area of focus, grew 51% in 2007 as a result of various campaigns to tailor the term structure to the individual needs of consumers and specific institutions and occupational groups. Commercial segment loans grew 64% as a result of the newly launched commercial centers and the rate of growth for corporate loans was 33%.

The highest growth rate among consumer loans was registered in home loans, which increased approximately 90% since the beginning of the year. In addition to the individual home loans extended to consumers, DenizBank supported its home loan sales via project-based joint ventures with contractor firms in 2007.

Although it was the first year of its partnership with Dexia in project finance, DenizBank managed to reflect the business potential of this market in the business volume created through their cooperation. The Bank also entered many new sectors aside from those that were targeted. Dairy husbandry, foundry and cement all added to the transaction volume of US\$ 760 million in 2007.

DenizBank is the only private-sector bank to create a designated team and a branch network for the agricultural sector. Increasing in number to 120 in 2007, the Agricultural Banking branches expanded the Bank's geographical reach and scope. DenizBank helped more than 100,000 producers and extended YTL 565 million in loans. Through its Üretici Kart (Producer Card), a service offered for the first time anywhere in the world to Turkish agricultural producers, DenizBank acts as an intermediary for the purchases and payment transactions farmers need to make. The Producer Card also provides farmers with short-term agricultural loans. Medium and long term loans, such as tractor and equipment loans, loans specific to operation segments and specialproject investment loans were offered in equal installments or flexible repayment schedules. All loans for the sector are tailored to the farmers' production cycles and cash flow patterns.

DenizBank will increase its efficiency by continuing to reduce its costs. We will raise our profitability by focusing on niche markets such as shipbuilding, tourism, agriculture, healthcare and international contracting businesses. Improving the utilization of our alternative distribution channels, we will offer many products and services to our customers through the portals we create over the branches and these channels.

The commitment of our majority shareholder Dexia creates strategic value and we aim for further growth in public and project finance. While becoming part of the global leadership in this sector, the partnership between Dexia and DenizBank is seeking to create real value for all our customers. Expansion of our universal banking franchise network is also among our future plans.

Being a member of the Dexia Group will provide DenizBank with enhanced competitive power in the corporate and commercial banking segments as well as larger-volume and cheaper funding opportunities. As a result, the Groups international correspondent bank network will be used more effectively. The capacity to create new business opportunities will increase as access grows to Dexia's customer network, offering the opportunity to create a more extensive product portfolio.

We thank our employees for their dedicated and successful work, our valued shareholders for their continued moral support and our clients and business partners for their trust.

**Board of Directors** 

# **Human Resources**

DenizBank's domestic branches increased to 320 and its staff to 6,634 as of the end of the year. DenizBank Financial Services Group, including DenizBank and its 13 subsidiary companies, ended 2007 with 7,577 employees.

In line with its expanding organization, branch network and increasing number of products and services, DenizBank continued to employ new personnel. Its domestic branches increased to 320 and its staff to 6,634 employees as of the end of the year. DenizBank Financial Services Group, including DenizBank and its 13 subsidiary companies, ended 2007 with 7,577 employees.

To direct the candidates to areas where they would be most productive, DenizBank follows the "Right Candidate for the Right Job" principle in its recruitment process. High school and university graduates were preferred in 2007 depending on the positions available. How the candidates fit the Bank's corporate culture and image was a significant factor.

The prioritized criteria for positions that require banking experience were at least 2-3 years of experience in their fields, capabilities that are compatible with the job, and value-added creating, problem solving and analytical thinking qualities.

Recruitment criteria, required training and the career planning process for recent graduates and experienced candidates are documented and implemented. Years of experience, technical knowledge, management skills and the training required for each position, as well as the vertical and horizontal career paths, are placed on the Bank's Intranet and can be accessed by the employees.

In an attempt to develop "future executives" from within the Bank, employees are encouraged to participate in programs to further their careers. Internal or external personal development, technical training sessions, and certificate programs based on their career plans provide the potential development they need for advancement. In 2007, three out of five managerial or higher positions were filled from within the Bank.

DenizBank's Promotions Committee meets twice a year, in April and October, to decide on promotion requests. The Committee evaluates and acts upon the promotion recommendations submitted by the Managers for their subordinates. The evaluation process takes into account their career experience, knowledge and skills required for a higher level position. Their in-house and external training participation and performance is also considered. In 2007, nearly 1,600 deserving employees were promoted to a higher-level position.

The bonus system, PUPA bonus structure and "Consistency Bonus" are in place to reward and maintain exceptional performances by branch portfolio managers and operations personnel. A "Service Quality Bonus" is awarded to tellers and branch security personnel based on criteria such as their approach to customers, conformity with the Bank's corporate identity and other general attitudes and behavior, as well as the assessment and approval by Branch and Regional Managers.

Through the Intranet, e-mails and meetings held at the Head Office or at the Regional Offices, employees are regularly updated about human resources and training policies and practices as well as developments regarding the Bank.

# **Training**

Deniz Academy organized 1,900 training programs in 2007 and each employee averaged 6 days of training. The target for 2008 is 8 days of training per person.

## **Deniz Academy**

In parallel to the rapid growth and goals of DenizBank Financial Services Group, the Training Department was restructured during the year in order to support and develop the careers of employees through a holistic and systematic approach utilizing all learning processes. Continuing its activities under the name of Deniz Academy, the Department takes an academic approach to learning with the mission of providing a valuable experience for the Bank's employees.

Focusing on better serving DenizBank's customers, Deniz Academy formed its organizational structure by creating roadmaps for the training requirements of each position and title for all branch employees. The Academy also created and launched a portal where employees can monitor their training processes to guide their improvement. 98% of the employees gave a favorable opinion of the portal in a survey conducted during the week the portal was launched.

The majority of the Deniz Academy attendees are managers who were recently hired or promoted from within the Bank. To devise programs that will assist the development of new captains promoted to managerial positions, development requirement analyses are performed in consultation with the managers and unique management programs are designed for Deniz Academy. In addition, Deniz Academy has begun efforts to create joint management programs with Dexia Corporate University. A "Welcome" package is being created for the Bank's new employees and e-learning will be actively used in this package.

Many basic development programs were undertaken by DenizBank's Training Program this year. The "Guides of Deniz" project is part of a long-term effort towards facilitating internal volunteer trainers from the Bank to instruct many of the basic development programs. In order to undertake the increasingly demanded training activities, Deniz Academy opened the "Campus," a luxurious training facility with 15 classrooms and a conference hall.

In addition to these restructuring efforts, Deniz Academy organized 1,900 training programs in 2007. The average training per person was 6 days. The target for 2008 is to reach 8 days of training per person while at the same time organizing a series of conferences to bring prominent people from the world of business, literature and arts together with the employees.

For the following year, Deniz Academy is working on programs not only the DenizBank employees, but also customers and university students. Another goal of Deniz Academy is to develop and actively participate in new, beneficial social responsibility projects.

# **Related Party Transactions**

Please see Independent Audit Report-Section Five-VII

# **Outsourced Services**

Within the scope of the Internet and GPRS Banking Group's activities, support services are procured from Turkcell, Vodafone and Avea for phone line service use and for sending and receiving SMS messages to and from users.

Assistance and consulting services are provided to the upper-income segment customers with the Deniz Selection service performed by the Retail Banking Marketing Management Department. The agreement entered into with Back-up Inc. for this service, which began in August 2006, provides the following to upper-income segment retail customers:

- Unlimited medical support service,
- Roadside assistance service,
- Home assistance services,
- Legal consulting service,
- Organization service,
- Information service,
- Personal identification service.

Within the scope of the Internet and GPRS Banking Group's activities, support services are procured from Turkcell, Vodafone and Avea for phone line service use and for sending and receiving SMS messages to and from users.

Some of the customer-calling operations of the Contact Center are performed by Siemens Business Services (SBS). Based on an agreement entered into in May 2005:

- Retail customers are contacted via informational calls about their credit card and loan payments and overdraft account risk balances in order to minimize payment delays and defaults,
- In an attempt to prevent fraudulent and incorrect information being entered into the system, Employer Verification calls are made within the business flow system. Credit card applications, income and employment status information declared by the applicants are confirmed with the applicants' employers,

- As part of the telesales activities launched in 2007, credit card "Sözünüze Bonus" program sales and card activation calls, as well as online credit card application calls are made to retail customers. These telemarketing activities achieved fast and effective credit card and credit card-based product sales,
- Address update calls are made for credit and bank cards that cannot be delivered to the customers due to changed or incomplete address information. The program allows cards to reach the customers and achieve customer satisfaction and accelerated card use.

The scorecards used for Retail Loan, Overdraft Account and credit card application appraisals are purchased from Experian Scorex. More experienced in the Turkish market than any other firm and one of the largest scorecard providers in the world, Experian Scorex includes scorecard performance monitoring and improvement activities for a period of three years.

Scoring and appraisal of the loan applications of SME and Agricultural Banking customers was outsourced to Finar D&B in 2004. The creditworthiness of customers with loan applications is calculated by evaluating their financial and non-financial data and assigning a score. Joint activities with Finar D&B are continuing in order to improve the current scoring system.

The Credit Cards Marketing Group procures support services for its operations from the following companies:

- The Group procures the services needed for DenizBank credit card holders from Setur. Domestic and international flight reservations, domestic and international hotel and package tour reservations, international cruise reservations and domestic and international car rental reservations just take a single phone call. Cardholders may receive these services with all DenizBank credit cards and the opportunity to pay in two or three installments. All arrangements can be made by calling 444 0 800 for the DenizBank Contact Center and choosing DenizBank Travel Line from the menu (by pressing 7).
- Medical assistance services and Concierge services offered to DenizBank Platinum, Miles&More Platinum, Bonus Premium and Red Royal VIP Selection credit card holders are provided by Assistline. Cardholders can utilize these services by calling 0 212 334 20 96.
- Discounts for Sea&Miles credit card holders at various hospitals and drugstores are provided by PROMED. All a cardholder needs to do to receive the discount is make a payment with their Sea&Miles credit card.
- All DenizBank credit card holders can use the Port Vale service at the Istanbul Atatürk Airport, which gives them a 50% discount. Making the payment with a Denizbank credit card is sufficient to receive the discount. This service is provided by TAV.
- The Campaign Module developed by Veripark is used for creating activation campaigns geared towards cardholders.

# **Declaration of Compliance with Corporate Governance Principles**

The Principles constitute the backbone of DenizBank Inc.'s continuing structuring within its dynamic growth process. Within this framework, the Risk Management Principles known as Basel II are adopted as a guide for the Bank's corporate governance approach.

DenizBank's Corporate Governance Principles have been developed on the basis of the Corporate Governance Principles disseminated by the Capital Markets Board (CMB), also taking into consideration the international principles and sector-specific practices.

The Corporate Governance Statement sets forth the Bank's commitments concerning the arrangement of relations with shareholders and stakeholders within the framework of its corporate governance based on transparency, equality, responsibility and accountability, as well as the determination of the duties and responsibilities of the Board of Directors and the subordinate management levels.

Founded in 1997, the growth achieved in a short time span by DenizBank has been possible thanks to its commitment to these principles and the parallel reinforcement of its management mechanisms. The aforementioned principles constitute the backbone of DenizBank's continuous structuring within a dynamic growth process. In this framework, Risk Management Principles known as Basel II have been accepted as guiding principles of the Bank's corporate governance.

The attitude of the principal shareholder and the professional management which underscored participation and equality as well as being transparent was a major factor in the adoption and rapid execution of the Corporate Governance Principles. The Bank is extremely sensitive about establishing and developing mechanisms that conform to the Corporate Governance Principles, whose primary objectives are listed below, the most important of which are protecting the investors and securing their trust.

- Developing a management philosophy aimed at creating responsibility and added value, and minimizing existing and potential risks through effective control mechanisms.
- Building confidence with existing and potential shareholders, customers, employees and the domestic and international markets in general,
- Continuously increasing DenizBank's market value through the contributions of the Board of Directors, Executive Board and the employees,
- Maintaining employee morale at high levels in order to provide services to enhance customer satisfaction,
- Enabling the Board of Directors to monitor the Bank's activities effectively through the internal and external audit systems put in place in line with the aforementioned principles,
- Promoting the creation of every platform that enables the stakeholders to have reliable and continuous information about the Bank's standing,
- Taking the utmost care to enable stakeholders to use and protect their contractual and statutory rights.

On September 23-24, 2004, DenizBank shares were offered to the public. From that date on, the Bank has also been subject to the Istanbul Stock Exchange (ISE) listing rules and Capital Markets Board (CMB) regulations. Prior to its initial public offering (IPO), the Bank voluntarily adopted the CMB's Corporate Governance Principles by also taking into consideration international principles and sector-specific practices. Following the discussion and vote during the Board of Directors meeting held on September 16, 2004, the "Corporate Governance Report" was released.

DenizBank interprets the Corporate Governance Principles as a dynamic phenomenon that needs continuous improvement. As a result, the Bank periodically reviews domestic and international corporate governance practices and new developments in this area. The monitoring and improvement of the practices regarding the Corporate Governance Principles is performed by the Corporate Governance and Nomination Committee composed of Independent and Nonexecutive Board Members.

# **Declaration of Compliance with Corporate Governance Principles**

The differences that have emerged between the Bank's implementations and the Corporate Governance Principles promulgated by the CMB in July 2003 and revised in February 2005 have been summarized below in two sections and also discussed under the relevant topic headings:

1- On the issue that the "Articles of Association of the company should include a provision to maintain that consequential decisions such as the division of shares or the sale, purchase and lease of tangible/intangible assets are taken at the General Assembly" mentioned in Article 3.6 of Part 1 of the Corporate Governance Principles as well as in Article 4 of the Corporate Governance Principles Compliance Report under the "Information" on the Annual General Assembly" heading. Article 19 of DenizBank's Articles of Association states, "the Board of Directors are furnished with the authority to decide on real-estate to be purchased or acquired, to be sold or let, under the permissibility of the Banking Law."

The reason for the decision mentioned above regarding the duties of the Board of Directors is based on the need to make rapid decisions. In order to inform shareholders of such decisions and allow them to provide their input, such decisions are publicized through the Bank's website. Moreover, as per Article 20 of the Articles of Association. shareholders and stakeholders have the right to make suggestions and demand that certain issues are discussed by the Board of Directors, Also, since Article 11 of the Articles of Association provides minority shareholders with the right to have a topic added to the agenda and the holders of 1% of total shares with the right to demand

investigation of specific situations, we believe that any potential drawbacks are eliminated.

2- Although the appointment of one member of the Board of Directors as an Independent Member meets many of the independent member criteria stipulated by the CMB and the international principles, it differs from the CMB Corporate Governance Principles-Part IV- Article 3.3.4, that states, "An individual who have served on the company's Board of Directors for a total of seven years may not be appointed as an Independent Member."

It is a fact that there are some practices in other countries where length of tenure as a Board Member is not regarded as a criterion for independence or where this threshold is 9-12 years. Given the current situation in the financial sector of our country and considering the need to utilize the knowledge and experience of such people, the Bank currently does not consider length of service as a Board Member to be an impediment to independence.

# Part 1: Shareholders

## 1.1. Investor Relations Department

On September 9, 2004, DenizBank's Board of Directors set up the Investor Relations Department in order to comply with existing legislation, the Articles of Association and other in-house regulations and arrangements on the issue of exercising shareholder rights and to enable the exercise of such rights. The Department facilitates communication between Executive Management and shareholders and submits reports to the Board of Directors within this framework. It also performs the internal and external information disclosure and strategic marketing functions. The name of the Department was changed to "Investors Relations and Financial Communications Department" in 2007. Information on the activities, duties and responsibilities of the Department, as well as the names and contact information of its staff are published on the Bank's web page.

## Activities during the period:

- Investor and analyst meetings (one-on-one and collective)
- Teleconferences
- Material disclosures
- Posting the financial statements on the website
- Updating the website
- Contribution to the preparation of the Annual Report
- Organization of the Annual General Assembly
- Responding to questions received by mail and telephone
- Examination and evaluation of analyst reports
- Examination and comparative analyses of reports on other banks
- Examination of sector data and preparation of market share reports
- Presentation of analysis and survey reports to the Executive Management along with recommendations

## Number of Inquiries during the Period:

In 2007, nearly 100 written and verbal inquiries were submitted to the Department. Information on these inquiries is presented in Section "1.2. Shareholders' Right to Obtain Information" below.

# 1.2. Shareholders' Right to Obtain Information

In 2007, nearly 100 written and verbal inquiries reached the Investor Relations and Financial Communications Department. All inquiries that were not within the scope of trade secrets were addressed verbally and/or in writing.

The requests for information received by the Investor Relations and Financial Communications Department during the period consisted of the following:

- Information on specific items of the released financial statements,
- Information on business lines.
- Questions regarding the forecasts on the economy, DenizBank and the banking sector,
- Information on the Annual General Assembly,
- Information on the developments in the financial sector,
- Information on mergers, strategic partnerships and acquisitions of banks,
- Opinions, information and questions regarding Dexia-DenizBank synergy,
- Questions regarding DenizBank's goals for the coming year.

All information disclosed to the public concerning the Bank is announced to the shareholders as rapidly and effectively as possible. DenizBank considers its website the most effective means of communication and all announced information are simultaneously posted on its web page. Other information transmitted to the investors through the website is discussed in detail under Part II-2.3. Internet Website and Contents.

# Request for Appointment of a Special Auditor

The request by shareholders for appointment of a special auditor is stipulated as an individual right in Article 14 of the Articles of Association and is stated as follows:

"Shareholders owning at least 1% of the Bank's shares can request from the General Assembly the appointing of a special auditor to investigate and resolve a certain financial issue. If this request is rejected, the minority shareholders may demand, through a legal court, the appointment of a special auditor to investigate and resolve the issue."

No request from the shareholders was received for the appointment of a special auditor during the period.

# 1.3 Information on the Annual General Assembly

There is no specified time limitation for the registration of the shares in the stock ledger. Shareholders who consign at least one share to the Bank are registered in the stock ledger.

#### Invitation to the Annual General Assembly

Announcements for the Annual General Assembly are published in the Trade Registry Gazette, Hürriyet and Sabah dailies as well as on the Bank's website for the shareholders' information

# Information on the Annual General Assembly

The DenizBank website is used as an active communications platform to facilitate shareholder participation at General Assembly meetings and to avoid difficulties in obtaining the required information.

Pursuant to Articles 11 and 36 of the Articles of Association, the announcements regarding the General Assembly meetings are made at least three weeks prior to the meeting date, excluding the announcement and meeting days. Agenda items and proxy forms are published in the Trade Registry Gazette and Hürriyet and Sabah dailies as well as on the DenizBank website. Furthermore, the agenda items, Annual Report, Articles of Association, financial statements and reports, proxy forms and other documents regarding the agenda are made available to the shareholders at the Bank's Head Office as of the date of the announcement.

To facilitate participation in the General Assembly, all information about the agenda as well as the proxy forms are posted on the Bank's website. There is no requirement for the proxy voter to be a shareholder. The minutes of the General Assembly and the list of participants are always available on the website for the Bank's shareholders.

# Part 1: Shareholders

## Shareholders' Right to Ask Questions

The provision in the Articles of Association regarding the Shareholders' right to ask questions at the General Assembly is as follows: "Every shareholder participating in the General Assembly shall have the opportunity to voice an opinion and ask questions about the agenda items on equal grounds and within the procedures of the meeting. Questions directed to the Board of Directors shall be answered immediately and verbally if possible, or in writing within fifteen days following the General Assembly."

The Investor Relations and Financial Communications Department notes the questions and suggestions received during the General Assembly that are not responded to and follows up with responses. No opinions were voiced or questions were asked during the Extraordinary and Ordinary General Assemblies held in 2007.

## The Difference between Corporate Governance Principles and DenizBank's **Practices**

on the issue that the "Articles of Association of the company should include a provision to maintain that consequential decisions such as the division of shares or the sale, purchase and lease of tangible/intangible assets are taken at the General Assembly" that is mentioned in Article 3.6 of Part 1 of the Corporate Governance Principles as well as in Article 4 of the Corporate Governance Principles Compliance Report under the "Information on the Annual General Assembly" heading, Article 19 of DenizBank's Articles of Association states; "the Board of Directors are furnished with the authority to decide on real-estate to be purchased or acquired, to be sold or let, under the permissibility of the Banking Law."

The reason for the decision mentioned above regarding the duties of the Board of Directors is based on the need to make swift decisions. In order to inform shareholders of such decisions and allow them to provide their input, such decisions are publicized through the Bank's website. Moreover, as per Article 20 of the Articles of Association, shareholders and stakeholders have the right to make suggestions and demand that certain issues are discussed by the Board of Directors. Also, since Article 11 of the Articles of Association provides the minority shareholders with the right to have a topic added to the agenda

and the holders of 1% of total shares have the right to demand investigation of specific situations, we believe that any potential drawbacks are eliminated.

## 1.4. Voting Rights and Minority Rights

Stocks do not have any preferential rights. As per Article 12 of the Articles of Association. each share has one vote.

The Bank does not have any subsidiaries with which it has a cross-shareholding relationship. The requirement, imposed by Article 11 of the Capital Markets Law as amended by Law No. 4487, that minority rights can be exercised by shareholders representing at least onetwentieth of the paid-in capital, is met by Article 11 of the Bank's Articles of Association.

The Board of Directors appointed M. Tinas Titiz, a member of the Corporate Governance and Nomination Committee, as the Board Member representing small shareholders. For this reason cumulative voting procedure is not being used.

## Other Rights Granted in Relation to Shareholders' Participation in Management Articles of Association, Article 11

If the minority shareholders make an application in writing in order to have any articles added to the agenda before the General Council prepares the agenda, the Board of Directors may take these suggestions into consideration.

Upon written demands prepared by the minority stakeholders putting the reason forward, the Board of Directors invites the General Assembly for an extraordinary meeting and the articles asked to be discussed are added to the agenda.

## Articles of Association, Article 13

The decision to make amendments to the Articles of Association is taken by the General Assembly. The shareholders who own at least half of the company capital or their representatives shall attend the meetings in which amendments to be made to the Articles of Association of the company will be voted upon. The decisions are taken by the majority of the participant shareholders. Each share represents one vote in the decisions regarding amendments to the Articles of Association.

#### Articles of Association, Article 14

The shareholders who hold a minimum 1% of the Bank's available shares may demand from the General Assembly the appointing of a special auditor especially to follow and clarify a certain financial situation. If this demand is rejected, the minority shareholders can demand from the court the appointing of a special auditor to examine and clarify the situation.

## Articles of Association, Article 20

The minority shareholders and beneficiaries can demand in writing from the Chairman of the Board of Directors the inclusion of a certain subject on the agenda of the Board of Directors. Upon such a request, the Chairman of the Board of Directors may have the subject added to the agenda of the following the Board of Directors meeting.

## 1.5. Dividend Distribution Policy and **Timeline**

The Bank's profit distribution policy has been laid down in the Articles of Association (Article 33) and the information on the annual dividend amount is made available to shareholders on the Bank's website following the General Assembly decision. There are no privileges concerning the distribution of profits. Pursuant to the decision of the General Assembly held in March, no dividend is being distributed for the year 2006.

## 1.6. Transfer of Shares

There is no provision restricting the transfer of shares in the Bank's Articles of Association. According to Article 8 of the Articles of Association, the transfer of shares is allowed under the permissibility of the Turkish Commercial Code, Banking Law, Capital Markets Law and the Articles of Association. Provided that the provisions of the related legislation are preserved, the transfer of shares is completed through endorsement and delivery of the shares to the person who is taking them over. However, since the Bank's shares are registered to a name, the transfer needs to be recorded in the stock ledger following a decision by the Board of Directors in order to make the transaction valid in the eves of the Bank.

With a decision taken in meeting No: 2004/29 of the Board of Directors dated May 11, 2004, the Bank pre-approved the transfer of publicly traded shares by allowing the transfer of these shares via a blank endorsement.

# Part 2: Disclosure to the Public and Transparency

## 2.1. Disclosure Policy

In addition to the items mandated for public disclosure by legislation, the Bank is very sensitive about disclosing all information except for those considered to be trade secrets. The issues to be disclosed to the public, the means of announcement and their anticipated timing are described under the "Disclosure Policy" and approved by the Board of Directors and posted on the Bank's website. The Groups/Departments that are responsible for the implementation of the Disclosure Policy are listed below and the details regarding the names and duties of the responsible staff are posted on the website. Furthermore, the managers of all related business lines are responsible for the implementation of the disclosure policy regarding the material disclosures.

- Board of Directors
- Corporate Governance and Nomination Committee
- Investor Relations and Financial Communications Department
- Administrative Services Group
- Legal Department

#### 2.2. Material Disclosures

In compliance with the CMB Notification Series: VIII, No. 39, 222 material disclosures were made within the timeframe required by the legislation during the period, all of which were posted on the Bank's web page. Since the Bank's shares are not listed on foreign stock exchanges, no material disclosures were made in any stock exchange other than the ISE.

#### 2.3. Internet Website and Contents

In line with the public disclosure and transparency principles of its Corporate Governance Principles, DenizBank has created an effective and periodically updated website in order to provide timely, accurate, complete, comprehensible, easy to analyze, low-cost and easy to reach information. The Bank's web address is www.denizbank.com and it contains all the information mentioned in Article 1.11.5 of Part II of the CMB Corporate Governance Principles. Some of the information available on our website is as follows:

- A statement that there are no privileged
- The latest version of the Bank's Articles of Association

Bank are shown in the tables below. There are no cross-shareholdings in the shareholder structure of DenizBank.

## 2.5. Disclosure of People With Access to Insider Information DenizBank considers it an integral part of the

Bank's corporate culture to take all necessary measures to fully comply with the regulations and legislation regarding insider trading and to develop policies in this regard. Accordingly, the Disciplinary Code and the Code of Ethics of the Bank forbid the Chairman and the members of the Board of Directors, auditors, all staff, persons who can access insider information while performing their duties as well as the ones who can access information directly or indirectly through their contacts with such persons from using this information for the benefit of themselves or third parties.

Persons assuming the following titles and duties are authorized to access information that is important to the Bank and that would be considered trade secrets. The list of names of these people is posted on the Bank's website.

- Board of Directors
- Board Secretariat
- Executive Vice Presidents of the Bank
- General Managers of Subsidiaries
- Assistant General Managers of Subsidiaries

# Part 3: Stakeholders

## 3.1. Informing Stakeholders

Stakeholders (shareholders, employees, customers, correspondent banks, entities that participated in syndication loans, public institutions, entities with outstanding loans, suppliers, our social environment and other segments the Bank is in contact with) are regularly informed through General Assembly minutes, material disclosures, press releases, "News from Deniz" bulletins, in-house announcements and annual reports. Moreover, the Bank informs the public via information release meetings organized upon demand and written statements. Easy access to up-to-date information is provided by posting all the aforementioned information on the Bank's website.

# 3.2. Participation of Stakeholders in Management

In order to ensure optimum satisfaction while preserving the balance between customers, employees, shareholders and other stakeholders, the Bank strives to improve its product and service quality and to fulfill the expectations of domestic and foreign customers. To achieve that, DenizBank adheres to the "common wisdom" principle and designs its systems for continuous improvement.

Stakeholders can participate in the management of the Bank by attending various committee meetings and General Assembly meetings, through the suggestion system and by exercising their right to demand a Board of Directors meeting. Below is a list of systems that facilitate participation in management by employees, customers and shareholders. The output of these systems is presented to the Executive Management after being analyzed by relevant departments.

- Board of Directors
- Executive Meetings

## 3.3. Human Resources Policy

DenizBank has a human resources policy firmly in place. This policy and the related procedures are posted on the website as well as on the Bank's Intranet portal DenizPortal that is accessible by all members of staff. The general human resource policies, practiced in order for the Bank and its subsidiaries to perform their functions in the best possible way, are based on the principles summarized below:

- Recognizing that the first requirement for success is respect for the individual and human dignity and considering human resources and their improvement the most valuable asset of an organization
- Providing all employees, without discrimination, with the professional environment and opportunities for them to utilize and improve their abilities and skills
- Offering sufficient remuneration and other appropriate benefits in line with current market conditions
- Offering the employees training and internship opportunities to facilitate their professional improvement and success
- Facilitating new ideas and resolving the problems within the framework of mutual trust, understanding and communication
- Putting in place a system that encourages and rewards success and excellence

Announcements that are of interest to our employees are communicated over the Intranet (DenizPortal) and by e-mail. The Suggestion System, through which the employees can transmit all suggestions and opinions, is coordinated by the Operations Support and Business Development Department. Any concerns and problems of the employees are evaluated by their supervisors and brought to the attention of the Executive Management if necessary. There have been no complaints by the employees, especially regarding discrimination.

# 3.4. Relations with Customers and Suppliers

#### Customers

DenizBank prepared and presented to the Bank's personnel via DenizPortal (Intranet) instructions for processes concerning the standardization of services in order to ensure customer satisfaction through the Bank's products and services. All products and services at DenizBank are offered to customers with an accompanying framework agreement and relevant enclosures that define the special circumstances, if any.

The Bank continued to use the "Internal Guarantee System" throughout 2007, a system organizing the service exchange between departments, the goal of which is to enhance the quality of services offered to DenizBank customers while creating a better working environment. The system's contribution to internal communications and the performances of departments in this area have been monitored through quarterly surveys. The survey results were presented to the Executive Board and based on the feedback received from the Executive Board, improvement and development work was initiated in the necessary services and area.

The utilization of the PUPA performance system, aimed at ensuring customer satisfaction as well as employee satisfaction by sharing the additional income with the employees, continued with new systems. Furthermore, the "Service Quality Bonus," given to the tellers based on criteria such as their approach to customers, conformity with the Bank's corporate identity, and other general attitudes and behavior as well as the assessment and approval of Branch and Regional Managers, also continues to be awarded to branch security personnel with the same approach.

DenizBank customers can request information about the Bank's products and services, place their orders and demands for modifications and report their complaints at the Bank branches, on the website or via the Contact Center. Tracking and the follow-up of customer complaints is carried out by the Customer Satisfaction Department. The complaints and suggestions received by the Department are forwarded to the relevant departments in order for the complaints to be resolved and the customer suggestions to be considered. The customers are notified of the outcome of their complaints and suggestions.

"Covert Customer Surveys" are conducted at the branches to measure customer satisfaction and the findings are reported to the Executive Board and the actions that need to be taken are determined. The Bank staff is informed about the general results of the surveys.

## Suppliers

All procurements at DenizBank are conducted centrally via the Purchasing Committee and the suppliers are selected from the list of "Approved Suppliers." The following factors are taken into consideration when selecting a supplier from which the Bank will procure products and services from:

- Banking sector references
- Samples of previously delivered products or services
- Confirmation of references
- Technical capability
- Subject-specific knowledge
- Optimum cost

## 3.5. Social Responsibility

In addition to its activities in economic and financial areas, DenizBank produces projects that will enrich social, cultural and artistic life within the framework of its social responsibility concept.

Activities held during the year are as listed below:

- "DenizBank Concerts", organized within the scope of the sponsorship agreement that has been in place for 3 years between DenizBank and the Istanbul State Symphony Orchestra, continued throughout the 2007 season. Similarly, New Year's and spring concerts, which have been organized jointly with the Presidential Symphony Orchestra since 2004 were held again this year.
- In an effort to contribute to the analysis of our recent history, DenizKültür sponsored the publication of 19 books by renowned researcher-authors.
- Within the scope of the corporate sponsorship of the Turkish Education Association (TED), DenizBank raised the number of students it is providing scholarships with to 15.
- Preparations for the documentary "Diary of Turkey", which summarizes the 85-year history of the Republic through human stories, began with the contributions of DenizBank.
- The "Historic Peninsula" documentary telling the story of Istanbul's Golden Horn, a "World Heritage" area, from the past to the present is on the verge of completion.
- The DVD containing the documentary produced in memory of Ömer Yılmaz, the great master of Turkish Opera, tells his life story. The CD presenting his music and the CD set of the "Three Tenors" who followed in this great musician's footsteps were also presented for the enjoyment of music fans.

# **Part 4: Board of Directors**

## 4.1. Structure and Composition of the **Board of Directors and Independent** Members

Within the framework of an effective and healthy management system, special care is taken in the selection of the Independent Members of the Board of Directors from among people who will make contributions that increase DenizBank's value, monitor the implementation of the decisions taken by the Board of Directors in parallel with the objectives and will not seek any personal gain in doing so.

The Bank's Board of Directors consists of eleven members. Eight members have no executive duties, two of whom serve as Independent Members of the Board. The Chairman of the Board of Directors and the President of the Bank are separate persons. "Declarations of independence" were solicited from the Independent Members of the Board. No developments that terminated the independence of the Members of the Board of Directors occurred during the reporting period.

Members of the Board of Directors assume other duties outside the Bank. Members of the Board of Directors also serve as Board Members at DenizBank Financial Services Group subsidiaries, with a view toward better coordination between the Bank's financial institutions and monitoring of existing and potential risks on a consolidated basis. No restriction has been placed on the number of duties the Board Members can be assigned to at the Bank's subsidiaries. However, Board Members have been informed that in principle, the number of such duties to be assumed outside the Bank's subsidiaries should not exceed three, to avoid compromising effective management.

## Independence Criteria

Based on the Bank's independence criteria devised in compliance with international principles and the CMB regulations, M. Tinas Titiz and Ayfer Yılmaz were appointed as Independent Members to the Board of Directors pursuant to the resolution passed at the General Assembly meeting held on March 23, 2007.

DenizBank firmly believes that the Independent Board Members will increase the Bank's value through their contributions to the strategic decision making. implementation and monitoring functions of the Bank with their objective points of view. The Board of Directors continuously reviews the developments that impact independence and conducts the annual independence analyses at the end of each year within the framework of the "Board of Directors Analysis" based on the Corporate Governance and Nomination Committee report. The Corporate Governance and Nomination Committee may seek the services of outside consultants for its independence analysis activities.

A person must possess the following attributes to qualify as an Independent Board Member:

- Must not have been on active duty or worked in an executive position at the Bank in the last two years.
- Must not have been appointed to the Board of Directors to represent a specific shareholder group.
- Applicant, his/her spouse or a blood relative up to third degree must not have had a direct or indirect relationship, in terms of employment, ownership or business dealings, with the Bank, its subsidiaries, its affiliates or the Group companies during in the last two vears.
- Must not have any family ties with any of the current executives or members of the Board of Directors,
- Must not have been employed by a company that provided auditing or consulting services to the Bank within the last two years,
- Must not have been employed by a company that undertakes the whole or part of the Bank's operations as an executive within the last two years,

• Must not have been employed by a company that supplies products or services to the Bank as an executive within the last two years. In order for the members who do not qualify for independence to become eligible to be independent members, they and their families must comply with the above prerequisites for a period of two years following the elimination of the conditions constituting an obstacle to their independence.

## Differences between the Corporate Governance Principles and DenizBank's **Practices**

Although the appointment of one member of the Board of Directors as an Independent Member meets many of the independent member criteria stipulated by the CMB and the international principles, it differs from the CMB Corporate Governance Principles-Part IV-Article 3.3.4. which states: "An individuals who have served on the company's Board of Directors for a total of seven years may not be appointed as an Independent Member."

It is a fact that there are some practices in other countries where length of tenure as a Board Member is not regarded as a criterion for independence or where this threshold is 9-12 years. Given the current situation in the financial sector of our country and considering the need to utilize the knowledge and experience of such people, the Bank currently does not consider length of service as a Board Member to be an impediment to independence.

#### 4.2. Qualifications of the Board Members

The minimum qualifications sought in the Members of the Board of Directors overlap with the qualifications stipulated in Articles 3.1.1, 3.1.2 and 3.1.5 of Part IV of the CMB Corporate Governance Principles.

Members of the Board of Directors other than the President are elected by the General Assembly from among the candidates nominated by shareholders who meet the qualifications stipulated by the Banking Law. The provisions pertaining to the qualifications, length of office term and election and dismissal processes of Board Members are stated in the Bank's Articles of Association.

Since Board Members are elected from among candidates who have been screened by the Corporate Governance and Nomination Committee, they are deemed suitable for these duties and have not gone through any special training and orientation program.

The Corporate Governance and Nomination Committee evaluates the performance, independence, suitability and competence of the Board of Directors and the individual Board Members in line with the Corporate Governance Principles of the Bank at least once a year.

# 4.3. The Mission, Vision and Strategic Goals of the Bank

DenizBank's mission and vision are developed by the Board of Directors and posted on the Bank's website.

#### DenizBank's Mission

DenizBank's mission is to maximize the satisfaction of its employees, customers and shareholders with its position in the sector, its image and its corporate qualities.

#### DenizBank's Vision

DenizBank's vision is to become one of the top five banks in Turkey through sustainable and profitable growth and be the most powerful player in the global financial environment in the region consisting of the Middle East, Caucasus, the Balkans and CIS countries.

The strategic goals of the Bank developed by the Executive Board were approved by the Board of Directors. The President and CEO submit a monthly report to the Members of the Board of Directors on the status of strategic goals and the Bank's overall financial and non-financial position.

# 4.4. Risk Management and Internal Control Mechanism

The Board of Directors have established a risk management and internal control mechanism, and detailed information about this system's operation, administration, duties, responsibilities and effectiveness is posted on the Bank's website as well as in the annual report. The Internal Control mechanism of DenizBank is jointly run and supervised by the Internal Control Center, the Board of Compliance, and the Internal Audit Department.

# Internal Control Center and the Board of Compliance

The Board operates independent of the Bank's executive operations and reports directly to the Board of Directors.

The Internal Control Center and the Board of Compliance executed its operations in two main areas during 2007.

- 1- Internal control activities that are part of the daily Bank operations to the extent possible: Within the framework of internal control activities, the Internal Control Center continued its operations aimed at keeping the operational risk at acceptable levels, monitoring effective and efficient utilization of Bank resources, testing the reliability of the Bank's financial data, and overseeing that the operations are performed in compliance with the laws and rules. As of year-end 2007, Internal Control activities were performed through the following internal control departments:
- Internal Control-Branches Financial Control Department,
- Internal Control-Branches Internal Control Department.
- Internal Control-Treasury Control Department,
- Internal Control-Basic Controls and Support Department,
- Internal Control-IT Control Department,
- Internal Control-Loans and Credit Cards Department
- 2- Compliance activities: Compliance activities were restructured and organized under three departments during 2007 and their area of operation and staff were expanded. The Bank's compliance activities are continuing with practices that parallel the compliance practices of Dexia.

Corporate Compliance Department: This department is responsible for establishing the basic compliance rules and establishing coordination with the subsidiaries in the compliance area.

Anti-Laundering Department: This department is responsible for preventing money laundering and the financing of terrorism, identifying and monitoring suspicious transactions and reporting such transactions to the public authorities.

Legislation Department: This department is responsible for monitoring and sharing with the organization the changes in legislation, and informing the relevant units in the Bank for compliance with such changes.

## Internal Audit Department

DenizBank's Board of Directors has set up an Audit Committee from among its members. The Audit Committee, which consists of the independent members of the Board of Directors, holds regular meetings to determine the audit policies of the Bank.

Internal audit activities are headed by the Member of the Board of Directors responsible for control functions (Internal Audit, Internal Control, Compliance and Risk Management), and is at the same time a member of the Audit Committee. These activities are carried out on the basis of internationally accepted audit standards and local legislation, taking into account the requirements of the Bank and its parent company. The internal audit activities are conducted by internal auditors. These auditors are organized in an independent department; the Internal Audit Department.

The number of internal auditors as of the end of 2007 was 52. The Bank implements a conscientious process in selecting the candidates to be employed in the Internal Audit Department, Assistant Auditor candidates undergo profile tests measuring levels of ability and suitability to the task, in addition to taking written and oral examinations. A detailed training and career development plan follows once the suitable candidates with the required qualifications are selected. Assistant auditors must receive theoretical and practical training for at least six months and pass the examinations following this training period in order to qualify to work on the audit teams. Promotions from Assistant Auditor to Authorized Assistant Auditor and to Auditor are all awarded through examinations.

Internal auditors conduct regular audits in all branches, the Head Office departments and units, the subsidiaries, and also joint audits missions with Dexia auditors. Audit plans are based on the risk analyses conducted by the Internal Audit Department and are validated by the Audit Committee.

In 2007, the planned internal audits were performed and special audits, as well as legal and administrative investigations, were conducted in the areas deemed necessary.

# **Part 4: Board of Directors**

## Risk Management Group

DenizBank Risk Management Group is an internal systems unit that reports to the Board of Directors and that is responsible for executing the risk management operations.

The duty of the DenizBank Risk Management Group, within the framework of the principles established by the Bank's senior management and the Risk Management Group and approved by the Board of Directors, is to define and measure the risks, establish and implement risk policies and implementation methods, and analyze, monitor, report, research, confirm and audit risks.

As a result, the Bank is able to define measure, monitor and control the risks it is subject to through the policies, implementation methods and limits geared towards monitoring, keeping under control and changing as necessary the risk-return structure of the Bank's future cash flows and the corresponding characteristics and level of its operations.

Periodic reporting of all risk analyses under the headings below is made, since it is important in guiding the Audit Committee and the Assets and Liabilities Committee in identifying and monitoring risk limits and developing risk management strategies.

- Market Risk
- Structural Interest Risk
- Liquidity Risk
- Credit Risk

# Basel II

Within the framework of a project, the Risk Management Group is undertaking the tasks necessary for complying with the Basel II criteria stipulated by the BIS at both the Bank and the Dexia Group level. The developments regarding the project are monitored weekly at the related Bank units as well as at the Operational Committee with the participation of IT and presented to the Orientation Committee monthly. The part of the project pertaining to the Dexia integration is also undertaken as part of the same efforts. Within the framework of the regulatory requirements, The Basel II legal reporting will start at the beginning of 2009. Data consolidation and endogenous impact efforts are being carried out towards this goal.

## Legal Reporting

The Risk Management Department is responsible for preparing the standard reports required by the banking regulatory agencies in Turkey. These reports are submitted to the Banking Regulation and Supervision Agency.

# 4.5. Duties and Responsibilities of the Board Members and Executives

Duties and responsibilities of DenizBank's Board Members are stipulated in Article 19 of the Articles of Association whereas those of the Bank's executives are stipulated in Article 28. Furthermore, the Bank's General Manager's duties and responsibilities are stipulated in Article 29 of the Articles of Association.

# 4.6. Operating Principles of the Board of Directors

The principles governing the Board of Directors meetings are determined in the Articles of Association. In addition to the agenda items stemming from the duties and responsibilities of Board Members stated in Article 19 of the Articles of Association as well as the requests of the Board Members, issues discussed at the weekly Executive Board meetings and the Committee decisions constitute the sources for meeting agendas. In line with the shareholders rights, shareholders may demand the addition of new agenda items. Moreover, the auditors of the Bank may also set an agenda and call a Board of Directors meeting.

The Board of Directors convenes at least once a month. A total of 56 Board Meetings were held in 2007.

It is essential that Board Members attend the meetings in person; however, attendance is also allowed via any method of remote conferencing. On issues stipulated in Article 2.17.4 of Corporate Governance Principles, members attend Board meetings in person. The members of the Board have equal votes and no Member or the Chairman has a privileged or weighted vote or veto power.

The Chairman is responsible for ensuring that Board meeting announcements and discussions are carried out appropriately and that decisions taken are recorded in the meeting minutes. This task was assigned to the Board Secretariat by a Board of Directors decision. Information regarding other duties and responsibilities of the Board Secretariat is posted on the DenizBank website.

During the Board of Directors meetings, members who cast dissenting votes are required to sign the minutes along with a statement explaining the rationale of their votes. Minutes of the meetings and relevant documents as well as the related correspondence are regularly archived. Compliance of Bank's meeting records with the current legislation is ensured by the Board Secretariat and a report is presented to the authorized parties upon request. The Board of Directors meeting decisions that are significant for the stakeholders are also posted on the Bank's website.

# 4.7. Prohibition of Doing Business with the Bank and Non-Compete Clause

Provided that they remain outside the issues prohibited by Banking Law No. 5411, permissions contained in Articles 334 and 335 of the Turkish Commercial Code on prohibition of transactions with companies and the non-compete clause have been granted to the Board Members by the General Assembly. All transactions of the Board of Directors and executives are inspected at least once a year by the Board of Internal Auditors. Furthermore, in 2006, the Audit Committee conducted the required controls within the framework of the regular audits and informed the Board of Directors in this respect. No situation contrary to what is stipulated by the current legislation has arisen.

## 4.8. Code of Ethics

Within the framework of the code of ethics, DenizBank has adopted Banking Ethics Principles. DenizBank's executive management is responsible for ensuring that personnel and executives comply with the Bank's code of ethics, that these rules are adopted by all employees and that DenizBank carries out its activities within the framework of these rules. This set of rules was put together based on the general principles stated below.

#### DenizBank:

- Takes utmost care that all documents prepared, disclosed to the public and submitted to the regulatory authorities are accurate, complete and clear.
- Obeys the laws, legislation and rules of the regulatory authorities.
- Shows diligence in complying with the Corporate Governance Principles.
- Takes every measure to prevent conflicts of interest.
- Creates a fair and safe working environment.
- Emphasizes transparency in the information disclosed to the public.
- Follows fair competition rules in its relationship with competing banks.

#### All DenizBank employees:

- Are selected from among honest and trustworthy persons who respect ethical and moral values.
- Behave in compliance with the Law and the Bank's internal regulations.
- Work diligently in an orderly, disciplined and dedicated manner.
- Possess customer satisfaction awareness.
- Strive to improve their occupational skills and advance their professional experiences.
- Behave with the awareness of their responsibilities to keep secrets.
- Try to prevent any conflicts of interest.
- Follow the Bank's procedures on insider trading.
- Do not accept any gifts that may be considered bribery.
- Try to facilitate proper utilization of DenizBank's assets and resources.
- Do not engage in any other occupational activity outside the Bank.
- Exercise financial diligence and maintain income-expense balance in their personal expenditures.
- Conduct customer relations with utmost care and make an effort to render the best service.
- Behave in a measured and careful manner in their relationships with colleagues.
- Facilitate, support and assist the audit staff and the inspectors in their activities.

All employees and executives have signed the Bank's Ethics Principles document as of November 2001 and follow these rules in all of their activities. These ethics rules are available at DenizPortal as well as the Bank's website for stakeholder review.

# 4.9. Number, Structure and Independence of the Board Committees

The Audit Committee and the Corporate Governance and Nomination Committee are composed of Independent and Non-executive Board Members. The operating principles of the committees are posted on the website. Information about the committees reporting to the Board of Directors and on the executive committees providing input to the management is overleaf:

# Committees Reporting to the Board of Directors

# Corporate Governance and Nomination Committee

The Committee is responsible for monitoring the compliance of the Bank with the Corporate Governance Principles. The Committee consists of three members. The qualifications of the Chairman and the Members of the Committee are shown below.

Member : Mustafa Tınas Titiz

Position : Member Member Definition : Independent

Education Level : Undergraduate Degree

Member : Dirk G. M. Bruneel

Position : Member

Member Definition: Non-executive Member Education Level: Undergraduate Degree

Member : Tanju Kaya
Position : Member

Member Definition: Executive Member Education Level: Undergraduate Degree

The Corporate Governance and Nomination Committee convenes at least three times a year and when required to perform its duties. The procedures related to the structure, duties and responsibilities of the Corporate Governance and Nomination have been determined and its main activities posted on the Bank's website.

The Corporate Governance and Nomination Committee had eight meetings in 2007 in order to:

- Propose candidates to the Board of Directors on the appointment of executives.
- In line with the suggestions presented to the Board of Directors, the nominated executives were appointed. Through suggestions to the Board, the Committee made an effort to improve its operating principles, which were reviewed during the meetings.

## Audit Committee

The Audit Committee is responsible for overseeing the Bank's accounting system, financial information and its disclosure to the public, as well as taking all required measures to provide for the supervision of the operation and efficiency of the internal control system. The Committee consists of three members. The qualifications of the Chairman and Members of the Committee are provided below.

Member : Eric P. B. A. Hermann

Position : Member

Member Definition: Non-executive Member Education Level: Undergraduate Degree

Member : Dirk G. M. Bruneel

Position : Member

Member Definition: Non-executive Member Education Level: Undergraduate Degree

Member : Mustafa Tinas Titiz
Position : Member
Member Definition : Independent

Education Level : Undergraduate Degree

The Audit Committee meets upon the invitation of the Chairman at least once every three months (four times a year). Moreover, the Audit Committee meets with the independent auditors of the Bank, separate from the executive units, at least twice a year to discuss the issues regarding internal control, financial statements, internal audit and other important agenda items that need to be reviewed. The procedures related to the structure, duties and responsibilities of the Audit Committee have been defined and its main activities posted on the Bank's website.

# The Audit Committee held five meetings in 2007 for the following purposes:

- Reviewing the internal audit plan for 2007 and submitting it for the Board of Directors approval,
- Preparing, in the specified format, the Audit Committee activity report to be submitted to the Board of Directors and submitting it for the Board of Director's approval,
- Reviewing and approving the 2007 First, Second and Third Quarter reports prepared by the Board of Internal Auditors,
- Taking a decision on making the compliance and Internal Audit regulations of DenizBank and Dexia compatible with each other, to the extent allowed by the governing legislation,

# **Part 4: Board of Directors**

- Approving the Internal Control and Risk Management reports,
- Taking a decision on using declaration forms on whether the staff authorized to extend loans have participated in the decision processes that resulted in extending loans to such staff, their spouses or children, or the companies controlled by them,
- Making a recommendation to the Board of Directors on the appointment of the Head of the Board of Internal Auditors,
- Reviewing and approving the report regarding outsourced services.

# As a result of the decisions taken at these meetings.

- The Compliance Report was approved by the Audit Committee in its new format.
- Marie Eglantine Dessallien Delmas was appointed as the Head of the Board of Internal Auditors of DenizBank, to begin duty on November 1, 2007.

# Executive Committees Assets and Liabilities Committee

The Assets and Liabilities Committee meets every week under the chairmanship of the President and with the participation of the Bank's Chief Economist and the managers of the groups that have activities that can impact the balance sheet. The meeting agenda consists of the balance sheet of the Bank, activities of the business lines, general economic data and evaluation of the current political and economic developments, along with the determination of the weekly strategy.

#### Credit Committee

The Credit Committee evaluates the recommendations on the commercial, corporate and small business loan applications submitted to DenizBank. Meeting every week, the Committee assesses the recommendations and either approves or rejects the loan applications that are within its limits of authority. The Committee submits the requests that exceed its authorization limits to the Board of Directors for approval.

# Disciplinary Committee

The Disciplinary Committee verifies and identifies the perpetrators and the degree of fault and probable damage of operations and activities that require disciplinary action according to the internal legislation and disciplinary regulations of the Bank. The Disciplinary Committee meets when needed and decides on its agenda items.

## Purchasing Committee

The Purchasing Committee is established to centralize the wholesale and retail purchasing transactions of the Bank according to the appropriate price and quality criteria and within the framework of DenizBank's procurement policy. The Committee meets at least twice a month.

#### Communications Committee

The Communications Committee is established to convey the Bank's qualities that constitute its corporate identity via appropriate messages, projects and mass media, while reinforcing and supporting the image of the Bank. The Communications Committee meets at least once a month. The resulting ideas and suggestions are presented to the Executive Board for consideration.

#### Promotions Committee

The Promotions Committee is responsible for evaluating and making final decisions concerning vertical (increase in terms of both title and duties and responsibilities) and horizontal (change in title where the duties and responsibilities remain the same) advancement of all personnel of the DenizBank Financial Services Group. The Promotions Committee meets twice a year, in March and September, under the chairmanship of the President and with the participation of all of the Executive Board members.

#### The Executive Board

DenizBank Financial Services Group (DFSG) Executive Board is a consultation body that operates within the framework of the responsibilities delegated to the executive management and the President by the Board of Directors. The Executive Board meets every week under the chairmanship of the President and consists of the Executive Members of the Board, the Executive Vice Presidents of the Bank and the General Managers and/or Board Members of the subsidiaries. The Executive Board aims to make fast and correct decisions within the DenizBank Financial Services Group in line with the "common wisdom" principle.

# 4.10. Remuneration of the Board of Directors

The Chairman, Vice-Chairman and the Members of the Board of Directors are compensated in the amounts determined by the General Assembly. In determining these compensations, the time to be spent by the individuals before, during, and after the Board meetings is taken into account. The honorarium to be paid to the participants for each meeting is also determined by the General Assembly. No awarding system based on the performances of the Members of the Board of Directors or of the Bank is implemented.

All Members of the Board of Directors were paid YTL 5,000 gross per month in 2007 as an honorarium throughout their term. Statutory Auditors were paid YTL 1,000 gross per month.

No transactions involving lending, loan allocation or guarantees took place between the Bank and the members of the Board of Directors or the executives

# **Investor Relations and Financial Communications**

The Investor Relations and Financial Communications Department was established in September 2004 for the purpose of protecting and exercising shareholders' rights within the framework of related legislation, Articles of Association and other internal regulations and in line with DenizBank's principles of equality, transparency, accountability and responsibility. The Department facilitates communication between the Executive Management and shareholders and submits reports to the Board of Directors within this framework.

The Investor Relations and Financial Communications Department carefully and diligently performs the strategic marketing functions in line with the goal of increasing DenizBank's share value through its internal and external informative activities.

# In this context, the Investor Relations and Financial Communications Department:

- Plays a major role in informing shareholders and ensuring that they participate in the General Assembly and exercise their voting rights,
- Devises disclosure policies ensuring neutral, accurate, up-to-date and enlightening information flows to shareholders, meeting their information requests concerning the Bank, except for confidential information undisclosed to the public that are considered commercial secrets.
- Announces important developments regarding the Bank via Material Disclosures and bulletins in an expeditious manner, delivers quarterly financial statements to the investors, analysts and other stakeholder via website, and responds to the questions about the Bank,
- Informs foreign investors holding DenizBank shares of important issues such as capital increases and dividend payments, posts the related documents on the Bank's website before and after the General Assembly and ensures that General Assembly is conducted according to legislation, the Articles of Association and the Bank's internal regulations.

Among the Department's information rendering activities are;

- Examination and, when necessary, correction of the analyst reports on DenizBank,
- Evaluation of analyst reports on and financial statements of the competitor banks and their comparative analyses with the financial statements of DenizBank, submitting opinions and suggestions to the Executive Management regarding the results of such analyses.
- Comparison, as well as monitoring and reporting of the performance of the Bank's and competitor banks' shares.

In addition, the Investor Relations and Financial Communications Department monitors the industry through regular research and analyses and makes recommendations to the Executive Management that contribute to DenizBank's objectives. The Department remains in contact with various internal and external sources, keeping an eye out for early warning signals to avoid any problems that might arise from changes in market conditions and/or emergence of new corporate governance practices.

The Investor Relations and Financial Communications Department is also responsible for such activities as:

- Publicity of the Bank and preparation of presentations on DenizBank's overall position and its strategies and,
- Organization of meetings with investors and analysts,
- Informing investors through the website and maintaining e-mail correspondence with the investors,
- Contributing to the preparation of annual reports.

The Investor Relations and Financial Communications Department made significant contributions towards the Bank's publicity, and informed regulatory agencies and shareholders as a result of the publicity, information disclosure and analysis activities carried out throughout 2007 within the framework of its duties and responsibilities.

# **Auditors' Report 2007**

We, the auditors of DenizBank Inc., have reviewed the Company's books and accounts for 2007.

We have concluded that all books that need to be kept by the Company pursuant to the Tax Procedural Law, the Turkish Commercial Code and Banking Law, were kept in keeping with the laws, Articles of Association of the Bank and generally accepted accounting principles, and that all income and expenditures are founded on legal documents.

We have also determined that the balance sheet and income statement dated 31.12.2007 reflect the records kept between 01.01.2007 and 31.12.2007.

We hereby present it for your information.

Istanbul February 28, 2008

## To the Denizbank Incorporated General Assembly:

We are charged with auditing the annual report prepared as of December 31, 2007, of DenizBank Incorporated and its Subsidiaries Subject to Consolidation. The annual report is under the responsibility of the Bank's management. As the independent auditor company, our responsibility is to declare an opinion on the annual report by auditing the conformance of financial information presented in the annual report with the independently audited financial statements and the notes to the financial statements.

The audit was carried out in compliance with the procedures and principles regarding preparation and publishing of annual reports set forth by the Banking Law No: 5411 as well as regulations on independent audit principles. These regulations require planning and undertaking in order to provide reasonable assurance on whether the annual report contains a significant error. We believe that the audit we have performed constitutes reasonable and sufficient evidence for forming our opinion.

It is our opinion that the financial information presented in the attached annual report, with all of its significant components, accurately reflects the information regarding the Bank's financial position as of December 31, 2007, based on the procedures and principles stipulated in Article 40 of Banking Law No: 5411, including DenizBank Incorporated and its Subsidiaries Subject to Consolidation; contains the summary board of directors report and the independent auditor's opinion provided by us; and conforms with the information presented in the independently audited financial statements and notes to the financial statements.

Istanbul, February 28, 2008

> Akis Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Sirketi

**Murat Alsan**Responsible Partner, Chief Auditor

# **Assessments of the Audit Committee**

The Audit Committee is responsible for overseeing the Bank's accounting system, financial information and its disclosure to the public, as well as taking all required measures to provide for the supervision of the operation and efficiency of the internal control system. The members of the Committee are Eric P.B.A. Hermann, Dirk G.M. Bruneel and Independent member Mustafa Tinas Titiz.

The Audit Committee held five meetings in 2007. The Audit Committee, by rule, meets at least once every three months (four times a year).

The actions taken by the Audit Committee in 2007 are as follows:

- The Bank's financial statements and the notes to these statements for year-end 2006 and 3-month interim periods of 2007 were audited for their compliance with the Bank's accounting principles and international accounting standards as well as for the accuracy of underlying data. After solicitation of opinions of DenizBank's respective executives and the independent auditor, the audit results were reported to the Board of Directors along with the Audit Committee's own assessments.
- Internal audit plan for 2007 was reviewed and submitted for Board of Directors approval.
- The Audit Committee activity report to be submitted to the Board of Directors was prepared in the specified format and submitted for the Board of Directors approval.
- 2007 First, Second and Third Quarter reports prepared by the Board of Internal Auditors were reviewed and approved.

- Decision was taken for making the compliance and Internal Audit regulations of DenizBank and Dexia compatible with each other, to the extent allowed by the governing legislation.
- Internal Control and Risk Management reports were approved.
- A decision was made to use declaration forms on whether the staff authorized to extend loans have participated in the decision processes that resulted in extending loans to such staff, their spouses or children, or the companies controlled by them.
- A recommendation was made to the Board of Directors on the appointment of the Head of the Board of Internal Auditors.
- The report regarding outsourced services was reviewed and approved.

As a result of these actions by the Audit Committee:

- The Compliance Report was approved by the Audit Committee in its new format.
- Marie Eglantine Dessallien Delmas was appointed as the Head of the Board of Internal Auditors of DenizBank, to begin duty on November 1, 2007.

We observed that risk management policies and principles were diligently adhered to at all levels throughout the Bank. Constant efforts are expended to improve the internal control, risk management and Board of Internal Auditors activities of DenizBank.

# **Risk Management Policies**

## **Risk Management Group**

DenizBank Risk Management Group is structured in compliance with the legislation dated November 1, 2006. The Group is an internal systems unit that reports to the Board of Directors and is responsible for executing risk management operations.

The duty of the DenizBank Risk Management Group is defined within the framework of the principles established by the Bank's senior management, the Risk Management Group and is approved by the Board of Directors. The Group's task is to define and measure the risks, establish and implement risk policies and implementation methods, and analyze, monitor, report, research, confirm and audit risks.

As a result, the Bank is able to define measure, monitor and control the risks it is subject to through its policies, implementation methods and limits. All these methods are geared towards monitoring, keeping under control, and changing as necessary the risk-return structure of the Bank's future cash flows and the corresponding characteristics and level of its operations.

Periodic reporting of all risk analyses under the headings below must be made, since it is important in guiding the Audit Committee and the Assets and Liabilities Committee to better identify and monitor risk limits and developing risk management strategies.

#### Market Risk

DenizBank's strategy for managing market risk is to achieve the target profitability level stipulated in its medium and long-term strategies. This is done by assuming the minimum amount of risk while executing its operations in the money and capital markets in pursuit of profits.

DenizBank has adopted the Value at Risk (VaR) method in quantifying market risk, which is internationally accepted and is compatible with the volume, characteristics and complexity of DenizBank's money and capital markets operations. VaR expresses the potential loss that could materialize in the value of the consolidated portfolio of DenizBank and its financial subsidiaries. This method calculates the result from volatility in risk factors within a 99% confidence interval, under the assumption that the portfolio would stay constant for 10 days. VaR calculations are a fundamental indicator for monetarily quantifying and monitoring of the market risk that DenizBank and its financial subsidiaries are subject to. Allowing DenizBank to adapt to the changing market conditions when determining the risk level, VaR calculations are checked with back-testing analyses, which are performed regularly to test the reliability of the model.

DenizBank has identified risk-based limits on its money and capital market operations. These risk-based limits constitute the core of the daily risk management process and allow the Bank to monitor and control the market risk it is subject to, independent of the transaction and position limits.

## Structural Interest Risk

Weekly interest sensitivity analyses are performed in order to measure the potential impact of the Bank's maturity mismatch. Turkish Lira and foreign currency distinction is made for all instruments comprising the balance sheet. The duration and return of each instrument are calculated individually and hedging instruments are also included in these calculations. The Risk Management Group is responsible for monitoring the limits that have been set for the control and management of structural interest risk.

## Liquidity Risk

The liquidity risk report is produced to manage the Bank's liquidity gap by measuring liquidity for each maturity interval. Results are submitted to the Assets and Liabilities Committee on a weekly basis. Stress scenarios are regularly included in these reports.

#### Credit Risk

An endogenous risk rating model, which is based on statistical models as well as expert opinions, was developed for SME loans. DenizBank plans to begin using the model being developed for corporate and commercial loans in 2008. The model developed by Experian for retail loans and credit cards is being used in the loan application and limit determination stages.

#### Basel II

Within the framework of a project, the Risk Management Group is undertaking the tasks necessary for complying with the Basel II criteria stipulated by the BIS at both the Bank and the Dexia Group level. The developments regarding the project are monitored weekly at the related Bank units, as well as at the Operational Committee with the participation of IT, and presented monthly to the Orientation Committee. The section of the project pertaining to integration with Dexia is also undertaken as part of the same efforts. Within the framework of the regulatory requirements, the Basel II legal reporting will start at the beginning of 2009. Data consolidation and endogenous impact efforts are being carried out towards this

## Legal Reporting

The Risk Management Department is responsible for preparing the standard reports required by the banking regulatory agencies in Turkey. These reports are submitted to the Banking Regulation and Supervision Agency.

# Internal Control Center and the Board of Compliance

Internal Control Center and the Board of Compliance operate independent of the Bank's executive operations and reports directly to the Board of Directors. The Internal Control Center and the Board of Compliance executed its operations in two main areas during 2007.

## 1- Focusing on Internal control activities that are part of the daily Bank operations to the fullest extent possible:

The Internal Control Center continued its operations aimed at keeping the operational risk at acceptable levels, monitoring effective and efficient utilization of Bank resources. testing the reliability of the Bank's financial data, and overseeing that the operations are performed in compliance with the Bank's laws and rules. As of year-end 2007, Internal Control activities were performed through the following internal control departments:

- Internal Control-Branches Financial Control Department.
- Internal Control-Branches Internal Control Department.
- Internal Control-Treasury Control Department,
- Internal Control-Basic Controls and Support Department,
- Internal Control-IT Control Department.
- Internal Control-Loans and Credit Cards Department

# 2- Compliance activities:

Compliance activities were restructured and organized under three departments during 2007, creating an expansion in their areas of operation and staff. The Bank's compliance activities are continuing with practices that parallel the compliance practices of Dexia. Compliance activities are being performed through the following departments:

Corporate Compliance Department is responsible for establishing the basic compliance rules in coordination with the subsidiaries.

Anti-Laundering Department is responsible for preventing money laundering and financing of terrorism, identifying and monitoring suspicious transactions and reporting such transactions to the public authorities.

Legislation Department is responsible for monitoring and sharing with the organization the changes in legislation, and informing the relevant units in the Bank of the need for compliance with such changes.

#### **Board of Internal Auditors**

DenizBank Board of Directors formed an Audit Committee comprised of its own members. The Audit Committee is made up of independent members of the Board of Directors and meets on a regular basis to determine the Bank's audit policies.

Internal audit activities are performed under the guidance of the Member of the Board of Directors responsible for internal systems (audit, internal control, compliance and risk management) who is also an Audit Committee member. Internal audit activities must be in line with the requirements of the Bank and the Group and are carried out by internal auditors on the basis of international audit standards and the relevant local legislation. Internal auditors are organized in an independent department called the Board of Internal Auditors.

The number of internal auditors stands at 52 as of year-end 2007. Candidates for the Board of Internal Auditors are subjected to a conscientious selection process. Assistant Auditor candidates are subjected to talent and job conformance profile tests in addition to written and oral exams. After the candidates possessing the necessary qualifications are selected, a detailed training and career development plan is implemented. Assistants Auditors are required to go through a minimum of six months of theoretical and practical training. They must pass the examination conducted after this training before they can begin working on teams. Promotions from Assistant Auditor to Senior Assistant Auditor and from Senior Assistant Auditor to Auditor are also based on examinations.

Auditors perform periodic audits of the branches, Head Office, subsidiaries and perform joint audit activities with the Dexia Group Auditors. Audit plans are based on the risk analyses conducted by the Board of Internal Auditors.

Internal audit activities in 2007 were performed according to a previously devised plan. Special audits as well as legal and administrative investigations were conducted in areas deemed necessary.

### **Assessment of Financial Position**

DenizBank Shareholders' Equity and Capital Adequacy (EUR million)	2007	2006	2005
Shareholders' Equity	984	731	700

### Convenience Translation of the Independent Auditor's Report Originally Prepared and Issued in Turkish

#### To the Board of Directors of Denizbank Anonim Sirketi:

We have audited the unconsolidated balance sheet of Denizbank Anonim fiirketi as of 31 December 2007 and the related unconsolidated statements of income, cash flows, changes in shareholders' equity, and a summary of the significant accounting policies and other disclosures for the period then ended.

### Disclosure Related to the Responsibility of the Board of Directors of the Bank:

The Board of Directors of the Bank is responsible for the establishment of an internal control system, selection and application of appropriate accounting policies for the preparation and presentation of the reported financial statements in accordance with the Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents, dated 1 November 2006 which is published in the Official Gazette No.26333, Turkish Accounting Standards, Turkish Financial Reporting Standards, and other regulations, explanations and circulars on accounting and financial reporting principles announced by Banking Regulation and Supervision Agency (BRSA), free of material errors and misuse that could lead to false information within.

### Disclosure Related to the Responsibility of the Authorized Audit Company:

Our responsibility, as independent auditors, is to issue a report on the financial statements based on our audit. We conducted our audit in accordance with the Regulation on Authorization of Entities that Conduct Independent Audit in the Banks and Their Operations, dated 1 November 2006 which is published in the Official Gazette No.26333, and international auditing standards. Our independent audit was planned and conducted to provide reasonable assurance that the financial statements are free of material misstatement. Our independent audit involved the necessary techniques to collect audit evidence related to the figures included in the financial statements and accompanying footnotes; which have been determined based on our professional conviction. Those techniques have been selected by considering the effectiveness of the internal controls used in preparation and presentation of the financial statements and the appropriateness of the accounting policies applied. We believe that our audit provides a reasonable basis for our opinion expressed below.

#### **Independent Auditor's Opinion:**

In our opinion, based on our audit, the accompanying financial statements present fairly the financial position of Denizbank Anonim flirketi as of 31 December 2007, and of the results of its operations and its cash flows for the year then ended, in all material respects in accordance with regulations described in Article 37 of the (Turkish) Banking Law No 5411; and other regulations, explanations and circulars on accounting and financial reporting principles announced by BRSA.

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### SECTION ONE GENERAL INFORMATION

### I. Parent Bank's date of establishment, beginning statute, its history including changes on its statute

Denizbank A.fi. ("the Bank") was established as a public bank to provide financing services to the marine sector in 1938. In 1992, as a result of the resolution of the Government to merge some public banks, the Bank was merged to Emlakbank. Following the resolution of the High Council of Privatization numbered 97/5 and dated 20 March 1997 to privatize 100% of shares of Denizbank A.fi., share sale agreement between Zorlu Holding A.fi. and the Privatization Administration was signed on 29 May 1997 and the Bank started its activities on 25 August 1997. Bank's shares have been listed on Istanbul Stock Exchange since 1 October 2004. 0.221% of the Bank's shares are publicly held as of 30 September 2007.

Dexia Participation Belgique SA, owned 100% directly and indirectly by Dexia SA/NV, acquired 75% of the outstanding shares of the Bank from Zorlu Holding A.fi. on 17 October 2006. Subsequent to the transfer of shares, a tender offer was made for the public shares. Dexia Participation Belgique's ownership rate resides at 99.81% as of the balance sheet date.

### II. Capital structure, shareholders controlling the management and supervision of the Bank directly or indirectly, if exists, changes on these issues and the Group that the Bank belongs to

Name of the Shareholder	Amount (YTL)	Share %

Wouter G.M. Van Roste has been assigned as executive vice president responsible from public and project finance and corporate banking by the resolution dated 10 January 2007 and numbered 2007/1 of the Board of Directors.

Mustafa Tynas Titiz has been assigned as deputy chairman of the Board of Directors by the resolution dated 17 January 2007 and numbered 2007/2 of the Board of Directors.

The number of members of the Board of Directors has been determined as 11 at the Extraordinary General Assembly held on 17 January 2007; and Ayfer Yılmaz, Hugo R.R. Lasat, Bruno Yves Marie Rene Deletre, Alain Philippe Bernard Delouis and Eric P.B.A. Hermann have been assigned as new members of the Board of Directors.

Dirk G.M. Bruneel, Mustafa Tanas Titiz and Eric P.B.A. Hermann have been assigned as the members of the Audit Committee, by the resolution dated 17 January 2007 and numbered 2007/2 of the Board of Directors.

### **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

Mehmet Ali Yetim has been assigned as executive vice president responsible from corporate banking by the resolution dated 24 January 2007 and numbered 2007/4 of the Board of Directors.

By the resolution of the Board of Directors dated 2 May 2007 and numbered 2007/19. Mehmet Ali Yetim's title has been changed from executive vice president of corporate banking to executive vice president of commercial banking.

By the resolution of the Board of Directors dated 2 May 2007 and numbered 2007/19, Wouter Vn Roste's title has been changed from executive vice president of public and project finance to executive vice president of public project finance and corporate banking.

By the resolution of the Board of Directors dated 2 May 2007 and numbered 2007/19, Hasan Hüseyin Uyar's title has been changed from executive vice president of commercial banking to executive vice president of corporate and commercial loans.

Mustafa Aydın has been assigned as executive vice president responsible from retail, SME and agricultural loan allocation and foreign subsidiaries and branches; and O¤uz Vecdi Öncü has been assigned as executive vice president responsible from central operations, by the resolution dated 2 May 2007 and numbered 2007/19 of the Board of Directors.

### IV. Type of services provided and the areas of operations of the Bank

The Bank is a private sector deposit bank which provides banking services to its customers through 319 domestic and 1 foreign branch as of 31 December 2007.

Activities of the Bank as stated in the fourth clause of the Articles of Association are as follows:

- Accepting all kinds of deposits and performing banking activities.
- Dealing with transactions on all kinds of capital market tools within the limits set forth by the related deposit and Capital Market Law regulations.
- Entering into loan and intelligence agreements with domestic and international financial institutions and participating in consortiums and syndications.
- Lending all kinds of Turkish Lira and foreign currency short, medium and long term loans, and providing guarantee facilities.
- Incorporating insurance companies, operating insurance agencies, participating in insurance companies which are existing or planned to be founded.
- Using the funds to be allocated or provided by laws, regulations or agreements for its own objectives.
- Making all kinds of agreements and legal transactions related with its operations; signing written contracts, notes and miscellaneous documents and establishing correspondences.
- Purchasing, producing, constructing, leasing or acquiring by other means all kinds of movables, immovables and rights, selling, transferring or renting all or a part of such items. Establishing or releasing all kinds of rights in such items.
- Giving all kinds of loans and obtaining borrowings as necessary for performing its activities.
- Receiving, transferring or releasing all kinds of cash or non-cash guarantees, including sureties, collaterals, mortgages, pledges, etc., relating to its operations.
- Establishing domestic and/or foreign partnerships and participating in existing partnerships.
- Performing all kinds of operations in compliance with the Banking Law.

### Denizbank Anonim Şirketi

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### SECTION THREE ACCOUNTING POLICIES

### I. Basis of presentation

### 1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents

The new Turkish Banking Law No. 5411 is published in the Official Gazette No. 25983 dated 1 November 2005. The Bank prepared the accompanying financial statements and the related disclosures and footnotes in accordance with accounting and valuation standards as described in the "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333, "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, Turkish Accounting Standards ("TAS") and Turkish Financial Reporting Standards ("TFRS").

### 2. Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying financial statements are to be distributed, and International Financial Reporting Standards ("IFRS"), may have significant influence on the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

#### 3. Disclosures related to the accounting policies and financial statement presentation

### 3.1 Disclosures related to the first time application of Turkish Accounting Standards

The Bank has restated its prior period financial statements in accordance with TAS and TFRS as required by TAS 1 "Presentation of the Financial Statements". Deferred tax effect has been set off in prior period net profit as required by TAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". The effects of these restatements on prior period income of the accompanying financial statements, net of deferred taxes, are as follows:

			Current	<b>Prior Periods</b>	
	Val.Diff.	Other	Period Net	Net	Total
	of Sec.	Reserves	Profit/Loss	Profit/Loss	Equity
Balances Reported as of 31 December 2005	108,022	(3,611)	200,714	10,098	1,047,632
Correction of Employee Termination Benefits (TAS 19)	-	-	3,575	7,233	10,808
Fair Value Corrections Made to Valuation of Trading					
Purpose Derivatives (TAS 39)	-	-	892	(185)	707
Fair Value Corrections Made to Trading					
and Available-for-Sale Securities (TAS 39)	8,323	-	105	69	8,497
Correction of foreign exchange difference					
from subsidiaries *	-	4,603	-	14,133	18,736
Balances Restated as of 31 December 2005	116,345	992	205,286	31,348	1,086,380

<sup>\*</sup> According to BRSA's announcement dated 2 July 2007 and numbered BDDK.DZM.2/13/1-a-8615, it has been decided to carry investments in foreign subsidiaries at historical costs and foreign exchange difference amounting to YTL 4,603 which had been previously recorded in "other reserves" has been cancelled. On the other hand, since the financial statements of the Bank had been subject to inflation restatement until 31 December 2004, the historical costs of the investments in foreign subsidiaries are restated until that date, and the resulting inflation increase of YTL 14,133 is recorded in "prior period net profit/loss".

#### 3.2 Disclosures related to reclassifications

Leasehold improvements, amounting to YTL 31,984, net, at 31 December 2006, which had been classified among "intangible assets" at that date, are reclassified to "tangible assets".

Commission and fees received from cash loans, amounting to YTL 60,164 at 31 December 2006 are reclassified to "interest income from loans".

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

Commission and fees paid to cash loans, amounting to YTL 165 at 31 December 2006 are reclassified to "interest expense from loans".

Foreign exchange gains on foreign currency indexed loans, amounting to YTL 27,710 and foreign exchange losses on foreign currency indexed loans, amounting to YTL 12,892, at 31 December 2006 are reclassified to "foreign exchange gain/loss" instead of other operating income and expenses.

### 4. Accounting policies and valuation principles used in the preparation of the financial statements

Accounting policies and valuation principles used in the preparation of the financial statements are determined and applied in accordance with the requirements of TAS, TFRS, "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333 and "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430. Those policies and principles are explained by footnotes II through XXII below.

### II. Strategy for the use of financial instruments and the foreign currency operations

### 1. Strategy for the use of financial instruments

The Bank's external sources of funds are comprised of deposits with various maturity periods, and short-term borrowings. These funds are fixed rate in general and are utilized in high yield financial assets. The bulk of the funds are allocated to high yield, floating rate instruments, such as Turkish Lira and foreign currency government securities and Eurobonds, and to loans provided to customers on a selective basis in order to increase revenue and support liquidity.

The liquidity structure, insures meeting all liabilities becoming due, is formed by keeping sufficient levels of cash and cash equivalents by diversifying the sources of funds. The Bank assesses the maturity structure of the sources, and the maturity structure and yield of placements at market conditions and adopts a high yield policy in long-term placements.

There is not any segment of the Bank generating more return than the calculated average return for the Bank.

The Bank assumes risks within the pre-determined risk limits short-term currency, interest and price movements in money and capital markets and market conditions.

These positions are closely monitored by the Risk Management System of the Bank and the necessary precautions are taken if the limits are exceeded or should there be a change in the market environment.

In order to avoid interest rate risk, assets and liabilities with fixed and floating interests are kept in balance, taking the maturity structure into consideration.

The asset-liability balance is monitored on a daily basis in accordance with their maturity structure and foreign currency type. The risks associated with short-term positions are hedged through derivatives such as forwards, swaps and options.

No risks are taken on foreign currencies other than USD and Euro. If the position taken because of customer based activities exceeds 0.004% of the balance sheet size, derivative products are used to cover the position.

Convenience Translation of Unconsolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

### **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### 2. Transactions denominated in foreign currencies

### 2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and presentation of them in the financial statements

Bank accounts for the transactions denominated in foreign currencies in accordance with TAS 21 "The Effects of Changes in Foreign Exchange Rates". Foreign exchange gains and losses arising from transactions that are completed as of 31 December 2007 are translated to YTL by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities are translated into YTL by using foreign currency exchange rates of the Bank and the resulting exchange differences are recorded as foreign exchange gains and losses. The Bank's foreign currency exchange rates are as follows:

	31 December 2007	31 December 2006
US Dollars	1.1593 YTL	1.4056 YTL
Furo	1.7060 YTL	1.8515 YTL

#### 2.2 Foreign exchange gains and losses included in the income statement

Net foreign exchange gain included in the income statement amounts to YTL 132,895 (31 December 2006: net foreign exchange loss of YTL 92,938).

#### 2.3 Foreign exchange gains and losses included in the shareholders' equity

Foreign exchange differences arising on translation of the operations of Bahrain branch amount to YTL (4,395) and are recorded in "other reserves"

### III. Forward transactions, options and derivative instruments

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps, options and futures that are not categorized as hedging-purpose tools are classified as "trading purpose" transactions and reflected at their fair values. The fair values of forward foreign currency transactions are estimated using pricing models and unrealized gains or losses are recognized in the income statement.

The Bank does not have any embedded derivatives or hedging instruments.

The Bank's derivative transactions mainly consist of forward foreign currency purchase/sale contracts which have been transacted to reduce the foreign currency position risk and to protect the composition of the foreign currency position.

Derivatives are initially recognized at cost including the transaction costs. Also, the liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contract values.

The derivative transactions are valued at fair value using the pricing models subsequent to initial recognition and are presented in the "Positive Value of Trading Purpose Derivatives" and "Negative Value of Trading Purpose Derivatives" items of the balance sheet depending on the resulting positive or negative amounts of the computed value. Gains and losses arising from a change in the fair value of trading purpose derivatives are recognized in the "Trading Income/Loss" items of the income statement.

#### IV. Interest income and expense

Interest income and expense are recognized as they are accrued taking into account the internal rate of return method. As of 31 December 2007 and 2006, the Bank ceases to accrue interest income on loans that become non-performing. Interest accrual does not start until such loans become performing and are classified as performing loans or until collection in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", published in the Official Gazette No. 26333 dated 1 November 2006, which was prepared on the basis of the provisions of Articles 53 and 93 of the Banking Law no. 5411.

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### V. Fees and commissions

Commissions and income from banking services are spread over the life of the related services, except for some kind of transactions that the income is recognized immediately. Commission and income expenses are considered as transaction cost and recorded by "Internal rate of return" method. Income related to sale and purchase of assets on behalf of third parties are recorded when collected.

### **VI. Financial assets**

Financial assets are classified in four categories; as financial assets at fair value through profit or loss, investment securities available-for-sale, investment securities held-to-maturity, and loans and advances.

### 1. Financial assets at fair value through profit or loss

### 1.1 Trading securities

Trading securities are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, trading securities are measured at fair value and gains and losses arising from a change in the fair value are recognized in the income statement. Positive differences between the fair value and cost of trading securities are recorded in accrued interest and income account and negative differences between the fair value and cost of trading securities are recorded in impairment in value of marketable securities account in the financial statements. Derivative financial instruments are classified in the trading portfolio unless they are determined to be involved in hedging relations. Trading purpose derivative instruments are measured at fair value in subsequent periods and recorded in "positive or negative value of trading purpose derivatives" accounts based on the outcome of the fair value calculations.

The Bank recognized the gains and losses arising from the valuation of share certificates, and trading purpose derivative instruments, which are classified as trading securities, in the income statement.

Interest earned whilst holding trading securities is reported as interest income.

As of the balance sheet dates, the fair values of the Turkish Lira government securities are calculated using the Istanbul Stock Exchange (ISE) last day's weighted average prices for those securities traded in ISE; and for those securities not traded in ISE, the prices announced by the Central Bank of Turkey are used. Eurobonds and foreign currency government bonds are initially recognized at cost including transaction costs and subsequent to initial recognition, Eurobonds are measured at discounted prices while foreign currency government bonds are measured at fair value. However, those securities not traded in an active market and whose fair values cannot be reliably measured are valued using a discounting method based on internal rate of return. For equity securities, closing prices that are quoted at the balance sheet date are used. Fair value of derivative instruments are determined using market prices, discounted cash flows model, or pricing models.

### 1.2 Financial assets at fair value through profit or loss

The Bank does not have any securities classified as "financial assets at fair value through profit or loss".

#### 2. Investment securities available-for-sale

Available-for-sale assets are financial assets that are not held for trading purposes, loans and advances to banks and customers, or held to maturity.

Premiums and discounts on investments securities available-for-sale are taken into account in computing the internal rate of return and are included in interest income in the income statement. Accrued interest income on investment securities available-for-sale are recognized in the income statement whereas gains and losses arising from the change in the fair values of such securities are reflected in equity net of their tax effect under "Securities value increase fund" (Unrealized Gains/Losses on Securities). When investment securities available-for-sale are sold, collected or otherwise disposed of, the cumulative fair value adjustments under equity is transferred to the income statement.

Government bonds indexed to Cosumer Prices Index that are included in trading and available for sale securities have 5 years maturity, bearing fixed interest rate of 5% semi-annually. Additionally, to avoid inflationary effects, valuation is based on the difference between reference index of the original issue date and that of the balance sheet date, announced by Turkish Treasury.

The account classification of the financial assets is determined at the initial recognition stage of the related financial assets.

Convenience Translation of Unconsolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### 3. Investment securities held-to-maturity

Held-to-maturity securities are financial assets with fixed maturities and pre-determined payment schedules that the Bank has the intent and ability to hold until maturity, excluding loans and receivables. These securities are identified by the Bank management at their initial recognition and are classified as held-to-maturity securities in financial statements. Investment securities available-for-sale are financial assets that are other than securities held for trading purposes, investment securities held-to-maturity and loans and receivables.

Investment securities held-to-maturity and loans are initially recognized at cost. Investment securities held-to-maturity are accounted for by using a discounting method based on internal rate of return applied on the net investment amounts after the deduction of provision for impairments.

There are no financial assets that are banned from being classified as investment securities held-to maturity for two years due to the violation of the tainting rule.

Interest earned on held-to-maturity securities are recognized as interest income and are reflected in "Interest Received from Securities Portfolio-Held-to-Maturity Securities" in the income statement.

Purchases/sales of held-to-maturity securities are recognized and accounted for at their dates of delivery.

### 4. Loans and specific provisions

Loans are initially recorded at cost and are subsequently valued using a discounting method based on internal rate of return.

Cash loans are accounted in accordance with the principles in TAS 39 "Financial Instruments: Recognition and Measurement".

Foreign currency loans are re-measured to reflect the changes in the currency exchange rates. Currency exchange differences arising from such re-measurements are reflected in "Foreign Exchange Gains/Losses" account in the income statement. Foreign currency-indexed loans are initially recognized in their Turkish Lira equivalents. The currency exchange differences arising from these loans are reflected as "Other Operating Income/Expense". Accrued interest income on loans is calculated using a discounting method based on internal rate of return.

Based on the regular reviews of the loan portfolio by the Bank management, loans that are identified as being impaired are transferred to "loans under follow-up" accounts. Thereby, specific allowances are made against the carrying amount of these loans in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", which was prepared on the basis of the provisions of Articles 53 and 93 of the Banking Law no. 5411. Specific provisions are recognized in the income statement.

When collections are made on loans that have been provided for, they are credited to the income statement accounts "Provision for Loan Losses or Other Receivables" if the provision was made in the current year, otherwise such collections are credited to "Other Operating Income" account with respect to allowances made in the prior years. The interest income recovered is booked in "Other Interest Income" account.

### VII. Impairment of financial assets

If the carrying value of an asset is higher than its recoverable value, that asset is considered to be impaired and its carrying value should be adjusted to reflect its recoverable value. The impairment of financial assets are reflected to the accompanying financial statements in accordance with TAS 36 "Impairment of Assets".

#### **VIII. Offsetting financial instruments**

When the fair values of the quoted equity instruments that are classified as "trading purpose" fall below their costs, impairment provision is booked for them which is netted-off from book value in the financial statements.

In accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", the Bank provides specific provisions for its loans under follow-up. Those provisions are deducted from the balance of the loans under follow-up in the assets of the balance sheet.

Financial instruments other than those mentioned above were not offset in the accompanying financial statements.

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### IX. Sale and repurchase agreements and transactions related to the lending of securities

Government bonds and treasury bills sold to customers under repurchase agreements are reflected on the assets side of the accompanying balance sheet as "Trading Securities" or "Investment Securities Available for Sale". The funds received on such transactions and the accrued interest expense are reflected as "Funds Provided under Repurchase Agreements" on the liability side of the accompanying balance sheet. Interest expense representing the difference between the sale and repurchase price of the related repurchase agreements is accounted on an accrual basis.

### X. Assets held for sale and discontinued operations

Assets held for sale comprise tangible assets received against non-performing loans. Payable related to assets held for sale are also classified separately in the balance sheet. These items are not netted off in the financial statements.

Assets held for sale are accounted in accordance with the "Regulation on the Methods and Principles of Purchase and Sale of Precious Metals and Disposal of Commodities and Real Estate Obtained Against Receivables", dated 1 November 2006 and published in the Official Gazette no. 26333. As of the balance sheet date, the Bank's assets held for sale amount to YTL 15,325 (31 December 2006: YTL 15,363).

The bank does not have any discontinued operations.

### XI. Goodwill and other intangible assets

There is no goodwill in the accompanying financial statements.

All intangible assets are initially recognized at cost in accordance with TAS 38 "Intangible Assets". According to the resolution of the BRSA No. 1623 dated 21 April 2005, the banks and special financial institutions are no longer required to prepare their financial statements in accordance with RAP 14 "Accounting Standard for Financial Reporting in Hyperinflationary Periods" since the indicators of hyperinflation as disclosed in Article 5 of RAP 14 are no longer existing in Turkey. In line with this resolution, other intangible assets have been restated for the effects of inflation, up to 31 December 2004. Any currency exchange differences, financing expenses and revaluation surplus that might have been capitalized are eliminated and only the acquisition cost of the intangible assets are restated until 31 December 2004. The new additions to intangible assets after 31 December 2004 are shown with their historic costs excluding any currency exchange differences and financing expenses capitalized.

Intangible assets purchased before 1 January 2003 and those purchased in 2007 are amortized on a straight-line basis based on the amortization rate of 20% and those purchased between the dates mentioned above are amortized using the double-declining balance method based on the amortization rate of 40%.

Gains and losses resulting from the disposal of intangible assets are recognized in "Other Operating Income/Expense" account in the income statement representing the difference between the net restated value of the intangible assets after the inflation adjustment until 31 December 2004 and their net sales revenue.

Useful life of an asset is estimated by assessment of the expected life span of the asset, technical, technological wear outs, of the asset. The amortization rates used approximate the useful lives of the assets.

Costs associated with the computer software that are in use are expensed at the period of occurrence.

### XII. Tangible assets

All tangible assets are initially recognized at their acquisition cost in accordance with TAS 16 "Tangible Assets".

According to the resolution of the BRSA No. 1623 dated 21 April 2005, the banks and special financial institutions are no longer required to prepare their financial statements in accordance with RAP 14 "Accounting Standard for Financial Reporting in Hyperinflationary Periods" since the indicators of hyperinflation as disclosed in Article 5 of RAP 14 are no longer existing in Turkey. In line with this resolution, tangible assets have been restated for the effects of inflation, up to 31 December 2004. Any currency exchange differences, financing expenses and revaluation surplus that might have been capitalized are eliminated and only the acquisition cost of the tangible assets are restated until 31 December 2004. The new additions to tangible assets after 31 December 2004 are shown with their historic costs excluding any currency exchange differences and financing expenses capitalized.

Convenience Translation of Unconsolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

Tangible assets purchased before 2003 and in 2007 are depreciated on a straight-line basis and those purchased in 2003, 2004, 2005 and 2006 are depreciated using the double-declining balance method. The depreciation rates used are as follows:

		Purchased	
	Purchased	between	Purchased
	before 2003	2003-2007	in 2007
Movables			
- Office equipment	20%	40%-50%	20%-25%
- Furniture and fixtures	20%	20%-50%	10%-20%
- Vehicles	20%	40%-50%	20%-50%
- Other equipment	20%	4.44%-50%	2.50%-50%
Immovable	2%	2%	2%

The Bank has an impairment provision of YTL 4,402, which had been recorded in the prior year, for its buildings as of the reporting date.

Gains and losses resulting from the disposal of tangible assets are recognized in "Other Operating Income/Expense" account in the income statement representing the difference between the net restated value of the tangible assets after the inflation adjustment until 31 December 2004 and their net sales revenue.

Expenditures for maintenance and repairs that are routinely made on tangible assets are charged as expense. Expenditures that extend the capacity of the tangible assets or those that extend the useful life and service capacity of the asset, or enhance the quality of the service, or decrease the cost of services are capitalized.

There are no restrictions such as pledges and mortgages on tangible assets or any purchase commitments.

### XIII. Leasing activities

The maximum period of the lease contracts is 4 years. Fixed assets acquired by way of financial leasing are recognized in tangible assets and depreciated in line with fixed assets group they relate to. The obligations under financial leases arising from the lease contracts are presented under "Financial Lease Payables" account in the balance sheet. Interest expense and currency exchange rate differences related to leasing activities are recognized in the income statement.

In the event that the lease contracts are terminated before the lease period expires, penalty required to be paid to the lessor is expensed in the period in which the lease is terminated. There are no lease contracts that were terminated before the lease period expired.

The Bank is not involved in financial leasing activities as a lessor.

### **XIV. Provisions and contingencies**

Provisions, other than specific and general provisions for loans and other receivables, and contingent liabilities are provided for in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by the Bank management. Whenever the amount of such obligations cannot be measured, they are regarded as "Contingent". If the possibility of an outflow of resources embodying economic benefits becomes probable and the amount of the obligation can be measured with sufficient reliability, a provision is recognized. If the amount of the obligation cannot be measured with sufficient reliability or the possibility of an outflow of resources embodying economic benefits is remote, such liabilities are disclosed in the footnotes.

Based on the representations of the Bank's attorneys, there are 301 lawsuits against the Bank with total risks amounting to YTL 23,787, USD 1,641,018 and EUR 110,799 as of 31 December 2007. There are also 8,012 follow-up cases amounting to YTL 22,668, USD 622,604 and EUR 196,251 in total that are filed by the Bank and are at courts.

### XV. Contingent assets

Contingent assets are only recorded in the financial statements if the conditions and events giving way to the assets are highly probable. Otherwise, they are only disclosed in footnotes.

## **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### XVI. Commitments for personnel rights

In accordance with existing legislation in Turkey, the banks have to make certain lump-sum payments to employees whose employment is terminated due to retirement or reasons other than resignation or misconduct. Such payments are calculated on the basis of 30 days' pay per year of employment at the rate of pay applicable at the date of retirement or termination. Provision for employee severance benefits has been accounted for in accordance with TAS 19 "Employee Benefits", by using actuarial method and discounting total provision by using the current market yield at the balance sheet date on government bonds.

The principal actuarial assumptions used are as follows:

	31.12.2007	31.12.2006
	%	%
Discount rate	5.71	5.71
Expected rate of salary/limit increase	5.00	5.00
Turnover rate to estimate the probability of retirement	7.31	7.31

The computation of the liability is predicated upon retirement pay ceiling announced by the Government. The ceiling amount at 31 December 2007 is YTL 2.030; at 31 December 2006 it was YTL 1.857.

There are no employees who have been on an employment contract that will terminate within more than twelve months from the balance sheet date.

There are no employees who are members of foundations, pensions and similar associations.

### **XVII. Taxation**

### 1. Current taxes

In accordance with the amendments made to the tax legislation by Law No. 5520, effective 21 June 2006, the corporate tax rate is levied at the rate 20% (30% for 2005), beginning from 2006. In accordance with the tax legislation, corporate taxes are paid in advance based on the tax base calculated on the quarterly earnings of the companies at the rate of 30%. These payments can be deducted from the annual corporate tax calculated for the whole year earnings. Such taxes paid in advance that are deducted from the final corporate tax liability are reflected as "Current Tax Assets" on the assets side of the balance sheet.

Companies file their tax returns between the 1st and 25th days of the following four months period after to which they relate and the payments are made until the end of that month.

The provision for corporate tax for the period is reflected as the "Current Tax Liability" and "Current Tax Provision" in the financial statements.

In accordance with the Corporate Tax Law, tax losses can be carried forward for five years. The tax authorities can inspect tax returns and the related accounting records back to a maximum period of five years.

Effective from 24 April 2003, statutory income, including retained earnings from 2002 and before, is not subject to withholding tax if retained, or transferred to share capital or distributed as dividend to the full fledged taxpayer corporations. However, it is subject to withholding tax at 10% if distributed as dividend to full fledged individual taxpayers, taxpayers who are exempt from corporate and income taxes, non-resident taxpayer companies (except for those companies having local offices or representatives) and non-resident individual taxpayers. That withholding tax has decreased to 15% by the Resolution of the Council of Ministers no. 2006/10731, dated 22 July 2006.

#### 2. Deferred taxes

In accordance with TAS 12 "Income Taxes", the Bank accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax assets and liabilities have been offset in the financial statements, resulting in a net deferred tax asset of YTL 14,789. Deferred taxes directly related to equity items are recognized and offset in related equity accounts.

### Denizbank Anonim Şirketi

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### XVIII. Additional explanations on borrowings

Instruments representing the borrowings are initially recognized at cost and measured by a discounting method based on the internal rate of return. Foreign currency borrowings have been translated using the foreign currency buying rate of the Bank at the balance sheet date. Interest expense incurred for the period has been recognized in the accompanying financial statements.

The Bank uses general hedging techniques for borrowings against liquidity, interest rate and currency risks. However, these are not regarded as hedging instruments according to TAS 39.

As of the balance sheet date, there are no convertible bonds issued and there exist no financial instruments representing borrowings issued by the Bank.

#### XIX. Paid-in capital

Transactions related to issuance of share certificates are explained in footnote 5.II.12. There are no dividends declared subsequent to the balance sheet date.

#### XX. Acceptances

Acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts, if any,

As of the balance sheet date, there are no acceptances recorded as liability in return for assets.

#### XXI. Government grants

As of the balance sheet date, the Bank does not have any government grants.

#### **XXII. Segment reporting**

Segment reporting is made according to the 28th article of BRSA's "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, and is presented in Section Four, footnote IX.

#### **XXIII. Other explanations**

Turkish Financial Reporting Standard no.7-Financial Instruments: Disclosures ("TFRS 7") is applied for the periods starting from 1 January 2007.

### SECTION FOUR FINANCIAL POSITION

#### I. Capital adequacy ratio

The Bank's capital adequacy ratio is 13.20% as of 31 December 2007. Minimum requirement for this ratio is stipulated as 8% in related legislation.

### 1. Risk measurement methods in the calculation of capital adequacy ratio

Capital adequacy ratio is calculated in accordance with the "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks" published in the Official Gazette No.26333, dated 1 November 2006. For the calculation of the capital adequacy ratio, the accounting records prepared in compliance with the current legislation are used. According to the requirements of the Regulation, starting from 30 June 2007, operational risk is included in the computation of capital adequacy ratio. Moreover, market risk value is calculated in accordance with the "Regulation on Banks' Internal Control and Risk Management Systems" and factored into capital adequacy ratio.

The items deducted from the capital base are not included in the calculation of risk weighted assets, non-cash loans and liabilities. For the calculation of risk weighted assets, impairments, depreciation and amortization, and provisions are considered as deduction items.

## **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

For the calculation of their risk-based values, non-cash loans are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside". The net amounts are then multiplied by the rates stated in the Article 21, paragraph (1) of "Regulation on the Establishment and Operations of Banks". For the calculation of their risk based values, derivative financial instruments are re-weighted and classified according to the related risk groups after being multiplied by the rates stated in the Article 21, paragraph (2) of "Regulation on the Establishment and Operations of Banks".

	TOTAL SHAREHOLDERS' EQUITY	1,759,472	1,388,419

As explained in Section Three "Accounting Policies", 2nd article "Disclosures related to the first time application of Turkish Accounting Standards", "prior years profit/loss" has been increased by YTL 14,133. In case this amount had been reflected to the prior period's calculation, the shareholders' equity and the capital adequacy ratio would have been 1,397,876 and 15.60%, respectively.

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### II. Credit risk

### 1. Information on risk concentrations by debtors or group of debtors or geographical regions and sectors, basis for risk limits and the frequency of risk appraisals

Credit risk is the risk that the counterparties may be unable to meet in full or part their commitments arising from contracts.

Credit risk limits of the customers are determined based on the customers' financial strength and the credit requirement, within the credit authorization limits of the branches, the credit evaluation group, the regional directorates, the executive vice president responsible from loans, the general manager, the credit committee and the board of directors.

Credit risk limits that are determined on customer and customer group basis are closely followed up. Previously determined credit limits are reassessed on a weekly basis according to changing conditions.

Information on determination and distribution of risk limits for daily transactions, monitoring of risk concentrations related to off-balance sheet items per customer and dealer basis:

Risk limits relating to daily transactions are monitored on a daily basis. Off-balance sheet risk concentrations are followed-up strictly.

Information on periodical analysis of creditworthiness of loans and other receivables per legislation, inspection of account vouchers taken against new loans, if not inspected, the reasons for it, credit limit renewals, collaterals against loans and other receivables:

The Bank has process instructions for loans, follow-up and control procedures for loans and risk classifications in accordance with the banking legislation.

The Bank aims to get early warning signals on all customers in its loan portfolio in the event of any emerging structural problems and cyclical changes. This way, problematic customers are determined properly and necessary precautions are taken.

Care is given to obtain collaterals against loans. It is preferred to obtain highly liquid collaterals such as bank guarantees, real estate and ship mortgages, pledges on securities and sureties of the persons and companies.

2. Information on the control limits of the Bank for forward transactions, options and similar contracts, management of credit risk for these instruments together with the potential risks arising from market conditions

The Bank has control limits defined for the positions arising from forward transactions, options and similar contracts. Credit risk for these instruments is managed together with those arising from market conditions.

3. Information on whether the Bank decreases the risk by liquidating its forward transactions, options and similar contracts in case of facing a significant credit risk or not

Forward transactions can be realized at maturity. However, if it is required, reverse positions of the current positions are purchased to decrease the risk.

4. Information on whether the indemnified non-cash loans are evaluated as having the same risk weight as non-performing loans or not

Indemnified non-cash loans are treated as having the same risk weight as non-performing loans.

Information on whether the loans that are renewed and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations or not; whether new precautions are considered in these methods or not; whether the Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk or not

Loans that are renewed and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations.

The Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk and are followed up periodically.

### Denizbank Anonim Şirketi

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### 5. Evaluation of the significance of country specific risk if the banks have foreign operations and credit transactions in a few countries or these operations are coordinated with a few financial entities

There is no significant credit risk since the Bank's foreign operations and credit transactions are conducted in OECD or European Union member countries

Evaluation of the Bank's competitive credit risk as being an active participant in the international banking transactions market Being an active participant in the international banking transactions market, the Bank does not have significant credit risk as compared to other financial institutions.

#### 6. The Bank's top 100 cash and top 100 non cash loans customers-

a) The share of the top 100 cash loan customers in the total cash loans portfolio:

The share of the top 100 cash loan customers comprise 28% of the total cash loans portfolio (31 December 2006: 30%).

b) The share of the top 100 non-cash loan customers in the total loan non-cash loans portfolio:

The share of the top 100 non-cash loan customers comprise 55% of the total non-cash loans portfolio (31 December 2006: 56%).

c) The share of the total cash and non-cash loan balance of the top 100 loan customers in the total assets and off-balance sheet items:

The Bank's total cash and non-cash loans from its top 100 loan customers comprise 17% of the total assets and off-balance sheet items (31 December 2006: 17%).

### 7. The Bank's general loan provision for its loans

As at 31 December 2007, the Bank's general loan provision amounts to YTL 78,987 (31 December 2006: YTL 52,559).

Total	7.300.845	2.634.657	469.509	10.405.011

#### III. Market risk

Whether the bank within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

The Bank has defined its risk management procedures and has taken necessary precautions in order to avoid market risks, in compliance with "Regulation on Bank's Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks".

As the main precaution against being exposed to market risk, the Bank's Board of Directors identifies risk limits determined in the context of economic capital.

Standard method and the internal risk measurement model are used in calculating the market risk. The criteria for the standard method have been set by the BRSA and are reported on a monthly basis. Internal risk measurement model is applied on a daily basis.

## **Unconsolidated Financial Report** as of 31 December 2007

## Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### V. Foreign currency exchange rate risk

1. Whether the bank is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the board of directors of the bank sets limits for positions that are monitored daily

Foreign currency exchange and parity risks are not taken by the Bank and transactions are simultaneously hedged in conformity with foreign currency basket of the Central Bank of Turkey. Measurable and manageable risks are taken within legal limits.

Foreign currency exchange rate risk is monitored along with potential evaluation differences in foreign currency transactions in accordance with "Regulation on Bank's Internal Control and Risk Management Systems". Standard method is used in measuring currency exchange rate risk on a weekly basis.

The Bank's Board of Directors reviews the risk limits and makes the necessary changes, daily, based on general economic environment and market conditions

2. The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using derivatives. The Bank does not hedge foreign currency borrowings and net foreign currency investments by way of derivative instruments.

#### 3. Foreign exchange risk management strategy

Foreign currency exchange and parity risks are not taken by the Bank and transactions are simultaneously hedged in conformity with foreign currency basket of the Central Bank of Turkey. Measurable and manageable risks are taken within legal limits.

### 4. Bank's spot foreign exchange bid rates as of the balance sheet date and for each of the five days prior to that date

US Dollar purchase rate at the date of the balance sheet

Euro purchase rate at the date of the balance sheet

YTL 1.1593

YTL 1.7060

Date	US Dollar	Euro
25 December 2007	1.1746	1.6917
26 December 2007	1.1715	1.6912
27 December 2007	1.1708	1.6976
28 December 2007	1.1647	1.7102
31 December 2007	1.1593	1.7060

#### 5. The basic arithmetical average of the bank's foreign exchange bid rate for the last thirty days

The arithmetical average of the Bank's US Dollar and Euro purchase rates for December 2007 are YTL 1.1723 and YTL 1.7081, respectively.

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### 6.1 Currency risk exposure

The table below demonstrates prospective increase and decrease in equity and profit/loss as of 31 December 2007 and 2006 (excluding tax effect) on condition that YTL devaluates 10 per cent against the currencies below. This analysis has been prepared under the assumption that other variables, especially interest rates, are stable.

	Curren	Current Period		Period
	Profit or Loss	Equity (*)	Profit or Loss	Equity (*)
USD	18,863	18,863	24,751	24,751
EUR	(15,778)	(15,778)	(7,291)	(7,291)
Other FC	2,027	2,027	411	411
Total (Net)	(5,112)	(5,112)	17,871	17,871

<sup>(\*)</sup> Equity effect consists of income statement effect of 10 per cent devaluation of YTL against other currencies in the table.

#### VI. Interest rate risk

1. Interest rate sensitivity of the assets, liabilities and off-balance sheet

Standard method is used in measuring the interest rate risk of assets, liabilities and off-balance sheet items.

2. The expected effects of the fluctuations of market interest rates on the Bank's financial position and cash flows, the expectations for interest income, and the limits the board of directors has established on daily interest rates

The Bank relies on historical stress-testing in determining limits against negative market conditions and monitors the risk within this context.

Market interest rates are monitored daily and interest rates are revised when necessary.

3. The precautions taken for the interest rate risk the Bank was exposed to during the current year and their expected effects on net income and shareholders' equity in the future periods

The Bank uses value at risk, historical stress-testing, gapping and duration gap methods to analyze and take precautions against interest rate risk faced during current period. Interest rate risk is minimized, by way of historical stress-testing.

### 5. Possible effects of interest rate sensitivity of financial assets and liabilities on net income and equity in the future

The interest rate sensitivity of the income statement at 31 December 2007 is calculated by the effect of possible changes in interest rates on the floating rate, non-trading financial assets and liabilities. The sensitivity of the equity is calculated by the revaluation of the available for sale securities portfolio based on possible interest rate changes. Tax effects are ignored during calculations. Other variables, especially foreign exchange rates are held constant in the analysis.

	Cur	Current Period		r Period
	1% increase	1% decrease	1% increase	1% decrease

### Denizbank Anonim Şirketi

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### VII. Liquidity risk

# 1. The sources of the current liquidity risk of the Bank; whether the necessary precautions have been taken, whether the Board of directors sets limits on the funds available to meet the urgent liquidity requirements and to be able pay borrowings when they become due

Liquidity risk arises from maturity mismatch between assets and liabilities. Maturity mismatch between assets and liabilities is kept under control based on certain criteria set by the Bank. The Bank maintains liquid assets to guarantee sufficient liquidity during market fluctuations. In order to meet any urgent liquidity needs, approximately 6% of the balance sheet is allocated to cash balances, 8% to investment securities which are cash equivalent, and the present borrowing limits (such as Central Bank of Turkey and ISE repurchase market) are not used. The Bank's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

## 2. Whether the payments, assets and liabilities match with the interest rates, and whether the effect of mismatch on profitability is measured

The Bank's payments, assets and liabilities match with the interest rates.

### 3. Internal and external sources to meet the short and long-term liquidity needs, significant sources of liquidity that are not utilized

Approximately 6% of balance sheet size is allocated to cash balances, 8% to investment securities which are cash equivalent in order to meet any urgent liquidity needs. The present borrowing limits (such as Central Bank of Turkey and ISE repurchase market) are not used. The Bank's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

### 4. Evaluation of the Bank's cash flows and their resources

Cash flows of the Bank mainly consist of New Turkish Lira, US Dollars and Euro. In the short and long run, liquidity needs or surplus funds are utilized in interbank money market placements, deposits and loans.

### 5. Liquidity ratios of the Bank

According to the requirements of BRSA's "Regulation on Calculation of Liquidity Adequacy of the Banks", dated 1 November 2006 which is published in the Official Gazette No.26333, the Banks are obliged to maintain a liquidity ratio of 80% on foreign currency denominated assets/liabilities, and 100% on total assets/liabilities, calculated on a weekly and monthly basis, effective from 1 June 2007. The ratios of 2007 were as follows:

	First Maturit	y Segment (Weekly)	Second Maturity	Segment (Monthly)
	FC	FC + YTL	FC	FC + YTL
Average (%)	142.78	125.83	116.82	107.64
Max. (%)	181.50	146.15	144.82	130.19
Min (%)	111 25	108 60	98.01	102.06

### Denizbank Anonim Şirketi

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### VIII. Presentation of financial assets and liabilities at their fair value

Estimated fair value of investment securities available for sale and held to maturity are determined by their quoted market prices or prices of instruments with similar interest rates, maturities and other variables, in case an active market is not available.

Estimated fair value of loans and deposits are calculated by discounting their cash flows with current market rates. Fair value of floating rate items are accepted to approximate their carrying values.

	Carryi	Carrying value		value
	Current period	Prior period	Current period	Prior period
Financial Assets	13,042,926	9,924,178	13,043,638	9,819,821
Interbank money market placements	-	-	-	-

Other deposits	8,361,372	7,090,666	8,363,003	7,092,109
Funds borrowed from other financial institutions	2,594,578	2,312,146	2,598,839	2,301,412
Marketable securities issued	-	-	-	-
Miscellaneous payables	238,087	230,367	238,087	230,367

<sup>(\*)</sup> Fair value of held to maturity investments are accepted to approximate their carrying values since no active market exists.

### IX. Activities carried out on behalf and account of other persons

1. Information on whether the Group performs sales, purchase, management, consultancy and custody services on behalf and account of others, or not

The Bank performs sales, purchase, management, consultancy and custody services on behalf and account of others persons.

2. Are there transactions directly realized with other financial institutions depending on religious beliefs contracts? And is there a possibility of material effect on the finacial situation of the Bank or Group induced from these kinds of transactions?

None.

### X. Segment reporting

The Bank is mainly active in three areas; retail banking, corporate banking and treasury and investment banking.

In retail banking, it offers loan products (general purpose, mortgage, and auto), credit cards, investment products (mutual funds, shares, government bonds, and repos), deposit products (time, demand, protected), insurance products, SME loans as well as agricultural loans. Alternative distribution channels allow customers to meet their banking needs without the need to physically visit the branches. Among products that meet everyday needs of customers are overdraft loans, automated bill payment, checkbooks and rental safes.

Corporate banking offers financial and banking solutions to large-scale local and international corporate and commercial customers. In order to meet customer needs related to projects, investment and working capital, corporate banking offers short-and long-term working capital loans, investment loans, non-cash loans, foreign exchange transactions, export finance, project finance, structured finance, corporate finance services, clearing, deposit products and cash management services.

Within treasury and investment banking, sales, prop-trading and private banking departments offer spot and forward YTL and foreign exchange transactions, sales transactions of local and international bonds and derivative products. Servicing the upper segment of retail customers who require sophisticated banking and investment services falls within the scope of private banking.

### 5.12 Liquidation policy for uncollectible loans and receivables

For uncollectible loans and receivables, the Bank tries to solve the issue with the customer. If no result is obtained, all legal actions are taken.

### 5.13 Information on write-off from assets policy

If the receivable amount is immaterial when compared to the expenses the Bank should undergo in order to collect the receivable, write-offs are performed by the resolution of the Board of Directors.

#### 8.2.2 Quoted subsidiaries

None.

### 8.2.3 Subsidiaries disposed during the current period

None

### 8.2.4 Subsidiaries purchased in the current period

On 3 October 2006, the Bank has started negotiations with Global Yathom Holding A.fi. ("Global Yathom") regarding the purchase of shares held at Global Hayat Sigorta A.fi. ("Global Hayat"); and on 26 January 2007, a Share Purchase Agreement has been signed between the parties. Pursuant to this Agreement, Global Yathom has agreed to transfer 99.6% of Global Hayat's issued share capital to the Bank. This transaction is approved by the General Directorate of Insurance of Undersecretariat of

Turkish Treasury and the transfer is realized on 30 March 2007, with a price of YTL 2,515. Global Hayat Sigorta A.fi. changed its name to Deniz Hayat Sigorta A.fi. on 10 August 2007.

### 9. Information on joint ventures

The Bank does not have any joint ventures.

<sup>12.1</sup> If the amount of an allowance for the decrease in the value of a specific asset or the reversal from an allowance for the decrease in the value of a specific asset is significant in the financial statements

In order to analyse the effects of the fluctuation in the real estate market, the Bank has conducted an expertise study of its buildings in 2006.

There has been no significant fluctuations in the real estate and the Bank did not conduct an expertise study in 2007 accordingly.

<sup>12.1.1</sup> Events and conditions that resulted in an allowance or the reversal of an allowance for the decrease in the value of the asset

# **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### 12.1.2 Amount recorded or reversed in the financial statements

The Bank has booked an impairment loss provision of YTL 4,402 for three of its buildings in 2006.

12.2 Current year charge recorded in the financial statements as an allowance for the decrease in the value of a group of assets or income from the reversal of an allowance for the decrease in the value of a group of assets and events and conditions that resulted in them

None.

#### 13. Information on intangible assets

#### 13.1 Useful lives and amortization rates

The useful life of an asset is determined by taking the asset's expected economic life, technical, technological or other kinds of weariness, and maintenance costs into account. The amortization rates used are in accordance with the useful lives of the underlying assets. The useful lives are determined as defined by TAS 38 "Intangible Assets".

#### 13.2 Amortization methods

The Bank uses straight line amortization method for intangibles purchased before 1 January 2003 and after 31 December 2006, by the rate of 20%. Assets purchased in other periods are amortized by 40% using double-declining amortization method.

#### 13.3 Movement of intangible assets

### Denizbank Anonim Şirketi

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

13.8 Amount of any commitments granted for the purchase of intangible assets

None.

13.9 In case of a revaluation, information to be supplied in the table below, on an asset by asset basis for intangible assets

None.

13.10 Total amount charged to income statement as research and development expense, if any

Research and development expenses amount to YTL 217 in the current year (31 December 2006: YTL 377).

13.11 Goodwill or negative goodwill arising from consolidated investments

None.

#### 14. Investment property

None.

#### 15. Information on deferred tax asset

15.1 Amount of deferred tax asset recognized in the balance sheet in respect of each type of deductible temporary differences, unused tax losses, unused tax credits

Net deferred tax asset calculated on the basis of related regulation is YTL 14,789. The amount is the net of deductible temporary differences and taxable temporary differences calculated as of the balance sheet date.

According to TAS 12, deferred tax assets, amounting to YTL 23,060 and deferred tax liabilities, amounting to YTL 8,271 are offset against each other in the financial statements.

Deferred tax effects of items charged or credited to equity are also charged or credited directly to equity.

15.2 Amount and expiry date of deductible temporary differences, unused tax losses, unused tax credits for which no deferred tax asset is recognized in the balance sheet

None.

15.3 Deferred tax asset resulting from the cancellation of the provision for impairment losses related to the deferred taxes

None.

### 9. Taxes for continued and discontinued operations

### 9.1 Current period taxation benefit or charge and deferred tax benefit or charge

The current period taxation charge is YTL 76,208 and deferred tax benefit is YTL 17,161.

Corporate Tax Rate is reduced from 30% to 20% in accordance with the article 32 of the new Corporate Tax Law No 5520, as announced in the Official Gazette dated 21 June 2006, no.26205. Consequently, corporate earnings is subject to 20% corporate tax rate starting from 1 January 2006. It is announced that corporate taxes which have been computed and paid using the corporate tax rate of 30% for the taxation periods before the new Law is enacted, will be offset against the corporate taxes of the following periods.

### 9.2 Deferred tax benefit arising from origination or reversal of temporary differences

### Denizbank Anonim Şirketi

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### 11. Net profit and loss

### 11.1 Any further explanation on operating results needed for a proper understanding of the Bank's performance

Income generated from the Bank's ordinary banking transactions during the current and prior period are mainly consisted of interest income from loans and marketable securities and income from other banking services. Main expense items are the interest expenses related to deposits and borrowings which are the main funding sources of marketable securities and loans. The size and recurring ratio of these items are not significant which would require additional explanation and disclosure.

- 11.2 Changes in estimations made by the Bank do not have a material effect on current and subsequent period profit/loss.
- 11.3 Since there is no minority right in the share capital of the Bank, there is not any profit or loss related to minority rights.
- 11.4 No changes have been made in the accounting estimates which may have a material effect in current period and materially affect subsequent periods.

12. Information related to the components of other items in the income statement exceeding 10% of the group total, or 20% of the sub-accounts belonging to this group

Fees and Commissions Received	Current Period	<b>Prior Period</b>
Credit Card/POS Commissions	57,657	42,509
Non-Cash Loans	45,174	40,077
Brokerage Fees	23,676	15,388
Remittance Commissions	11,115	9,873
Insurance Services	9,838	9,565
Others	39,976	36,847
Total	187,436	154,259

Fees and Commissions Paid	Current Period	<b>Prior Period</b>
Credit Card/POS Commissions	70,400	48,884
Non-Cash Loans	23	47
Others	15,072	12,365
Total	85,495	61,296

### V. Information and disclosures related to statement of changes in shareholders' equity

### 1. Changes due to valuation of investments available-for-sale

The amount of decreases from valuation of investments available-for-sale of the Bank has been YTL 9,350 as of 31 December 2007. This amount has been reflected to "Valuation Differences of Securities" in the balance sheet.

During 2007, an additional amount of YTL 2,534 has been realized as income from redemption/sale of other items in "available-for-sale investments" portfolio.

On 18 September 2006, the Bank sold its investment amounting to 32,481,802 shares in Zorlu Enerji Elektrik Üretimi Otoprodüktör A.fi with a unit price of YTL 4.35, totalling to YTL 141,296 to Zorlu Holding A.fi.. 20,730,000 shares of this sale, amounting to YTL 90,176 have been realized from "Investments available-fore-sale" portfolio. As a result of the sale, the Bank transferred YTL 71,595 from "Valuation Differences of Securities" to "Profit/Loss" accounts.

### 2. Reconciliation of the beginning and end of the year balances of foreign exchange differences

Foreign exchange differences resulting from the Bahrain branch of the Bank amounted to YTL 4,395 (31 December 2006: YTL 181) and are included in shareholders' equity as "other profit reserves".

### 3. Dividend information

3.1 Dividend amounts declared subsequent to the balance sheet date but before the issuance of the financial statements

None.

# **Unconsolidated Financial Report** as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

3.2 Net profit per share decided to be distributed after the balance sheet date

None.

### 4. Amounts transferred to legal reserves

The Bank transferred YTL 13,818 to legal reserves and YTL 281,233 to extraordinary reserves in 2007.

#### 5. Information on issuance of common stock

5.1 Rights, priorities and restrictions for all classes of capital shares, including dividend distribution and recall of capital

None

### 6. Explanations for other increases in consolidated statements of changes in shareholders' equity

None.

#### VI. Information and disclosures related to statement of cash flows

### 1. Disclosures for "other" items in the statement of cash flows and effect of changes in foreign currency exchange rates on cash and cash equivalents

"Other" item amounting to YTL (503,010) before "changes in operating assets and liabilities" comprise other operating expenses, fees and commissions paid and net trading income/loss. The Bank's net cash outflow from investing activities amounts to YTL 1,341,466. As a result of these changes in the statement of cash flows, the balance of cash and cash equivalents has changed from YTL 2,637,123 to YTL 926,890 in 2007.

"Other liabilities" item included in "operating assets and liabilities", amounting to YTL (72,486) comprise taxes and duties payable, factoring payables and other changes in liabilities.

The effect of foreign currency exchange rates on cash and cash equivalents is reflected in foreign exchange gains and losses, which is presented as a separate line item as "effect of change in foreign currency exchange rate on cash and cash equivalents".

### 2. Information on cash and cash equivalents at the beginning of the period

### 2. Disclosures of transactions with the Bank's risk group

2.1 Relations with entities in the risk group of/or controlled by the Bank regardless of the nature of relationship among the parties

Transactions with the risk group are made on an arms-length basis; terms are set according to the market conditions and in compliance with the Banking Law.

2.2 In addition to the structure of the relationship, type of transaction, amount, and share in total transaction volume, amount of significant items, and share in all items, pricing policy and other

The pricing of transactions with the risk group companies is set in compliance with the market prices. As of 31 December 2007, cash loans of the risk group represented 0.1% of the Bank's total cash loans granted, the deposits represented 7% of the Bank's total deposits, and cash loans received represented 73% of the Bank's cash loans received. Non-cash loans granted represent 1% of the total balance.

2.3 Explanations on purchase and sale of real estate and other assets, sales and purchases of services, agent contracts, financial lease agreements, transfer of data obtained from research and development, licensing agreements, financing (including loans and cash and in-kind capital support), guarantees and promissory notes, and management contracts

The risk group, which the Bank belongs to, has entered into financial lease contracts with Deniz Leasing. As of 31 December 2007, net financial lease obligation related to these transactions amounts to YTL 33,338 (31 December 2006: YTL 28,378).

### SECTION SIX OTHER DISCLOSURES AND FOOTNOTES

#### I. Other explanations related to the Bank's operations

### 1. Explanations related to the Bank's operations

On 5 March 2007, the Bank fully repaid its club loan, amounting to USD 500 millions.

On 28 June 2007, the Bank obtained a securitization loan based on remittances, amounting to USD 350 million (Series 2007-B, USD 200 million, and Series 2007-C, USD 150 million) by the intermediation of Dexia Bank Belgium and ABN Amro Bank. The maturity of the loan is 15 June 2015.

The Bank obtained a 10 years maturity (repayable after 5 years) subordinated loan from Dexia SA, amounting to USD 50 million on 28 June 2007.

On 3 July 2007, the Bank fully repaid its securitization loan, amounting to USD 150 millions (Series 2005-A) which had an original maturity of 2010.

The Bank signed a 10 years loan facility with European Investment Bank, amounting to Euro 250 million, on 12 July 2007. The loan is designed to be granted to small and medium sized enterprises, and commercial and corporate customers, in portions of Euro 150 million and Euro 100 million, respectively.

The Bank obtained a 10 years maturity (repayable after 5 years) subordinated loan from Dexia SA, amounting to USD 130 million on 27 September 2007.

The Bank recorded its new capital investments to Denizbank AG and CJSC Denizbank Moscow, amounting to YTL 25,534 and YTL 14,217, respectively, in "other assets" on 19 December 2007, since the authorizations of the related foreign bodies have not been granted yet.

#### 2. Information summary about ratings of the Banks which has been performed by the international risk rating institutions

### Republic of Turkey's rating by Fitch Ratings

On 12 December 2007, Fitch Ratings has upgraded Turkey's long-term local currency rating to BB from BB-. Fitch Ratings has affirmed long-term foreign currency rating of BB- and the outlooks for long-term local and foreign currency at Stable. There has been no change to Turkey's country ceiling rating of BB and short term foreign currency rating of B.

# Unconsolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### Denizbank's rating by Fitch Ratings

On 14 December 2007, Fitch Ratings has upgraded Denizbank's long term local currency rating to BBB- from BB+, short term local currency rating to F3 from B and national long-term rating to AAA from AA+. Fitch ratings affirmed DenizBank's long and short term foreign currency rating and the outlooks for foreign and local currency IDRs and the National rating at Stable. The latest ratings of Denizbank are as follows:

	Foreign Currency			Foreign Currency Local Currency		
Short Term	Long Term	Individual	Support	Short Term	Long Term	National
В	BB (Stable)	С	3	F3	BBB-(Stable)	AAA (Stable)

### Republic of Turkey's rating by Moody's Investors Service

On 24 May 2006, Moody's Investors Service upgraded Turkey's country ceiling for foreign currency bonds to Ba1 from Ba3. There has been no change to Turkish government's long term foreign and local currency bond ratings of Ba3. Moody's affirmed Turkey's foreign currency bank deposit country ceiling at B1, local currency bank deposits country ceiling at A3 and local currency bonds country ceiling at A2. The outlooks on the country and government ratings have been affirmed at Stable.

### Denizbank's rating by Moody's Investors Service

On 24 April 2007, Moody's has raised Denizbank's financial strength rating to C- from D+ and assigned its outlook at Stable. The latest ratings of Denizbank are as follows:

Long Term			Local		
Foreign	Long Term Local	Short Term	Currency	Financial	Financial
Currency	Currency	Local Currency	Deposit	Strength	Strength
Deposit	Deposit	Deposit	Outlook	Rating	Rating Outlook
R1/Stable	Δ3	Prime-2	Stable	C-	Stable

### 3. Transactions that have not been finalized and their effect on the financial statements

According to the provisions of BRSA's "Regulation on Amendments for the Regulation of Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside" published in the Official Gazette No. 26779, dated 6 February 2008, the general loan loss provisions for closely monitored cash loans and non-cash loans increased from 1% to 2%, and 0.2% to 0.4%, respectively.

Following the approval of the legal authority on 11 January 2008, the Bank transferred the amount of its new investment (YTL 14,217) in CJSC Denizbank Moscow from temporary account to subsidiaries account.

Following the approval of the legal authority on 28 January 2008, the Bank transferred the amount of its new investment (YTL 25,534) in Denizbank AG from temporary account to subsidiaries account.

### 4. Information about effects on foreign currency transactions and financial statements of significant changes in foreign exchange rates after balance sheet date and foreign operations of the bank

There are no significant fluctuations in the currency exchange rates after the balance sheet date that would affect the analysis and decision making process should they not be mentioned.

### SECTION SEVEN INDEPENDENT AUDITOR'S REPORT

### I. Information on the independent auditor's report

The Bank's financial statements as of 31 December 2007 have been audited by Akis Banmsz Denetim ve Serbest Muhasebeci Mali Müflavirlik A.fi. It was noted in their audit report dated 28 February 2008 that the financial statements present fairly the financial position of Denizbank Anonim fiirketi as of 31 December 2007, and of the results of its operations and its cash flows for the year then ended, in all material respects in accordance with regulations described in Article 37 of the (Turkish) Banking Law No 5411.

### Convenience Translation of the Independent Auditor's Report Originally Prepared and Issued in Turkish

#### To the Board of Directors of Denizbank Anonim Şirketi:

We have audited the consolidated balance sheet of Denizbank Anonim fiirketi (the Bank) and its subsidiaries as of 31 December 2007 and the related consolidated statements of income, cash flows, changes in shareholders' equity, and a summary of the significant accounting policies and other disclosures for the period then ended.

#### Disclosure Related to the Responsibility of the Board of Directors of the Bank:

The Board of Directors of the Bank is responsible for the establishment of an internal control system, selection and application of appropriate accounting policies for the preparation and presentation of the reported consolidated financial statements in accordance with the Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents, dated 1 November 2006 which is published in the Official Gazette No.26333, Turkish Accounting Standards, Turkish Financial Reporting Standards, and other regulations, explanations and circulars on accounting and financial reporting principles announced by Banking Regulation and Supervision Agency (BRSA), free of material errors and misuse that could lead to false information within.

### Disclosure Related to the Responsibility of the Authorized Audit Company:

Our responsibility, as independent auditors, is to issue a report on the consolidated financial statements based on our audit. We did not audit the financial statements of certain consolidated companies as of 31 December 2007, which statements reflect total assets constituting 12 percent; and total interest and commission income constituting 6 percent after elimination of intercompany balances and transactions as of and for the year ended 31 December 2007 of the related consolidated totals. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for those companies is based solely on the reports of the other auditors. We conducted our audit in accordance with the Regulation on Authorization of Entities that Conduct Independent Audit in the Banks and Their Operations, dated 1 November 2006 which is published in the Official Gazette No.26333, and international auditing standards. Our independent audit was planned and conducted to provide reasonable assurance that the consolidated financial statements are free of material misstatement. Our independent audit involved the necessary techniques to collect audit evidence related to the figures included in the consolidated financial statements and accompanying footnotes; which have been determined based on our professional conviction. Those techniques have been selected by considering the effectiveness of the internal controls used in preparation and presentation of the consolidated financial statements and the appropriateness of the accounting policies applied. We believe that our audit provides a reasonable basis for our opinion expressed below.

### **Independent Auditor's Opinion:**

In our opinion, based on our audit, the accompanying consolidated financial statements present fairly the financial position of Denizbank Anonim fiirketi and its subsidiaries as of 31 December 2007, and of the results of its operations and its cash flows for the year then ended, in all material respects in accordance with regulations described in Articles 37 and 38 of the (Turkish) Banking Law No 5411; and other regulations, explanations and circulars on accounting and financial reporting principles announced by BRSA.

stanbul, 28 February 2008

Akis Ba¤msız Denetim ve Serbest Muhasebeci Mali Müflavirlik Anonim fiirketi

> Murat Alsan Partner

### Additional paragraph for convenience translation to English:

As explained in Note 3.1.2, the accompanying consolidated financial statements are not intended to present the financial position and results of operations in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Turkey.

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### SECTION ONE GENERAL INFORMATION

### I. Parent Bank's date of establishment, beginning statute, its history including changes on its statute

Denizbank A.fi. ("the Bank") was established as a public bank to provide financing services to the marine sector in 1938. In 1992, as a result of the resolution of the Government to merge some public banks, the Bank was merged to Emlakbank. Following the resolution of the High Council of Privatization numbered 97/5 and dated 20 March 1997 to privatize 100% of shares of Denizbank A.fi., share sale agreement between Zorlu Holding A.fi. and the Privatization Administration was signed on 29 May 1997 and the Bank started its activities on 25 August 1997. Bank's shares have been listed on Istanbul Stock Exchange since 1 October 2004. 0.19% of the Bank's shares are publicly held as of 30 December 2007.

Dexia Participation Belgique SA, owned 100% directly and indirectly by Dexia SA/NV, acquired 75% of the outstanding shares of the Bank from Zorlu Holding A.fi. on 17 October 2006. Subsequent to the transfer of shares, a tender offer was made for the public shares. Dexia Participation Belgique's ownership rate resides at 99.81% as of the balance sheet date.

### II. Capital structure, shareholders controlling the management and supervision of the Bank directly or indirectly, and if exists, changes on these issues and the Group that the Bank belongs to

### Denizbank Anonim Şirketi

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### SECTION THREE ACCOUNTING POLICIES

### I. Basis of presentation

### 1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents

The new Turkish Banking Law No. 5411 is published in the Official Gazette No. 25983 dated 1 November 2005. The Bank prepared the accompanying consolidated financial statements and the related disclosures and footnotes in accordance with accounting and valuation standards as described in the "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333, "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, Turkish Accounting Standards ("TAS") and Turkish Financial Reporting Standards ("TFRS").

### 2. Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying consolidated financial statements are to be distributed, and International Financial Reporting Standards ("IFRS"), may have significant influence on the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

### 3. Disclosures related to the accounting policies and financial statement presentation

### 3.1 Disclosures related to the first time application of Turkish Accounting Standards

The Bank has restated its prior period financial statements in accordance with TAS and TFRS as required by TAS 1 "Presentation of the Financial Statements". Deferred tax effect has been set off in prior period net profit as required by TAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". The effects of these restatements on prior period income of the accompanying financial statements, net of deferred taxes, are as follows:

	Securities Value Increase Fund	Other reserves	Net Profit for the Period	Prior Period Net Profit	Total Equity
Balances Reported as of 31 December 2005	108,792	702	226,452	27,805	1,091,470
Correction of Employee Termination					
Benefits (TAS 19)	-	-	3,575	7,233	10,808
Fair Value Corrections Made to Valuation					
of Trading Purpose Derivatives (TAS 39)	-	-	1,081	(185)	896
Fair Value Corrections Made to Trading					
and Available-for-Sale Securities (TAS 39)	8,323	-	105	69	8,497
Correction of foreign exchange difference					
from subsidiaries	-	(4,602)	4,602	-	-
Balances Restated as of 31 December 2005	117,115	(3,900)	235,815	34,922	1,111,671

#### 3.2 Disclosures related to reclassifications

Net book value of leasehold improvements amounting YTL 35,593 which was reported in "intangible assets" as of 31 December 2006 Financial statements has been classified in "tangible assets".

YTL 67,148 which was reported in "fees and commission income from loans" as of 31 December 2006, has been classified in "interest income from loans".

YTL 1,080 which was reported in "fees and commission expense for loans" as of 31 December 2006, has been classified in "interest expense for loans".

FX rates increases and decreases of capitals indexed to foreign exchange amounting successively YTL 27,710 and YTL 12,892 which were reported in successively "other operating income" and "other operating expense" as of 31 December 2006 have been classified in "foreign exchange profit-loss".

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### 4. Accounting policies and valuation principles used in the preparation of the financial statements

Accounting policies and valuation principles used in the preparation of the financial statements are determined and applied in accordance with the requirements of TAS, TFRS, "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333 and "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430. Those policies and principles are explained by footnotes II through XXIV below.

### II. Strategy for the use of financial instruments and the foreign currency operations

#### 1. Strategy for the use of financial instruments

Denizbank Financial Services Group ("DFS Group")'s external sources of funds are comprised of deposits with various maturity periods, and short-term borrowings. These funds are fixed rate in general and are utilized in high yield financial assets. The bulk of the funds are allocated to high yield, floating rate instruments, such as Turkish Lira and foreign currency government securities and Eurobonds, and to loans provided to customers on a selective basis in order to increase revenue and support liquidity.

The liquidity structure, insures meeting all liabilities becoming due, is formed by keeping sufficient levels of cash and cash equivalents by diversifying the sources of funds. The Bank assesses the maturity structure of the sources, and the maturity structure and yield of placements at market conditions and adopts a high yield policy in long-term placements.

There is not any segment of the DFS Group generating more return than the calculated average return for the DFS Group.

The DFS Group assumes risks within the pre-determined risk limits short-term currency, interest and price movements in money and capital markets and market conditions.

These positions are closely monitored by the Risk Management System of the Bank and the necessary precautions are taken if the limits are exceeded or should there be a change in the market environment.

In order to avoid interest rate risk, assets and liabilities with fixed and floating interests are kept in balance, taking the maturity structure into consideration.

The asset-liability balance is monitored on a daily basis in accordance with their maturity structure and foreign currency type. The risks associated with short-term positions are hedged through derivatives such as forwards, swaps and options.

No risks are taken on foreign currencies other than USD and Euro. If the position taken because of customer based activities exceeds 0.004% of the balance sheet size, derivative products are used to cover the position.

Net foreign currency position of the DFS Group in foreign enterprises is considered along with the position of the DFS Group and the specific position is evaluated within the risk limits.

### 2. Transactions denominated in foreign currencies

### 2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and presentation of them in the financial statements

DFS Group accounts for the transactions denominated in foreign currencies in accordance with TAS 21 "The Effects of Changes in Foreign Exchange Rates". Foreign exchange gains and losses arising from transactions that are completed as of 31 December 2007 are translated to YTL by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities are translated into YTL by using foreign currency exchange rates of the Bank and the resulting exchange differences are recorded as foreign exchange gains and losses. The Bank's foreign currency exchange rates are as follows:

	31 December 2007	31 December 2006
US Dollars	YTL 1.1593	YTL 1.4056
Euro	YTL 1.7060	YTL 1.8515

### 2.2 Foreign exchange gains and losses included in the income statement

Net foreign exchange loss included in the income statement amounts to YTL 163,421 (31 December 2006: net foreign exchange loss of YTL 50,384).

Convenience Translation of Consolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### 2.3 Foreign operations

The assets and liabilities of foreign operations are translated to YTL at foreign exchange rates ruling at the balance sheet date. The revenues and expenses of foreign operations are translated to YTL at year-to-date average foreign exchange rates. Foreign exchange differences arising on translation are recognized directly in equity. The foreign exchange differences derived from translation of income statements of consolidated subsidiaries, and arising from the difference between YTL equivalent of their equities and the Bank's share in their net assets are recorded in "other profit reserves". As of 31 December 2007, total foreign exchange difference in equity amount to YTL (13,351).

There is no goodwill related to any of the Bank's foreign operations.

No foreign operations are disposed of during the current year.

### III. Presentation of information regarding the consolidated subsidiaries

The accompanying consolidated financial statements are prepared in accordance with TAS 27 "Consolidated and Separate Financial Statements".

The Bank owns, directly or indirectly, the shares of Deniz Yatrom Menkul Krymetler A.fi. (Deniz Yatrom), Ekspres Yatrom Menkul De¤erler A.fi. (Ekspres Yatrom), Deniz Türev Menkul De¤erler A.fi. (Deniz Türev), Eurodeniz Off-shore Bank Limited (Eurodeniz), Deniz Portföy Yönetimi A.fi. (Deniz Portföy), Denizbank AG, CJSC Denizbank Moscow (Denizbank Moscow), Deniz Finansal Kiralama A.fi. (Deniz Leasing), Deniz Faktoring A.fi. (Deniz Faktoring) and Deniz Hayat Sigorta A.fi. (Deniz Hayat), and these subsidiaries are consolidated as explained in detail in section 5.1.8.

Intertech Bilgi dilem ve Pazarlama Ticaret A.fi., Denizbank Kültür Sanat Ticaret A.fi. and Adana Haddecilik Metal San. ve Tic. A.fi. which are also the subsidiaries of the Bank, they are non-financial subsidiaries.

The Bank, as the parent bank, and its subsidiaries, Deniz Yatom, Ekspres Yatom, Deniz Türev, Eurodeniz, Deniz Portföy, Denizbank AG, Denizbank Moscow, Deniz Leasing, Deniz Faktoring and Deniz Hayat that are included in consolidation are altogether referred to as "DFS Group" in the disclosures and footnotes related to the consolidated financial statements.

#### 1. With respect to subsidiaries

"Full Consolidation" method has been applied in consolidating the financial statements of the Bank with the financial statements of its subsidiaries. According to this method, the financial statements of the Bank and its subsidiaries are combined on a line-by-line basis by adding together like items of assets, liabilities, income, expenses and off-balance sheet items, in preparing consolidated financial statements. Minority interests are presented separately in the consolidated balance sheet and consolidated income statement.

The major principles of consolidation

1.1 The carrying amount of the Bank's investment in each subsidiary and the Bank's portion of equity of each subsidiary are eliminated.

1.2 All intercompany transactions and intercompany balances between the consolidated subsidiaries and with the Bank are eliminated.

The financial statements which have been used in the consolidation are prepared as of 31 December 2007 and appropriate adjustments are made to financial statements to use uniform accounting policies for like transactions and events in similar circumstances.

No difference has occurred from consolidation adjustments which have been raised for the preparation of the consolidated financial statements of DFS Group.

#### 2. With respect to associates

There are no financial associates included in the consolidation.

### 3. With respect to joint ventures

There are no joint ventures.

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### IV. Forward transactions, options and derivative instruments

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps, options and futures that are not categorized as hedging-purpose tools are classified as "trading purpose" transactions and reflected at their fair values. The fair values of forward foreign currency transactions are estimated using pricing models and unrealized gains or losses are recognized in the income statement.

The DFS Group does not have any embedded derivatives or hedging instruments.

The DFS Group's derivative transactions mainly consist of forward foreign currency purchase/sale contracts which have been transacted to reduce the foreign currency position risk and to protect the composition of the foreign currency position.

Derivatives are initially recognized at cost including the transaction costs. Also, the liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contract values.

The derivative transactions are valued at fair value using the pricing models subsequent to initial recognition and are presented in the "Positive Value of Trading Purpose Derivatives" and "Negative Value of Trading Purpose Derivatives" items of the balance sheet depending on the resulting positive or negative amounts of the computed value. Gains and losses arising from a change in the fair value of trading purpose derivatives are recognized in the "Trading Income/Loss" items of the consolidated income statement.

### V. Interest income and expense

Interest income and expense are recognized as they are accrued taking into account the internal rate of return method. As of 31 December 2007 and 2006, the Bank ceases to accrue interest income on loans that become non-performing. Interest accrual does not start until such loans become performing and are classified as performing loans or until collection in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", published in the Official Gazette No. 26333 dated 1 November 2006, which was prepared on the basis of the provisions of Articles 53 and 93 of the Banking Law no. 5411.

### VI. Fees and commissions

Commissions and income from banking services are spread over the life of the related services, except for some kind of transactions that the income is recognized immediately. Commission and income expenses are considered as transaction cost and recorded by "Internal rate of return" method. Income related to sale and purchase of assets on behalf of third parties are recorded when collected.

### **VII. Financial assets**

Financial assets include cash; exchange right of cash or other financal asset acquisition or equity instrument transactions with the counterpart. Financial assets are classified in four categories; as financial assets at fair value through profit or loss, investment securities available-for-sale, investment securities held-to-maturity, and loans.

### 1. Financial assets at fair value through profit or loss

### 1.1 Trading securities

Trading securities are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, trading securities are measured at fair value and gains and losses arising from a change in the fair value are recognized in the income statement.

Positive differences between the fair value and cost of trading securities are recorded in accrued interest and income account and negative differences between the fair value and cost of trading securities are recorded in impairment in value of marketable securities account in the financial statements. Derivative financial instruments are classified in the trading portfolio unless they are determined to be involved in hedging relations. Trading purpose derivative instruments are measured at fair value in subsequent periods and recorded in "positive or negative value of trading purpose derivatives" accounts based on the outcome of the fair value calculations.

The DFS Group recognized the gains and losses arising from the valuation of share certificates, which are classified as trading securities, in the income statement.

Interest earned whilst holding trading securities is reported as interest income.

Convenience Translation of Consolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

As of the balance sheet dates, the fair values of the Turkish Lira government securities are calculated using the Istanbul Stock Exchange (ISE) last day's weighted average prices for those securities traded in ISE; and for those securities not traded in ISE, the prices announced by the Central Bank of Turkey are used. Eurobonds and foreign currency government bonds are initially recognized at cost including transaction costs and subsequent to initial recognition, Eurobonds are measured at discounted prices while foreign currency government bonds are measured at fair value. However, those securities not traded in an active market and whose fair values cannot be reliably measured are valued using a discounting method based on internal rate of return. For equity securities, closing prices that are listed at the balance sheet date are used. Fair value of derivative instruments are determined using market prices, discounted cash flows model, or pricing models.

#### 1.2 Financial assets at fair value through profit or loss

DFS Group does not have any securities classified as "financial assets at fair value through profit or loss".

#### 2. Investment securities available-for-sale

Available-for-sale assets are financial assets that are not held for trading purposes, loans and advances to banks and customers, or held to maturity.

Premiums and discounts on investments securities available-for-sale are taken into account in computing the internal rate of return and are included in interest income in the income statement. Accrued interest income on investment securities available-for-sale are recognized in the income statement whereas gains and losses arising from the change in the fair values of such securities are reflected in equity net of their tax effect under "Securities value increase fund" (Unrealized Gains/Losses on Securities). When investment securities available-for-sale are sold, collected or otherwise disposed of, the cumulative fair value adjustments under equity is transferred to the income statement.

Consumer price indexed government bonds issued on 21 February 2007 are in available for sale and trading portfolios and their maturity is 5 years. Nominal coupon rate is 5% per 6 months and constant in the entire duration. Besides, revaluation is performed based on the explanations of Treasury for the effects of inflation which refer to the index of issuing date and that of the balance sheet date.

The account classification of the financial assets is determined at the initial recognition stage of the related financial assets.

### 3. Investment securities held-to-maturity

Held-to-maturity securities are financial assets with fixed maturities and pre-determined payment schedules that the Bank has the intent and ability to hold until maturity, excluding loans and receivables. These securities are identified by the Bank management at their initial recognition and are classified as held-to-maturity securities in financial statements. Investment securities available-for-sale are financial assets that are other than securities held for trading purposes, investment securities held-to-maturity and loans and receivables.

Investment securities held-to-maturity and loans are initially recognized at cost. Investment securities held-to-maturity are accounted for by using a discounting method based on internal rate of return applied on the net investment amounts after the deduction of provision for impairments. There are no provisions for the impairment of held-to-maturity securities.

There are no financial assets that are banned from being classified as investment securities held-to maturity for two years due to the violation of the tainting rule.

Interest earned on held-to-maturity securities are recognized as interest income and are reflected in "Interest Received from Securities Portfolio - Held-to-Maturity Securities" in the consolidated income statement.

Purchases/sales of held-to-maturity securities are recognized and accounted for at their dates of delivery.

### 4. Loans and specific provisions

Loans are initially recorded at cost and are subsequently valued using a discounting method based on internal rate of return. Cash loans are accounted in accordance with the principles in TAS 39 "Financial Instruments: Recognition and Measurement". Foreign currency loans are re-measured to reflect the changes in the currency exchange rates. Currency exchange differences arising from such re-measurements are reflected in "Foreign Exchange Gains/Losses" account in the consolidated income statement. Foreign currency-indexed loans are initially recognized in their Turkish Lira equivalents. The currency exchange differences arising from these loans are reflected as "Other Operating Income/Expense". Accrued interest income on loans is calculated using a discounting method based on internal rate of return.

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

Based on the regular reviews of the loan portfolio by the Bank management, loans that are identified as being impaired are transferred to "loans under follow-up" accounts. Thereby, specific allowances are made against the carrying amount of these loans in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", which was prepared on the basis of the provisions of Articles 53 and 93 of the Banking Law no. 5411. Specific provisions are recognized in the consolidated income statement

When collections are made on loans that have been provided for, they are credited to the income statement accounts "Provision for Loan Losses or Other Receivables" if the provision was made in the current year, otherwise such collections are credited to "Other Operating Income" account with respect to allowances made in the prior years. The interest income recovered is booked in "Other Interest Income" account.

### VIII. Impairment of financial assets

If the carrying value of an asset is higher than its recoverable value, that asset is considered to be impaired and its carrying value should be adjusted to reflect its recoverable value. The impairment of financial assets are reflected to the accompanying consolidated financial statements in accordance with TAS 36 "Impairment of Assets".

### IX. Offsetting financial instruments

When the fair values of the listed equity instruments that are classified as "trading purpose" fall below their costs, impairment provision is booked for them which is netted-off from book value in the consolidated financial statements.

In accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", the Bank provides specific provisions for its loans under follow-up. Those provisions are deducted from the balance of the loans under follow-up in the assets of the consolidated balance sheet.

Financial instruments other than those mentioned above were not offset in the accompanying consolidated financial statements.

#### X. Sale and repurchase agreements and transactions related to the lending of securities

Government bonds and treasury bills sold to customers under repurchase agreements are reflected on the assets side of the accompanying consolidated balance sheet as "Trading Securities" or "Investment Securities Available for Sale". The funds received on such transactions and the accrued interest expense are reflected as "Funds Provided under Repurchase Agreements" on the liability side of the accompanying consolidated balance sheet. Interest expense representing the difference between the sale and repurchase price of the related repurchase agreements is accounted on an accrual basis.

### XI. Assets held for sale and discontinued operations

Assets held for sale comprise tangible assets received against non-performing loans. Payable related to assets held for sale are also classified separately in the balance sheet. These items are not netted off in the financial statements.

Assets held for sale are accounted in accordance with the "Regulation on the Methods and Principles of Purchase and Sale of Precious Metals and Disposal of Commodities and Real Estate Obtained Against Receivables", dated 1 November 2006 and published in the Official Gazette no. 26333. As of the balance sheet date, the Bank's assets held for sale amount to YTL 15,325 (31 December 2006: YTL 15,363).

DFS Group does not have any discontinued operations.

#### XII. Goodwill and other intangible assets

There is no goodwill in the accompanying consolidated financial statements.

All intangible assets are initially recognized at cost in accordance with TAS 38 "Intangible Assets". According to the resolution of the BRSA No. 1623 dated 21 April 2005, the banks and special financial institutions are no longer required to prepare their financial statements in accordance with RAP 14 "Accounting Standard for Financial Reporting in Hyperinflationary Periods" since the indicators of hyperinflation as disclosed in Article 5 of RAP 14 are no longer existing in Turkey. In line with this resolution, other intangible assets have been restated for the effects of inflation, up to 31 December 2004. Any currency exchange differences, financing expenses and revaluation surplus that might have been capitalized are eliminated and only the acquisition cost of the intangible assets are restated until 31 December 2004. The new additions to intangible assets after 31 December 2004 are shown with their historic costs excluding any currency exchange differences and financing expenses capitalized.

Convenience Translation of Consolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

Intangible assets purchased before 1 January 2003 and those purchased in 2007 are amortized on a straight-line basis based on the amortization rate of 20% and those purchased between the dates mentioned above are amortized using the double-declining balance method based on the amortization rate of 40%. The amortization rate for the software of Denizbank AG is 33%

Gains and losses resulting from the disposal of intangible assets are recognized in "Other Operating Income/Expense" account in the consolidated income statement representing the difference between the net restated value of the intangible assets after the inflation adjustment until 31 December 2004 and their net sales revenue.

Intangible assets are amortized on a straight-line basis over their estimated useful lives of five years. Useful life of an asset is estimated by assessment of the expected life span of the asset, technical, technological wear outs, of the asset. The amortization rates used approximate the useful lives of the assets.

Costs associated with the computer software that are in use are expensed at the period of occurrence.

### XIII. Tangible assets

All tangible assets are initially recognized at their acquisition cost in accordance with TAS 16 "Tangible Assets".

According to the resolution of the BRSA No. 1623 dated 21 April 2005, the banks and special financial institutions are no longer required to prepare their financial statements in accordance with RAP 14 "Accounting Standard for Financial Reporting in Hyperinflationary Periods" since the indicators of hyperinflation as disclosed in Article 5 of RAP 14 are no longer existing in Turkey. In line with this resolution, tangible assets have been restated for the effects of inflation, up to 31 December 2004. Any currency exchange differences, financing expenses and revaluation surplus that might have been capitalized are eliminated and only the acquisition cost of the tangible assets are restated until 31 December 2004. The new additions to tangible assets after 31 December 2004 are shown with their historic costs excluding any currency exchange differences and financing expenses capitalized.

Tangible assets purchased before 2003 and in 2007 are depreciated on a straight-line basis and those purchased in 2003, 2004, 2005 and 2006 are depreciated using the double-declining balance method. The depreciation rates used are as follows:

			Purchased
	Purchased	between	Purchased
	before 2003	2003-2007	in 2007
Movables			
- Office equipment	20%	40%-50%	20%-25%
- Furniture and fixtures	20%	20%-50%	10%-20%
- Vehicles	20%	40%-50%	20%-50%
- Other equipment	20%	4.44%-50%	2.50%-50%
Immovable	2%	2%	2%

The Bank has an impairment provision of YTL 4,402, which had been recorded in the prior year, for its buildings as of the reporting date.

Gains and losses resulting from the disposal of tangible assets are recognized in "Other Operating Income/Expense" account in the consolidated income statement representing the difference between the net restated value of the tangible assets after the inflation adjustment until 31 December 2004 and their net sales revenue.

Expenditures for maintenance and repairs that are routinely made on tangible assets are charged as expense. Expenditures that extend the capacity of the tangible assets or those that extend the useful life and service capacity of the asset, or enhance the quality of the service, or decrease the cost of services are capitalized.

There are no restrictions such as pledges and mortgages on tangible assets or any purchase commitments.

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### XIV. Leasing activities

The maximum period of the lease contracts is 4 years. Fixed assets acquired by way of financial leasing are recognized in tangible assets and depreciated in line with fixed assets group they relate to. The obligations under financial leases arising from the lease contracts are presented under "Financial Lease Payables" account in the balance sheet. Interest expense and currency exchange rate differences related to leasing activities are recognized in the income statement.

In the event that the lease contracts are terminated before the lease period expires, penalty required to be paid to the lessor is expensed in the period in which the lease is terminated. There are no lease contracts that were terminated before the lease period expired.

The DFS Group enters into financial lease transactions by acting as the "lessor" via its subsidiary, Deniz Leasing. The rent payments related to leased assets are recorded as financial lease receivables. Periodical financial leasing revenues, total financial leasing investments, unearned financial lease revenues and lease revenues are accounted during the whole leasing period using the net investment method.

### XV. Provisions and contingencies

Provisions, other than specific and general provisions for loans and other receivables, and contingent liabilities are provided for in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by the DFS Group management. Whenever the amount of such obligations cannot be measured, they are regarded as "Contingent". If the possibility of an outflow of resources embodying economic benefits becomes probable and the amount of the obligation can be measured with sufficient reliability, a provision is recognized. If the amount of the obligation cannot be measured with sufficient reliability or the possibility of an outflow of resources embodying economic benefits is remote, such liabilities are disclosed in the footnotes.

Based on the representations of the DFS Group's attorneys, there are 337 lawsuits against DFS Group with total risks amounting to YTL 30,094, USD 1,641,018 and Euro 110,799 as of 31 December 2007. There are also 8,028 follow-up cases amounting to YTL 24,379, Euro 196,251 and USD 622,324 in total that are filed by the DFS Group and are at courts.

### **XVI. Contingent assets**

Contingent assets generally consist of unscheduled and other unexpected incidents which induce possible additional economic benefits to DFS Group. Provided that occurence of those contingent assets is possible, it is expressed in the footenotes of the Financial statements. Moreover, if it is almost certain, those related assets and their incomes are reflected to the Financial statements.

#### **XVII. Commitments for personnel rights**

In accordance with existing legislation in Turkey, the banks have to make certain lump-sum payments to employees whose employment is terminated due to retirement or reasons other than resignation or misconduct. Such payments are calculated on the basis of 30 days' pay per year of employment at the rate of pay applicable at the date of retirement or termination. Provision for employee severance benefits has been accounted for in accordance with TAS 19 "Employee Benefits", by using actuarial method and discounting total provision by using the current market yield at the balance sheet date on government bonds.

The principal actuarial assumptions used are as follows:

	31.12.2007	31.12.2006
	%	%
Discount rate	5.71	5.71
Expected rate of salary/limit increase	5.00	5.00
Turnover rate to estimate the probability of retirement	7.31	7.31

The computation of the liability is predicated upon retirement pay ceiling announced by the Government. The ceiling amount at 31 December 2007 is YTL 2.030; at 31 December 2006 it was YTL 1,857.

There are no employees who have been on an employment contract that will terminate within more than twelve months from the balance sheet date.

There are no employees who are members of foundations, pensions and similar associations.

Convenience Translation of Consolidated Financial Report Originally Issued in Turkish, See Note 3.1.2

### Denizbank Anonim Şirketi

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### **XVIII. Taxation**

#### 1. Current taxes

In accordance with the amendments made to the tax legislation by Law No. 5520, effective 21 June 2006, the corporate tax rate is levied at the rate 20% (30% for 2005), beginning from 2006. In accordance with the tax legislation, corporate taxes are paid in advance based on the tax base calculated on the quarterly earnings of the companies at the rate of 30%. These payments can be deducted from the annual corporate tax calculated for the whole year earnings. Such taxes paid in advance that are deducted from the final corporate tax liability are reflected as "Current Tax Assets" on the assets side of the balance sheet.

Companies file their tax returns between the 1st and 25th days of the following four months period after to which they relate and the payments are made until the end of that month.

The provision for corporate tax for the period is reflected as the "Current Tax Liability" and "Current Tax Provision" in the financial statements.

The foreign subsidiaries of the DFS Group that operate in Austria, the Russian Federation and Cyprus are entitled to corporate tax rates of 25%, 24% and 2%, respectively.

In accordance with the Corporate Tax Law, tax losses can be carried forward for five years. The tax authorities can inspect tax returns and the related accounting records back to a maximum period of five years.

Effective from 24 April 2003, statutory income, including retained earnings from 2002 and before, is not subject to withholding tax if retained, or transferred to share capital or distributed as dividend to the full fledged taxpayer corporations. However, it is subject to withholding tax at 10% if distributed as dividend to full fledged individual taxpayers, taxpayers who are exempt from corporate and income taxes, non-resident taxpayer companies (except for those companies having local offices or representatives) and non-resident individual taxpayers. That withholding tax has decreased to 15% by the Resolution of the Council of Ministers no. 2006/10731, dated 22 July 2006.

### 2. Deferred taxes

In accordance with TAS 12 "Income Taxes", the DFS Group accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Individual deferred tax assets and liabilities of the consolidated entities have been offset in their financial statements, amounting YTL 20,809 of deferred tax assets .

Deferred taxes directly related to equity items are recognized and offset in related equity accounts.

### XIX. Additional explanations on borrowings

Instruments representing the borrowings are initially recognized at cost and measured by a discounting method based on the internal rate of return. Foreign currency borrowings have been translated using the foreign currency buying rate of the Bank at the balance sheet date. Interest expense incurred for the period has been recognized in the accompanying financial statements.

The Bank uses general hedging techniques for borrowings against liquidity, interest rate and currency risks. However, these are not regarded as hedging instruments according to TAS 39.

As of the balance sheet date, there are no convertible bonds issued and there exist no financial instruments representing borrowings issued by the Bank.

### XX. Paid-in capital

Transactions related to issuance of share certificates are explained in footnote 5.II.12. No dividends have been declared subsequent to the balance sheet date.

#### XXI. Acceptances

Acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts, if any.

As of the balance sheet date, there are no acceptances recorded as liability in return for assets.

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

### **XXII. Government grants**

As of the balance sheet date, the DFS Group does not have any government grants.

### **XXIII. Segment reporting**

Segment reporting is made according to the 28th article of BRSA's "Communique on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, and is presented in Section Four, Footnote X.

#### **XXIV. Other explanations**

Turkish Financial Reporting Standard no.7-Financial Instruments: Disclosures ("TFRS 7") is applied for the periods starting from 1 January 2007. This disclosure concerns the severity of the financial instruments for the Bank's financial situation and performance. Moreover, financial statements demonstrate the assessment of the exposed risk induced by the related financial instruments and the way of understanding of the Bank management.

### SECTION FOUR CONSOLIDATED FINANCIAL POSITION

### I. Consolidated capital adequacy ratio

The Bank's consolidated capital adequacy ratio is 12.55% as of 31 December 2007. Minimum requirement for this ratio is stipulated as 8% in related legislation.

### 1. Risk measurement methods in the calculation of consolidated capital adequacy ratio

Consolidated capital adequacy ratio is calculated in accordance with the "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks" published in the Official Gazette No.26333, dated 1 November 2006. For the calculation of the consolidated capital adequacy ratio, the accounting records prepared in compliance with the current legislation are used. According to the requirements of the Regulation, starting from 30 June 2007, operational risk is included in the computation of capital adequacy ratio. Moreover, market risk value is calculated in accordance with the "Regulation on Banks' Internal Control and Risk Management Systems" and factored into capital adequacy ratio.

The items deducted from the capital base are not included in the calculation of risk weighted assets, non-cash loans and liabilities. For the calculation of risk weighted assets, impairments, depreciation and amortization, and provisions are considered as deduction items.

For the calculation of their risk-based values, non-cash loans are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside". The net amounts are then multiplied by the rates stated in the Article 21, paragraph (1) of "Regulation on the Establishment and Operations of Banks". For the calculation of their risk based values, derivative financial instruments are re-weighted and classified according to the related risk groups after being multiplied by the rates stated in the Article 21, paragraph (2) of "Regulation on the Establishment and Operations of Banks".

### Denizbank Anonim Şirketi

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### II. Consolidated credit risk

### 1. Information on risk concentrations by debtors or group of debtors or geographical regions and sectors, basis for risk limits and the frequency of risk appraisals

Credit risk is the risk that the counterparties may be unable to meet in full or part their commitments arising from contracts.

Credit risk limits of the customers are determined based on the customers' financial strength and the credit requirement, within the credit authorization limits of the branches, the credit evaluation group, the regional directorates, the executive vice president responsible from loans, the general manager, the credit committee and the board of directors.

Credit risk limits that are determined on customer and customer group basis are closely followed up. Previously determined credit limits are reassessed on a weekly basis according to changing conditions.

Information on determination and distribution of risk limits for daily transactions, monitoring of risk concentrations related to off-balance sheet items per customer and dealer basis:

Risk limits relating to daily transactions are monitored on a daily basis. Off-balance sheet risk concentrations are followed-up strictly.

Information on periodical analysis of creditworthiness of loans and other receivables per legislation, inspection of account vouchers taken against new loans, if not inspected, the reasons for it, credit limit renewals, collaterals against loans and other receivables:

The Group has process instructions for loans, follow-up and control procedures for loans and risk classifications in accordance with the banking legislation.

The Group aims to get early warning signals on all customers in its loan portfolio in the event of any emerging structural problems and cyclical changes. This way, problematic customers are determined properly and necessary precautions are taken.

Care is given to obtain collaterals against loans. It is preferred to obtain highly liquid collaterals such as bank guarantees, real estate and ship mortgages, pledges on securities and sureties of the persons and companies.

2. Information on the control limits of the Group for forward transactions, options and similar contracts, management of credit risk for these instruments together with the potential risks arising from market conditions

The Group has control limits defined for the positions arising from forward transactions, options and similar contracts. Credit risk for these instruments is managed together with those arising from market conditions.

3. Information on whether the Group decreases the risk by liquidating its forward transactions, options and similar contracts in case of facing a significant credit risk or not

Forward transactions can be realized at maturity. However, if it is required, reverse positions of the current positions are purchased to decrease the risk.

4. Information on whether the indemnified non-cash loans are evaluated as having the same risk weight as non-performing loans or not

Indemnified non-cash loans are treated as having the same risk weight as non-performing loans.

Information on whether the loans that are renewed and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations or not; whether new precautions are considered in these methods or not; whether the Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk or not

Loans that are renewed and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations.

The Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk and are followed up periodically.

(Currency: Thousands of YTL-New Turkish Lira)

## 5. Evaluation of the significance of country specific risk if the banks have foreign operations and credit transactions in a few countries or these operations are coordinated with a few financial entities

There is no significant credit risk since the Bank's foreign operations and credit transactions are conducted in OECD member countries.

Evaluation of the Bank's competitive credit risk as being an active participant in the international banking transactions market Being an active participant in the international banking transactions market, the Bank does not have significant credit risk as compared to other financial institutions.

#### 6. The Bank's top 100 cash and top 100 non cash loans customers-

a) The share of the top 100 cash loan customers in the total cash loans portfolio:

The share of the top 100 cash loan customers comprise 27% of the total cash loans portfolio (31 December 2006: 29%).

b) The share of the top 100 non-cash loan customers in the total loan non-cash loans portfolio:

The share of the top 100 non-cash loan customers comprise 54% of the total non-cash loans portfolio (31 December 2006: 54%).

c) The share of the total cash and non-cash loan balance of the top 100 loan customers in the total assets and off-balance sheet items:

The Bank's total cash and non-cash loans from its top 100 loan customers comprise 17% of the total assets and off-balance sheet items (31 December 2006: 19%).

#### 7. The Bank's general loan provision for its loans

As at 31 December 2007, the Bank's general loan provision amounts to YTL 79,158 (31 December 2006: YTL 52,559).

#### 8. Information on concentration of credit risk up to beneficiaries and geographical regions

#### III. Consolidated market risk

Whether the group within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

The Bank has defined its risk management procedures and has taken necessary precautions in order to avoid market risks, in compliance with "Regulation on Bank's Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks". As the main precaution against being exposed to market risk, the Bank's Board of Directors identifies risk limits determined in the context of economic capital.

Standard method and the internal risk measurement model are used in calculating the market risk. The criteria for the standard method have been set by the BRSA and are reported on a monthly basis. Internal risk measurement model is applied on a daily basis.

#### 1. Market risk

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### V. Consolidated foreign currency exchange rate risk

## 1. Whether the group is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the board of directors of the bank sets limits for positions that are monitored daily

Foreign currency exchange and parity risks are not taken by the DFS Group and transactions are simultaneously hedged in conformity with foreign currency basket of the Central Bank of Turkey. Measurable and manageable risks are taken within legal limits.

Foreign currency exchange rate risk is monitored along with potential evaluation differences in foreign currency transactions in accordance with "Regulation on Bank's Internal Control and Risk Management Systems". Standard method is used in measuring currency exchange rate risk on a weekly basis.

The Bank's Board of Directors reviews the risk limits and makes the necessary changes, daily, based on general economic environment and market conditions.

#### 2. The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using derivatives

The DFS Group does not hedge foreign currency borrowings and net foreign currency investments by way of derivative instruments.

#### 3. Foreign exchange risk management strategy

Foreign currency exchange and parity risks are not taken by the Bank and transactions are simultaneously hedged in conformity with foreign currency basket of the Central Bank of Turkey. Measurable and manageable risks are taken within legal limits.

#### 4. Bank's spot foreign exchange bid rates as of the balance sheet date and for each of the five days prior to that date

US Dollar purchase rate at the date of the balance sheet

Euro purchase rate at the date of the balance sheet

YTL 1.1593

YTL 1.7060

Date	US Dollar	Euro
25 December 2007	1.1746	1.6917
26 December 2007	1.1715	1.6912
27 December 2007	1.1708	1.6976
28 December 2007	1.1647	1.7102
31 December 2007	1.1593	1.7060

## Denizbank Anonim Şirketi

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### 6.1 Currency risk exposure

The table below demonstrates prospective increase and decrease in equities and profit/loss as of 31 December 2007 and 2006 (excluding tax effect) on condition that 10 per cent devaluation of YTL against the currencies below. This analysis has been prepared under the circumstances of assumption of other variables, especially interest rates, to be constant.

	Currer	Prior Period		
	Period Profit		Period Profit	
	Loss	Equity (*)	Loss	Equity (*)
USD	(5,278)	3,764	(7,814)	1,752
EUR	(2,346)	6,441	(1,944)	6,487
Other FC	17,373	17,373	12,132	12,132
Total (Net)	9,749	27,578	2,374	20,371

<sup>(\*)</sup> Equity effect consists of income statement effect of 10 per cent devaluation of YTL against other currencies in the table.

#### VI. Consolidated interest rate risk

1. Interest rate sensitivity of the assets, liabilities and off-balance sheet

Standard method is used in measuring the interest rate risk of assets, liabilities and off-balance sheet items.

2. The expected effects of the fluctuations of market interest rates on the group's financial position and cash flows, the expectations for interest income, and the limits the board of directors has established on daily interest rates

The Bank relies on historical stress-testing in determining limits against negative market conditions and monitors the risk within this context.

Market interest rates are monitored daily and interest rates are revised when necessary.

## Denizbank Anonim Şirketi

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

## 3. The precautions taken for the interest rate risk the Group was exposed to during the current year and their expected effects on net income and shareholders' equity in the future periods

The Bank uses value at risk, historical stress-testing, gapping and duration gap methods to analyze and take precautions against interest rate risk faced during current period. Interest rate risk is minimized, by way of historical stress-testing.

Information related to the interest rate mismatch of the group (Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates):

#### 5. Possible effects of financial assets and debts' sentivity to interest on net income and equities in the future

The interest rate sensitivity of the income statement at 31 December 2007 is calculated by the effect of possible changes in interest rates on the floating rate, non-trading financial assets and liabilities. The sensitivity of the equity is calculated by the revaluation of the available for sale securities portfolio based on possible interest rate changes. Tax effects are ignored during calculations. Other variables, especially foreign exchange rates are held constant in the analysis.

	Curre	Current Period

#### VII. Consolidated liquidity risk

1. The sources of the current liquidity risk of the DFS Group; whether the necessary precautions have been taken, whether the Board of directors sets limits on the funds available to meet the urgent liquidity requirements and to be able pay borrowings when they become due

Liquidity risk arises from maturity mismatch between assets and liabilities. Maturity mismatch between assets and liabilities is kept under control based on certain criteria set by the DFS Group. The DFS Group maintains liquid assets to guarantee sufficient liquidity during market fluctuations. In order to meet any urgent liquidity needs, approximately 6% of the balance sheet is allocated to cash balances, 9% to investment securities which are cash equivalent, and the present borrowing limits (such as Central Bank of Turkey and ISE repurchase market) are not used. The DFS Group's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

## 2. Whether the payments, assets and liabilities match with the interest rates, and whether the effect of mismatch on profitability is measured

The DFS Group's payments, assets and liabilities match with the interest rates.

### 3. Internal and external sources to meet the short and long-term liquidity needs, significant sources of liquidity that are not utilized

Approximately 6% of balance sheet size is allocated to cash balances, 9% to investment securities which are cash equivalent in order to meet any urgent liquidity needs. The present borrowing limits (such as Central Bank of Turkey and ISE repurchase market) are not used. The DFS Group's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

#### 4. Evaluation of the DFS Group's cash flows and their resources

Cash flows of the DFS Group mainly consist of Turkish Lira, US Dollars and Euro.

In the short and long run, liquidity needs or surplus funds are utilized in interbank money market placements, deposits and loans.

#### 5. Liquidity Ratios of the Group

According to BRSA's "legislation on measurement and assessment of liquidity adequacy of the Banks" 26333 numbered official gazette dated on 1 November 2006, liquidity ratio is required to be 80% for foreign currency assets/liabilities and 100% for total assets/liabilities in the calculation of the banks weekly and monthly basis reporting. Liquidity ratios for 2007 are as below:

	First Maturi	First Maturity Slice (Weekly)		rity Slice (Monthly)
	FC	FC + YTL	FC	FC + YTL
Average (%)	142.78	125.83	116.82	107.64
Max. (%)	181.50	146.15	144.82	130.19
Min. (%)	111.25	108.60	98.01	102.06

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

#### VIII. Presentation of financial assets and liabilities at their fair value

Estimated fair value of investment securities available for sale and held to maturity are determined by their listed market prices or prices of instruments with similar interest rates, maturities and other variables, in case an active market is not available.

Estimated fair value of loans and deposits are calculated by discounting their cash flows with current market rates. Fair value of floating rate items are accepted to approximate their carrying values.

#### IX. Activities carried out on behalf and account of other persons

1. Information on whether the Group performs sales, purchase, management, consultancy and custody services on behalf and account of others, or not

DFS Group performs sales, purchase, management, consultancy and custody services on behalf and account of others.

2. Are there transactions directly realized with other financial institutions depending on religious beliefs contracts? And is there a possibility of material effect on the finacial situation of the Bank or Group induced from these kinds of transactions?

None.

#### X. Consolidated segment reporting

DFS Group is active in three areas, namely, retail banking, corporate banking and treasury and investment banking.

In retail banking, it offers loan products (general purpose, mortgage, and auto), credit cards, investment products (mutual funds, shares, government bonds, and repos), deposit products (time, demand, protected), insurance products, SME loans as well as agricultural loans. Alternative distribution channels allow customers to meet their banking needs without the need to physically visit the branches. Among products that meet everyday needs of customers are overdraft loans, automated bill payment, checkbooks and rental safes.

Corporate banking offers financial and banking solutions to large-scale local and international corporate and commercial customers. In order to meet customer needs related to projects, investment and working capital, corporate banking offers short-and long-term working capital loans, investment loans, non-cash loans, foreign exchange transactions, export finance, project finance, structured finance, corporate finance services, clearing, deposit products and cash management services.

Within treasury and investment banking, sales, prop-trading and private banking departments offer spot and forward TRY and foreign exchange transactions, sales transactions of local and international bonds and derivative products. Servicing the upper segment of retail customers who require sophisticated banking and investment services falls within the scope of private banking.

#### 8. Investments in subsidiaries

The Bank has 99.97% ownership in Deniz Yabom, a brokerage and investment company, located in Istanbul. Deniz Yabom, established on 29 January 1997, is mainly involved in purchasing, selling and investing in any kind of securities, stocks, treasury bills and government bonds provided from capital markets; the management of mutual funds and performing intermediary services.

The Bank, together with Deniz Yatom, acquired 78.01% of the shares of Ekspres Yatom from Saving Deposit Insurance Fund (SDIF) at the end of 2002. With subsequent acquisitions, the Bank and Deniz Yatom's share increased to 99.82% as of 31 March 2006. Ekspres Yatom, located in Istanbul, is engaged in purchasing, selling and investing in any kind of securities, stocks, treasury bills and government bonds provided from capital markets.

Tarifl Menkul De¤erler A.fi. (Tarifl Menkul) was originally established as a subsidiary of Tariflbank in 1997 for handling the brokerage activities of its parent bank. With the acquisition of Tariflbank in 2002, Tarifl Menkul became a subsidiary of the Bank. The name of the company changed to Deniz Türev Menkul De¤erler A.fi. on 12 October 2005.

The Bank has 99.99% ownership in Denizbank AG, a commercial bank located in Austria. Established in 1996 by the former Esbank A.fi (a Turkish bank which was taken over by SDIF), Esbank AG in Vienna offered foreign trade finance and payment services to a client base in Europe and Turkey. The DFS Group entered the Euro zone banking market by acquiring Esbank AG in August 2002. Subsequent to the acquisition, the name of Esbank AG was changed to Denizbank AG, Vienna at the beginning of 2003. Denizbank AG, Vienna has eleven branches – three in Vienna, the others in Bregenz, Frankfurt, Linz, Graz, Dortmund, Innsbruck, Floridsdorf and Neustadt, and provides trade finance and payment services to its customers in Europe and Turkey.

The Bank acquired 49% of the outstanding shares of <a href="ktisat">ktisat</a> Bank Moscow at the beginning of 2003. The remaining 51% of the shares were acquired by Denizbank AG. Subsequent to the acquisition, the name of <a href="ktisat">ktisat</a> Bank Moscow was changed to CJSC Denizbank, Moscow. CJSC Denizbank Moscow is licensed to undertake all commercial banking transactions. Denizbank Moscow has one branch in Kazan.

The Bank acquired 99.88% of the shares of Eurodeniz, established in the Turkish Republic of Northern Cyprus, from SDIF at the beginning of 2002. Eurodeniz is licensed to undertake all commercial banking transactions.

In May 2003, Deniz Yatrom acquired 98.43% of the shares of Ege Portföy Yönetimi A.fi. and changed its name to Deniz Portföy. Deniz Yatrom's share in Deniz Portföy's share capital has increased to 99.15% with subsequent purchases. Deniz Portföy is engaged in serving domestic mutual funds and investment portfolios.

The Bank acquired 10.87% of the shares of Deniz Leasing for YTL 1,959 on 21 February 2005. Deniz Leasing was established on 12 December 1997, pursuant to the license obtained from the Undersecretariat of Treasury and Foreign Trade for the purpose of financial leasing as permitted by Law number 3226. Deniz Leasing started its operations in December 1998 and the Company's leasing operations principally focused on transport vehicles, machinery and equipment and office equipment.

On 22 November 2007, Deniz Leasing increased its share capital by YTL 162,000. YTL 149,678 of this amount was paid in cash, YTL 12,283 from extra ordinary reserves, YTL 39 from legal reserve inflation adjustment account. As of 31 December 2007, 84% of the share capital of Deniz Leasing belongs to the Bank, while the remaining 16% belongs to Deniz Faktoring A.fi. (Deniz Faktoring).

The Bank acquired 99.99% of the shares of Deniz Faktoring for YTL 15,184 on 21 February 2005. Deniz Faktoring was incorporated on 2 July 1998 pursuant to the license obtained from the Undersecretariat of Treasury for the purpose of giving factoring services as permitted by Law number 6762.

The Bank acquired 99.6% of the shares of Global Hayat Sigorta A.fi. for YTL 2,515 on 30 March 2007. Global Hayat Sigorta A.fi. changed its name to Deniz Hayat Sigorta A.fi. (Deniz Hayat) on 10 August 2007. Deniz Hayat increased its paid-in capital by paying YTL 1,313 completely through the Bank.

Denizbank Kültür Sanat Yayıncılık Ticaret ve Sanayi A.fi. (Deniz Kültür) increased its share capital by YTL 125 on 19 April 2006, YTL 40 on 18 September 2006, YTL 105 on 22 January 2007, YTL 30 on 17 April 2007, YTL 70 on 30 April 2007, YTL 100 on 12 June 2007 and YTL 200 on 30 July 2007, YTL 50 on 2 November 2007, all in cash.

## Denizbank Anonim Şirketi

## Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

12.1 If the amount of an allowance for the decrease in the value of a specific asset or the reversal from an allowance for the decrease in the value of a specific asset is significant in the financial statements

#### 12.1.1 Events and conditions that resulted in an allowance or the reversal of an allowance for the decrease in the value of the asset

In order to analyse the effects of the fluctuation in the real estate market, the Bank has conducted an expertise study of its buildings in 2006.

There has been no significant fluctuations in the real estate and the Bank did not conduct an expertise study in 2007 accordingly.

#### 12.1.2 Amount recorded or reversed in the financial statements

The Bank has booked an impairment loss provision of YTL 4,402 for three of its buildings.

12.2 Current year charge recorded in the financial statements as an allowance for the decrease in the value of a group of assets or income from the reversal of an allowance for the decrease in the value of a group of assets and events and conditions that resulted in them

None.

#### 13. Information on intangible assets

#### 13.1 Useful lives and amortization rates

The useful life of an asset is determined by taking the asset's expected economic life, technical, technological or other kinds of weariness, and maintenance costs into account. The amortization rates used are in accordance with the useful lives of the underlying assets. The useful lives are determined as defined by TAS 38 "Intangible Assets".

#### 13.2 Amortization methods

The Bank uses straight line amortization method for intangibles purchased before 1 January 2003 and after 31 December 2006, by the rate of 20%. Assets purchased in other periods are amortized by 40% using double-declining amortization method.

13.4 The carrying value, description and remaining useful life of significant intangible assets, if any

None.

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

13.5 Information on intangible assets that have been purchased by government grants and originally have been accounted for by using the fair value principle

None.

13.6 Subsequent periods' valuation methodology for intangible assets that have been purchased by government grants in the past and originally have been accounted for by using the fair value principle

None.

13.7 Carrying value of intangible assets that are pledged or restricted in usage

None

13.8 Amount of any commitments granted for the purchase of intangible assets

None.

13.9 In case of a revaluation, information to be supplied in the table below, on an asset by asset basis for intangible assets

None.

13.10 Total amount charged to income statement as research and development expense, if any

Research and development expenses amount to YTL 387 in the current year (31 December 2006: YTL 752).

13.11 Goodwill or negative goodwill arising from consolidated investments

None.

#### 14. Information on held for investment immovables

None.

#### 15. Information on deferred tax asset

15.1 Amount of deferred tax asset recognized in the balance sheet in respect of each type of deductible temporary differences, unused tax losses, unused tax credits

Deferred tax asset calculated on the basis of related regulation is YTL 20,809 (31 December 2006: None) and there is no deferred tax liability (31 December 2006: YTL 1,357). The amount is the net of deductible temporary differences and taxable temporary differences calculated as of the balance sheet date.

According to TAS 12, deferred tax assets and liabilities are offset against each other in the financial statements. However, deferred tax assets and liabilities relating to individual consolidated subsidiaries that do not report to the same fiscal authority are not permitted to offset against each other in the accompanying consolidated financial statements.

Deferred tax effects of items charged or credited to equity are also charged or credited directly to equity.

15.2 Amount and expiry date of deductible temporary differences, unused tax losses, unused tax credits for which no deferred tax asset is recognized in the balance sheet

None.

15.3 Deferred tax asset resulting from the cancellation of the provision for impairment losses related to the deferred taxes

None.

#### 9. Taxes for continued and discontinued operations

# 9.1 Current period taxation benefit or charge and deferred tax benefit or charge

The current period taxation charge is YTL 91,124 and deferred tax benefit is YTL 21,542.

Corporate Tax Rate is reduced from 30% to 20% in accordance with the article 32 of the new Corporate Tax Law No 5520, as announced in the Official Gazette dated 21 June 2006, no.26205. Consequently, corporate earnings is subject to 20% corporate tax rate starting from 1 January 2006. It is announced that corporate taxes which have been computed and paid using the corporate tax rate of 30% for the taxation periods before the new Law is enacted, will be offset against the corporate taxes of the following periods.

# 9.2 Deferred tax charge arising from origination or reversal of temporary differences

	Current Period	Prior Period
Deferred tax benefit/charge arising from temporary differences:		
Arising from Origination of Deductable Temporary Differences (+)	15,443	5,259
Arising from Reversal of Deductable Temporary Differences (-)	(1,726)	(2,332)
Arising from Origination of Taxable Temporary Differences (-)	(1,274)	(7,095)
Arising from Reversal of Taxable Temporary Differences (+)	9,099	6,784
Total	21,542	2,616

# 9.3 Deferred tax charge arising from temporary differences, tax losses or unused tax credits

	Current Period	Prior Period
Sources of deferred tax benefit/charge:		
Arising from Origination (+)/Reversal (-) of Deductable Temporary Differences	13,717	2,927
Arising from Origination (+)/Reversal (-) of Taxable Temporary Differences	7,825	(311)
Arising from Origination (+)/Reversal (-) of Tax Losses	-	-
Arising from Origination (+)/Reversal (-) of Unused Tax Credits	-	-
Total	21,542	2,616

# 10. Information on continued and discontinued operations net profit/loss

	Current Period	<b>Prior Period</b>
Continued operations profit before tax	410,837	391,604
Continued operations tax provision	(69,582)	(49,315)
Condtinued operations net profit/loss for the period	341,255	342,289
The Group does not have any discontinued operation.		

#### 11. Net profit and loss

# 11.1 Any further explanation on operating results needed for a proper understanding of the Bank's performance

Income generated from the DFS Group's ordinary banking transactions during the current and prior period are mainly consisted of interest income from loans and marketable securities and income from other banking services. Main expense items are the interest expenses related to deposits and borrowings which are the main funding sources of marketable securities and loans. The size and recurring ratio of these items are not significant which would require additional explanation and disclosure.

- 11.2 Changes in estimations made by the DFS Group do not have a material effect on current and subsequent period profit/loss.
- 11.3 Since there is no minority right in the share capital of the DFS Group, there is not any profit or loss related to minority rights.
- 11.4 No changes have been made in the accounting estimates which may have a material effect in current period and materially affect subsequent periods.

Section 4 Independent Audit Reports, Financial Statements and Notes

Others	17,256	18,683
Total	92,708	73,353

#### V. Information and disclosures related to consolidated statement of changes in shareholders' equity

#### 1. Changes due to valuation of investments available-for-sale

The amount of decreases from revaluation of investments available-for-sale of DFS Group has been YTL 8,457 as of 31 December 2006. This amount has been reflected to "Securities Value Increase Fund" in the balance sheet.

As of 31 December 2007, an additional amount of YTL 2,246 has been realized as income from redemption/sale of other items in "investments available-for-sale" portfolio.

On 18 September 2006, DFS Group sold its investment amounting to 32,481,802 shares in Zorlu Enerji Elektrik Üretimi Otoprodüktör A.fi with a unit price of YTL 4.35, totalling to YTL 141,296 to Zorlu Holding A.fi.. 20,730,000 shares of this sale, amounting to YTL 90,176 have been realized from "Investments available-fore-sale" portfolio. As a result of the sale, the Bank transferred YTL 71,595 from "Securities Value Increase Fund" to "Profit/Loss" accounts.

# 2. Reconciliation of the beginning and end of the year balances of foreign exchange differences

Foreign exchange differences resulting from the Bahrain branch of the Bank and from the translation of the financial statements of consolidated foreign subsidiaries amounted to YTL (13,351) (31 December 2006: YTL 10,530) and are included in shareholders' equity as "other profit reserves".

#### 3. Dividend information

3.1 Dividend amounts declared subsequent to the balance sheet date but before the issuance of the financial statements

None.

3.2 Net profit per share decided to be distributed after the balance sheet date

None.

#### 4. Amounts transferred to legal reserves

The Bank transferred YTL 13,818 to legal reserves and YTL 275,079 to extraordinary reserves in 2007.

# 5. Information on issuance of common stock

5.1 Rights, priorities and restrictions for all classes of capital shares, including dividend distribution and recall of capital

None.

# Consolidated Financial Report as of 31 December 2007

(Currency: Thousands of YTL-New Turkish Lira)

6. Explanations for other increases in consolidated statements of changes in shareholders' equity

None.

#### VI. Information and disclosures related to consolidated cash flow statement

# 1. Disclosures for "other" items in the statement of cash flows and effect of changes in foreign currency exchange rates on cash and cash equivalents

"Other" item amounting to YTL (609,121) before "changes in operating assets and liabilities" comprise other operating expenses, fees and commissions paid and net trading income/loss. The Bank's net cash outflow from investing activities amounts to YTL 1,159,473. As a result of these changes in the cash flow statement, the balance of cash and cash equivalents has changed from YTL 3,017,102 to YTL 2,088,065 in 2007.

"Other liabilities" item included in "change in assets and liabilities subjected to banking activities", amounting to YTL 747,107 comprise taxes and duties payable, and other external resources changes in liabilities.

The effect of foreign currency exchange rates on cash and cash equivalents is reflected in foreign exchange gains and losses, which is presented as a separate line item as "effect of change in foreign currency exchange rate on cash and cash equivalents".

# 2. Information on cash and cash equivalents at the beginning of the period

	Current Period	Prior Period	
	31.12.2007	31.12.2006	
Cash	236,353	187,156

(Currency: Thousands of YTL-New Turkish Lira)

# SECTION SIX OTHER DISCLOSURES AND FOOTNOTES

# I. Other explanations related to the Parent Bank's operations

#### 1. Explanations related to the Bank's operations

On 5 March 2007, the Bank fully repaid its club loan, amounting to USD 500 millions.

On 28 June 2007, the Bank obtained a securitization loan based on remittances, amounting to USD 350 million (Series 2007-B, USD 200 million, and Series 2007-C, USD 150 million) by the intermediation of Dexia Bank Belgium and ABN Amro Bank. The maturity of the loan is 15 June 2015.

The Bank obtained a 10 years maturity (repayable after 5 years) subordinated loan from Dexia SA, amounting to USD 50 million on 28 June 2007.

On 3 July 2007, the Bank fully repaid its securitization loan, amounting to USD 150 millions (Series 2005-A) which had an original maturity of 2010.

The Bank signed a 10 years loan facility with European Investment Bank, amounting to Euro 250 million, on 12 July 2007. The loan is designed to be granted to small and medium sized enterprises, and commercial and corporate customers, in portions of Euro 150 million and Euro 100 million, respectively.

The Bank obtained a 10 years maturity (repayable after 5 years) subordinated loan from Dexia SA, amounting to USD 130 million on 27 September 2007.

The Bank recorded its new capital investments to Denizbank AG and CJSC Denizbank Moscow, amounting to YTL 25,534 and YTL 14,217, respectively, in "other assets" since the authorizations of the related foreign bodies have not been granted yet.

# 2. Information summary about ratings of the Banks which has been performed by the international risk rating institutions

#### Republic of Turkey's rating by Fitch Ratings

On 12 December 2007, Fitch Ratings has upgraded Turkey's long-term local currency rating to BB from BB-. Fitch Ratings has affirmed long-term foreign currency rating of BB-and the outlooks for long-term local and foreign currency at Stable.
