DenizBank's

Mission

DenizBank's mission is to enhance shareholder value with its market position, image and corporate characteristics by employing a supermarket approach to financial services, thus ensuring satisfaction to shareholders, employees and customers.

Vision

DenizBank envisions becoming one of the largest five banks in Turkey and the foremost financial institution in the region defined as the Middle East, Balkans, Caucasus and CIS countries through sustained and profitable growth.

Ordinary General Assembly Meeting Agenda

1. Opening and establishment of Board.
2. Authorization of the Board to sign "assembly meeting minutes" and "attendee's list".
3. To take decisions about reading, discussing and approval of Balance Sheet and, Profit and Loss Statement for the fiscal year 2011; Report of Independent Auditor prepared by DELOITTE-DRT Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik A.Ş. - as a result of independent audit proceedings of the fiscal year of 2011 and report of Board of Directors and Statutory Audit Report.
4. To take decisions about distribution of 2011 profit.
5. The discharge of members of the Board of Directors who resigned within the year and members of the Board of Directors and Auditors who continue their duty regarding their activities of the year 2011.
6. Election of the auditors and decision on their period of term in office.
7. To take decisions about the honorarium and salaries of Members of the Board of Directors and of the Auditors.
8. Submitting the realized donations for the information of shareholders.
9. Granting the permissions stated in Article 334 and 335 of the Turkish Commercial Code to the members of the Board of Directors on the condition that points subject to permission are not included in the points banned by the Banking Law numbered 5411.
10. To take decisions about the issuance of bonds, profit share certificate, commercial paper and debenture bonds.
11. Wishes and requests.

DENİZBANK A.Ş.

Dividend Distribution Proposal

At its meeting No. 2012/12 on February 28 2012, the Board of Directors resolved to propose for the General Assembly's approval that

Our Bank's net profit of TL 873,974,272.74 accruing according to the unconsolidated balance sheet for the year 2011 not be distributed to shareholders,

- Out of the net profit, TL 39,803,903.57 be allocated as primary legal reserves according to Article 466/1 of the Turkish Commercial Code in a way not to exceed 20% of the paid-in capital; and profit of sale of subsidiaries namely Deniz Emeklilik ve Hayat A.Ş. and Deniz Türev Menkul Değerler A.Ş. in 2011 amounting to TL 305,197,938.30 be kept in the Compulsory Savings account to benefit from the exemption specified in Article 5/1-e of Corporate Income Tax Law; and the remaining TL 528,972,430.87 be allocated as Extraordinary Reserves,

- Any difference of Corporate Income Tax that may arise as of the Corporate Income Tax declaration date be paid through extraordinary reserves.

Respectfully yours,

DENİZBANK A.Ş.
Board of Directors

Amendments to the Articles of Association

There is no amendment to Articles of Association between 01.01.2011 and 31.12.2011.

CONVENIENCE TRANSLATION OF
THE REPORT ON COMPLIANCE OF ANNUAL REPORT
ORIGINALLY PREPARED AND ISSUED IN TURKISH

Compliance Opinion

To the General Assembly of Denizbank A.Ş.:

We have audited the accuracy and compliance of the financial information in the accompanying annual report of Denizbank A.Ş. with the audit report issued as of December 31, 2011. The annual report is the responsibility of the Bank's management. Our responsibility, as independent auditors, is to express an opinion on the audited annual report based on the compliance of financial information provided in the annual report with the audited financial statements and explanatory notes.

Our audit was performed in accordance with the accounting standards and principles and procedures of preparing and issuing annual reports as set out by the Banking Act No: 5411. Those standards require that we plan and perform our audit to obtain reasonable assurance whether the annual report is free from material misstatement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial information provided in the accompanying annual report presents fairly, in all material respects, the financial position of Denizbank A.Ş. as of December 31, 2011 in accordance with the prevailing accounting principles and standards set out as per the Article 40 of the Banking Act No: 5411. The financial information provided in the annual report is in compliance with the audited financial statements and explanatory notes, and also includes the summary management report and our audit opinion on these financial statements.

DenizBank rolled over its syndication loan of USD 650 million

Despite the rough economic conjuncture that is affecting the entire world directly or indirectly, DenizBank did not lose any momentum and rolled over its syndication loan secured in 2010 for USD 650 million with a 100% success ratio in 2011. The total cost of the 1-year syndication loan for EUR 432 million and USD 45.5 million, provided with the contribution of 21 banks under the coordination of Wells Fargo and Standard Chartered to be used for the financing of foreign trade operations of companies operating in the real sector, was kept at Euribor/Libor + 1.30%, which was the same rate as the

previous year. Keeping in mind the negative atmosphere in the global economy and the rising costs, the ability to obtain a loan of such a significant amount for these conditions is an indicator of DenizBank's well-deserved reputation and strength in the rising Turkish banking sector. This achievement for DenizBank is based primarily on its robust financial structure, high financial performance, strong management approach, excellent external ratings, which are the **highest bank ratings in Turkey**, and its contributions to both the Turkish economy as well as the foreign trade volume.

Euromoney/Project Finance Magazine Rewards to DenizBank

By providing financing to primarily projects in industries such as telecommunications, energy, infrastructure (seaports and airports), health, and education as well as providing medium to long term structured financing for sector investments, privatization and acquisitions, DenizBank kept its significant place in the development of investments and employment in Turkey in 2011 as well. DenizBank financed USD 82 million of the total USD 860 million resource provided to the consortium who won the tender held for the sale of all of Istanbul Deniz Otobusleri A.Ş. (IDO) shares in 2011.

Despite its complexity, the speed of providing financing for IDO, the largest ferry operator worldwide with 50 million passengers carried annually, was an exemplary transaction for many years to come for the sector. IDO was the Project Financing transaction of the year for DenizBank through the cash flow, salary and insurance payments, as well as the synergy created with the IDO Sea&Miles credit card. Moreover, the IDO project earned DenizBank the European Transport Deal of the Year award from the Euromoney/Project Finance Magazine 2011 Deals of the Year.

350,000 books to 3,500 villages from DenizBank!

Having placed significant importance in agriculture, DenizBank has brought Agricultural Banking to a different point. DenizBank has continued to make producers' lives easier through several innovations in this field. DenizBank continuously increased its service quality through expert representatives, most of which are agricultural engineer, focusing on agricultural banking services in 240 branches. With the financial support given to agriculture, DenizBank has continued its leadership of the past four years among privately owned banks. Furthermore, the goal of contributing to the Turkish agriculture continued through consultancy services provided towards raising awareness

as part of social responsibility. DenizBank has continuously improved the scope of the "Agriculture Campaign," initiated in 2009 in collaboration with the Ministry of Agriculture and Rural Affairs, which happens to be the first of its kind in Turkey. In 2011, book sets about agricultural production distributed to producers as part of the "350,000 Books to 3,500 Villages" project in order to increase productivity through conscious production. Moreover, continuing student scholarships in 2011, DenizBank and provided full-scholarship education to successful children of 20 village farmers living with limited financial means in collaboration with Turkish Education Association.

With the integration of The General Directorate of Post and Telgraph Organization (PTT) ATM's and PTT Cards with the finance system, DenizBank achieved the biggest business partnership in this field.

As a result of the collaboration between DenizBank and PTT, the closed circuit system of PTT was integrated with the banking system. Within the scope of the collaboration, old debit cards were replaced with new PTT Cards that are integrated with domestic and international payment systems and provide ease of use, credit account products for emergency cash needs, ability to use for shopping to cardholders. This partnership has

enabled PTT customers to access their accounts through all banks' ATM's and to complete transactions from DenizBank ATM's without any fees. With this integration, DenizBank has reached 2,370 ATM's and 5.8 million debit cards with PTT Cards. Having been part of the largest partnership of this segment in the Turkish finance sector, DenizBank has increased its market share in the number of debit cards to 7.1%

DenizBank is the only bank that provides financing and fan cards for all of the champion clubs of Turkey

DenizBank continued to be financial solution partner to our sports clubs and proved its leadership in the sector by being the first bank to provide cards under the Bonus platform to all of the "Big Five," which consist of Fenerbahçe, Galatasaray, Beşiktaş, Trabzonspor, and Bursaspor. DenizBank, the first bank in Turkey to issue contactless credit cards, provide fans with privileges like preliminary ticket purchasing,

discounted shopping, participation in organizations, and benefiting from discount campaigns through these cards. In addition to the champion clubs, DenizBank implemented ESES Bonus, Çaykur Rizespor Bonus, Mersin İdman Yurdu Bonus, and Orduspor Bonus, and thus increased its number of fan cards to nine.

DenizBank continued to its leadership in the Commercial Cards market

DenizBank continued to create innovative solutions to needs with its sector specific service approach in commercial cards. DenizBank kept its leadership in the commercial cards market with a total of 528,000 sector specific cards consisting of "SME Card" for SME's, "Producer Card" and "Farmer Card" for agricultural producers, "Smart Card" for merchants and craftsmen, and "Cash Card" for commercial and corporate firms.

In 2011, DenizBank resumed adding new benefits to existing ones through SME Card, offering four different credit products in one card and still being one of a kind in the sector. MasterSME program continued to create cost advantage to SME's by using financial tools accurately and effectively. For members of the Istanbul Union of Chamber of Merchants and Craftsmen (ISTESOB), "ISTESOB Smart Card" was added to the SME Card platform. ISTESOB Smart Card provides special advantages and discounts in purchasing goods and services. Moreover, DenizBank has broken yet another new ground by paying union dues of cardholders who use their cards at certain intervals.

DenizBank, who is committed to agriculture, offers producers with Producer Card, which serves as a model in the sector. DenizBank has continued to break new ground in the sector through offering features such as application submission via SMS, creating automatic payment orders for Bağ-Kur social security premiums and the ability to postpone the premium payments to crop harvesting period within the scope of the Producer Card. "Farmer Card," which can be used in Soil Products Office (TMO) product payments, has allowed farmers to collect early payment of their crops.

DenizBank continues to support culture, arts, sports, and education.

Knowing that corporate performance does not only consist of financial indicators, and acting as a corporation aware of its social responsibilities, DenizBank continued to support projects that "value-added" for Turkey. DenizBank has been supporting sailing since 2008 as part of its collaboration with the Turkish Offshore Racing Club, which is the pioneer of the development of yachting and sailing. DenizBank sponsors all of the races in the series within the scope of its corporate sponsorship. Moreover, the second biggest race in the series, the "Marmara Cup" was renamed as the "DenizBank Marmara Cup."

Believing in its motto, "Yes to Arts," DenizBank has supported many projects in the culture and arts field since its first day. In an effort to increase interest in high-quality arts in Turkey, DenizBank began its corporate sponsorship of

Istanbul State Symphony Orchestra (IDSO) in 2004. This sponsorship continued in 2011 with the same enthusiasm and desire. DenizBank sponsored the first "International Istanbul Opera Festival" held in 2010 by the General Directorate of State Opera and Ballet with the objective to bring together a wider section of the society, especially the younger population, with culture and arts projects. In 2011, DenizBank enabled the Festival under the art directorship of Yekta Kara, Superior Director of the General Directorate of State Opera and Ballet, to unite with art lovers in various historical and cultural venues of Istanbul such as Yıldız Palace, Topkapı Palace, Rumeli Hisarı, Haliç Congress Center, and Cemil Topuzlu Open-Air Theater.

DenizBank Financial Services Group, becoming a “financial supermarket” from a “banking licence” in a very short time, increased its operational efficiency by following the right management strategies.

DenizBank was founded in 1938 as a state-owned bank to provide funding for the developing Turkish maritime sector. Acquired by Zorlu Holding from the Privatization Administration as a banking license in early 1997, the Bank became one of the major banks in Turkey in a short period of time. In October 2006, DenizBank was acquired from Zorlu Group by Dexia, a leading financial group in Europe and operated as part of the Dexia Group in 2011.

A fast and extensive transformation process

Following its successful privatization, the Bank implemented a “return to life” program that encompassed recruitment and new branch openings as part of its new corporate identity. These initiatives were undertaken in accordance with a five-year strategic plan; subsequently, all of the plan’s growth objectives were accomplished. This growth target stipulated in the strategic plan was partially accomplished by buying back some branches that were transferred to the Savings Deposit Insurance Fund and the Group’s acquisition of Tarihbank at the end of 2002. To complement its existing banking products and services, DenizBank also established factoring, leasing and investment companies and acquired an asset management company and banks in Austria and Russia.

Thanks to the support of its solid capital base and balanced financial structure, as well as the rapid growth of the overall banking sector, DenizBank reinforced its existing market position in very short order. DenizBank Financial Services Group was formed in 2003 to create a “financial supermarket” that offers various financial services under a single umbrella.

“Financial supermarket” era in banking

In addition to DenizBank, DenizBank Financial Services Group consists of six domestic and three international financial subsidiaries, four domestic non-financial subsidiaries and a branch in Bahrain. DenizYatırım Securities, EkspresInvest Securities, DenizInvestment Trust, DenizPortfolio Management, DenizLeasing, DenizFactoring, Intertech, DenizKültür, Bantaş and Pupa are the Group’s domestic companies; EuroDeniz, DenizBank AG and CJSC Dexia Bank are the international subsidiaries.

The primary customer segments of DenizBank Financial Services Group include retail customers, small and medium-size enterprises, exporters, public and project finance users and corporate clients. The Group has identified agriculture, energy, tourism, education, health, sports, infrastructure and maritime sectors as a priority for its activities.

The Group also operates in EU countries through its Vienna-based subsidiary DenizBank AG. CJSC Dexia Bank serves the Group’s existing customers abroad that have commercial and trade ties with Russia and meets their various financial needs.

Transforming itself from a mere banking license to a comprehensive “financial supermarket” in a short period of time, the Group consolidated its operations along with financial control and accounting functions at the head-office level and converted DenizBank branches into marketing centers. As a result of this strategy, the Bank maintained the number of employees at the optimum level while increasing operational efficiency.

The Group's main fields of activities are retail and commercial banking, public and wholesale banking, asset management and investor services.

Dexia is a European banking group which, in 2011, carried out its activities principally in Belgium, Luxembourg, France and Turkey in the fields of retail and commercial banking, public and wholesale banking, asset management and investor services.

The Group's parent company is Dexia SA, a limited company under Belgian law with its shares listed on Euronext Brussels and Paris as well as the Luxembourg Stock Exchange.

Since December 2008, the Group has considerably reduced its risk profile and refocused its commercial franchises on its historical business lines and markets, in line with the restructuring plan validated by the European Commission. Eager to consolidate and to strengthen its commercial franchises, Dexia has refocused its activity portfolio on the local bank, grasping opportunities for growth in retail banking in Turkey. In the field of public banking, the Group chose to remain a selective, profitable and recognised specialist, offering a diversified range of products. This plan was implemented in line with the objectives fixed until mid-2011.

As a consequence of the aggravation of the sovereign crisis in the euro zone and more generally the hardening of the macroeconomic environment, Dexia was confronted by renewed pressure on its liquidity during the summer of 2011. Against that background, the Group acted promptly and, in October 2011, undertook to make in-depth changes to its structure, including:

- The implementation of a funding guarantee scheme involving the Belgian, French and Luxembourg States;
- The sale of Dexia Bank Belgium to the Belgian State, finalised on 20 October 2011;

- An agreement with the Caisse des Dépôts, La Banque Postale and the French State with regard to local public sector finance;

- The disposal of certain of the Group's operational subsidiaries, particularly Dexia Banque Internationale à Luxembourg, Dexia Asset Management and RBC Dexia Investor Services.

Implementation of these new structural measures will have a significant impact on the Group Profile in the future. 2012 will be rythmed by the completion of pending divestment processes. The new Group's activities will focus on public sector services through the international subsidiaries and on managing the bond portfolio in run-off. They will be conditioned by the approval by the European Commission of the Group's new restructuring plan, notably the guarantee by the Belgian, French and Luxembourg States on Group financing.

In 2012, we will vigorously maintain our differentiated high-quality service standard to which our customers have become accustomed to and will thus stride towards becoming one of the top five banks as per our vision.

Turkey demonstrated top notch performance in 2011 as the negative effects of foreign markets had a minimal influence and ranked amongst the top developing countries in terms of growth rate. Turkey's quarterly growth rates were 12.0%, 8.8%, and 8.2% respectively which illustrates a picture of sustainable growth throughout the year despite contractionary monetary policy. In addition to internal demand, investments have a significant share in establishing the growth rate. The quarterly growth rates also had a positive impact on unemployment rates. In October 2011, the unemployment rate was 9.1%, 2.1 points lower than that of the same period last year. Also, government budget management was the best Turkey has enjoyed in last 28 years and a new record of USD 135.0 billion was set for exports at the end of 2011. All in all, proactive policies, both fiscal and monetary, will help Turkey continue in its path with the optimal policy components even in these tough times where uncertainties are on the rise.

The banking sector had an active role in the economic resuscitation of 2011 but saw decreased profitability.

The banking sector supported economic growth in Turkey and grew just as rapidly as it did in 2010. Total assets increased by 21% and loans by 31% compared to 2010 while the securities portfolio decreased by 1%. With 452 new branches inaugurated, the sector increased its workforce by 4,112 employees. Despite this rapid growth, the capital adequacy ratio was more than double that of international minimum standards and the quality of the assets continued on its positive path. The increase in deposit maturities indicates not only that the policies implemented by the Central Bank of Turkey are effective, but also that there is a sense of trust in the economy. Nonetheless, measures taken by the Central Bank of Turkey aimed at minimizing the effects of the crisis in Europe on the Turkish economy have slowed down loan growth and decreased profitability. For the first time since 2004, net profit was 10% lower than the same period of the previous year.

Here at DenizBank, we had a very successful year.

I would like to state happily that whilst moving towards its objectives with solid strides, DenizBank helped minimize the effects of the global crisis on the domestic economy and continued to create added value for Turkey. DenizBank continued to achieve both operational and financial success by continuing its sustainable and determined approach without sacrificing its risk management policies during 2011; a year in which the global financial crisis had revived despite the recovery process having begun in 2010. DenizBank strode towards its objective of being the bank with the highest customer rating and achieving differentiation in a competitive environment. Despite the negative effects of global developments, DenizBank continued to provide services through its wide array of products in line with strategic road map determined according to the vision of "becoming one of the largest five banks in Turkey and the foremost financial institution in the region through sustainable and

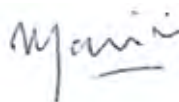

profitable growth." DenizBank contributed to the Turkish economy with its 600 branches, 88 of which were opened recently; 10,826 employees both in Turkey and abroad and also through financing with resources secured from abroad at low cost. Although profitability decreased in general for the banking sector, DenizBank displayed an increase in 2011.

The focus of our work was to sustainably increase the revenue generated through real banking operations without being drawn by the charm of short-term profit. As a reflection of the importance we place on customer relations management, we continued to develop products and services that meet our customers' needs, demands and habits. In line with our approach, we provided our customers with the means to easily access all necessary financial services and provided tailored solutions for sectors, companies and individuals. Our accurate customer segmentation and target oriented strategy brought the increase in our number of active customers and cross cell ratio.

As a bank that can analyze its customers' needs accurately, DenizBank will continue to utilize all aspects of technology to differentiate itself in the sector by providing its customers with new products and services in 2012. DenizBank will use funds generated as a result of the trust in DenizBank brand to create resources for the real sector, thus aiding the development of the Turkish economy, and will maintain steady growth without sacrificing this strategy.

DenizBank will continue to contribute to the development of Turkey not only through its understanding of financial responsibility but also through corporate social responsibility. Publications in science, arts, culture, literature, sports, and education as well as sponsorships and scholarships will continue in 2012. DenizBank will support sustainable and conscientious agriculture by organizing seminars and courses as well as delivering more books to more villages within the scope of Agriculture Campaign.

One of the most important factors underlying the financial success of DenizBank in such hard times is the loyalty and devotion of its qualified and experienced "sailors" and "captains." The unchangeable reality that has made DenizBank among the most successful banks of the sector is the belief in "collective wisdom," support and a sense of corporate social responsibility. On behalf of DenizBank, I would hereby like to congratulate all of my colleagues who have carried DenizBank into the future for their successes. To our customers, business partners and all stakeholders who have been on board with us throughout this journey, I extend my sincere gratitude for your trust and support.

Pierre MARIANI
Chairman of the Board of Directors

We have created tailor-made solutions for our customers by focusing on core banking activities and continued to contribute to the development of our country's economy by channeling our resources into the real sector.

The banking system of developed countries is going through hard times with the global economic crisis that began in the last quarter of 2008. These countries have to increase their capital or/and decrease their financial leverage ratios that are very high. A lack of trust caused by incoherent balance sheets prevents banks from giving out loans to each other, despite the liquidity influx to the market provided by central banks. Loan demand is low as much indebted household members try to cut spending and companies delay their investments because of the uncertainties they face. This is why banks in developed countries face difficulties in increasing their operational revenues, and nearly all of them have to focus on cost management. These measures only provide a temporary solution to problems that have become chronic. But the financial figures related to global economic activities that were published in the last months strongly signal that 2012 might pass more favorably than the former years.

Turkey's banking sector performed well in 2011, despite tight monetary policies and anxiety based on the crisis.

Despite these adversities Turkey's banking sector, the biggest contributor to the economy experienced a productive 2011 and grew faster and healthier when compared to 2010. Total assets grew by 21% to reach TL 1,218 billion. The share of securities portfolio in assets decreased to 23% in 2011 from 29% in 2010. Major drops in the revenues from both public financing and securities inevitably resulted in loan growth for profitability and loans increased by 31% reaching TL 678 billion in 2011. The expected steep drop in profits as a result of the tight monetary policies was slowed due to the adaptability of the sector: The banking sector's net profit realized as TL 19.8 billion with a limited 10% drop.

Our operational perfection understanding reflected itself in exceptionally good results in our fundamental banking activities.

In 2011 DenizBank has again surpassed its peers in the sector and come one step closer to its goals, by adhering to its sustainable and profitable growth strategy despite the ongoing restructuring of the global financial market, the banks' reassessment of their business models and permanent measures being implemented even three years after the global financial crisis first took hold.

As Turkey's sixth largest private bank DenizBank has increased its loans, total assets and equity above the sector averages by contributing to the development of Turkey's economy through channeling its resources into the real sector. According to our 2011 year-end financials, we grew our consolidated loans by 30% to TL 30,947 million, our total consolidated assets by 32% to TL 44,756 million and our consolidated equity by 27% to TL 4,641 million. While our capital adequacy ratio on a consolidated basis realized as 14.72% above international standards, we reached our return on equity ratio to 26%. Our extensive customer base, that we expanded with our customer oriented approach and growing branch network, helped us grow our main funding source, the consolidated customer deposits to TL 26,499 million, a 34% increase that is well above the sector average. The effective channeling of our acquired resources into the economy resulted in a 117% Loan/Deposit and 69% Loan/Asset ratio that put DenizBank well ahead of the sector.

DenizBank also distinguished itself from other banks by only investing 12% of its assets to the bond portfolio, which is primarily reserved for liquidity management. Our high profitability can be traced back to our approach that is, and has been since our founding, based on core banking activities. We increased our net profit by 72% to TL 1,061 million, despite the decrease in the sector's profitability compared to last year, putting us in the top league of the banking sector.

Our financial supermarket approach helped us grow continuously.

DenizBank serves as a financial supermarket for all sectors of the economy with an extensive product range that encompasses every segment of the banking sector. We provide all our financial services, from leasing to cultural services, from investment banking to IT services under a single roof. We developed segments like "Mass Banking", "Youth Banking," "Pensioner Banking" and "Affluent Banking," based on the relation between life's cycle and financial needs, and as part of our tailor made service approach for our customers' needs.

We increased our number of customers by 21% to reach over 5 million and further raised the bar by increasing our activeness ratio, through our distinguished segmentation and quality service understanding thanks to our customer oriented approach that makes difference in the sector. With the addition of 88 new branches which brought our total number of domestic and foreign branches to 600 we became one of the most service network expanding banks of the sector. We continued to be a company that created employment opportunities in the sector and added value to our stakeholders, with our 10,826 employees and by being one of the most employee hiring banks of 2011.

We contributed international funds to our country as part of our principle to create value in Turkey's economy.

We proceeded to offer high-quality and innovative services that we brought to the sector by listening to our customers' demands. Our cooperation with PTT resulted in the biggest Turkish financial partnership of its kind. We increased our market share to 7.1% and experienced a record growth in our debit cards thanks to the synergy of this partnership which brought the number of our ATMs to 2,370 and the number of our debit cards to 5.8 million together with PTT cards.

We maintained our leading position in the Commercial Card market

Our partnerships with industry leading companies like IDO and Lufthansa resulted in the creation of Sea&Miles, Deniz Bonus Trink, Miles&More cards; specialized fan cards for nine football clubs, including the top champion teams; prepayment cards like Antalya Kart, Ada Kart, Kampüs Kart; and mass banking cards like Paso Bonus, Emekli Bonus which enabled an above sector average growth in the individual card market in 2011. We have maintained our leading, 528,000 card strong position in the commercial card market by developing the "SME Card" for SMEs, the "Producer Card" and "Farmer Card" for agricultural producers, the "Smart Card" for artisans and craftsmen, "Cash Card" for commercial and institutional companies and other cards based on our sector tailor made service and innovative solution based approach.

Notwithstanding the bleak economic outlook across the globe, we have continued to obtain loans from international markets thanks to our robust financial structure, high financial performance and strong management approach. We have rolled over the USD 650 million syndicated loan, which we obtained in 2010 for the financing of foreign trade operations of companies operating in the real sector, 100% with the participation of 21 banks and with the same cost under the coordinatorship of Wells Fargo and Standard Chartered.

We provided low-cost, long-term funding support to 170 projects in 2011 thanks to the EUR 150 million and EUR 80 million loan agreements entered into with the EIB (European Investment Bank) and AFD (Agence Française de Développement), respectively, to be used in financing local administrations.

Within the framework of Credit Facility Program for Greater Anatolia (BAKK), we have extended loans totaling EUR 50 million to companies operating in underdeveloped parts of the country and especially across the Eastern and Southeastern Anatolia. As DenizBank, we increased the size of the funds offered by this program to EUR 100 million by

contributing EUR 50 million and made it available to the SMEs operating in underdeveloped parts of the country.

We have been nominated as the "Securitization Issue of The Year" award in Europe, Middle East and Africa zone by International Financing Review (IFR) Magazine for the securitization of EUR 300 million which is the largest funding of the year in its own field, realized by four development banks, European Bank for Reconstruction and Development (EBRD), European Investment Bank (EIB), International Finance Corporation (IFC) coming together under a single roof for the first time.

Using the MIDSEFF loan of EUR 150 million, which was secured through the EBRD and EIB partnership, we gave priority to the financing of renewable energy projects and continued our efforts to channel this loan to mid-sized renewable energy projects. Within the framework of the Turkey Agribusiness SME Financing Facility (TURAFF) program run by the EBRD, we obtained a loan of EUR 40 million to be used for the financing of investment and working capital needs of SMEs operating in Turkey.

In addition to these, we continued to extend the loans we obtained from Japan Bank for International Cooperation (JBIC), Agence Française de Développement (AFD), Dutch Development Bank (FMO), Development Bank of Austria (OeEB) and Industrial Development Bank of Turkey (TSKB) and Development Bank of Turkey, which acts as intermediaries for World Bank loans, to our customers operating in the agricultural, SME and government sectors.

In addition to the funds we obtained from international financial institutions in order to support our priority industries, we completed the first issuance of bank bills and bonds, for which we obtained permission up to TL 2 billion in May with TL 500 million and November with TL 300 million. We observed the reinvigoration of our customers' in our bank by displaying high demand for our issuances.

Our innovative solutions provide both competitive and cost advantage to SMEs and farmers.

By combining the power of more than half a million SME customers under a single roof, we provided them with exclusive advantages and discounts in their service and product purchases. We added the Smart Card feature to the SME Card platform and launched the ISTESOB Smart Card to the members of ISTESOB (Association of Istanbul Chambers of Craftsmen and Artisans), another first in Turkey. As a continuation of the same project, we signed agreements with the members of similar

We boosted our philosophy of providing services to our country in all areas through our social responsibility projects.

associations in İzmir and Antalya. As a result of these cooperative arrangements, we achieved above-average growth in our SME loans.

As the first bank in Turkey to consider the Ministry of Agriculture a business line, including the 31 "Green Drop" branches that are designed to exclusively serve agricultural banking clients, DenizBank continues to offer agricultural banking services with 240 branches in 2011. In order to raise the quality of our services, we expanded our customer representative base, the majority of which consists of agricultural engineers. We continued our leadership as the "largest provider of agricultural loans to the sector among private banks" in 2011.

Blazing new trails in the area of finance, we continued our support to the projects which created value in the areas of culture, arts, sports and education in accordance with our social responsibility mission. We provided support to sailing by becoming corporate sponsors of Turkish Offshore Sailing Club (TAYK) and arts by becoming corporate sponsors of the Istanbul State Symphony Orchestra (IDSO) and sponsors of International Istanbul Opera Festival. We continued our efforts to provide farmers with information related to agricultural production, which was launched within the framework of the "Agricultural Mobilization" program, by continuing to implement the "350,000 books to 3,500 villages" project, helping producers to increase their yields by making more informed production decisions. We continued to support education by giving full educational scholarships to children of farmer families in cooperation with the Turkish Education Association (TED). In addition, in October 2011, in order to make our customers feel that we are always by their side and contribute, no matter how small it is, to the national unity of our country, as DenizBank, we deferred the loan or credit card repayments of victims of the Van earthquake without any strings attached. We are taking advantage of all opportunities provided by the latest technological developments in order to provide our customers with quality services.

We continue to be appreciated and receive awards...

We filled the calls received by our Call Center with 94.7% operation/request rate. Thanks to our customers who really appreciate the care we pay to our service quality and follow our innovative solutions with curiosity, we moved up to 3rd place on Facebook by January 2012 with 164,000 likes on Facebook, despite the fact that we have launched our social network operations only very recently. With this motivation, we blazed another trail by expanding the scope of our activities on social networks and launched the first bank branch of the world on Facebook in January 2012.

We won the Deals of the Year - the European Transport Deal of the Year given by Euromoney/Project Finance Magazine 2011 with our financing project of IDO, which is the world's largest ferry-boat operator with an annual 50 million passenger. This project will set an example for long years to come for the sector thanks to the complexity of its structure.

Agriculture* application, which provides information and offer consultancy services to farmers and producers as well as entrepreneurs and industrialists who are interested in the agriculture sector, won the Bronze Medal at the Horizon Interactive Awards in the "Customer Notification category with its website, which provides investors with sector information on an interactive platform.

We are nearer to achieving our targets with our employees, who are the architects of our success, and customers, who continue to support us.

As DenizBank, we achieved successful financial results also in 2011 thanks to our management approach which is in compliance with internationally-accepted corporate governance standards, which focuses on risk-management and is based on collective wisdom. By becoming the fifth largest privately-owned bank of Turkey, we have proved that we are taking firm steps into the future in order to achieve the goals called for by our vision.

I express my endless thanks to our employees, who have always shown the best of DenizBank, put their hearts into every task they handle and are the most important factor behind this achievement and all our stakeholders, especially our customers, who have never left us along this courageous journey.

DenizBank

Customer Segmentation

DenizBank has classified her customers into five main segments to reflect her customer-oriented service approach in her activities in the most effective manner.

1- Corporate Banking: This segment serves all companies with an annual sales turnover of at least TL 100 million, as well as the groups to which these companies belong (Financial sector companies fall within this segment).

2- Commercial Banking: This segment serves companies with an annual sales turnover of at least TL 15 million that do not fall within the scope of the corporate segment.

3- Public Banking: This segment serves local public administrations, their subsidiaries and economic enterprises, as well as state economic enterprises, their establishments and subsidiaries.

4- SME and Agricultural Banking: This segment serves firms and sole proprietorships with an annual turnover of less than TL 15 million, as well as the owners and partners of businesses with an annual turnover up to TL 5 million.

5- Retail Banking: This segment serves individuals, self-employed professionals, owners and partners of corporate and commercial segment companies and owners and partners of companies that are clients of the Bank's SME segment with an annual turnover of more than TL 5 million.

In addition to these five main segments, DenizBank offers private banking services to the upper retail segment clients and companies with a liquid net worth of at least USD 150,000.

Branch Network/Segmentation

Aiming to be one of the major players of the global financial system in her region, DenizBank continued to expand her branch network in line with her strategy of offering closer and more active service to its customers particularly in the retail banking, SME banking and agricultural banking segments and opened 88 new domestic branches in 2011.

Retail Banking Group

DenizBank offers easy access to services and provides a specialized service to clients by segmenting their needs based on their life cycle.

The Retail Banking Group carries out the activities within the scope of the following matters creating synergy and in coordination with other business lines of the Bank.

- Retail Banking Sales Management and Marketing
- Card Payments System
- Management of Self-Service Channels

Among the core activities of the Group are

- Improvement of products and services related to client segments, monitoring of the market, creating impact analyses of changes in the conditions of competition
- Improvement of technological and operational processes related to retail banking
- Monitoring, evaluation, and strategic planning for development of the business line
- Offering banking products and services through branches, internet, and mobile channels.

The Retail Banking Group has played a significant role in making DenizBank a preferred bank with its high-quality services and spent a successful year growing above the sector average. The Group strengthened client loyalty as a result of the satisfaction created through its innovative and dynamic structure and ground breaking applications. The active client base grew by 26%, while fees and commissions income increased by 32%.

In line with its policy to offer specialized services according to client needs, DenizBank performed customer management programs under “Affluent Banking” and “Mass Banking” segments within the scope of “Life Cycle Banking” approach, based on the relationship between the life cycle and financial needs of the clients.

Affluent Banking

Affluent Banking aims to provide clients a service beyond their expectations keeping in mind their life styles and needs. Many novelties within the scope of Affluent Banking have been implemented by DenizBank in Turkey. Affluent Banking clients have priority in branches and do not have to wait in line to complete their transactions. Moreover, Affluent Banking clients are offered

loans, credit cards, insurance and wealth management products with special benefits and long term housing loans with up to 25 year terms, as well as a consultancy service for channeling their investments accurately.

Affluent Banking values the qualified human resource of Turkey and provides special campaigns and practices for clients such as doctors and lawyers. LUCA Accounting Program Integration has been implemented for financial consultants in order to decrease their work load by up to 40%. In addition to financial privileges, Affluent Banking offers other privileges such as being able to deposit money from home or office through private security free of charge, 30% discount on Sunday brunches throughout Turkey using Affluent Bonus Platinum Card, 50% discount in airport parking and valet services in both domestic and international terminals at airports in Istanbul, Ankara, and Izmir in order to ease our clients' lives and increase their loyalty.

Mass Banking

In addition to continuous marketing communications targeting to gain new clients, Mass Banking activities use CRM technologies at maximum levels for deepening relations with existing clients. While serving over 1.5 million clients within the framework of mass segment management, banking programs specific to life cycles, prominently Pensioner Banking and Youth Banking are carried out.

Pensioner Banking

DenizBank aims to offer services above sector standards through Pensioner Banking; thus, it offers them special advantages to meet the needs and expectations of its clients in this segment. Pensioners can benefit from advantages like convenient term and interest rates for loans, special interest rates for financing their investments, prioritized services in branches to perform transactions, and withdraw money and view account balance from all ATM's throughout Turkey free of charge. Moreover, pensioners can benefit from additional installments, discounted interest rates, and discounts in automatic payment orders for their Pensioner Bonus credit card. DenizBank provides pensioners receiving their monthly pensions from DenizBank with an Emergency Health Services package to stand beside its clients in their tough days as well.

Youth Banking

With the Paso Youth Banking services, DenizBank provides the most comprehensive banking program offered in this field in the sector. DenizBank offers young people special campaigns and opportunities through the Paso Youth Banking program. In addition to financial advantages like Paso Bonus card program, advantageous tuition loans, Debit Card, and free money transfers, DenizBank Paso Youth Banking program provides services through Paso Deniz Web site as well as custom designed branches by way of agreements with Bahçeşehir University and Beykent University.

Retail Banking Products

Deposits

DenizBank pays close attention to clients' preferences and risk sensitivity when providing products in which clients can invest their savings. Customized deposit products and services offered to meet clients' needs have provided DenizBank with steadily improving retail deposit volumes. In 2011, Retail Banking outperformed the sector average with a 35% growth in deposits.

DenizBank Retail Customer Deposits (TL millions)

	Deposit Volume
2011	13,177
2010	9,788

In 2011, DenizBank expanded its product range by adding the 5-year Deposit Savings Account, allowing saving small amounts of money for long terms, and the Gold Time Deposit Account, established in line with the increasing significance of savings in terms of gold.

Consumer Loans

Consumer loans of DenizBank, one of the most important players of the sector with its innovative, easily accessible, and competitive credit products, exceeded TL 7 billion growing above the sector in 2011.

DenizBank Consumer Loans (TL millions)

	Total Loans
2011	7,140
2010	5,118

General Purpose Loans

In 2011, DenizBank achieved 48% growth in general purpose loans. With a performance above the sector average, its market share has reached 4.3%.

DenizBank General Purpose Loans (TL millions)

	Total Loans
2011	3,740
2010	2,535

Products and campaigns focusing on client needs continued in 2011 and a pre-approved loan practice for loan needs of existing clients was implemented. Moreover, "Loan applications submitted via Facebook" practice and "Physical Gold Secured Consumer Loan" product were rolled out, as a first in Turkey. Gold jewellery of customers is taken as collateral and general purpose loans are provided with convenient interest rates. Based on energy efficiency, the "Energy Savings Loan," with zero interest rate up to eight months and with a six-month grace period, was rolled out as continuance of innovative practices. This loan can be used for heat, water, sound, and fire insulations of buildings.

Housing and Car Loans

DenizBank outperformed the sector average, increasing its housing loans by 32% in 2011. DenizBank began offering housing, car, and general purpose loans with a discounted interest rate as well as advantageous deposit interest rates within the framework of the "Real Estate Agencies Package," a ground breaking practice established towards the needs of its business partners. DenizBank continued to partner with Turkey's leading real estate agency chains in 2011 as well. As a first in Turkey, DenizBank reached out to 7,000 people through special events organized for our real estate agencies.

In 2011, contracts have been signed with 61 new projects. Through this practice, housing loans with DenizBank quality are provided for select projects throughout Turkey. Aiming to provide after sales services as well, DenizBank rolled out the innovative "Your Home from Deniz is Ready" practice, unique in the sector, in 2011. With this practice, DenizBank has submitted applications for electricity, water, natural gas, telephone, etc. invoices for its housing loans' clients for free.

DenizBank has proved its leadership in the sector as the only bank that provides financing and fan cards for all of the champion clubs of Turkey.

Performance of DenizBank Housing Loans (TL millions)

	Number of Loans	Loan Volume
2011	44,166	3,018
2010	33,083	2,289

Working in collaboration with the most important automobile brands of Turkey, DenizBank integrated its quick loan application system with the Borusan system by way of partnering up with Borusan and DenizBank has created and rolled out a quicker and higher quality loan process. As a result of these partnerships, DenizBank achieved a 30% growth in car loans.

Performance of DenizBank Car Loans (TL millions)

	Number of Loans	Loan Volume
2011	14,327	379
2010	13,171	294

Credit Cards

DenizBank expanded further in 2011 with its wide scope of credit card portfolio designed for different segments and preferences. Aiming to answer all of the needs of its clients regarding the card payment system, DenizBank enriches and renews its products and services continuously in line with market conditions. In 2011, DenizBank improved its credit card volume by increasing number of retail cards to 1,441,623 with a 29% growth and total cards to 1,966,602 with a 32% rise. In retail card issuing volume, DenizBank recorded 31% growth. With these developments, its market share in the number of credit cards and credit card issuing volume has reached 3.8% and 3.3%, respectively.

In 2011, DenizBank has added new and innovative products to its debit card, credit card, and pre-paid cards range.

PTT Card

In 2011, DenizBank has begun an important partnership with PTT (the General Directorate of Post and Telegraph Organization), one of the well-established institutions of Turkey. Within the scope of the partnership, debit and credit cards carrying logos of both institutions were developed. PTT cards held by PTT clients have been given a Visa/Master Card feature, which will allow them to use their cards for purchases at all ATM's. DenizBank enlarged its debit card market

share by 7.1% and has earned the title of being the bank that increased its share the most in the market.

Fan Cards

Having been the first bank to have provided a card program to the "Five Major Teams" of Turkey, consisting of Fenerbahçe, Galatasaray, Beşiktaş, Trabzonspor, and Bursaspor, under the Bonus platform, DenizBank has proved its leadership in the sector in this category as well. In addition to the champion clubs, DenizBank has implemented ESES Bonus, Çaykur Rizespor Bonus, Mersin Idman Yurdu Bonus, and Orduspor Bonus and has increased its spectrum of fan cards to nine.

Pre-paid Cards

DenizBank aims to reach people who cannot use payment systems due to their age or income through pre-paid cards and debit cards. Within this scope, Antalya Card has been rolled out with A-kent, Ada Card with Adalar Municipality, and Campus Card with Marmara University.

The Marmara Campus Card Project created in collaboration with Marmara University and Multinet, has made 60,500 students, academic and administrative staff Campus Card holders. Moreover, Ada Bonus and the Ada Card project, worked on together with the Adalar Municipality, aims to contribute to the development of Adalar have been offered to the credit card market.

Other Innovative Practices

In 2011, DenizBank not only expanded its product range but also improved its existing products through innovative practices. Among these practices are

- NFC (Near Field Communication) technology
- Online shopping using debit cards
- Integration of POS Money integration, offering the ability to withdraw cash without having to go to the ATM when shopping at merchants using Visa Debit Cards
- "Expense Deferral" service provided to card holders via SMS

Performance of DenizBank Credit Cards

	Number of Cards	Number of Customers	Issuing Volume (TL)	Outstanding Volume (TL)
2011	1,966,602	1,601,097	9.5 billion	1.5 billion
2010	1,485,991	1,195,130	7.0 billion	1 billion

Self-Service Channels Management

Aiming to utilize advanced technology in the most effective way, DenizBank identified 2011 as an investment year in order to renew and improve all its existing channels within the scope of cutting edge technology and up-to-date trends, and create new channels to offer services to its clients.

DenizBank Web Site – www.denizbank.com

Corporate web site began running with its new interface and functions in February 2011. With the renovation, our Web site transitioned into an architecture focusing on marketing and sales. The new interface allows users to easily reach product contents. The social media integration and location-specific content have enabled the web site to be reached easier from all platforms and have a more flexible structure.

As a result of this new structure, the number of annual visitors of the web site increased by 14% and reached 10 million.

AçıkDeniz Internet Banking

In 2011, AçıkDeniz Internet Banking was restructured within the flexibility framework of cutting edge technology and many features, that are first in the sector, have been offered to clients. AçıkDeniz has given users the opportunity to customize their Internet Banking pages. The “Personal Menu” feature has enabled clients to access their favorite transactions quickly and conveniently without having to search through menus to reach the desired transaction command.

The new AçıkDeniz allows you to transfer money without entering the recipient’s account number; just their mobile phone number will suffice. With this feature, DenizBank has been **the first and only bank to complete money transfer transactions without requesting account numbers**. Another novelty presented with the new AçıkDeniz is that users can store their valuable digital documents, photographs, and other necessary documents securely using the e-Safe (Electronic Safe) application.

AçıkDeniz Mobile Banking (MobilDeniz), Mobile Applications, and Mobile Payment (NFC)

In order to provide easier access to remote banking transactions and to increase the trust in these transactions, DenizBank has initiated SMS banking. Using AçıkDeniz Mobile Banking infrastructure, clients

can access the Internet Banking platform using their mobile phones and pocket computers from any location.

“ŞifreTek” used in AçıkDeniz Internet Banking transactions, e-magazine offered to Affluent Segment Clients, “Q-matic,” first of its kind in the world used to obtain a queue number via mobile to complete transactions as the branch, and “Taraftar Yap” application are offered on Application Markets. Contactless payment has been achieved in mobile devices using NFC technology and micro payments have been made easier to complete.

Social Media

Social media platforms are used actively as a customer support channel. Problems of users who utilize these channels to communicate with the bank are tracked and solved rapidly via special support processes. Thus, positive brand perception can be strengthened. In addition, DenizBank developed “Facebook Banking”, first in the world, and provided its clients who have a Facebook account to transfer money 24/7, manage their daily agenda by monitoring their credit cards and deposits and share their complaints and suggestions via “Customers First” application instantly. As of the end of January 2012, with 164,000 likes on Facebook, DenizBank has reached 3rd rank among banks in a very short amount of time.

ATM Management and AçıkDeniz Wall

In addition to adding equipment with Cash Deposit/Cash Withdrawal features to its ATM network, DenizBank has included ATM’s with Change and Cash Reversible units in order to increase transaction capabilities. Moreover, the ATM software, guiding icons on ATM screens, as well as avatar practices are ground breaking applications in Turkey.

The number of DenizBank ATM’s reached 2,370 thanks to PTT collaboration. As a result of investments made in 2010 and 2011, 67% of the DenizBank ATM Pool has been replaced by new generation ATM’s. DenizBank has brought its ATM Market Share from 3.4% to 7.4%.

AçıkDeniz Wall designs, allowing clients to reach the Contact Center and use Internet Banking started to be set up in the branches. Accordingly, AçıkDeniz Wall was established at 145 branches in 2011.

SME and Agricultural Banking Group

Denizbank set out with the goal of providing tailor-made services to SMEs and the agriculture sector, two vital components of the economy which have key roles in Turkey's development. It creates a difference in the sector through its high-quality services, corporate partnerships and customized solutions.

The SME and Agricultural Banking Group ensure that operations related to the following activities are undertaken by creating synergy and in coordination with other business lines of the Bank.

- SME and Agricultural Banking Marketing and Sales
- Merchant Relations
- Gold Banking

The target audiences are SMEs, farmers, agricultural businesses, and investors with interests in the agriculture sector. Its core activities are the;

- Development of products and services targeting SME needs, preparation of sector and product packages and the creation of timely and maximized sales opportunities
- Identification of targets aligned with our Bank's policies and strategies in collaboration with related business units and the coordination of sales regarding merchant activities
- Development of new POS products and assisting of branches in promoting and marketing these products
- Development of financial products that support the development of the agriculture sector and meet the financial needs of farmers
- Research and design of new funding products for agricultural banking
- Marketing and sales of gold and silver loans, deposits and precious metals as well as other related products and carrying out activities to acquire new customers

SME Banking

DenizBank provides services to its SME customers, which include artisans and small businesses, through its branches spread throughout Turkey, via www.kobideniz.com, which is a website specifically designed for this segment and other alternative distribution channels. In 2011, SME Banking continued operations with the objective of promoting the Bank's products and services, reaching out to clients in the most effective manner with the correct products and developing new products should they see an opportunity arise whilst reviewing and also improving operational processes.

With corporate partnerships, smart solutions arrive at SMEs' doorsteps

DenizBank continuously increases its cooperation with various brands and organizations in order to create more value for SMEs. SME Card, offered to the market in April 2008, reaching 179,000 units as of 2011 year-end has still been one of a kind in the sector. With this product, we provide our SMEs with access to credit in a timely manner, without any formalities, and through any channel while also creating value for our SMEs through various campaigns and offers.

Designed for the members of the Association of Istanbul Chambers of Craftsmen and Artisans (ISTESOB) and by adding the Smart Card feature to the SME Card platform, the ISTESOB Smart Card has been offered to artisans as part of our "Life is Beautiful at Deniz for Artisans" motto. The project continued in 2011 with the addition of agreements with members of the associations in Izmir and Antalya.

The power of artisans has been gathered collectively and the chance to benefit from special advantages and discounts has been offered to more than half a million SMEs through the contracts signed with the Association of Istanbul Chambers of Craftsmen and Artisans (ISTESOB), the Association of Izmir Chambers of Craftsmen and Artisans (IESOB), and the Association of Antalya Chambers of Craftsmen and Artisans (AESOB). DenizBank has paid the chamber fees for Smart Card cardholders who show sufficient account activity. DenizBank has taken measures to bring the same service to other provinces as well in the upcoming year and the infrastructure necessary for operation has been finalized.

Under the MasterKOBİ program, SME Banking has provided a significant number of discounts at partner IT, communications, car rental, and consultancy services to SMEs, which, in turn, has created savings for the customer.

Conveying international funds to SMEs

Loans for EUR 50 million have been secured from the European Investment Bank by Credit Facility Program for Greater Anatolia. DenizBank has contributed an additional EUR 50 million of resources to this loan meaning that a total of EUR 100 million is available to SMEs in underdeveloped regions.

Loans amounting to TL 200 million from the funds gathered from International Investment and Development Banks have been issued to SMEs for their financial needs in 2011.

While our cooperation with the Small and Medium Industry Development Organization (KOSGEB) and the Credit Guarantee Fund (KGF) is ongoing, DenizBank also was among the banks participating in the Van Emergency Support Program rolled out by KOSGEB following the earthquake, just as in all KOSGEB Support Programs.

DenizBank in social platforms...

2011 has been a year in which DenizBank has created opportunities for its clients in the digital media. The www.denizbankticarikartlar.com and www.denizbankpos.com websites went live in August to promote our card payment systems to our clients and announce current campaigns online. In November, www.kobideniz.com (a sales and communications channel) went live with the intention of being the social media website for SMEs. Micro-enterprises, artisans, and SMEs who are members of our website can advertise their businesses, products, brands, and needs as well as upload their adverts and videos in order to express and promote themselves, free of charge.

Moreover, members can benefit from various other functions such as exchanging ideas about various topics through the forums, creating business networks like in the most popular social media platforms, sending and receiving messages and learning about special campaigns, offers, and news. The website plans to publish various information, products, services, interviews, and success stories of SMEs. As a start, SMEs will upload their own adverts to the website for the "Shoot Your Own Commercial" campaign, and the top three SMEs will win prizes.

SME Banking is growing

With the innovations it brought, 2011 has been a very productive year for SME Banking. As of year-end, the number of our active customers increased by 28%, while SME loans grew higher than the sector average. The size of deposit and investment accounts of SME customers reached TL 3,5 billion, increasing by 4%.

In 2012, DenizBank's SME Banking will continue to provide solutions to its clients, making their lives easier, through its specialized branches and portfolio managers and grow in parallel with macroeconomic developments in Turkey.

Agricultural Banking

DenizBank, giving particular importance Agricultural Banking, is the first privately owned bank that has established the Agricultural Banking Group and created the Agricultural Banking sub-brand. With the objective of bringing high-quality service to the Turkish producers in need of banking services, DenizBank provides agricultural banking services at a total of 240 branches throughout Turkey together with its 31 Green Drop branches which focus solely on agricultural banking. DenizBank continuously raises its quality bar and boasts a workforce of qualified customer representatives who focus on agricultural banking and are mostly agricultural engineers. With this level of specialization among its staff, DenizBank also can reliably support investments related to agricultural productivity and agricultural modernization.

DenizBank held onto its leading position among privately owned banks by being the largest lender to the agriculture sector in 2011 and increased the number of Agricultural Banking active clients by 19%.

Opportunities for producers...

DenizBank has implemented a new service in Turkey by taking applications by SMS for Producer Cards, which are a farmer's best friend. It has also broken new ground in the sector by allowing customers with Producer Cards to automatically pay their Bağ-Kur social security premiums, which farmers must pay monthly and postpone these payments until crop harvest.

Within the scope of the cooperation with Petrol Ofisi, our producers can meet their diesel and mineral oil needs with zero interest for up to five months. In addition to these, farmers are given the opportunity to purchase agricultural goods such as fertilizers, feed, seeds-seedlings, pesticides, and spare parts from merchants using their Producer Card free of interest for up to six months.

With the financial support provided to producers and agriculture, DenizBank sustains its leading place among privately owned banks through product diversity, corporate social responsibility projects regarding agriculture and brand-awareness among producers.

For project-based agricultural investments, DenizBank provides project financing to investors and supports them with feasible payment terms of up to seven years. Moreover, DenizBank provides financing opportunities to Instrument for Pre-Accession Assistance for Rural Development (IPARD) projects as well as those within the scope of grant.

Collaboration in agriculture

DenizBank creates opportunities in offering production-related goods for reasonable costs through cooperation with the prominent unions and associations of the industry like Çukobirlik, Tariş and Pankobirlik for their partners. Moreover, DenizBank has created special opportunities for producers through its agreements with unions, associations, and chambers. For example, farmers can receive payments for their crops sold to the Soil Products Office (TMO) 15 days in advance via Farmer Cards.

One of the newest services we provide our producers with is the “Overdraft Account Maturing at Harvest Time.” Our producers can place automatic payment orders for their electricity, water, natural gas, and telephone bills and benefit from the opportunity to pay bills once a year, after harvest time.

Another one of DenizBank’s ground breaking projects that allows producers to pay their Bağ-Kur premiums with their Producer Cards through automatic payment orders is ongoing. Farmers who are Bağ-Kur pensioners can receive their monthly pensions through DenizBank and benefit from agricultural banking services.

Agriculture for everyone from entrepreneur to producer...

In addition to current farmers and producers, entrepreneurs and industrialists interested in the agriculture sector can obtain information and consultancy services through the “Tarım” program, which helps growth in the agriculture sector. The DenizBank managed website www.tarimplus.com.tr provides sector related information and interactive feedback to investors. Our website was awarded the Bronze medal in the “Customer Notification” category of the 2010 Horizon Interactive Awards.

Continuing social responsibilities...

DenizBank undertakes many activities in respect of social respon-

sibility. Expanding the scope of the project, , the first of its kind in Turkey, actualized in collaboration with the Ministry of Food, Agriculture, and Livestock as part of the Agricultural Mobilization, DenizBank carried out the “350,000 Books to 3,500 Villages” project consisting of distributing book sets regarding agricultural production to producers and contributed to more conscious and efficient production practices. As the sponsor of the “Agriculture and People” themed national photography competition organized by the Ministry of Food, Agriculture, and Livestock, DenizBank intends to establish agricultural awareness in the society and be a part of rewarding the contributions of those who immortalize the agricultural life through their stunning photography. Free briefing sessions on topics such as pesticide application, pruning, irrigation and equipment maintenance are organized in rural districts in order to encourage farmers to be more conscientious in their production methods.

As part of the Agriculture Campaign, DenizBank continued student scholarships in 2011 and provided 20 promising children from farming backgrounds with limited financial means with a full-scholarship education in collaboration with the Turkish Education Association.

Agricultural Loans

1. Agricultural Working Capital Loans (Producer Card)

Farmers who are the customers of DenizBank can access many benefits with the Producer Card. This card aims to eliminate the issues that farmers face as a result of having a seasonal income. Thanks to this product aiming to prevent the farmers from facing financial difficulties in the periods except from the harvest time as a result of having seasonal income, producers can use agricultural loans for their short term financing needs. An Agricultural Working Capital Loan applied to the Producer Card can be obtained in cash from all DenizBank branches and all ATMs. Furthermore, this loan can be used for discounted and/or promotional shopping. In addition to the agricultural working capital loans issued through Producer Cards, producers can be issued spot or revolving loans.

In 2011, the number of Producer Cards exceeded 345,000 while the number of merchants who support the Producer Card is over 11,000.

2. Agricultural Investment Loans

Long term loans issued for financing agricultural investments such as tractor and agricultural equipment purchase, greenhouse construction, land purchasing and livestock are made under the title of Agricultural Investment Loans. In 2011, TL 1,664 million of agricultural investment loans was allocated to farmers.

DenizBank Agricultural Banking

	Number of Credit Customers	Net Loans (TL millions)
2011	352,599	1,664
2010	267,500	1,252

Merchant Relations

In 2011, in addition to the Garanti Bank Bonus partnership, we have signed an agreement with Amex which allows all Amex credit cards to be used at our POS terminals, both national and international. The infrastructure of the Bonus campaign module was designed to allow our merchant clients to benefit from Bonus campaigns.

In 2011, DenizBank reached 110,324 number of POS terminals, equal to a 5.8% domestic market share and with 33,303 Bonus POS terminals it attained a 9.1% share of the Bonus network. The market share of foreign shopping revenue grew to 3.9%.

Number of POS

	Number	Market Share (%)
2011	110,324	5.8
2010	89,399	4.9

POS Total Shopping Turnover

	Turnover (TL millions)	Market Share (%)
2011	11,416	4.1
2010	7,568	3.4

With differentiated services and products, commercial cards in particular, DenizBank aims to increase its market share in 2012. Specialized branches and portfolio managers will continue to provide

solutions that ease clients' lives. DenizBank aims to strengthen its position in the POS market by increasing the numbers of and revenue shares of its POS terminals. Moreover, DenizBank will continue providing high-quality solutions that meet the needs of all client segments in the sector.

Gold Banking

DenizBank entered the gold market in 2004 as the Clearance Bank of Istanbul Gold Exchange. With the new products and services we have given our Bank under Gold Banking, we have become "the bank that operates in the gold market." DenizBank is one step ahead of its rival banks due to the title of the Clearance Bank of Istanbul Gold Exchange.

It is among our objectives to provide all banking products from loans to overdraft accounts in order to meet the needs of the gold market. As of year-end 2011, DenizBank provides the widest range of products in the gold market. Our products include Gold Storage Account, Gold Term Deposit Account, gold fund, transfers, gold and silver loans, gold loans with early maturity options and gold and silver loans with installments. In addition, the biggest innovation performed by our Bank in the gold market was to allow clients to open and close gold demand and time deposit accounts through AçıkDeniz Internet Banking. With this practice, clients can open gold demand deposit accounts or gold time deposit accounts 24/7 over the Internet without having to go to the branch or pay any fees. Thus, they can invest in gold, trade gold, or transfer between accounts without carrying the risk of theft or loss.

As a result of the recent developments in gold prices in the second half of 2011, gold deposit has become the most prominent product for all banks. Having focused on Gold Banking and provided our Bank with new products, thanks to the support and synergy of all of our business lines, DenizBank grew twice as much as the sector in terms of Gold Deposit and reached 10,000 customers.

In 2012, we aim to increase our Bank's market share and the number of our customers as well as to bring in the gold "kept under the mattress" into the economy through innovative products that will set us apart in the gold market.

Corporate Banking, Wholesale Banking, Commercial Banking and Public Finance Group

While enriching traditional instruments with creative products tailored for clients' needs, DenizBank has become a preferred solution partner in financial services.

Corporate Banking Group

The Corporate Banking Group ensures that operations within the following activities are carried out by creating synergy and in coordination with other business lines of the Bank:

- Corporate Banking
- Cash Management

The target audiences are corporate and commercial companies. Its core activities are as follows:

- Development and marketing of Corporate Banking products
- Ensuring sales of products and services performed by branches meet predefined targets
- Organizing workflow between related departments and coordinating relationships
- Managing and improving products pertaining to the Bank's Cash Management system as well as coordinating all necessary legal and in-house regulations
- Creating internal-external resource flow to strengthen the Bank's liquidity

Corporate Banking

DenizBank Corporate Banking provides the financial solutions that clients need through innovatively designed project financing and cash management products in addition to traditional corporate banking products by incorporating all business lines of DenizBank Financial Services Group (DFSG) to create a chain of values.

Relationships with our clients starting through credit instruments are transformed into continuous due to customer satisfaction and these strategic alliances create new business opportunities within the scope of the DFSG. We provide clients with an opportunity to decrease operational costs through the advanced technological infrastructure and cash management products while applying a business model where maximum return is gained from the economic cycle.

Portal approach

The Group's marketing approach is shaped through its ability to create high-quality assets, ability to adapt quickly to economic developments, ability to create a synergy with other business lines and subsidiaries and experienced employees that work with DenizBank's "collective wisdom" approach. In 2011, the Corporate Banking Group has offered more than 60 products in cash management, project financing, leasing, factoring, insurance, foreign trade, and investment banking fields to its clients and has expanded its active corporate client size by 11%, increasing the average cross-sales rate per client to 3.26.

As of year-end, the Group has provided a total of TL 11,510 million, of which TL 7,095 million cash loans and TL 4,415 million non-cash loans. The Group has a significant share in DenizBank's overall financial performance by reaching its deposits To TL 3,669 million.

Through its expertise in project financing and financing power, DenizBank Corporate Banking Group's position in the sector has improved by way of the contributions to investment and privatization processes in 2011.

Corporate Banking will continue cash management oriented activities with an understanding of creating synergy with other business lines and subsidiaries in 2012 as well.

Cash Management

For Cash Management, 2011 was a year in which new products, applications, and channels have been put into use and thus a significant contribution was made to the Bank's transaction volume and profitability. In line with the strategies of ensuring that our clients' cash flow stays within DenizBank and increasing synergy between business lines by increasing cross-selling rates; technology based practices and projects were emphasized in 2011 in an effort to win new customers and to ensure the loyalty of existing ones.

With its infrastructure created using cutting edge technology, DenizBank helps clients who receive services from the Cash

DenizBank activates the collection and payment processes of the businesses and institutions by developing electronic payment options as well as traditional methods and offering for customers use.

Management Department to attain a competitive edge and decrease operational costs in collection and payment transactions. DenizBank sees cash management as a permanent market with a high rate of return and acts to expand its customer portfolio of Corporate and SME Banking consisting of their agencies, distributors and suppliers.

In line with its goal to be the main bank of its clients in collection and payment processes, the Cash Management Department will take client demands and market needs into consideration and continue to provide new services and products in 2012.

Electronic Collection Services

DenizBank offers services through the Direct Debiting System (DDS), developed to facilitate financial flow and build a bridge between the producer/parent company and the distributor/dealer in terms of collections. The Cash Card system is effective at cutting the time involved in collection processes and continued to operate in 2011. The system can be defined as a type of “electronic checkbook” and allows parent companies to collect their product and service fees from their dealers and regular customers automatically.

In the system of which the effectiveness has been increased by innovation, a special focus was placed on corporate collections and municipality projects in 2011.

As of year-end 2011, the number of parent companies that signed up to the DDS and Card Payment System projects (both of which are fundamental products of the Cash Management Department) grew by 26% and reached 153. The total number of dealers grew by 68% and reached 3,180 while the total volume of collections was TL 1,689 million.

DenizBank is aiming to continue its leadership in Electronic Collection Systems that create an asset through features like user-friendliness and effective resource utilization in 2012. Accordingly, customer oriented, functional, and innovative product launches will continue in 2012.

Electronic Payment Services

DenizBank enables clients to perform multiple money transfer transactions in a single run through its wholesale payment service. With its special solutions created for customers through its innovative and customer oriented approach and, the Electronic Payment Service has increased the number of clients utilizing DenizBank products for payment transactions by 53% compared to 2010.

In 2011, the Wholesale Payment System realized nearly 1.8 million payment transactions amounting to TL 15.9 billion with an increase of 85% compared to 2010.

Corporate Information Services

Corporate Information Services rolled out in 2010 regarding the needs of corporate Internet clients, was improved and continued in 2011. It now enables clients to track domestic and international collection and payment processes, perform online transactions and monitor all banking services in real-time and has been diversified parallel with changing client needs.

Account reconciliation, providing tailor-made solutions to clients, creating versatile benefits towards savings, enabling the synchronized notification and reporting of companies' account activities, has been extended as a result of increased demand.

DenizBank will continue to enrich its Internet banking services for its corporate clients in 2012 as well.

Institutional and Municipality Collections

DenizBank provides collection services for all government institutions, primarily local public administrations, as well as tax, Social Security and Bağ-Kur premium collections. 2011 has been a successful year in which collection amount increased by 32% and the volume reached TL 8.4 billion. In addition to the collection of Social Security premiums through branches and alternative distribution channels, DenizBank has added credit card and automatic payment channels to its range of collection tools.

DenizBank, with its pioneering role in the sector, continues to provide medium and long-term loans for large scale projects in industries that are critical to the development of Turkey.

DenizBank has established strategic partnerships with municipalities offering them information technology solutions in order to be collect taxes, duties, and charges paid to local public administrations like Environment Tax, Advertisement Tax, and Property Tax on their behalf. While collections for partner municipalities in 2010 continued, new ones were added to the group in 2011.

Wholesale Banking Group

The Wholesale Banking Group ensures that operations within the following activities are carried out by creating synergy and in coordination with other business lines of the Bank:

- Project Finance
- Foreign Subsidiaries and branches

Its core activities are as follows:

- Providing structured financing to projects in targeted industries
- Providing acquisition financing for industrial investments and privatizations
- Developing relations of our Bank with its foreign subsidiaries and branches and creating fields of cooperation
- Extending the foreign subsidiaries and branch network in line with Bank strategies
- Ensuring that the Bank derives maximum benefit from activities of its foreign subsidiaries and branches.

Project Finance

Operations that play a critical role in the development of the economy, those that need a significant amount of investment and require medium and long-term financing, are the responsibility of the Project Finance Department. Furthermore, the Project Finance Department also organizes financing for projects in key industries such as telecommunications, energy, infrastructure (seaports and airports), health and education, which form the social and economic infrastructure needed to develop the Turkish economy, as well as industrial investments, privatization and purchasing financing.

Active role in financing the energy sector

DenizBank aiming to maximize its revitalizing effect on the economy by leaning on crisis-proof industries that are the

driving force behind the economy, has played an active role in the financing of projects in the energy sector. While focusing on the investments of companies in wind energy and hydro-energy, all other power generation and distribution projects continued to be supported through loans. Efforts are ongoing to direct the MIDSEFF loan of EUR 150 million provided by the partnership of EBRD and EIB to finance renewable energy projects with a preference for mid-size renewable energy projects.

DenizBank has protected its significant role in Turkey's development in terms of investment and employment through the 27 projects DenizBank provides financing for and a project finance portfolio of USD 1.3 billion as of the year-end 2011.

DenizBank won an award for the Istanbul Deniz Otobüsleri A.Ş. (IDO) privatization project carried out with the participation of many of the Bank's departments and financed by Project Finance in 2011. DenizBank financed USD 82 million of the total USD 860 million provided to the consortium who won the tender held for the sale of all of IDO shares. The speed and complexity of the financing provided for IDO, the largest ferry operator worldwide with 50 million passengers carried annually, was an exemplary transaction for the sector for many years to come. IDO financing was the Project Financing of the year for DenizBank through the cash flow, salary and insurance payments, as well as the synergy created with the IDO Sea&Miles credit card. Moreover, the IDO project earned DenizBank the European Transport Deal of the Year from the Euromoney published Project Finance Magazine.

The Project Finance Department will continue to strengthen its leadership status in large-scale infrastructure projects in 2012 as well. Growth in the energy, mining, transportation, health, and education industries will be facilitated. DenizBank will continue to channel its expertise in project and structured financing into highway construction projects, highway privatizations, ports, large-scale infrastructure investments like ports, sugar refineries and both public and private sector hospitals.

Please find the information related to our foreign subsidiaries at page 40.

Commercial Banking and Public Finance Group

The Commercial Banking and Public Finance Group ensure that operations in the following activities are carried out in coordination with other business lines of the Bank.

- Commercial Banking
- Public Finance
- Bancassurance

The target audiences are commercial companies, local municipalities and affiliates, state economic enterprises and their institutions and affiliates.

The Group's core activities are as follows:

- Developing products and services for commercial companies and public institutions
- Executing, monitoring, budgeting and reporting marketing activities in line with targets and strategies
- Developing marketing, sales and campaign models to win new clients and promote growth
- Coordinating the Bank's marketing activities in commercial and public finance branches
- Establishing Bancassurance strategies and selecting, evaluating, and monitoring the productivity of insurance companies with which the Bank will partner with in line with these strategies
- Developing marketing/sales/campaign models enabling customer acquisition, aiming at growth in bancassurance
- Coordinating marketing of bancassurance products within the whole Bank.

Commercial Banking

The Commercial Banking Group creates suitable and quick solutions to meet the financial needs of its clients. Through its financial supermarket approach, the Group provides clients from different sectors a wide range of products and services such as cash management, insurance, leasing, factoring and derivative products in addition to loans.

Aiming to be the main bank of its clients, the Commercial Banking Group operates with a specialized and experienced sales team in a total of 68 branches, 45 full service branches and 23 central commercial branches in 25 provinces.

The Group's, working towards this target, number of active customers rose by 12%, while 38% and 43% growths were realized in its total loans and deposit volume, respectively in 2011.

Public Finance

DenizBank, the first Turkish bank to define public finance as a business segment as of January 1, 2009, specializes in public finance. DenizBank's Public Finance Department was established to provide project financing for local public administrations, their subsidiaries and economic enterprises, as well as state economic enterprises, their establishments and subsidiaries. The Department was established to provide financing for projects in order to strengthen Public-Private Partnership (PPP) activities and Treasury-guaranteed transactions.

In 2011, the Public Finance Department signed loan agreements with the European Investment Bank (EIB) for EUR 80 million and the Agence Française de Développement (AFD) for EUR 150 million to be used for financing local public administrations. Through these loans, DenizBank provided low-cost, long-term financing to 170 projects.

Providing a comprehensive range of banking services to local public administrations through its specialized and experienced staff in the Head Office, regional offices, and branches, the Public Finance Department reached a total loan volume of TL 873 million of which TL 699 million is cash loans and TL 174 million is non-cash loans, on a consolidated basis. The Public Finance Group transfers funds to society in terms of education and social responsibility. The Group provides opportunities for local public administration staff to attend domestic and international events and implements various sponsorships and student aid programs.

DenizBank differentiates itself in the marketplace with one-stop financial services and global operating standards and is expanding its active client base. It was the first Turkish bank to identify public banking as a business line.

Bancassurance

DenizBank provides life, non-life, and private pension products to its clients with its insurance portfolio. The Bank's product range includes fire, agriculture, accident, engineering, liability, unemployment, personal accident and life insurances and also pension plans.

Private pension products are offered as retail products and corporate products by way of various plan options prepared based on client segments.

In 2011, DenizBank signed 15-year exclusivity agreements with Axa Sigorta for the sale of non-life insurance products and Deniz Emeklilik (Metlife) for life insurance and pension products.

In line with the cooperation with DenizBank business lines, the Bancassurance Department provides the merchant, project finance, commercial and corporate client portfolio of DenizBank with loans, deposits, credit cards and pension payment services and products.

Treasury and Private Banking Group

Achieving successful results in obtaining long term and cost-effective loans from international markets, Group supported Turkish Economy and contributed to increase Turkey's share in foreign trade transactions.

The Treasury and Private Banking Group ensures that operations related to the following activities are undertaken in coordination and synergy with other business lines of the Bank:

- Treasury
- Treasury Sales
- Foreign Trade Finance
- Structured Finance
- Private Banking

Its core activities include:

- Short-term liquidity management, pricing of treasury products, implementation of the treasury related parts of asset-liability decisions, and performing profitable trading activities
- Keeping clients updated regarding capital markets, in coordination with branches, and establishing sales strategies and targets for investment products
- Initiating, approving, managing, monitoring, tracking, and reviewing relations in order to establish correspondent relations
- Corresponding with foreign banks and other financial institutions regarding medium and long-term borrowing activities and structuring and monitoring of transactions, as well as coordination with in-house units
- Providing financial investment products to the Bank's clients, who are at the top of the asset pyramid in terms of savings.

Treasury

While managing the Bank's short-term liquidity in terms of foreign currency and Turkish lira, DenizBank Treasury Department also performs treasury product pricing, implementation of the treasury related decisions of the Assets and Liabilities Committee, and profitable trading activities. The Department uses risk measurement techniques actively in order to balance risks and shapes its activities in accordance with the principle of attaining sustainable profit rather than short-term gain. Moreover, the Department carries out its activities within the framework of the targets set by the Assets and Liabilities Committee and realizes the decisions made at the weekly Committee meetings.

The Treasury Department monitors the terms and costs of items on and off the Bank's balance sheet that will be exposed to risk.

Furthermore, the Department monitors developments in terms of risk and ensures that improvements are performed in line with the Bank's risk management strategy.

The Treasury Department consists of four sub-units, Treasury Marketing and Pricing, Money Markets, Fixed-Income Securities, and Derivative Transactions. The Department engages in foreign currency and Turkish lira borrowings and placements through money market transactions and ensures effective management of the Bank's short-term funds by utilizing various instruments such as FX swaps, repos and reverse repos. The Department carries out pricing of all treasury and financial market products such as spot and forward exchange in international markets, all kinds of fixed-income securities, commodities, and derivative products. The Department is also involved in profit-oriented trading activities within defined limits.

Treasury Sales

The main function of the Treasury Sales Department is to establish the coordination between branches and the Treasury Group. In addition, the Department provides consultancy services on money and capital markets as well as trustworthy pricing services to the Bank's clients at branch level and serves its limited number of corporate clients by reaching them directly. The Department's fundamental strategy consists of maximizing risk-free commission income as well as increasing the volume of financial market products. By providing suggestions to its clients regarding balance sheet management and possible financial risks, the Department ensures the structuring of necessary products. Moreover, the Department assumes responsibility for identifying sales strategies and targets of investment products. The Department develops competitive new treasury products and offers them for sale whilst ensuring that the branches sell treasury products in line with targets.

As a result of the coordinated work with Branches and Head Office departments marketing activities for products in line with client needs are undertaken thus contributing to the growth in product diversity, cross-sales, transaction amount, and transaction volume.

DenizBank continued its financial support to its priority sectors through long-term and cost-effective financing opportunities obtained from international markets thanks to the cooperation with investment and development banks.

An experienced team of 17 employees and branch portfolio managers visit potential clients in person in order to expand the client base and increase transaction numbers.

The Department has taken an active role in the issuance of bonds and bank bills with high demand levels, the first of which took place in May for TL 500 million and the second in November for TL 300 million.

Foreign Trade Finance

DenizBank demonstrated a successful performance in 2011, a year in which Turkey's foreign trade volume increased. While contributing to Turkey's increased foreign trade transactions, DenizBank also strengthened its own position. With the help of its rich correspondent banking network, in 2011 DenizBank increased its market share of import and export letter of credit transactions to 4.7% and 4.3%, respectively. Both the number of clients with which the Bank works actively in foreign trade and the transactions in which the Bank was the intermediary of improved significantly.

Although the effects of the crisis deepened in the U.S. and Europe in the second half of the year and costs increased significantly, DenizBank did not lose momentum and rolled over 100% of its syndicated loan of USD 650 million secured from international markets in 2010 with a loan agreement on October 25, 2011. The cost of the transaction remained unchanged at Libor/Euribor + 1.30% per annum. The funding totaled EUR 432 million and USD 45.5 million with the participation of 21 banks.

In 2011, DenizBank continued to act as an intermediary for medium and long-term loan facilities within the scope of insurance programs for Export Credit Agencies, as well as for GSM102 loans provided by the United States Department of Agriculture to finance agricultural imports from the U.S.

DenizBank constantly meets the external guarantee needs of construction companies that conduct business in the Middle East, North Africa and Russia. As the activities of contracting companies have increased in the Central and Western Africa in

2011, DenizBank has given the know-how and support its clients needed and has proven that it always stands by its clients.

Structured Finance

The main activities of the Structured Finance Department consist of maintaining relationships with foreign banks and other financial institutions regarding medium and long-term borrowing needs of DenizBank Financial Services Group, managing the financing process, monitoring and structuring transactions as well as establishing coordination with in-house departments.

Securitization loan from 4 development banks...

In April, DenizBank obtained a securitization loan of EUR 300 million from four development banks, which have come together under one roof for the first time. These banks are European Bank for Reconstruction and Development (EBRD), European Investment Bank (EIB), International Finance Corporation (IFC) and German Investment and Development Company (DEG). EUR 150 million of the loan was financed from EBRD and EIB for a 12-year term and has been used for financing energy efficiency and renewable energy loans for medium sized businesses. EUR 75 million of the loan was financed from IFC and DEG for a 7-year term and has been used for financing Agriculture and SME loans. The remaining EUR 75 million of the loan was funded by WestLB, which is the organizing bank, for a 5-year term.

Continuing to provide loan support for agriculture, SME, and public clients

In 2011, DenizBank has continued its financial support to its clients in the agriculture sector, in SMEs and in the public sector via the loans through institutions, in addition to above ones, including the Japanese Bank for International Cooperation (JBIC), the French Development Agency (AFD), the Dutch Development Bank (FMO), the Development Bank of Austria (OeEB), the Turkish Industrial Development Bank (TSKB) and the Development Bank of Turkey (TKB), the latter two being intermediaries for the World Bank.

DenizBank aims to continue her market leadership in the loans granted from investment and development banks and sustain

Providing all DFSG products and services to its customers in line with its single portal approach, Private Banking Group develops tailor-made investment products for each client and offers international quality services locally with its “boutique service approach”.

working relationships with the aforementioned institutions to support the real sector with cost-effective long-term funds in 2012.

Private Banking

In line with its mission to meet all of the financial needs of its customers through a financial supermarket approach, DenizBank provides services to its private banking customers through 16 private banking centers, consisting of Istanbul, Europe 1, Europe 2, Europe 3, Istanbul Anatolia 1, Istanbul Anatolia 2, Aegean, Capital, Marmara, Çukurova, Mediterranean, Central Anatolia, Black Sea, Western Anatolia, Bodrum, and Southeastern Anatolia, which opened as of the end of December together with a corner branch on Bağdat Caddesi. Striving to be among the top three banks in the private banking segment with a strategy to expand throughout Turkey and offer superior service quality, DenizBank will open six more private banking centers in 2012.

The Private Banking Group owes its success to perfect harmony and cooperation with other business lines and its operation as a single portal. Eighty-two portfolio managers at the private banking centers offer all DenizBank Financial Services Group products and services to clients with various advantages (club memberships, travel insurance, assistance service, health insurance and check-up services, etc.) and privileges (invitations to conferences regarding economics and finance and domestic/international events).

As a result of these preferred services, The Private Banking Group reached the size of customer assets under management TL 7.8 billion during 2011 with an increase of 37% according to 2010.

Boutique service approach

The Private Banking Group presents its recommendations and opinions on investment products to its clients and develops tailor-made and competitive investment products for each client according to their risk/return expectations in line with “boutique service approach.”

The Private Banking Group completed the public offering of Capital-Protected MSCI Emerging Markets Private Banking Fund between January 24, 2011, and February 4, 2011, with a superior fund sales performance.

DenizBank established a dedicated contact center line (444 OZEL) for its private banking customers in 2011 to provide services over an active communication channel 24/7. The communications channels for private banking have been enriched with the implementation of the website, www.denizozel.com, which went live as of December 2011.

In an effort to offer experiences to its clients that may not be obtained by money, the Private Banking Group organizes events that make guests feel the difference. **Hello Sailing 3**, a traditional event considered to be the first step into sailing, along with the **Diamond Seminar** and the **Life and Investment Opportunities in London Conference** held at the British Embassy are some of the events held in 2011 with this purpose.

Offering alternative investment tools as well as more traditional banking products, the Private Banking Group provides price advantages and special loan opportunities to its clients in real estate projects where DenizBank is the project leader.

The Private Banking Group will continue to increase its assets under management and expand its services in 2012. The Bank plans to offer an online asset management system and mobile/e-private banking services to all private banking clients.

Continuing to stand by its clients with special activities, seminars, and other non-banking services as well, the Private Banking Group plans to expand its service portfolio in 2012 by providing intermediary consultancy services in the areas of the arts and exhibitions.

Information Technology and Support Operations Group Branch and Central Operations Group

In line with “Operational Excellence”, the latest technological developments and the most successful applications approach, processes are continuously improved and it has been trying banking transactions to achieve the best customer experiences.

The Information Technology and Support Operations Group, the Branch and Central Operations Group, and Intertech are the responsibility of the Chief Operating Officer (COO).

Information Technology and Support Operations Group

The Information Technology and Support Operations Group ensure that operations in the following activities are carried out in coordination with other business lines of the Bank:

- Organization
- Service Quality
- Customer Relationship Management (CRM)
- Contact Center
- Card Payment Systems

The key responsibilities of the Group are as follows:

- Supporting the operations of the Bank and its subsidiaries by improving process efficiency and managing organizational changes, both of which are achieved through development and implementation of process improvement methodologies.
- Increasing service quality and standardizing services offered through all channels in order to support all other activities of the Bank as well as enforcing and managing business development, process improvement, branch support and data quality.
- Determining strategies to provide the products and services that suit with clients' need by segmenting of clients in all DenizBank's business lines, and updating and managing the analytic and operational CRM platform in line with these strategies.
- Responding to all inquiries which come via email or through the 24-hour call center from clients, performing transactions and outbound product briefing, marketing and sales operations.
- Managing ATM, POS and merchant operations and relevant business development functions.

Information Technology (IT) and Support Operations Group acts with the awareness that in today's competitive world the experience

clients have when dealing with our institution (Customer Experience) is a factor that makes a real difference to the clients aside from the actual products or services received. Accordingly, DenizBank IT and Support Operations Group focus on “Operational Excellence.”

Knowing that the only way to establish brand loyalty is reached by offering high-quality services required by the client's everyday life, we believe in the importance of the following points in our process designs:

- Simplicity
- Consistency
- Multi-channel services
- Empathy
- Automation

We improve our processes continuously using advanced Business Process Management (BPM) techniques and tools based on feedback from clients, client surveys, operational assessments and benchmarking results.

Organization

Our Bank aims to provide the highest-quality service to its clients. We strive to ensure that the optimum organizational structure for our Bank is established and that business processes are practiced in the most effective and productive manners throughout the entire DenizBank organization.

In addition to our process-oriented approach and operational excellence vision, we aim to create organizational units that are aware of the added value generated for our clients through the process as a whole and manage the processes in which they assume responsibility in the best possible way, rather than acting as disconnected units with a functional silo mentality.

All of DenizBank client agreements have been designed in collaboration with our Legal Affairs Group to provide clients with the most products and services with minimal risk. In an effort to

increase the quality of DenizBank's relationship with its clients and to minimize risk, the management and follow-up of all client agreements and documentation is done through a single unit in the Organization Department.

Our Authorization Management department identifies and manages access authorizations for applications used within DenizBank and its subsidiaries on a duty basis. The fact that all system access authorizations are managed from a single point ensures most advanced management of the risks associated with DenizBank authorization processes.

DenizPortal, which allows information sharing at the highest level possible, enables all DenizBank Financial Services Group employees to access information and find employees easily. DenizBank process performances, including all steps in our Bank's processes, are shared with all Head Office units, Regions and Branches. Using the Process Performance Trends reports on DenizPortal, each unit can clearly see which step of which process takes how long and thus can compare service durations with regional and overall averages. With the help of the dashboards, which track productivity, our managers can access productivity trends of operations, sales and control functions.

When choosing the strategic projects that are most aligned with our Bank's strategies, all business lines and units are visited and strategic requests are gathered. After coordinating the content, cost and yield, strategic projects are shared with the members of the Executive Committee with a report which allows executive management to evaluate the projects accurately.

Service Quality

The Service Quality Department identifies the standards necessary for Operational Excellence and structures customer-oriented processes which encompass the customer experience from beginning to end to create effective and productive results. Accordingly, the roadmap of the Service Quality Department focuses on the following:

- Achieving simplicity and productivity in processes
- Maximizing the automation
- Converting branches into sales offices with minimal operations
- Utilizing alternative channels (contact center, ATMs, the Internet, Direct Sales) for operational transactions and sale

The roadmap contains primarily restructuring work that will identify what needs to be accomplished. The beginning-to-end process analysis modeling we have created to build the best processes for our employees and the client point of view start with listening to our clients and employees. The processes are analyzed from the beginning to end and corroborated with supplier, user and input-output data. Our clients' expectations, "collective wisdom" sessions, competitors' services and services of other institutions that have the best application in their field are analyzed. Unnecessary steps are eliminated and optimum solutions that most align with our Bank's strategies are enacted.

Standardization projects are carried out in order for all organizations to adopt and implement the developments and improvements. An application-oriented training model that focuses on simultaneously discussing all dimensions of the topics from beginning to end is adopted. Identified topics are presented to users together with rules, procedures, risks, relevant laws, system usages and example situations. Deniz-TV, a significant asset for our Bank, is used as the most effective method for transferring training to the field. Thus, Sailors and Captains are able to hear about new processes and new applications firsthand and in the necessary detail.

"Branch model standardization procedures" have been established for the use of our Branches regarding visual management concepts in line with the DenizBank Corporate identity.

With the Operational Efficiency Scorecards both implementers and managers are able to track the results of all operational processes in detail. In the area of Individual Performance Management (PUPA), operational employees and tellers are awarded based on their performance in fundamental measurable

In 2011, finalization rate of transactions/requests for inbound calls to our contact center was 94.7%. This rate plays a significant role in operational productivity and results in greater customer satisfaction.

criteria such as efficiency, client feedback and satisfaction, risk management and encouraging the use of alternative distribution channels.

With accurate identification of needs during system improvements and ensuring that the business unit and system improvement teams speak the same language, literally and figuratively, allows for optimal results that meet the users' needs thoroughly. User acceptance tests are completed on behalf of the branch to ensure that the system applications can run seamlessly. In order to provide our clients with a more effective service, non-

technical questions and issues regarding procedures, business practices and all applications from our Branches are resolved within a maximum of two hours.

CRM- Customer Relationship Management

In today's world where all competitors provide similar products and services, the highest added value can only be created by giving the best experience and offering superior products or services. Therefore, in addition to the almost standardized functionalities or benefits of services, focusing on the client's experiences and improving them has gained greater importance.

In order to reach the same target and approach in customer relationships and to allow for a positive customer experience, we have created a "Customer Constitution." Our Constitution is as shown below:

Every single one of our clients is special	As DenizBank, we meet our client with a special interest and provide services with a preferential treatment.
We are welcoming	All of our clients who receive services from our branches and contact center are our guests. Hospitality is the ultimate expression of DenizBank's approach to clients.
We are approachable	We demonstrate a sincere and intimate approach to our clients and perform our transactions and services with a smile.
We provide our services with DenizBank quality	We present our products with transparent and clear information. It is DenizBank's irrevocable principle to provide the right products to the right client.
We listen to our clients	We listen very carefully to the demands of our clients regarding DenizBank products and services and try to understand situations that require customized solutions to fulfill these demands.
We create solutions	We analyze our clients' financial needs accurately, try to understand their real needs, and create result-oriented solutions.
We are sincere	We owe our clients a debt of gratitude for having chosen us.
We place a special importance on complaints	Every complaint we receive from our clients is a gift for us. Therefore, all DenizBank employees handle our clients' dissatisfaction with an approach that will turn them into "satisfactions." They prioritize the issues, share them with the relevant units, and ensure a solution.
We apologize in the event of a mistake	We sincerely apologize to our clients who have faced an erroneous transaction or a failed service and would like to extend our sincere gratitude for giving us the opportunity to make up for our mistake.

In order for our Bank to reach its goals, we aim to understand the clients, increase their loyalty, sell new products and services to them and gain new clients as a result of reputation and recommendation. In line with the ethos of providing customized, well timed financial services with high quality and speed, marketing activities are tailored depending on known client preferences.

We target increasing service quality through modeling projects geared to identify Customer Lifetime Value (CLV). Developed in light of our vision of providing a standardized high-quality service that meets client expectations, the central service management model allows the extending of tailored service models in different segments of all business lines through all channels simultaneously.

Prioritized services for clients in different segments of all business lines are defined centrally and extended to channels in line with the target of providing standardized high-quality services to clients. ATM daily cash withdrawal limits are determined by the service model for each client segment.

In 2011, the Bank provided 195 million customers connection and created positive client experiences via e-mail, SMS, ATM, internet banking and contact center in a timely and efficient manner for briefing of products and services as well as their promotion and sale.

The optimization software used to select clients for campaigns shows which product should be offered to which client through which channel. This allows us to make the most suitable offer in the most effective manner. The optimization tool collates client purchasing trends, product profitability, channel usage trends, channel capacity and costs, campaign budgets and business goals. By managing channel capacity, decreasing marketing costs and maximizing campaign profitability, the optimization tool provides our Bank with a competitive edge.

86% of TL 2.9 billion was generated through campaigns using CRM, the operational campaign application, and 91% of 520,156

products were sold through alternative distribution channels.

In order to continue being the most preferred bank of existing clients while attracting new ones, client satisfaction analyses are performed and product and service providing processes are improved based on changing client profiles and preferences.

Our Bank's complaint management process adopts the fundamental approach that each client complaint is grounds for corporate development. Complaints, suggestions and requests submitted by our clients through multiple channels are assessed in a central structure in accordance with our Bank's policies and strategies.

Contact Center

DenizBank moves forward with the goal of providing the fastest, best quality service and the best experience to its clients. All of our processes at the contact center, one of the most important customer-facing platforms, have been designed ways that offer the best possible customer experience.

Since the day we have established our contact center, we have created a difference for the client by offering creative and quick solutions as well as providing ease of use and access during offering current banking services. Moreover, our contact center creates a competitive edge for DenizBank through its operational productivity and the quality of the services provided to clients.

In 2011, resolution rate of transactions/requests for inbound calls to our contact center was 94.7%. This rate plays a significant role in operational efficiency and results in greater customer satisfaction.

The screens for serving clients who have called our contact center (inbound) also include CRM supported sales opportunity information and speech text. This way, the scripts necessary for cross-selling products which the client has a tendency to be available in the same screen. The structure is integrated with the CRM campaign management system which shows the best offer and the next best offer for our clients depending on their profile.

In order to create a difference in products and services as well as providing the best client experience possible, the Operations Group carries out its activities with the objective of perfecting services provided to clients as a whole.

In order to increase the client experience in the Bank's other channels, our contact center provides ATM and POS Support services 24/7. Resolving issues with all of our ATMs and POS terminals, which are tracked online, quickly through the coordination of relevant technical teams, has ensured the running of services at the desired levels. The output of services coordinated through high-service level agreements with third party support companies and in-house units are shared regularly with all branch and regional managements in order to provide in-house feedback and self-assessment.

Card Payment Systems

Card payment systems, extremely well-developed in Turkey, certainly affects the clients choice of bank with the ease of use and the comfort it brings to their lives and so, it is a critical service that creates a competitive difference. Knowing that card payment systems are part of DenizBank's competitive edge in retail, SME, and agriculture segments, we aim to be the best in the sector in terms of all card payment services provided to our clients.

Our processes covering the entire card payment systems have been restructured in the past two years in order to achieve the best client experience. The technological structure has been developed in order to utilize the most advanced innovative technological solutions.

In order to provide our clients with a good experience, all processes including credit/debit card delivery, renewal, notification and cancellation have been simplified. In order to achieve sustained service quality, these processes are continuously monitored and improvement activities are ongoing. As a result of our process improvement, DenizBank has become the bank that delivers credit cards and debit cards in the fastest and most accurate manner in the sector. All kinds of information and services related to the credit/debit card the client needs is delivered reliably through all of our channels.

We stand by our clients by following technology closely and providing innovative, ground breaking products (NFC, prepaid).

By adding anonymous prepaid and pre-authorized prepaid cards to our existing credit/debit cards portfolio, we have added the non-banking population to our customer base. We have provided our banking and non-banking clients with cards that reward loyalty for both online and offline transactions in transport, sports events and campus projects.

Our POS volume has doubled in the last two years, and DenizBank has become the bank that gives the fastest online/offline provision by switching to new messaging software. The service quality, necessary for being the preferred bank, has been reached thanks to POS service enabling the customers to receive 24/7 support.

In the last two years, the number of our ATMs reached 2,370. ATMs are the most preferred alternative distribution channel by our clients and have been transformed as such into a channel that not only provides services but also sells products. The clients of the channel, which is fed entirely by the CRM infrastructure, are offered product and services to which they have an inherent preference to. The rate of sales success from ATMs motivates us to use this channel as a sales channel for additional products.

Branch and Central Operations Group

Branch and Central Operations Group ensures that operations within the following areas are carried out in coordination with other business lines of the Bank.

- Branch Operations and Foreign Trade
- Central Operations
- Treasury, Payment Systems and Private Banking Operations
- Investment Banking and Custody Services Operations

The main activities of the Group are as follows:

- Ensuring effectiveness of Branch and Central Operation processes and developing and monitoring operational staff
- Executing operational transactions centrally

- Carrying out operations for transactions performed by Treasury, ensuring effective usage of foreign corresponding accounts, implementing systematic changes promptly as required, executing and auditing activities of all group centers, executing all operations related to transactions performed at Private Banking Branches
- Performing all operations related to securities transactions; book keeping; fulfilling all clearance and cash liabilities; developing systems and applications regarding securities transactions; compiling instructional materials, procedures and work flows, and training branch employees in these matters

It is our goal to automate transactions as much as possible to achieve the most efficient and favorable client experience in all of our banking processes. We aim to continuously increase our Straight-Through Process rate, simplify processes, and focus on “the right service, first time around”.

In order to provide our clients with a positive experience, we work towards simplifying all of our processes, starting from multiple transactions. By shifting the operational work load from our branches to the head office, we continue to monitor and improve our processes as well as increasing standardization. As a result of our process improvement, we contribute to the Bank’s productivity as well as create a serious competitive edge by becoming an institution that provides a reliable, high-quality service to its clients.

With the “Comprehensive Training” designed for all operation employees, our employees in the field are trained on how to provide the best service in the fastest and most accurate manner.

Deniz-TV and e-Learning applications are used for system changes, process changes, and new developments; thus keeping our employees in the field up-to-date. Furthermore, awareness is improved through assessment tests applied after these trainings.

Standardization of processes, automation of controls and transactions, and centralization are the most important factors in

minimizing and controlling risk. Training given to field employees in addition to the continuous improvements made to our procedures and processes ensures not only that the best quality service is provided to clients but also that risk is minimized. Internal audit and internal control findings of the field are monitored by all Sailors and Captains, who protect our Bank from risks.

Operational Efficiency, Service Level Agreements, transaction volume, refunds, cancelations and centralization ratios are assessed by branches, regions and throughout the Bank. The results are shared through Operational Dashboards. Thus, all processes regarding topics ranging from productivity to data quality can be managed accurately.

DenizBank AG (Vienna) – CJSC Dexia Bank (Moscow) EuroDeniz International Banking Unit Ltd. (Nicosia)

The synergy of DenizBank Financial Services Group, through its subsidiaries abroad, has continued to reach large numbers of clients globally; primarily individuals and businesses of Turkish origin.

Foreign Subsidiaries

DenizBank AG (Vienna)

Established in 1996 by the former Esbank in Vienna, Esbank AG was acquired by DenizBank A.Ş. in 2002 and was renamed “DenizBank AG” in 2003.

DenizBank AG operates with an extensive retail and commercial banking product range of various deposit and loan products in Retail and Commercial Banking. It offers services to corporate, commercial, SME and retail clients and focuses on products such as investment loans and project and foreign trade finance based on market needs and identified opportunities. With headquarters in Austria, DenizBank AG has a network consisting of 10 branches, nine in Austria and one in Frankfurt, Germany. DenizBank AG follows the global development trend closely and is the third biggest bank in Austria in terms of Internet banking client portfolio.

DenizBank AG provides retail banking services to many Turkish citizens living abroad. A synergy between DenizBank AG and DenizBank is attained by making use of resources like a broad branch network, the increasing number of POS cash deposit points and easy access to services. These resources help to provide a positive client experience which reflects well on both companies thereby expanding client bases.

As of year-end 2011, total assets and shareholders' equity of the Bank reached EUR 3.2 billion and EUR 294 million, respectively.

In the upcoming period, the Bank is expected to expand its branch network and the scope of its Internet banking services in the Eurozone.

CJSC Dexia Bank (Moscow)

DenizBank acquired İktisat Bank Moscow in 2003 and soon afterwards changed its name to “CJSC DenizBank Moscow”. In February 2008, the Bank was renamed CJSC Dexia Bank. CJSC Dexia Bank offers a full array of banking services to its corporate and commercial customers from its head office in Moscow.

The economic and partnership opportunities between Turkey and Russia primarily generate new investments in foreign trade and tourism. The number of Turkish entrepreneurs investing in Russia is continuously increasing. As a result of these close relations, CJSC Dexia Bank can identify the needs of these businesses accurately and brings all financial services offered by DFSG to its clients while responding quickly to requests by way of DenizBank's financial power.

DenizBank clients perform their foreign trade transactions in Russian rubles with the support of CJSC Dexia Bank. Moreover, clients can perform many other banking transactions like money transfers, account openings, external guarantees, foreign exchange, Russian ruble purchasing, forwards and arbitrage.

As of year-end 2011, total assets and shareholders' equity of the Bank reached EUR 223 million and EUR 40 million, respectively.

EuroDeniz International Banking Unit Limited. (Nicosia)

Acquired by DenizBank from the Savings Deposit Insurance Fund of Turkey in 2002, EuroDeniz Off-Shore Bank Ltd. is fully licensed to undertake all commercial banking transactions. Renamed as EuroDeniz International Banking Unit (IBU) Limited in February 2009, the Bank offers various deposit and loan products to the corporate and commercial customer segments.

Headquartered in Nicosia in the Turkish Republic of Northern Cyprus, the EuroDeniz IBU Limited serves DFSG subsidiaries and customers using DenizBank's correspondent banks network in all markets in which the Group operates.

As of year-end 2011, total assets and shareholders' equity of the Bank reached EUR 692 million and EUR 3.1 million, respectively.

DenizYatırım Securities – EkspresInvest Securities DenizInvestment Trust – DenizPortfolio Management

Together with subsidiaries that specialize in different instruments of the capital markets, DFSG assumes a leading role in financial consultancy and services and works up to international quality standards.

DenizYatırım Securities

DenizYatırım Securities, a subsidiary of DenizBank established in 1998, is fully licensed to perform all transactions in the capital markets, and with that power, DenizYatırım Securities provides a “one stop shop” service for investment tools to its clients. DenizYatırım Securities has held the AOQC Moody's International ISO: 9001 certificate since 2001, and thus runs its activities at an international quality standard level. DenizYatırım Securities offers its knowledge, know-how, and experience on corporate financing to the use of its clients from various industries.

Since its establishment, DenizYatırım Securities assumed a leading role in capital markets and acts with a leadership objective in its financial yield and service quality.

DenizYatırım Securities Principles and Achievements

Through its strategic partnership with SunGuard, the DenizYatırım Securities broke new ground in Turkey in 2007 when it launched its electronic trading platform, which provides direct access to the Istanbul Stock Exchange for foreign institutional investors.

- DenizYatırım Securities is the first institution in Turkey to offer brokerage services for international derivatives exchange in accordance with its authorization certificate received from the Capital Markets Board.
- Since July 2007, DenizYatırım Securities offers brokerage services for Turkish firms, who have been active in the metals industry, that want to hedge their spot market risk in the London Metals Exchange.
- As part of the “Investor Protection and Rewards Program,” designed and implemented by DenizYatırım Securities for the first time in Turkey, incentive mechanisms, “Repurchase Guarantee” and “Bonus Shares”, were offered to the public.
- Looking at the public offerings between 2004 and 2011 greater than USD 20 million, DenizYatırım Securities has been the sector leader both in number of investors and in total bids collected.
- DenizYatırım Securities has undertaken important public offerings in the sector such as Zorlu Energy, Fenerbahçe Sportif, Trabzonspor Sportif, DenizBank A.Ş., Bank Asya, Vestel Beyaz Eşya, Türk Telekom, Anel Elektrik, Katmerciler, Kiler GYO, and Bilici Yatırım, where it has served as either financial director or co-director.

DenizYatırım Securities is ranked sixth in stock transactions among all brokerage companies with TL 48 billion trading volume and 3.5% market share,

and also sixth in derivatives transactions with TL 36 billion trading volume and 4.1% market share. As a result of high-quality service and successful client relations, DenizYatırım Securities has improved its client portfolio to over 145,000 and has increased its human resources by 10% to 264 employees in order to ensure continuity of the standardization of service quality.

DenizYatırım Securities will continue to follow Turkey and the world closely, position itself accurately against economic developments, and pioneer technologic advancements. Furthermore, DenizYatırım Securities will continue to expand its diverse investor portfolio through synergy with DFSG while answering clients' needs and expectations at the right time with the right method.

EkspresInvest Securities

EkspresInvest Securities joined DenizBank Financial Services Group at the end of 2002 and focuses on offering equity investment services for foreign institutional investors.

Foreign investors' interest in the ISE with a trade volume of USD 2.1 billion in 2010 turned upside down in 2011. The growing debt problem in European Union nations and the deceleration trend in growth in the US resulted in decrease in risk appetite globally. Internal factors were also added to the negative atmosphere from foreign markets. The new policy combination implemented by the Central Bank of Turkey did not affect the growth rate of loans as much as anticipated, combined with increase of current deficit have resulted in rapid devaluation of the Turkish lira along with monetary distress due to speeding up of the inflation rate. The ISE has showed a poor performance compared to other developing markets and foreign outflow reached USD 2 billion as of the year-end 2011. Since recovery of the transaction volume performed by the target audience remained at limited levels, the competition between brokerage houses serving foreign institutional investors continued to increase.

In 2011, EkspresInvest Securities improved active customers in foreign investment funds and hedge funds by 8% to 53, while completing the year as 11th among brokerage houses serving foreign institutional investors with TL 4,956 million trading volume. Foreign institutional sales department of EkspresInvest Securities resumed its active marketing work and organized almost twenty marketing roadshows to England, Continental Europe, Singapore, and the Middle East, of which three were company roadshows.

In 2011, DenizPortfolio has added nine new capital-protected funds to its mutual funds tailored for DenizBank clients.

Scope of researching and reporting services expanded.

With its ten expert staff, EkspresInvest Securities Research Department added 13 new companies to its scope and continued to report about 80 companies traded on the ISE and broadcast these reports via international information providers such as Bloomberg and Thomson One Analytics. In line with its goals, the Department provides quick and accurate information flow along with guidance and suggestions to foreign institutional investors making up its target client base about their investments in the ISE. Furthermore, other companies were provided with quarterly reports and/or interim reports as well as offering model portfolio, macro-economy, strategy reports, and monthly updates and daily bulletins for select industries.

Developments like shrinkage in current deficit, decreasing inflation and interest rates, and a more stable Turkish lira expected in the second half of 2012 are factors that will have a positive effect on trading volume and trend in the ISE. In turn, this will increase foreign investors' interest in Turkey and create a positive impact on trading volume and commission income. EkspresInvest will continue to monitor global developments closely and play an effective role in the accurate decision making process of its clients in 2012 as well.

DenizInvestment Trust

The Company joined the DenizBank Financial Services Group as a subsidiary of DenizYatırım Menkul Kıymetler A.Ş. (DenizYatırım Securities) at the end of 2001; its name was changed to DenizYatırım Ortaklığı A.Ş. (DenizInvestment Trust) in 2002.

DenizInvestment Trust manages a portfolio consisting of capital markets instruments, as well as gold and other precious metals that trade on Turkish and international exchanges and other over-the-counter markets. The Company collects savings of small investors in a pool in order to create a much more effective portfolio diversification so that systematic risk can be minimized. While performing its duties, DenizInvestment Trust acts in accordance with the Capital Markets Law and principles and rules identified with the relevant regulations. Moreover, the Company acts in line with the Company's Investment Principles, which is based on distributing risk when selecting securities to invest in.

As of year-end 2011, DenizInvestment Trust portfolio managed by DenizPortfolio Management reached TL 27 million in size and 3.9% market share. In addition, as of year-end 2011, DenizInvestment Trust is in 8th place among 26 investment trusts listed in the ISE in terms of portfolio size.

DenizPortfolio Management

Following the decision to conduct its mutual fund and portfolio management activities under a separate entity, DenizYatırım Securities took the first step in this direction by acquiring EgePortföy Yönetimi A.Ş. (Ege Portfolio Management) from the Savings Deposit Insurance Fund of Turkey (TMSF) in May 2003. Subsequently, the name of the Company was changed to DenizPortföy Yönetimi A.Ş. (DenizPortfolio Management) in June 2003.

In line with the principle to provide high-quality service, DenizPortfolio monitors funds managed and performs its risk analyses systematically and periodically. The Company provides services up to global standard levels as a result of its collaboration with the Risk Management Department of DenizBank. DenizPortfolio effectively and systematically contributes to investment processes of domestic and foreign funds through an experienced and specialized workforce.

Furthermore, the Company actively participates in the fast-growing Pension Mutual Funds markets. DenizPortfolio manages seven pension mutual funds of Deniz Emeklilik ve Hayat A.Ş. (Deniz Pension and Life), whose portfolio size is growing rapidly, offered to the public in November 2009.

Established in Luxembourg and marketed in 11 European countries by Dexia, Dexia Bonds Turkey and Dexia Equities L Turkey, both complying with UCITS-III standards, provide foreign investors interested with the opportunity to invest in Turkey.

Because of the low-interest rate atmosphere of 2011, capital-protected products have been in the forefront. These funds based on various underlying assets depending on the risk/return profile of clients, have multiplied the total fund size in the market to TL 29.9 billion.

In 2011, DenizPortfolio has added nine new capital-protected funds to its mutual funds tailored for DenizBank clients. By managing 11 mutual funds of DenizBank, 7 of DenizEmeklilik, 1 of Garanti Emeklilik, 2 of Dexia, all of DenizInvestment Trust, and 5 capital-protected funds of DenizBank, DenizPortfolio reached TL 668.8 million average portfolio size and 2.1% average market share.

In 2012, DenizPortfolio Management aims to increase its market share by leaning more on retail/corporate portfolio management and rendering public offering of new products in line with clients' investment preferences.

DenizFactoring - DenizLeasing

With the strength and synergy of the Group, DenizBank is among the top for leasing and factoring services in terms of both revenue as well as profitability.

DenizFactoring

DenizFactoring provides both domestic and international factoring services to its clients in the SME, Commercial, Corporate, and Public Banking segments. DenizFactoring, a full member of both the Turkish Factoring Association and the Factors Chain International (FCI), has been a solution partner to its client in collection management since 1998.

DenizFactoring conducts its operations through Regional Directorates and 13 agencies in DenizBank branches, which have a high commercial potential. DenizFactoring provides its products and services to its clients in a rapid and easy manner through its highly skilled 35-person marketing team located at the Head Office and the DenizBank Financial Services Group portal.

Collection Management System

DenizFactoring diversifies its leadership position in both national and international factoring services through serving corporations who want to carry their collections outside their companies.

DenizFactoring has sustained its leadership position in collection management services in 2011.

Supplier Financing Application

DenizFactoring provides its clients with a different model in receivable financing through the Supplier Financing Application. This application finances the receivables of suppliers of manufacturing or service provider corporations with a strong financial structure.

In 2011, 95% of DenizFactoring's transaction volume came from domestic factoring transactions, while 5% was from international factoring transactions. As of year-end 2011, DenizFactoring ranked in 2nd place in terms of profitability among factoring companies that are subsidiaries of banks headquartered in Turkey. In 2011, DenizFactoring has increased its factoring revenue to TL 3.4 billion, while its factoring receivables grew to TL 980 million and assets reached TL 1,020 million.

With its performance in 2011 DenizFactoring, achieved the following ranks among the sector.

- 3rd in factoring receivables with a market share of 6.8%
- 3rd in assets with a market share of 6.5%
- 4th in domestic factoring revenues with a market share of 5.0%

In 2012, DenizFactoring aims to increase its factoring receivables and market share in profitability through focusing on the SME segment as well as providing new products and services.

DenizLeasing

DenizLeasing provides leasing services to corporate and individual investors within the Turkish economy, which is in need of rapidly developing modern financing methods. Since 1997, DenizLeasing has aimed to be the leading institution in its field through its customer-oriented approach and principle to develop new products. DenizLeasing is moving closer to its leadership goal through providing the right financing method for the right investment, establishing relationships based on trust, and meticulous evaluation of clients' projects depending on their features. While sales operations are carried out by Market Development and Vendor Relations department at the Head Office, the sales operations are managed through 14 agencies dispersed throughout Turkey.

DenizLeasing offers clients to whom it is a solution partner without regardless of their sector with financing of all kinds of investment goods in terms of both Turkish lira and foreign currency for medium or long terms through its own distribution channel as well as DenizBank's distribution channel. In 2011, DenizLeasing focused on growth in especially the SME segment, and thus, increased its sales share in the SME segment in 2011 significantly compared to the previous years.

Benefiting from DenizBank Financial Services Group's synergy in the operations; new companies are added to the portfolio and these companies are directed to DenizBank in order to create a cross-sales opportunity.

5th in Assets

DenizLeasing continued to provide services for investment financing in line with its productivity and profitability principles. Thus, DenizLeasing has strengthened its place among the leaders of the sector in terms of asset and equity size. According to year-end 2011, DenizLeasing has remained its first place in the sector in terms of net leasing receivables of TL 1,303 million and a market share of 8.9%. DenizLeasing is in fifth place in terms of asset size.

In 2012, DenizLeasing aims to keep its position among the pioneers of the sector through its steady and controlled growth strategy, as well as improve its success in the SME segment through customized financing opportunities offered to clients of this segment.

DenizEmeklilik

DenizEmeklilik has reached a high growth rate through its high-quality service approach, product variety and group synergy, and signed a success story with its sale.

DenizEmeklilik

DenizHayat Sigorta A.Ş., joining DenizBank Financial Services Group in 2007, acquired a pension company license in 2008 and changed its name to Deniz Emeklilik ve Hayat A.Ş. DenizEmeklilik, operating with the vision to be the most trusted and preferred private pension company among retail customers and employers in Turkey, completed its infrastructure preparations in 2009 and began pension contract sales on January 14, 2010.

In addition to private pension plans, DenizEmeklilik offers its customers life, personal accident, and unemployment insurances. Within this scope, DenizEmeklilik offers innovative products like Critical Illness Insurance, Kurtaran Unemployment Insurance and Kurtaran Mortgage Unemployment Insurance.

After entering into the Private Pension System, DenizEmeklilik successfully completed its first year through its customer-oriented approach and . Furthermore, 2011 has also been a successful of a year for DenizEmeklilik. As of the end of third-quarter 2011, DenizEmeklilik increased assets under management to TL 75.9 million through 54,000 contracts. Growing rapidly in all branches, DenizEmeklilik generated TL 87.1 million in

premiums for life and personal accident branches as of end of September 2011. Thus, DenizEmeklilik completed the first three quarters of 2011 in ninth place among life insurance companies with a market share of 3.5% in the life insurance market. As for the personal accident market, DenizEmeklilik ranked 2nd with a market share of 17.6%. In total, DenizBank, having a 4.0% market share in the life and personal accident markets, increased its total remium generation by 68% compared to the previous year.

The synergy and collaboration within the DenizBank Financial Services Group have allowed Deniz Emeklilik ve Hayat A.Ş. to display steady growth and achieve success in this short period. These achievements have, in turn, drawn significant investor attention to the company. As a result of this heightened interest, DenizEmeklilik was sold to US insurance giant MetLife for the amount of EUR 170 million. DenizEmeklilik will continue to benefit from the synergy of DenizBank Financial Services Group in the upcoming years and will continue the distribution, marketing and sales operations of its life insurance, personal accident and private pension products through the DenizBank branch network for the next 15 years.

Intertech

Established to provide clients with all financial needs through its integrated financial portal and financial supermarket approach, Intertech offers a wide spectrum of IT services to the DenizBank Financial Services Group.

Intertech provides cutting edge technology IT solutions in order for DenizBank to achieve its “Operational Excellence” and “Unique Client Experience” targets. While generating solutions, Intertech focuses on business requirements as well. Moreover, Intertech identifies the most advanced technologies in terms of service-oriented architecture and provides user-friendly solutions. Intertech developed the DenizBank Financial Services Group’s IT strategy in parallel with its own business strategies to ensure operational excellence and unique client experience in the areas that DenizBank interacts directly with its clients.

The “inter-Next Integrated Banking Platform” is a next generation platform developed in line with DenizBank Financial Services Group’s IT strategy. It is web-based banking and built entirely on **Service Oriented Architecture** to assure scalable solutions through quick application and a unique combination of the best IT infrastructure in its field. “inter-Next” links DenizBank’s corporate marketing strategy with banking processes in a manner that places Client Process Management at the center. Thus, it allows DenizBank to execute its activities in line with client needs and expectations. Information retrieved from consolidated and central data feeds marketing applications to provide dynamic access to decision support models and renders its operation employees a fully equipped sales force.

DenizBank has achieved the following results through “inter-Next”:

- **Customer Satisfaction via CRM (Customer Relationship Management):** High-quality products and services aligned with client tendencies and financials
- **Business Process Management:** Driven operational productivity; designing customer-oriented business processes; automation, execution and optimization; achieving low training costs, and spreading agility throughout all levels of the organization
- **Fundamental Banking and Agility:** Service Oriented Architecture; parametric and flexible product design; agility in marketing schedules
- **Interactive Business Intelligence and Active Decision Support:** Ensuring an integrated management; strengthening management of financial data storage
- **Unique Client Experience** with multi-channel service offer structure
- **24/7 financial services** in all distribution channels, IT solutions and infrastructure to cope with growth
- **Low Total Ownership Cost:** Cost effective and scalable solutions with high integration abilities and quick applications without requiring client placement

In addition to these, Intertech develops innovative and mobile applications, providing the best service to DenizBank clients in all channels. Intertech continues to strengthen its existence through new projects like **Facebook banking**, **Facebook applications**, **Follow your Client** (in the Social Media), **Third Party Portal Integrations** (providing banking products and services through Third Party Portals).

DenizBank uses the latest Microsoft technologies and related layers. Intertech manages the consolidated IT infrastructure of the DenizBank Financial Services Group centrally and has made large investments in Cloud Computing. Today, the majority of its servers have been migrated to a Private Cloud System. Intertech’s special Private Cloud solution was developed with HP and Microsoft and is discussed as a success story globally.

A backed-up, sturdy and flexible IT production infrastructure has been designed for DenizBank Financial Services Group in order for DenizBank to achieve its strategic targets. In addition to production fields, DenizBank has established the necessary infrastructure to continue providing services in case of emergencies through its Disaster Recovery Center located in Ankara. Services provided through the Disaster Recovery Center are checked biannually to ensure reliable and continuous operation.

Increasing of IT security threats due to the rise in online services, Intertech provides the security measures listed below with its devoted IT specialists and IT security team:

- Network Security
- Infrastructure and Application Security
- Software Security
- Identity Authentication and Access Security
- Physical Security
- IT Processes

Intertech implements processes based on the global ITIL and Cobit standards to continuously improve and sustain the quality of IT services provided to DenizBank Financial Services Group and to ensure provision of services in line with the defined Service Level Agreements.

Intertech believes that sustainable quality services can only be provided through quality life cycle. With its quality management understanding, Intertech runs the quality life cycle assessment for all processes to continuously improve its service quality and ensure that it remains above average.

DenizKültür

DenizKültür, representing the corporate and social mission of DenizBank, operates with the objective of contributing to society as a whole through activities in the fields of science, arts, culture and literature.

DenizKültür

DenizKültür was established in 2004 with the objective of organizing cultural activities. It engages primarily in scholarly research, arts, and literature and supports similar worthy causes. DenizKültür represents the corporate and social missions of our group through activities focusing on education, culture, arts and sports.

DenizKültür's activities include:

- Publishing books on science, arts and literature
- Producing audio and visual cultural materials
- Performing arts events
- Organizing collection and exhibition projects geared for plastic arts and handcrafts
- Organizing campaigns in line with the social mission
- Other cultural activities that will emerge from new ideas

2011 Art Year Productions and Publications

Book, CD and DVD Publications

Mahmud II

Mahmud II, by Necdet Sakaoğlu, tells the life story of the most innovative sultan of the Ottoman Empire. It is a sequel to Kanuni, Fatih, Abdulhamid, and Abdülmecid; all of which have been published as part of the "Ottoman Sultans" series.

The life and practices of Sultan Mahmud II, who marked an era in the Ottoman Empire by establishing a medical school in Turkey, abolishing the guild of janissaries and modernizing the Ottoman Empire, are described in detail in this book.

Completed in December 2011, 6,000 copies of the book were printed and released.

Deniz's Journals

The Aegean Coast from North to South

The Aegean Coast from North to South is the first book of the series written by Mesut Yâr, the broadcaster and writer. In the book, he tells of various stopover points with interesting attractions and details all the best places to eat on the route along the Aegean coast.

The publication, in which 12 other notable writers have stories, is sent as a birthday gift to all Affluent Banking and Private Banking customers.

Not intended for sale, 30,000 copies of the book have been printed and distribution began in February 2011.

All publications produced by DenizKültür are sold in bookstores throughout Turkey as well as at historical and tourist attractions in Istanbul.

As in previous years, DenizKültür intends to publish at least two new books in 2012. Aside from these, new internal projects and external projects needing support will also be taken into consideration and implemented throughout the year.

Solution - oriented Rational Corporate Governance Practices

Pierre Mariani

Chairman of the Board of Directors

Born in 1957, Mariani graduated from HEC (Ecole des Hautes Etudes Commerciales) and ENA (Ecole Nationale d'Administration), Faculty of Law. Between 1982 and 1992 he occupied various functions in the Ministry of Economy and Finance. In 1993 he was appointed as Director of the Cabinet of the Budget Minister, government spokesman and head of communication. In 1995 he was appointed as Managing Director of the Société Française d'Investissements Immobiliers et de Gestion (SEFIMEG), a real estate company in the Fimalac Group. In 1996 he was appointed as Managing Director and member of the Management Board of Banque pour l'expansion Industrielle (Banexi), the business banking arm of BNP, of which he became Chairman of the Management Board in 1997. In 1999, he was appointed as the Head of International Retail Banking and, from 2003, Head of Financial Services and International Retail Banking of the BNP Paribas Group. He was appointed as Deputy Managing Director in 2008 jointly responsible for Retail Banking activities and for the International Retail Services of BNP Paribas. Since October 2008, Mariani has been Chief Executive Officer and the Chairman of the Management Board of Dexia and Member of the Board of Directors of Dexia Bank Belgium, Dexia Crédit Local and Dexia Banque Internationale à Luxembourg. He was appointed as the Chairman of the DenizBank Board of Directors in March 2011.

Tenure on the Board of Directors: 9 months

Ayfer Yilmaz

Vice Chairman of the Board of Directors
(Independent Member)

Born in 1956, Yilmaz is a graduate of Ankara University, Faculty of Political Sciences, Department of Economics and Finance. Yilmaz started her career in 1979 at the Turkish Ministry of Finance, Treasury Department. Following her post as Assistant Advisor of Economy and Commerce in the Republic of Turkey's Embassy in Bonn (1986-1989), she served as Department Head, Assistant General Manager and General Manager (1989-1993) at the Turkish Undersecretariat of Treasury and Foreign Trade. Between 1993 and 1994, Yilmaz worked as Assistant Undersecretary responsible for General Directorates of Public Finance, Foreign Economic Relations and Banking and then as Undersecretary of Treasury. In addition, she held several governorship missions on behalf of Turkey at the World Bank, European Council Development Bank, European Bank for Reconstruction and Development, Asian Development Bank, Islamic Development Bank and several multilateral investment guarantee agencies. Yilmaz served on the Board of the Turkish Electricity Corporation (TEAS) and Eximbank (Turkish Export Import Bank) on behalf of the Undersecretariat of Treasury. She was elected to the Turkish Parliament during the 20th and 21st legislative sessions and took part in the government as a State Minister. She joined Başkent University in 2002 as Secretary-General of the Strategic Research Center. Since 2006, she has been a Board member at Başkent University, Strategic Research Center. Yilmaz was appointed to the DenizBank Board of Directors in January 2007.

Tenure on the Board of Directors: 5 years

Hakan Ates

Cem Kadirgan**Auditor**

Born in 1964, Kadirgan is a graduate of Istanbul University, Department of Economics. He was appointed Statutory Auditor at DenizBank in 1998.

Date of Assignment: March 2009

Length of Term: 3 years

Esteemed shareholders,

DenizBank continued to focus on risk management in line with its sustainable and profitable growth strategy in 2011 and achieved successful financial and operational results whilst maintaining asset quality as a result of the collective wisdom of the management.

Focusing on steadily increasing revenue from real banking activities since its establishment, in 2011 DenizBank's consolidated net profit rose to TL 1,061 million, an increase of 72%, in a period when profitability in the sector as a whole showed a downward trend. With this profit, DenizBank was ranked as the fifth privately owned bank in Turkey. Nonetheless, DenizBank transfers all of its resources to the real sector in order to contribute to the Turkish economy and has grown its loans, assets, deposits, and shareholders' equity with a performance above sector average.

As of year-end 2011, DenizBank's consolidated assets reached TL 44,756 million with 32% increase compared to last year, while consolidated shareholders' equity increased to TL 4,641 million, a 27% growth. Consolidated capital adequacy ratio for 2011 stood at 14.72%.

Offering services tailored to its clients' needs, DenizBank has developed segments like "Affluent Banking," "Mass Banking," "Pensioner Banking," and "Youth Banking" based on the relationship between people's lifecycles and their changing financial needs. Its customer-oriented approach sets it apart from the competition whilst meeting customer needs by using diversified segmentation and a high-quality service approach. As a result, DenizBank now has a customer base of over 5 million, a 21% increase. Correspondingly, customer deposits have reached to TL 26,499 million growing by 34%; well above the sector average.

Despite the tough global economic climate, DenizBank continued raising funds from the international markets through its sound financial position, superior financial performance and strength of management. DenizBank rolled over 100% of the USD 650 million syndicated loan secured in 2010 to finance foreign trade activities of the real sector with a high level of participation and for the same cost.

DenizBank obtained a securitization loan of EUR 300 million, the largest financing of the year of this type, from four development banks who collaborated for the first time together. These banks are the European Bank for Reconstruction and Development (EBRD), the European Investment Bank (EIB), the International Finance Corporation (IFC), and the German Investment and Development Company (DEG).

Nearly EUR 300 million of resources were obtained from the EIB as part of the Greater Anatolia Guarantee Facility, from an EBRD and EIB partnership by MID-SEFF credit and from EBRD within the scope of the Turkey Agribusiness SME Financing Facility (TurAFF). The funds were extended to SMEs for the financing of renewable energy projects, investment and working capital needs.

DenizBank has continued to extend loans to its clients in the agriculture sector, in SMEs and in the public sector. DenizBank has granted these loans through institutions in addition to the ones listed above including the Japanese Bank for International Cooperation (JBIC), the French Development Agency (AFD), the Dutch Development Bank (FMO), the Development Bank of Austria (OeEB), the Turkish Industrial Development Bank (TSKB) and the Development Bank of Turkey (TKB), the latter two being intermediaries for the World Bank.

In addition to funding from abroad, DenizBank issued bonds and bank bills domestically twice in 2011 with high subscription rates. DenizBank increased its consolidated loans to TL 30,947 million with a 30% growth compared to 2010. This increase has been managed in a manner that will ensure that resources are available to the real sector. Our Bank has upheld its leading role in turning deposits into loans; the loan/deposit ratio currently being 117%.

DenizBank continued to be SMEs' preference. This comes as a direct result of providing innovative solutions, special advantages and discounts in product and service purchases in addition to providing easy access to financing. DenizBank recorded an increase in its SME loans above the sector average.

DenizBank, the first privately owned bank to identify Agricultural Banking as a separate business segment, continued to offer services at a total of 240 branches together with 31 Green Drop branches which focus solely on Agricultural Banking throughout Turkey. These branches boast a workforce of qualified customer representatives, mostly comprised of agricultural engineers who focus on providing Agricultural Banking related services. DenizBank as the bank that supported the agriculture sector the most kept its leader position in terms of loan volume in 2011.

In 2011, DenizBank partook in one of the biggest collaborations in the Turkish finance sector through its partnerships with PTT (the General Directorate of Post and Telegraph Organization). With this partnership, PTT's transaction system was integrated with the banking system and as a result, DenizBank's total number of ATMs reached 2,370 while the total number of debit cards increased to reach 5.8 million together with PTT's cards. With this expansion in debit cards, DenizBank has displayed a record growth.

DenizBank grew above the sector average in 2011 in the individual credit cards market. This growth was due in part to the development of contactless credit cards. These cards enable customers to accumulate points redeemable with leading public transport companies. Fan cards were offered to a total of nine football clubs, including all champion Turkish clubs and others. Our Bank also designed pre-paid cards for municipalities and universities. Bonus cards also contributed to growth in this market.

With a service approach that is sector-specific and that aims to provide innovative solutions for commercial cards, DenizBank preserved its leadership in this market with a total of 528,000 cards. The commercial card portfolio includes: the "SME Card" for SMEs; "Producer Card" and "Farmer Card" for agricultural producers; "Smart Card" for craftsmen and artisans; the Cash Card for all business customers, and more.

In addition to its successful financial and operational performances in 2011, DenizBank continued to support culture, arts, sports, and education through social responsibility projects.

We extend our gratitude to our employees who are the reason for these successful results and for having worked with dedication and belief to carry DenizBank into the future. We thank our clients, who have been on this journey with us. To all our stakeholders, business partners and shareholders who honor our General Assembly, we offer our deepest gratitude for their support and trust.

The Board of Directors

The most important element driving sustainable growth and success of DenizBank Financial Services Group is the passionate, qualified, well-equipped and experienced human resources.

The Human Resources Department carried out its operations in 2011 in line with the strategies and goals of DenizBank Financial Services Group (DFSG); creating partnerships with all organizational departments and offering guidance to employees; the most important capital of DFSG.

DenizBank offers services through 10,826 employees in a total of 600 domestic and international branches, 88 of which were inaugurated in 2011. In an effort to support its growing branch network, DenizBank restructured its field organization under 16 Regional Directorates and 13 Regional Credit Offices, and has inaugurated three new Regional Directorates and two new Regional Credit Offices in 2011 as a result of a localized management approach. Stemming from meticulous workforce planning, DenizBank is one of the banks with the lowest number of employees per branch.

DenizBank became one of the “fastest growing bank” in terms of the total size of its workforce in 2011. Throughout the year, a total of 2,650 people, of which 1,400 were experienced and 1,250 were inexperienced, were hired in accordance with the needs of the Group.

The “Candidate and Application Management Department” was established to meet growth and the structure of the HR organization was revised. This revision aimed to increase candidate satisfaction, HR communications as well as to enable mass hiring and quickly finding qualified candidates using modern selection tools.

In 2011, 1,250 university students, the workforce of the future, were given the opportunity to intern at the bank for two months to gather knowledge about the business world and to implement the theoretical knowledge they learned so far at university.

Employee Loyalty

The employee loyalty survey is a reflection of the people-oriented corporate culture and sense of management that sees employees as the most valuable asset. The results of the employee loyalty survey in 2011 were above the sector average. An indicator of employee satisfaction is the employee turnover ratio, as below the sector average. Employee satisfaction is the fundamental factor in creating customer satisfaction. With the intention of further increasing employee satisfaction compared to last year and the sector as a whole, one-to-one meetings are held between employees and managers. As a result of these meetings, employee expectations and the areas that impact employee satisfaction the most are revealed allowing them to be assessed and evaluated more clearly. Plans to remedy any concerns can then be formed.

Career Opportunities

Besides adding qualified and skilled employees to its workforce, DenizBank Financial Services Group takes as principle to raise the future managers from within its ranks, to provide equal opportunities to its employees and give preference to existing employees when filling vacancies. In line with the

principle of raising managers from within the workforce, 70% of managerial appointments in 2011 were by means of in-house promotions and 22% of employees were promoted to the next level last year.

Reward System

Within the scope of the “Performance Development Program” (PDP), which aims to improve employee performance and qualifications, 6,000 employees from five Group companies were met and evaluated in 2011 regarding their career goals and qualifications.

DFSG aims to provide professional opportunities to all employees without discrimination. The Group offers competitive salaries and benefits in line with current market conditions. Manager and employee salaries are determined in line with ethical values, internal balance, strategic goals and level of responsibility. The “Remuneration Committee” was set up in 2011. Its daily operations are handled by the Human Resources Department in line with remuneration policies and procedures.

All indemnity payments having the quality of an incentive system intended for awarding performances of managers are assessed taking into consideration the past performances of the employees and their contribution to the long term performance of the Bank. Bonus payments are made in March following the current year.

“PUPA Premium System” which is established in a way to make a difference in the sector with the purpose of promoting and perpetuating outstanding performances of Branches Sales and Operations staff, is revised and “ScoreCard” application is carried into practice in premium calculations of Branch Tellers and Operations staff. PUPA Premiums are calculated 4 times a year, at the end of each quarter and are paid with salaries in gross.

Within the scope of managers’ bonus payments and the PUPA Premium system, performance based premium payment of approximately 2.3 salaries were made to 7,711 DFSG personnel in 2011.

Established to create a difference in the sector, the PUPA Bonus System aims to incentivize and sustain superior performance among the Branch Sales and Operations Staff. The PUPA Bonus System was replaced with the “ScoreCard” system when calculating bonuses for Branch Tellers and Operations staff.

In 2012, DenizBank aims to enrich communications with candidates using social media, career websites, and other external communication activities. It intends to strengthen collaborations with universities through integration with business lines, increase employee loyalty, further reduce the employee turnover ratio and appoint current employees to 70% of managerial vacancies.

DenizBank trained Sailors and Captains in Deniz Academy, established as a result of the importance given to the personal and professional development of its employee and makes a difference through e-learning, mobile training and Deniz TV.

Deniz Academy

Deniz Academy configures the personal and professional development of all DenizBank Financial Services Group employees in a planned way. Training needs of all employees are analyzed in line with the importance of training in career improvement. Deniz Academy outlines training for field employees based on their levels and structures their development throughout their career with mandatory and elective courses. This allows them to experience a faster moving and more satisfying career path. Head Office employees are offered boutique courses following annual training needs analyses.

Deniz Academy sees training of managers as a mission guiding to the corporate culture and develops training projects spread over a period of time by utilizing different teaching methods to make learning more stimulating.

Deniz Academy has the capacity to provide training to 1,000 people at the same time. Moreover, it organizes seminars, hobby workshops and many other activities in addition to training for our employees. It also plays host to many of DFSG's events.

In 2011, with Deniz Academy, DFSG increased and improved its investment in its human resources — its most important assets. Deniz Academy reached every employee last year and became one of the top institutions in the sector upon giving an average of 8 working days (56 hours) of training per person.

Furthermore, the "Development Center" was rolled out in the beginning of 2011 to identify the strengths and any improvable areas of Vice Presidents Those who attended the "Development Center" assessments went on to partake in the "Development Program of Vice Presidents." Deniz Academy has a 15-day Leadership Program called the "New Captains Club" which was designed for employees who have been recently promoted to branch manager and department head positions.

In addition to classroom courses, Deniz Academy has rolled out a hybrid teaching model using alternative teaching channels like e-learning, mobile learning, and Deniz TV and provided an average of 12 hours of training per person through these channels. E-learning practices began in 2009 were further improved in

2011. Deniz TV, mobile courses and social media were added to the alternative training resources which began with e-Deniz Academy. The course catalogue consisting of 175 courses including self-development, professional, technical, and management courses has been made fully available to our employees. In addition to this, mobile content is prepared and made available to managerial staff.

In 2011, we were awarded with the Informatics Awards.

Digital applications of Deniz Academy have reached a level at which they can compete with the sector alternatives. E-Deniz Academy, Deniz Academy's electronic learning portal, won second place in the Informatics Association of Turkey's e-Transformation Contest, 2011.

Moreover, we were awarded in the e-communication section of the same competition for organizing annual, monthly, and weekly communication campaigns for all courses on e-Deniz Academy. In line with the Bank's agenda and priorities, we undertake promotional activities to enable employees to enroll in the courses they want and access information they need and are interested in.

Widening technology-related training through hybrid teaching models and aligning career maps with training maps are within 2012 targets of Deniz Academy.

1. Declaration of Compliance with Corporate Governance Principles

DenizBank, prior to its public offering, has conducted studies for compliance with Capital Markets Board (CMB) Corporate Governance Principles voluntarily and also taken international principles and sector practices into consideration. The "Corporate Governance Report" was published upon approval of the Board of Directors at the meeting on September 16, 2004.

DenizBank accepts Corporate Governance Principles as a dynamic field open for improvement and accordingly enriches its operating practices.

DenizBank operates with a management approach built on principles of transparency, equality, responsibility and accountability and sees compliance with the Corporate Governance Principles of CMB and Banking Regulation and Supervision Agency (BRSA) as especially important regarding regulating relationships with stakeholders and identifying duties, authority and responsibilities of the Board of Directors and the management tiers below them.

Differences between CMB Corporate Governance Principles and our Bank are outlined under their relevant sections in this document.

Part I: Shareholders

2. Investor Relations Department

In 2004, DenizBank's Board of Directors set up the Investor Relations and Financial Communication Department to comply with existing legislation, the Articles of Association and other in-house regulations and arrangements on the right to obtain and review information, the issue of exercising shareholder rights and to take the necessary measures to ensure the exercise of such rights. The Department operates within the Financial Affairs Group and the names and contact information of its staff are published on the Bank's website.

Activities during the Period:

- Material event disclosures
- Preparation of the annual report, interim activity reports and press releases
- Updating financial statements on the website
- Examination of sector data and preparation of market share reports
- Examination and comparative analysis of competitor reports
- Responding to questions received by email and telephone
- Organization of the Ordinary General Assembly

- Examination and evaluation of analyst reports
- Presentation of analysis and survey reports to the Executive Management along with recommendations
- Communicating with Credit Rating Agencies

3. Exercise of Shareholders' Right to Obtain Information

The Investor Relations and Financial Communications Department treats all shareholders equally. In 2011, a limited number of information requests from shareholders reached the Department. All inquiries of stakeholders were assessed to determine whether they were within the scope of trade secrets or not. Those that were not within that scope were addressed in writing and/or verbally.

The requests for information received by the Investor Relations and Financial Communications Department during the period fell into the following categories:

- Bank's financial statements
- Activities of business lines
- Annual General Assembly Meeting
- Bank forecasts of the national economy, DenizBank, and the banking sector
- Main shareholder enquiries
- DenizBank's goals for the upcoming year
- Bonds/bills issued
- Sale of subsidiaries
- Sale of the Bank

DenizBank pays close attention to information releases that may impact the decisions of investors and exercising of shareholder rights in the fastest and most effective way. Disclosures are considered as Communiqué on Principles Regarding Public Disclosure of Material Events and are announced via Public Disclosure Platform and also published on our Bank website. The DenizBank website is used actively in order to provide easy access to information for shareholders, investors and other stakeholders. Information published on our website is discussed in detail under "Part II/10 Company Website and Contents."

Request for Appointment of a Special Auditor

The request for appointment of a special auditor submitted by shareholders with at least 1% of our Bank's shares is stipulated as an individual right in Article 14 of the Articles of Association.

No request from the shareholders was received for the appointment of a special auditor during the period.

4. Information on the Annual General Assembly

Invitation to and Information about the Annual General Assembly

DenizBank extends the invitation to the Annual General Assembly at least three weeks before the meeting date, as stated in Articles 11 and 36 of the Articles of Association. Agenda items and proxy forms are published in the Trade Registry Gazette, Hürriyet and Sabah dailies, as well as on the DenizBank website. Furthermore, the agenda items, proxy forms, Annual Report, Articles of Association, financial statements and their footnotes, old and new versions of the Articles of Association if there are any changes, requests from CMB and other state institutions and organizations to add items to the agenda and all other documents regarding the agenda items are made available to the shareholders at the Bank's Head Office and the Bank website as of the date of the announcement. In order to facilitate participation in the General Assembly, all information regarding the agenda as well as the proxy forms are posted on the Bank's website. There is no requirement for the proxy voter to be a shareholder. Shareholders who consign a minimum of one share to the Bank at least one week before the meeting date are issued a General Assembly entrance card.

Although not outlined in the Articles of Association, the Annual General Assembly is open to the public, including stakeholders and the press however they have no right to ask questions as per the decision of DenizBank's Board of Directors.

The minutes of the General Assembly and the list of participants are always available on the website for the Bank's shareholders.

In 2011, only one Ordinary General Assembly was held.

Date	March 24, 2011
General Assembly	2010-Ordinary
Participants	Shareholders
Participation Rate	99.84%
Form of Invitation	Trade Registry Gazette, Hürriyet and Sabah dailies, and announcement on the website

Shareholders' Rights to Add Items to the Agenda and Ask Questions

As ruled in Article 11 of the Articles of Association of DenizBank, minority shareholders may add items to the agenda and request the Board of Directors to call an Extraordinary General Assembly via justifiable written requests. As per Article 14 of the Articles of Association, all shareholders have the right to ask questions during general assemblies. Questions directed to the Board of Directors shall be answered immediately and

verbally if possible. They will otherwise be answered in writing within 15 (fifteen) days of the General Assembly.

Within the scope of the principles, matters regarding "doing business with the Bank and non-compete clause" expected to be presented to the General Assembly for approval are discussed in Article 24 of this report.

Our Bank carries out donations and aids in line with the conditions defined within operating procedures. Amounts of donations made within the period and the benefactors of these donations are listed in the Annual Report and presented to the shareholders at the General Assembly as separate items of the agenda.

Differences between Corporate Governance Principles and DenizBank's Practices

As per Article 19 of the Articles of Association, the Board of Directors has the authority to make decisions such as the division of shares and the sale, purchase or lease of a significant amount of assets as per the CMB Corporate Governance Principles, approved by the General Assembly.

5. Voting Rights and Minority Rights

DenizBank shares do not have any preferential rights. As per Article 12 of the Articles of Association, each share carries one vote. Obstructions to the exercising of voting rights are avoided. Shareholders can be represented at the General Assembly by other shareholders or an external proxy.

The Bank does not have any cross-shareholding relationships with any of its subsidiaries or affiliates.

As imposed by Article 11 of the Capital Markets Law as amended by Law No. 4487, that minority rights shall be exercised by shareholders representing at least one twentieth of the paid-in capital, is satisfied by Article 11 of the Bank's Articles of Association.

Cumulative voting procedure is not used.

The rights granted in relation to shareholders' participation in management are presented in Articles 11, 13, 14, and 20 of the Articles of Association.

6. Dividend Distribution Policy and Timeline

The Bank's profit distribution policy has been stipulated in Article 33 of the Articles of Association and the information is announced on the Bank's website. Prior to being presented by the Board of Directors to the Annual General Assembly, the suggested dividend distribution is announced as a material event disclosure to shareholders and published on the Bank's

website. There are no privileges concerning the distribution of profit. Pursuant to the decision of the General Assembly held in March, no dividend is being paid for the year 2010.

7. Transfer of Shares

There is no provision in the Bank's Articles of Association restricting the transfer of shares. According to Article 8 of the Articles of Association, the transfer of shares is allowed under the Turkish Commercial Code, Banking Law, Capital Markets Law and the Bank's Articles of Association.

Part II: Disclosure To The Public and Transparency

8. Disclosure Policy

In addition to the items mandated for public disclosure by legislation, the Bank is very sensitive about disclosing any information except for trade secrets. In order to notify the public effectively, the matters to be disclosed to the public which is established within the framework of the CMB's Communiqué on Principles Regarding Public Disclosure of Material Events as well as the means, the timing, the methods, and the individuals responsible of the announcements are stipulated under the Disclosure Policy, approved by the Board of Directors and posted on the Bank's website. The groups/departments responsible for the Execution of the Disclosure Policy are listed below. Additionally, managers of all related business lines are responsible for the monitoring, development, and implementation of the disclosure policy regarding material events disclosures.

- Board of Directors
- President and CEO
- Executive Vice President in charge of Corporate Communications
- Executive Vice President in charge of Financial Affairs (CFO)
- Executive Vice President in charge of Economic and Strategic Research (Chief Economist)
- Secretary General
- International and Legal Reporting Group-Senior Vice President and Department Managers of the Group
- Investor Relations and Financial Communication Department
- Corporate Communications Department
- Corporate Compliance Group
- Self-Service Channels Group
- All Executive Vice Presidents within the scope of Material Events Disclosures

9. Material Event Disclosures

In accordance with the CMB Communiqué Series: VIII, No. 54; 57 material event disclosures were made within the timeframe required by legislation during the period and all of which are posted

on the Bank's website. Material Event Disclosures for matters of high importance are published in English on our website as well. Since the Bank's shares are not listed on foreign stock exchanges, no material event disclosures were made on any stock exchanges other than the ISE. In line with requests from CMB and Public Disclosure Platform regarding news in the press, 4 disclosures have been made.

10. Company Website and Content

In accordance with the public disclosure and transparency principles of the Corporate Governance Principles, DenizBank has created an effective website that is updated periodically to provide timely, accurate, complete, comprehensible, easy to analyze, low-cost and accessible information. The Bank's web address is www.denizbank.com. The website, available in Turkish and English, contains all the information stipulated in CMB Corporate Governance Principles. The information available is listed below:

- Up-to-date shareholding and organizational structure
- Information stating that there are no preferential shares
- The latest version of the Bank's Articles of Association
- Dates and issues of the Trade Registry Gazette, in which changes to the Articles of Association are published
- Amendments to the Articles of Association (Attached to the agenda of the General Assembly)
- Material event disclosures
- Press releases
- Annual reports and interim activity reports
- Periodical financial statements, independent audit reports and their footnotes (consolidated and non-consolidated)
- General Assembly meeting agenda, minutes and list of participants
- Proxy forms
- Information on the Bank's internal control system and risk management
- Curricula Vitae of the members of the Board of Directors
- Curricula Vitae of the President and CEO and the Executive Management team
- Human resources policy
- Remuneration policy
- Dividend distribution policy
- Dividend distribution table
- Disclosure policy
- Risk management policies
- Code of ethics
- Information on the Bank's shares
- Compliance with Corporate Governance Principles Report
- List of activities undertaken within the scope of social responsibility

11. Disclosure of Real Person(s) as Ultimate Controlling Shareholder(s)

DenizBank's shareholding structure as well as the ultimate controlling shareholders of the Bank is shown in the tables below. There are no cross-shareholdings in the shareholder structure of DenizBank.

Shareholding Structure of DenizBank A.Ş. – as of December 31, 2011

Part III: Stakeholders**13. Informing Stakeholders**

The rights earned through legislation and reciprocal contracts of DenizBank's stakeholders (shareholders, employees, clients, correspondent banks, entities that participated in syndication loans, public entities, lenders, loan issuers, credit rating agencies, suppliers, our social environment, and other interest groups the Bank is in contact with) are protected by DenizBank. If these rights are violated, the injured party is compensated. Relationships with all stakeholders are maintained with respect to the Code of Ethics. Employee rights have been determined through the Bank's approach and through its human resources policy, remuneration policy, employee regulations, disciplinary regulations, and other regulations. Stakeholders are provided with information related to the Bank within the framework of disclosure policy and other company regulations. Stakeholders are regularly informed through: General Assembly minutes; material event disclosures; press releases; internal bulletins; in-house announcements; "Team Spirit" magazine; announcements made to clients via email, SMS and the call center; annual and interim reports; financial reports and all notifications made via the website.

In addition, the information is provided via meetings organized upon request and written statements. Easy access to up-to-date information is facilitated by posting all the aforementioned information on the Bank's website.

Several mechanisms have been set up by which stakeholders can share complaints and suggestions regarding the Bank's activities and transactions with the management. While employees can use the suggestion system to share their wishes, requests, suggestions and complaints with the executive management, other stakeholders can share their requests and complaints with the Bank's management via customer satisfaction system.

14. Participation of Stakeholders in Management

To ensure optimum satisfaction while preserving the balance between customers, employees, shareholders and other stakeholders, the Bank strives to improve its product and service quality and to fulfill the expectations of domestic and foreign customers. To this end, DenizBank acts in accordance with the "collective wisdom" concept and gears its systems for continuous improvement.

Stakeholders can participate in the Bank's management by attending various committee meetings and the General Assembly, as well as by using the suggestion system and by exercising their right (as stated in Article 20 of the Articles of Association) to demand a Board of Directors meeting. Furthermore, as per Article 11 of the Articles of Association, minority shareholders

may request the Board of Directors to call for an Extraordinary General Assembly through justifiable written requests and create the agenda for discussion. Below is a list of systems that facilitate participation in management by employees, customers and shareholders. The output of these systems is presented to the Executive Management after being analyzed by related departments.

15. Human Resources Policy

General human resources policies undertaken for the Bank and its subsidiaries to perform their functions most effectively are based on the principles summarized below. These principles are posted as related procedures and processes on the Bank's website and intranet portal "DenizPortal" and are accessible by all members of the staff.

Respect for Individuals: Recognizing that the first criterion for success is respect for the individual and providing all employees, without discrimination, with the professional environment and opportunities necessary for them to fully utilize and improve their abilities and skills.

Transparency in Management: Facilitating new ideas within the framework of mutual trust, understanding, communication and problem solving by way of a collective wisdom. Establishing and developing user-friendly technological systems to give employees the opportunity to communicate their demands, suggestions and opinions by further informing them on the applications that concern them.

The Opportunity for Training and Development: Keeping in mind that the most valuable investment of the Bank is the development of employees using every possible training tool, managing their careers in accordance with their accomplishments and competencies and aiming to select the managers and directors of the future from among the Bank's employees.

Fair and Reliable Remuneration Management: Implementing a compensation management system that provides fair and reliable salaries

and benefits that encourage and reward success and excellence while staying in line with market and contemporary conditions.

Practices and attitudes related to matters like hiring criteria, salaries, training and health, in accordance with the general approach adopted within the framework of the human resources policy, are documented through guidelines, procedures and policies; all of which are available to our employees.

Announcements that are of interest to Bank employees are communicated over the intranet (DenizPortal) and by email. A Suggestion System was developed through which the employees can transmit all of their suggestions and opinions. Suggestions submitted through "I Have an Idea" on DenizPortal are evaluated and pre-assessed by the Organization Department. Suggestions deemed viable after the pre-assessment by the relevant group/department are submitted to the Suggestions Committee. Evaluation and rewarding of relevant suggestions are carried out by the Suggestions Committee. The recording and follow-up of the suggestions chosen for implementation are coordinated by the Organization Department. Furthermore, all employees' concerns and problems regarding working practices are evaluated by their supervisors and brought to the attention of the Executive Management, if necessary. There have been no complaints from employees regarding discrimination in the workplace.

We believe that development is the most important factor of our human resource policy and we support the personal development and career path of every DenizBank Financial Services Group employee with a policy of equal opportunity. All related programs are carried out in Deniz Akademi and training needs are analyzed. Modern training tools and methods like e-Deniz Akademi, Deniz TV, mobile training and social media are used in training projects.

Our employee remuneration policy is designed with "payroll and social benefits" in mind. The "Remuneration Committee" was established to audit and monitor pay policies and practices on behalf of the Board of Directors. Salaries, factors significant in determining increase rates, the performance based system and criteria used in assessments have been identified within the scope of the policy. The policy has been made available to our employees via our website and intranet portal.

16. Relations with Clients and Suppliers

Clients

In order to ensure client satisfaction by offering standardized products and services, DenizBank prepared and presented processes to the Bank's employees via DenizPortal (intranet).

The Bank set up a Customer Satisfaction Department to conduct relations with customers at the desired level. Customers have the opportunity to convey any information regarding the Bank's products and services, applications, suggestions, compliments or complaints through the Bank's branches, website and Contact Center. The tracking and follow-up of the requests is carried out by the Customer Satisfaction Department. Complaints and suggestions received are communicated to the related departments to be resolved and customer suggestions to be considered. Customers are informed about the outcome of their requests.

Covert Customer Surveys are conducted at the branches to measure customer satisfaction and the findings are reported to the Executive Committee and the actions that need to be taken are determined.

By incorporating the results of the assessments based on criteria such as the approach to customers, conformity with the Bank's corporate identity and other general attitudes and behaviors into "PUPA" performance system and "Service Quality Bonus" applications, the Bank aims at ensuring sustained customer satisfaction achieved by creating additional income for the employees.

The Customer Satisfaction Department shares statistical data on customer feedback with all employees periodically via email and thus aims to increase employee awareness regarding customer satisfaction.

Suppliers

All procurements at DenizBank are conducted centrally by the Purchasing Department from the suppliers in the Approved Suppliers list and validated by the Purchasing Committee. The following factors are taken into consideration when selecting a supplier from which the Bank will acquire products and services.

- Banking sector references
- Samples of previously delivered products or services
- Confirmation of references
- Technical capability
- Subject-specific knowledge
- Optimum cost

DenizBank transparently shares all of its evaluation criteria for relations with suppliers and provides equal opportunities to all of them. DenizBank cares about the confidentiality of information considered to be trade secrets regarding clients and suppliers.

17. Code of Ethics and Social Responsibility

DenizBank carries out its operations within the scope of the Code of Ethics adapted and published on the website. Furthermore, DenizBank published the Integrity Policy in order to establish respect for the laws and regulations, ensure the trust

among the customers, employees and shareholders and to prevent misconduct and fraud.

In addition to its activities in economic and financial areas, DenizBank invests mainly in the fields of culture, education, art and sports that enhance the quality of life for the Turkish populace within the framework of its social responsibility consciousness.

To this end, the Bank makes donations, undertakes sponsorships, organizes cultural events, publishes works via DenizKültür and carries out projects nationwide.

The list of activities in this area conducted in 2011 is presented on the Bank's website.

Part IV: Board Of Directors

18. Structure and Composition of the Board of Directors and Independent Members

Names and short biographies of the Board Members have been shared as part of the Annual Report under categories of executive, non-executive and independent.

The structure, composition, duties, and responsibilities of the Bank's Board of Directors, as well as its meeting format, are described in detail in Articles 17, 18, 19, and 20 of the Articles of Association. Article 17 of the Articles of Association states that the Board of Directors can consist of a minimum of five and a maximum of 15 members in a fashion that allows for carrying out effective and constructive activities as well as quick and rational decision making. The Bank's Board of Directors consists of eleven members; eight members have no executive duties, two of whom serve as independent member and three members are executive. As per Article 17 of the Articles of Association, the duties of Chairman of the Board and the CEO of the Bank have to be carried out by different individuals. The term of office for all members of the Board of Directors is defined within the scope of Article 18 of the Articles of Association and is set at three years. Members whose term of office is completed can be re-elected. "Declaration of Independence" has been received from the Independent members of the Board of Directors. No development terminating the independent status of the members of the Board of Directors occurred during the reporting period.

Independence Criteria

During the General Assembly on March 24, 2011, Ayfer Yılmaz was appointed as Vice Chairman and Independent Member of the Board of Directors and M. Cem Bodur replaced Hacı Ahmet Kılıçoğlu as an Independent Member of the Board of Directors.

Differences between the Corporate Governance Principles and DenizBank's Practices

While one member of the Board of Directors appointed as an independent member meets many of the independence criteria stipulated by the CMB and the international principles, it differs from time limit determined in the CMB Corporate Governance Principles.

19. Qualifications of the Board Members

Special care is taken concerning the qualifications of the members of the Board of Directors to correspond with the qualifications stipulated in the CMB Corporate Governance Principles for the duties and practices of the Board of Directors. As per Articles 17, 18, and 19 of the Articles of Association, members of the Board of Directors are chosen from among candidates that meet criteria sought in light of Banking Law no. 5411 by the General Assembly. These articles also identify the term of office, duty and authority and conditions for election and removal from duty regarding the members of the Board of Directors.

20. The Mission, Vision and Strategic Goals of the Bank

The Board of Directors manages and represents the Bank with thoughtful risk management and strategic decisions with long term interests at heart by optimally balancing the Bank's risk, growth and return. Accordingly, it defines the Bank's strategic goals, identifies the human and financial resources the Bank may need, supervises the planning of the organization and activities accordingly and monitors the performance of the management based on the identified targets. Furthermore, the Board supervises the compliance of the Bank's activities with legislation, Articles of Association, internal regulations and policies.

DenizBank's mission and vision are developed by the Board of Directors and are published on the Bank's website.

DenizBank's Mission

DenizBank's mission is to enhance shareholder value with its market position, image and corporate characteristics by employing a supermarket approach to financial services, thus ensuring satisfaction to shareholders, employees and customers.

DenizBank's Vision

DenizBank envisions becoming one of the largest five banks in Turkey and the foremost financial institution in the region defined as the Middle East, Caucasus, Balkans and CIS (Commonwealth of Independent States) countries through sustainable and profitable growth.

The strategic goals of the Bank were approved by the Board of Directors. The strategies and business plans to reach those goals as well as the actual realizations on the budgets are monitored and reported constantly via an effective system infrastructure.

21. Risk Management and Internal Control Mechanism

The Board of Directors has established a risk management and internal control mechanism that can minimize the effects of risks that may impact shareholders and stakeholders. Detailed information about this system's operation, administration, duties, responsibilities and effectiveness is available in the Annual Report. The Internal Control mechanism of DenizBank is managed by the Internal Control Center and Compliance Department and the Internal Audit Department. The Board of Directors reviews the effectiveness of the risk management and the internal control system quarterly through the reports prepared by the Audit Committee. This topic is discussed under Audit Committee assessments in the Annual Report.

22. Duties and Responsibilities of the Board Members and Executives

DenizBank's Board of Directors carries out activities in a transparent, accountable, fair and responsible manner following Corporate Governance Principles. Duties and responsibilities of DenizBank's Board members are stipulated in Article 19 of the Articles of Association. Duties and responsibilities of the Bank's executives are stipulated in Article 28. In addition, duties and responsibilities of the Bank's CEO are stipulated in Article 29 of the Articles of Association.

23. Operating Principles of the Board of Directors

Principles and quorum for the Board of Directors meetings have been established in Article 20 of the Articles of Association. Although the Articles of Association states that the Board of Directors should meet at least four times per year, the Board meets as frequently as required to carry out duties effectively. The Board of Directors is convened by the Chairman of the Board or by the Vice Chairman if the Chairman is not present. The agenda of the Board of Directors meetings consists of items arising from the duties and responsibilities of Board members, as stipulated in Article 19 of the Articles of Association, members' requests, matters discussed at the weekly Executive Committee meetings and Committee resolutions. Furthermore, any one of the internal auditors may set the agenda and call the Board of Directors for a meeting. In line with shareholder rights, minority shareholders and stakeholders may request a certain subject to be addressed at the Board of Directors meeting in writing to the Chairman of the Board and have it added to the agenda.

The Board of Directors held 73 meetings during 2011.

It is essential that Board members attend the meetings in person but attendance is also permitted via any means of remote conferencing. Members of the Board each have one vote, all votes are equal and no member or Chairman has a privileged or weighted vote or veto power.

Board members with affiliations cannot vote in Board meetings concerning such affiliated party transactions.

The Chairman of the Board strongly encourages the participation of non-executive members in the meetings. The Chairman is responsible for ensuring that Board meeting invitations and discussions are conducted in accordance with procedures and that decisions made are recorded in the meeting minutes.

During the Board of Directors meetings, members who cast dissenting votes are required to sign the minutes along with a statement explaining the reason for their votes. Minutes of the meetings and related documents as well as the related correspondence are archived on a regular basis. The manner in which the Board of Directors meetings are held is documented in in-house regulations. Information and documents related to the items on the agenda of the Board of Directors meetings are presented to the Board members for viewing by the Board Secretariat prior to the meeting in order to establish equal information flow. Members who cannot attend the meeting may submit their views in writing to the Board of Directors and these opinions are shared with all other members.

Compliance of Bank's meeting records with the legislation is ensured by the Board Secretariat and a report is presented to authorized parties upon request. The duties of the Board Secretariat have been passed onto the Secretary General upon resolution of the Board of Directors. Decisions of the Board of Directors that are significant to stakeholders are made public via Material Event Disclosures.

24. Prohibition of Doing Business with the Bank and Non-Compete Clause

Provided that they remain outside the issues prohibited by Banking Law No. 5411, permissions contained in Articles 334 and 335 of the Turkish Commercial Code regarding prohibition of transactions with companies and the non-compete clause have been granted to the Board members by the General Assembly. All transactions by the members of the Board of Directors and executives are inspected at least once a year by the Internal Audit Department. In addition, in 2011, the Audit Committee conducted the required controls within the framework of its regular audits and informed the Board of Directors in this respect. There were no situations contrary to what is stipulated by the current legislation.

25. Code of Ethics

Within the framework of the code of ethics, DenizBank has adopted Principles of Banking Ethics. DenizBank's Executive Management is responsible for ensuring that personnel and executives comply with the Bank's code of ethics, that these rules are adopted by all employees

and that DenizBank carries out its activities within these rules. Furthermore, DenizBank has published the Integrity Policy in order to establish respect for the laws and regulations, trust among the customers, employees and shareholders and to prevent misconduct and fraud. The body of these rules was presented to employees and stakeholders via DenizPortal and the website.

26. Number, Structure and Independence of the Committees Established within the Board

In order for the duties and responsibilities of the Board of Directors to be carried out wholly, the Board of Directors established the Audit Committee and the Corporate Governance and Nomination Committee in 2004 within the scope of CMB Corporate Governance Principles. In addition, in 2011, the Board of Directors established the Remuneration Committee to monitor and inspect remuneration practices on behalf of the Board of Directors in accordance with the "Regulation on the Banks' Corporate Governance Principles" of the Banking Regulation and Supervision Agency.

The duties and operating principles of committees are posted on the Bank's website. Information about the committees reporting to the Board of Directors and on the executive committees providing information flow to the management is presented below.

Committees Reporting to the Board of Directors

Corporate Governance and Nomination Committee

The Committee is responsible for overseeing the compliance of the Bank with the Corporate Governance Principles. The Committee consists of two members. The qualifications of the members of the Committee are depicted below.

Member: M. Cem Bodur

Position: Member

Member Definition: Independent Member

Education Level: Undergraduate

Member: Tanju Kaya

Position: Member

Member Definition: Executive Vice President

Education Level: Undergraduate

The Corporate Governance and Nomination Committee convene at least three times a year and whenever required to perform its duties. The procedures related to the structure, duties and responsibilities of the Corporate Governance and Nomination Committee have been determined and its main activities are posted on the Bank's website.

In 2011, the Corporate Governance and Nomination Committee performed the following actions:

The Committee held 12 meetings regarding the appointment of executives to recommend candidates to the Board of Directors. The nominated executives were appointed in line with the recommendations presented to the Board of Directors. Through suggestions to the Board, the Committee made an effort to improve its operating principles, which were reviewed during the meetings.

Audit Committee

The Audit Committee is responsible for overseeing the Bank's accounting system, financial information and its disclosure to the public as well as taking all required measures to supervise the proper functioning and effectiveness of the internal control system. The Committee consists of three members. The qualifications of the members of the Committee are listed below.

Member: Ayfer Yılmaz
Position: Member
Member Definition: Independent member
Education Level: Undergraduate

Member: Philippe J.E. Rucheton
Position: Member
Member Definition: Non-executive member
Education Level: Postgraduate

Member: Eric Hermann
Position: Member
Member Definition: Non-executive member
Education Level: Postgraduate

The Audit Committee meets at least once every three months; at least four times a year. In addition, the Audit Committee meets with the independent auditors of the Bank, separate from the executive units, at least four times a year to discuss issues regarding internal control, financial statements, internal audit and other important items that need to be discussed. The procedures regarding the structure, duties and responsibilities of the Audit Committee have been defined and its main activities are posted on the Bank's website.

The Audit Committee's 2011 activities can be found in the Bank's Annual Report under the heading "Assessments of the Audit Committee."

Remuneration Committee

A Remuneration Committee was established on December 7, 2011, to monitor and inspect remuneration practices on behalf of the Board of Directors in accordance with the "Regulation on the Banks' Corporate Governance Principles" of the Banking Regulation and Supervision Agency.

The committee evaluates the remuneration policy and practices with respect to risk management and reports its recommendations annually to the Board of Directors.

The qualifications of the members of the Committee are listed below.

Member: M. Cem Bodur
Position: Member
Member Definition: Independent member
Education Level: Undergraduate

Member: Ayfer Yılmaz
Position: Member
Member Definition: Independent member
Education Level: Undergraduate

Executive Committees

Assets and Liabilities Committee

The Assets and Liabilities Committee meets every week under the chairmanship of the CEO and with the participation of the Bank's Chief Economist and the managers of groups which conduct activities that can impact the balance sheet. The meeting agenda consists of the balance sheet of the Bank, activities of the business lines, general economic data and evaluation of current political and economic developments along with the determination of the weekly assets and liabilities strategy.

Credit Committee

The Credit Committee evaluates the recommendations of commercial, corporate and SME loan applications submitted to DenizBank. Meeting every week, the Committee evaluates the recommendations and either approves or rejects the loan applications that are within its limits of authority. The Committee submits the requests that exceed its authorization limits to the Board of Directors for approval.

Risk Committee

The Risk Committee meets once every three months to evaluate the effects of the market and economic developments that could create a risk for the loan portfolio of the Bank's business lines and subsidiaries; to pursue and assess non-performing loans; to monitor the developments in the collection efforts for non-performing loans and to evaluate reserve budgets.

Disciplinary Committee

The Disciplinary Committee identifies problems, the perpetrators and their degrees of fault and the potential damage to operations and activities. Severely incompetent or malicious parties may face disciplinary action according to the internal legislation and disciplinary

regulations of the Bank. The meetings are chaired by the Executive Vice President responsible for Human Resources. The Disciplinary Committee meets as needed and creates its own agenda.

Purchasing Committee

The Purchasing Committee was established to centralize the wholesale and retail purchasing transactions of the Bank according to appropriate price and quality criteria and within the framework of DenizBank's procurement policy. The Committee meets at least twice a month.

Communications Committee

The Communications Committee was established to convey the Bank's corporate identity via appropriate messages, projects and mass media releases while reinforcing and supporting the image of the Bank. The Communications Committee meets at least once a month. The resulting ideas and recommendations are presented to the Executive Committee for consideration.

Promotions Committee

The Promotions Committee is responsible for evaluating and making final decisions concerning vertical (increase in both title and duties and responsibilities) and horizontal (change in title where the duties and responsibilities remain the same) movements of all DenizBank Financial Services Group employees. The Promotions Committee meets once a year, in June, under the chairmanship of the CEO and with the participation of all of the Executive Committee members.

Executive Committee

DenizBank Financial Services Group (DFSG) Executive Committee is a consultation body that operates within the framework of the responsibilities delegated to the CEO by the Board of Directors. The Executive Committee, in principle, meets at least once a month under the chairmanship of the CEO and consists of the Executive members of the Board, the Executive Vice Presidents of the Bank, General Managers and/or Board members of some of the subsidiaries. The Executive Committee aims to make timely and reliable decisions in accordance with the "collective wisdom" principle.

Management Board

The DFSG Management Board is a committee operating under the authority of the CEO with powers delegated by the Board of Directors. The Management Board meets once a week under the chairmanship of the CEO. The Management Board consists of executive members of the Board of Directors, Executive Vice Presidents of executive business lines of the Bank and General Managers of subsidiaries.

The Management Board was established to prepare and provide information to the Board of Directors, evaluate, conclude and exchange ideas regarding certain strategic decisions among the members of the Executive Committee. Upon accepting recommendations regarding subjects within the authorization limits of the CEO, the CEO along with the Executive Vice President of the relevant unit or the General Manager of the relevant subsidiary proceeds to enact the change. Recommendations related to subjects within the authorization limits of the Board of Directors are presented to the Board of Directors by the CEO and the decisions made are executed under the responsibility of the Board of Directors.

Support Services Committee

The Support Services Committee meets in order to supervise the compliance of support services procured externally by DenizBank with the relevant legislation and conduct the global risk evaluation of all services. The Committee meets under the chairmanship of DenizBank Secretary General; and consists of managers of the relevant line of business, primarily those in charge of Internal Control, Compliance, Legal Affairs, and Operation and Information Systems.

Suggestions Committee

The Suggestions Committee is responsible for the evaluation and compensation of the suggestions submitted by DFSG employees through My World / "I Have an Idea" on DenizPortal. The Suggestions Committee was formed with the coordination of the Organization Department. Committee members consist of the representatives of business lines, Human Resources Department, Intertech, Service Quality Department, and the Organization Department.

27. Remuneration of the Board of Directors

DenizBank publishes its Remuneration Policy, approved by the Board of Directors and established to create the fundamentals of "payroll and social benefits," on its company website. Principles regarding the performance based evaluation and remuneration of members of the Board of Directors, executive managers, second-level managers of DenizBank, and second-level managers of subsidiaries are defined in the Remuneration Policy. Members of the Board of Directors (Executive Members of the Board of Directors and Vice Presidents) are compensated based on performance.

The Chairman, Vice Chairman, and the members of the Board of Directors are compensated with Attendance Fee as determined by the General Assembly.

In line with the precedents in the sector, members of the Board of Directors were paid TL 6,000 per month in 2011 as Attendance Fee throughout their tenure. Statutory Auditors were paid TL 2,000 gross per month.

Successful
Financial Results
Without any Concessions
on
Risk Management

The activities, duties, and responsibilities of DenizBank's internal audit, internal control, compliance and risk management functions have been separated. These activities are conducted by the Internal Audit Department, Internal Control Center, and Compliance Department and Risk Management Group under the supervision of a member of the Board of Directors who is also a member of the Audit Committee, based on internationally accepted audit standards, domestic regulations, as well as the needs of the Bank and the Group.

Internal Audit Department

The level of compliance of the Bank's operations with the Articles of Association, internal regulations and banking principles is audited by the Internal Audit Department.

Promotions for auditors take place based on exam results and job performance. Recruited following a very stringent selection process and an intense training program, internal auditors conduct their activities in an impartial and independent spirit with professional rigor and in line with their profession's code of ethics. As of year-end 2011, the Audit Committee was operating with a workforce of 106 employees.

The Internal Audit Department performs its functions under five organizational categories. It is responsible for:

1- Audit of Head Office Processes and Subsidiaries

Auditing the processes of Head Office units and the processes as well as activities conducted by domestic and overseas subsidiaries on the basis of legislation and regulations in accordance with an annual risk assessment; monitoring the findings of the audits in accordance with the action plan and analysis of the processes are carried out. In this sense, 29 audits were performed in 2011.

2- Branch Audits

Risk assessments of the branches are conducted, annual branch audit plans are prepared, activities of the branches are audited, findings are shared with the related branches and Head Office departments and results are monitored. In 2011, 320 branches were audited in accordance with the audit plan.

3- Investigations and Inquiries

Bank losses are investigated to discover the reasons and employees responsible, inquiries are held in order to mitigate losses and correct the errors, initiatives are taken for early detection and prevention of misconduct and Bank employees are briefed and trained in the relevant area. In 2011, 323 hours of training was given to 671 Bank employees for these reasons.

4- Audit of Information System Processes

Audits are conducted to ensure that DenizBank Financial Services Group information system processes are structured to support the Bank's policies. In 2011, 10 audits were conducted for this reason.

5- Audit Management Office

Activities consist of making necessary plans and arrangements regarding all of DFSG's internal audit activities; contributing to the identification of the best tools and methods and generating necessary reports; preparing operational procedures and improving existing procedures under the supervision of the General Auditor.

Internal Control Center and Compliance Department

The Internal Control Center and Compliance Department reports directly to the Board of Directors. Internal control and compliance units carry out second-level controls of certain processes of the Bank. The Internal control and compliance activities consist of controlling and reporting activities to assess and evaluate the compliance, adequacy, and efficiency of the Bank's operations and those of the controls related to these operations in order to manage the risks arising from the Bank's operations. These activities are carried out independently at certain intervals by the internal control and compliance employees at the Head Office and/or at branches. The units are also responsible for ensuring coordination with domestic and foreign subsidiaries regarding internal control and compliance and routine report flow.

1. Internal Control Activities

The Internal Control Center conducted its second-level controls in 2011 with the following framework:

- Branches Financial Control Department
- Branches Internal Control Department
- Treasury Internal Control Department
- Basic Controls and Support Department
- Control Assessment and IT Control Department
- Loans and Credit Cards Control Department

2. Compliance Activities

The Compliance Group continued its activities through the Corporate Compliance and Anti-Money Laundering Departments in 2011.

The Corporate Compliance Department is responsible for setting basic compliance rules, overseeing compliance with the Group standards and local regulations. The Anti-Money Laundering Department's duties include detecting and monitoring suspicious transactions and reporting these transactions to public authorities.

Risk Management Group

The Risk Management Group carries out comprehensive risk management activities which play a critical role in the identification of DenizBank's operational strategies. The Group is responsible for creating, auditing and reporting necessary policies and procedures to identify, measure, analyze and monitor risks, which are primarily real or potential risks including the risk/return ratio of cash flows. These policies and procedures follow principles approved by the Board of Directors and determined by the Bank's executive management and Risk Management Group.

The Risk Management Group works in collaboration with the Audit Committee, Assets and Liabilities Committee, Credit Committee, Risk Committee, and the Internal Control, Compliance, and Internal Audit Department at both policy and application level depending on the type of process.

- The Group periodically reports all risk analyses which provide guidance to the Audit and Assets and Liabilities Committees to determine and monitor risk limits and develop risk management strategies.
- Monitoring, analysis, assessment and modeling of credit risk are conducted, based on credit type, by the credit allocation departments of the related groups, the Credit Committee, the Risk Committee and the Risk Management Group. Results pertaining to credit risk are reported to the Board of Directors.
- While each business unit is responsible for managing its own operational risk, setting policies as well as monitoring and reporting activities are conducted in coordination with the Internal Control, Compliance, and Internal Audit Department. Assessments are performed by the Risk Committee and the Audit Committee.

Risk management policies consist of risk identification, measurement and management processes. In this respect, DenizBank conducts its banking activities by strictly adhering to risk management policies that aim to analyze risks and manage them by way of acceptable limits. DenizBank has adopted it as an integral principle in all of its operations to develop systems that comply with Basel II, and other guiding international risk management principles.

Risk Management policies have been established based on the following types:

- Market Risk
- Basel II/Credit Risk
- Liquidity Risk
- Operational Risk
- Structural Interest Rate Risk

Market Risk

DenizBank carries out its activities in the money and capital markets following risk policies and risk-based limits. DenizBank measures market risk using the internationally-accepted Value at Risk (VaR) method, which is known for its dynamic structure that adapts easily to changing market conditions. VaR quantifies the loss of value that the portfolio of the Bank and its financial subsidiaries might suffer at a given time and confidence interval as a result of the price fluctuations in risk factors. VaR analyses are supported with scenario analyses and stress tests. This method allows adaptation to changing market conditions when the risk level is determined. The reliability of the model used in calculating VaR is periodically tested through back testing.

DenizBank has formulated risk policies and established risk-based limits with regards to its trading activities in money and capital markets.

Basel II/Credit Risk

DenizBank's efforts for compliance with Basel II/CRD criteria are ongoing. As part of Basel II preparation efforts, development of internal credit risk assessment models has been scheduled based on a well-defined plan and the modeling of necessary parameters has been completed for the most part.

Basel II consolidated credit risk is being calculated using the standard method and has been monitored regularly since June 2008. DenizBank's Basel II dataset has been used for the consolidated reports of Dexia since September 2008.

Liquidity Risk

DenizBank's Risk Management Group monitors the Bank's liquidity position that it carries as a result of its activities within defined risk limits.

When setting limits, negative developments that may arise as a result of a change in market conditions or customer behavior are taken into account. The adequacy of existing liquidity and reserve opportunities are analyzed in the event of these worst-case scenarios.

Operational Risk

All Bank activities carrying operational risk for DenizBank and its subsidiaries are recorded in a way that captures causes and impacts of events, collections, and measures taken to prevent the repetition of such events. These events are periodically reported to the executive management and updated as needed. Potential risk is assessed by way of Risk and Control Self-Assessment and risk mitigation measures are taken before events occur. The Business Continuity Program is coordinated to cover the design, implementation and testing stages of these policies.

Structural Interest Rate Risk

The Risk Management Group monitors the structural interest rate risk that the Bank is exposed to due to its balance sheet structure by using advanced models and controls assumed risks through defined limits. Interest sensitivity analyses are conducted to measure the impact of the Bank's maturity mismatch on net present value and income.

DenizBank's Board of Directors established an Audit Committee from among its own members consisting of two non-executive members and one independent member. The Committee meets periodically and sets the Bank's auditing policies.

The Audit Committee is responsible for auditing the Bank's accounting system and financial information and the public disclosure of financial information. Moreover, it ensures that all necessary measures are taken to oversee the operation and effectiveness of internal audit, internal control, compliance, and risk management systems.

The Audit Committee receives quarterly reports from control functions (internal audit, internal control, compliance and risk management). It evaluates the adequacy of the methods regarding identification, control and the monitoring of risks to which the Bank is exposed. Finally, the Committee reports the conclusions of its assessments along with its opinions and proposals on significant matters to the Board of Directors.

Within the scope of the four meetings held in 2011 as well as the activities conducted as part of its responsibilities, the Audit Committee completed the following:

Audited the Bank's 2010 year-end and 2011 first, second and third quarter financial statements and notes for compliance with the Bank's accounting principles and international accounting standards as well as confirming the accuracy of the information used. The results, including the opinions of the related managers and independent auditor, were reported to the Board of Directors along with the Audit Committee's own assessments. The Com-

mittee reviewed the Internal Audit Plan for 2011 and submitted it to the Board of Directors for approval. The Committee also assessed and approved the quarterly reports of the Internal Audit, Internal Control, Compliance and Risk Management units.

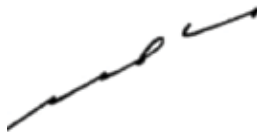

Inspected the performance and objectivity of the independent external auditor and monitored his/her work at all stages.

Undertook efforts to align DenizBank's and Dexia's internal regulations which determine the operating principles of each entity's control functions.

It was observed that risk management policies and principles were adhered to meticulously at all levels throughout the Bank. Steps are constantly taken to attain excellence in the internal audit, internal control, compliance and risk management activities of DenizBank.

Ayfer Yilmaz
Vice Chairman of Board of Directors
Audit Committee Member

As the statutory auditors of DenizBank A.Ş., we have reviewed the Company's books and accounts for 2011.

We have concluded that all books that are required to be kept by the Company pursuant to the Tax Procedural Law, the Turkish Commercial Code and the Banking Law were kept in accordance with the laws, Articles of Association of the Bank and generally accepted accounting principles and that all income and expenditures are founded on legal documents.

We have also determined that the balance sheet and income statement prepared as of December 31, 2011 reflect the records kept for the period between January 1, 2011 and December 31, 2011.

We hereby present it for your information.

DENİZBANK ANONİM ŞİRKETİ
AND ITS FINANCIAL SUBSIDIARIES

INDEPENDENT AUDITOR'S REPORT
FOR THE YEAR 1 JANUARY-31 DECEMBER 2011

We have audited the accompanying consolidated balance sheet of Denizbank A.Ş. ("the Bank") and its financial subsidiaries ("the Group") as at 31 December 2011, and the related consolidated statements of income, cash flows and changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

The Board of Directors of the Bank is responsible for the preparation and fair presentation of the financial statements in accordance with the regulation on "Procedures And Principles Regarding Banks' Accounting Practices And Maintaining Documents" published in the Official Gazette dated 1 November 2006 and numbered 26333 and Turkish Accounting Standards, Turkish Financial Reporting Standards and other regulations, circulars, communiqués and pronouncements in respect of accounting and financial reporting made by Banking Regulation and Supervision Agency ("BRSA"). This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the regulation on "Licensing and Operations of Audit Firms in Banking" published in the Official Gazette dated 1 November 2006 and numbered 26333, and the International Standards on Auditing. We planned and performed our audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the consideration of the effectiveness of internal control and appropriateness of accounting policies applied relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at 31 December 2011 and the results of its operations and its cash flows for the year then ended in accordance with the prevailing accounting principles and standards set out as per the Articles 37 and 38 of the Banking Act numbered 5411, and other regulations, communiqués and circulars in respect of accounting and financial reporting, and pronouncements made by BRSA.

Additional paragraph for English translation

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

SECTION ONE

GENERAL INFORMATION

I. Parent Bank's date of establishment, beginning statute, its history including changes in its statute

Denizbank A.Ş. ("the Bank") was established as a public bank to provide financing services to the marine sector in 1938. In 1992, as a result of the resolution of the Government to merge some public banks, the Bank was merged to Emlakbank. Following the resolution of the High Council of Privatization numbered 97/5 and dated 20 March 1997 to privatize 100% of shares of Denizbank A.Ş., share sale agreement between Zorlu Holding A.Ş. and the Privatization Administration was signed on 29 May 1997 and the Bank started its activities on 25 August 1997 upon obtaining a permission to operate. Bank's shares have been quoted on Istanbul Stock Exchange ("ISE") since 1 October 2004. 0.16% of the Bank's shares are publicly held as of 31 December 2011.

Dexia Participation Belgique SA, owned 100% directly and indirectly by Dexia SA/NV, acquired 75% of the outstanding shares of the Bank from Zorlu Holding A.Ş. on 17 October 2006. Subsequent to the transfer of shares, a tender offer was made for the publicly traded shares on the ISE, and Dexia Participation Belgique's ownership rate increased to 99.84%.

II. Capital structure, shareholders controlling the management and supervision of the Parent Bank directly or indirectly, and if exists, changes on these issues and the Group that the Parent Bank belongs to

In accordance with the resolution of the General Meeting of the Shareholders dated 24 March 2011; Pierre P.F. Mariani was appointed as the chairman of the Board of Directors instead of Dirk G.M. Bruneel, Ayfer Yılmaz was appointed as the deputy chairman of the Board of Directors instead of Hacı Ahmet Kılıçoğlu. In the same general meeting of the Shareholders, Jozef M.A. Clijsters was appointed as the member of the Board of Directors, Ayfer Yılmaz and Philippe J.E. Rucheton were appointed to the audit committee.

Stefaane L.G. Decraene who was a member of the Board of Directors and the Audit Committee has resigned as of 5 September 2011.

Jozef M.A. Clijsters who was a member of the Board of Directors has resigned as of 18 October 2011.

See Note 3.1.2

SECTION THREE

ACCOUNTING POLICIES

I. Basis of presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents

The Turkish Banking Law No. 5411 is published in the Official Gazette No. 25983 dated 1 November 2005. The Parent Bank prepared the accompanying consolidated financial statements and the related disclosures and footnotes in accordance with accounting and valuation standards as described in the "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333, "Communiqué on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, Turkish Accounting Standards ("TAS") and Turkish Financial Reporting Standards ("TFRS") and other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency (BRSA).

2. Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying consolidated financial statements are to be distributed, and International Financial Reporting Standards ("IFRS"), may have significant influence on the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

3. Disclosures related to the changes in accounting policies and financial statement presentation

3.1 Disclosure related to reclassifications made in line with the change in Turkish Accounting Standard No. 39

Due to the change in Turkish Accounting Standard no. 39 and Turkish Financial Reporting Standard No. 7, as published in the Official Gazette No. 27040, dated 31 October 2008, a portion of debt securities amounting to TL 292,553 which had been originally classified in "Trading securities", have been reclassified to "Investment securities available-for-sale", effective from 1 September 2008 and in October for the Bank, 1 July 2008 for CJSC Dexia Bank, and 3 October 2008 for Deniz Yatırım. As a result of exceptional volatility in the financial markets, such reclassified financial assets have been chosen among securities which have incurred significant losses and those that are not planned to be sold in the near term. The table below summarizes the effects of the aforementioned reclassification on the financial statements:

Financial Assets Subject to Reclassification	Amounts at the Date of Reclassification	Amounts at the Balance Sheet Date	Amounts If Reclassification Was Not Made
Cost	292,553	295,239	292,553
Disposal	--	(255,204)	(248,790)
Cost after Disposal		40,035	43,763
Fair Value	295,239	44,241	44,241
Current Year Profit / (Loss)	--	222	(3,411)
Prior Periods' Profits / (Losses)	(1,082)	1,196	3,889
Effect on Shareholders' Equity	--	2,788	--

3.2 Disclosures related to other reclassifications

Sale process of Deniz Emeklilik ve Hayat A.Ş. and Deniz Türev Menkul Değerler A.Ş. were completed as of 31 December 2011; therefore their income and expenses are presented as profit/loss from discontinued operations in the consolidated statement of income. Accordingly, certain changes were also made in the presentation of the prior period's consolidated statement of income.

Certain reclassifications have been made in the prior period's consolidated statement of cash flows and off- balance sheet items to comply with the current period presentation.

4. Accounting policies and valuation principles used in the preparation of the financial statements

Accounting policies and valuation principles used in the preparation of the financial statements are determined and applied in accordance with the requirements of TAS, TFRS, "Regulation on Principles Related to Banks' Accounting Applications and Preserving the Documents", dated 1 November 2006 which is published in the Official Gazette No.26333 and "Communiqué on Financial Statements and the Accompanying Explanations and Footnotes to be Announced to the Public", dated 10 February 2007 which is published in the Official Gazette No. 26430, and other regulations, Communiqués and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency. Those policies and principles are explained by footnotes II through XXIII below.

II. Explanation on the strategy for the use of financial instruments and transactions denominated in foreign currencies

1. Strategy for the use of financial instruments

Denizbank Financial Services Group's ("DFS Group") external sources of funds are comprised of deposits with various maturity periods, and short-term borrowings. These funds are fixed rate in general and are utilized in high yield financial assets. The majority of the funds are allocated to high yield, floating rate instruments, such as Turkish Lira and foreign currency government securities and Eurobonds, and to loans provided to customers on a selective basis in order to increase revenue and support liquidity. The liquidity structure, insures meeting all liabilities falling due, is formed by keeping sufficient levels of cash and cash equivalents by diversifying the sources of funds. The Bank assesses the maturity structure of the sources, and the maturity structure and yield of placements at market conditions and adopts a high yield policy in long-term placements.

DFS Group assumes risks within the pre-determined risk limits short-term currency, interest and price movements in money and capital markets and market conditions.

These positions are closely monitored by the Risk Management System of the Parent Bank and the necessary precautions are taken if the limits are exceeded or should there be a change in the market environment.

In order to avoid interest rate risk, assets and liabilities with fixed and floating interests are kept in balance, taking the maturity structure into consideration. The Parent Bank hedges a portion of its floating rate liabilities by interest rate swaps for cash flow risk.

The asset-liability balance is monitored on a daily basis in accordance with their maturity structure and foreign currency type. The risks associated with short-term positions are hedged through derivatives such as forwards, swaps and options.

No risks are taken on foreign currencies other than US Dollar and Euro. If the position taken because of customer based activities exceeds 0.004% of the balance sheet size, counter transactions are made to cover the position.

Net foreign currency position of DFS Group in foreign enterprises is considered along with the position of the Parent Bank and the specific position is evaluated within the risk limits.

2. Transactions denominated in foreign currencies

2.1 Foreign currency exchange rates used in converting transactions denominated in foreign currencies and their presentation in the financial statements

DFS Group accounts for the transactions denominated in foreign currencies in accordance with TAS 21 "The Effects of Changes in Foreign Exchange Rates". Foreign exchange gains and losses arising from transactions that are completed as of the balance sheet date are translated to TL by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities are translated into TL by using foreign currency exchange rates of the Parent Bank and the resulting exchange differences are recorded as foreign exchange gains and losses. The Parent Bank's foreign currency exchange rates are as follows.

	31 December 2011	31 December 2010
US Dollar	TL 1.8889	TL 1.5376
Euro	TL 2.4438	TL 2.0551

2.2 Foreign exchange gains and losses included in the income statement

Net foreign exchange loss included in the income statement amounts to TL 17,867 (1 January – 31 December 2010: net foreign exchange gain of TL 79,511).

2.3 Total amount of valuation fund arising from foreign currency exchange rate differences

The assets and liabilities of foreign operations are translated to TL at foreign exchange rates of the Parent Bank ruling at the balance sheet date. The revenues and expenses of foreign operations are translated to TL at twelve monthly average foreign exchange rates of the Parent Bank. The foreign exchange differences derived from translation of income statements of consolidated subsidiaries, and arising from the difference between TL equivalent of their equities and the Parent Bank's share in their net assets are recorded in "other profit reserves". As of 31 December 2011, total foreign exchange differences in equity amount to TL 98,917 (31 December 2010 TL 30,573).

The foreign exchange difference of TL 10,078 (31 December 2010: TL 4,735) arising from the translation of the financial statements of Bahrain branch of the Parent Bank to TL is recorded in "other profit reserves".

DFS Group hedges its foreign currency exchange rate risk from retranslation of its foreign operations by net investment hedge accounting, through recognizing the effective portion of foreign exchange rate changes of a portion of its foreign currency denominated liabilities under shareholders' equity.

See Note 3.1.2*

III. Information regarding the consolidated subsidiaries

The accompanying consolidated financial statements are prepared in accordance with TAS 27 "Consolidated and Separate Financial Statements".

The Parent Bank owns, directly or indirectly, the shares of Deniz Yatırım Menkul Kıymetler A.Ş. (Deniz Yatırım), Ekspres Yatırım Menkul Değerler A.Ş. (Ekspres Yatırım), Eurodeniz International Banking Unit Ltd. (Eurodeniz), Deniz Portföy Yönetimi A.Ş. (Deniz Portföy), Denizbank AG, CJSC Dexia Bank, Deniz Finansal Kiralama A.Ş. (Deniz Leasing), Deniz Faktoring A.Ş. (Deniz Faktoring), and Deniz Yatırım Ortaklığı A.Ş. (Deniz Yatırım Ortaklığı), and these subsidiaries are consolidated as explained in detail in footnote 5.1.8.

The subsidiaries of the Parent Bank; Deniz Emeklilik ve Hayat A.Ş. (Deniz Emeklilik) and Deniz Türev Menkul Değerler A.Ş. (Deniz Türev); which were consolidated in the prior period financial statements; have been disposed of through the sales transactions occurred in the current period.

InterTech Bilgi İşlem ve Pazarlama Ticaret A.Ş. and Denizbank Kültür Sanat Ticaret A.Ş. which are also the subsidiaries of the Parent Bank, Bantaş Nakit ve Kıymetli Mal Taşıma ve Güvenlik Hizmetleri A.Ş. a jointly controlled entity of the Bank, and Pupa Gayrimenkul Kiralama ve Yönetim Hizmetleri A.Ş. (Pupa) a subsidiary of Deniz Leasing are not consolidated since they are non-financial subsidiaries.

The Parent Bank and its consolidated subsidiaries are referred to as "DFS Group" in the disclosures and footnotes related to the consolidated financial statements.

1. Consolidation method

"Full Consolidation" method has been applied in consolidating the financial statements of the Parent Bank with the financial statements of its subsidiaries. According to this method, the financial statements of the Parent Bank and its subsidiaries are combined on a line-by-line basis by adding together like items of assets, liabilities, income, expenses and off-balance sheet items, in preparing consolidated financial statements. Minority interests are presented separately in the consolidated balance sheet and consolidated income statement.

Financial results of the subsidiaries those were disposed of in the current period are included in consolidated statement of income until the date of disposal.

The major principles of consolidation of subsidiaries

1.1 The carrying amount of the Parent Bank's investment in each subsidiary and the Parent Bank's portion of equity of each subsidiary are eliminated.

1.2 All intercompany transactions and intercompany balances between the consolidated subsidiaries and the Parent Bank are eliminated.

The financial statements which have been used in the consolidation are prepared as of 31 December 2011 and appropriate adjustments are made to financial statements to use uniform accounting policies for transactions and events alike in similar circumstances, in accordance with the principal of materiality.

2. Associates

There are no financial associates included in the consolidation.

3. Entities under common control (Joint Vent.)

There are no financial entities under common control which are consolidated.

IV. Explanations on forward transactions, options and derivative instruments

DFS Group's derivative transactions mainly consist of foreign currency and interest rate swaps, foreign currency options and forward foreign currency purchase/sale contracts. DFS Group does not have any embedded derivatives separated from the host contract.

In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", forward foreign currency purchase/sale contracts, swaps, options and futures that are classified as "hedging-purpose" and "trading purpose" transactions. Derivatives are initially recognized at cost including the transaction costs. Also, the liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contractual notional amounts.

The derivative transactions are valued at fair value using market prices or pricing models subsequent to initial recognition and are presented in the "Positive Value of Trading / Hedging Purpose Derivatives" and "Negative Value of Trading / Hedging Purpose Derivatives" items of the balance sheet depending on the resulting positive or negative amounts of the computed value. Gains and losses arising from a change in the fair value are recognized in the income statement for trading purpose derivatives. The effective portion of the fair value changes are recognized in the shareholders' equity, while the ineffective portion is accounted for in the income statement for hedging purpose derivatives.

 (Currency: Thousands of TL - Turkish Lira)

*Convenience Translation of
 Consolidated Financial Report
 Originally Issued in Turkish
 See Note 3.1.2*

V. Explanations on interest income and expenses

Interest income and expenses are recognized as they are accrued taking into account the internal rate of return method. Interest accrual does not start until non-performing loans become performing and are classified as performing loans or until collection in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", published in the Official Gazette No. 26333 dated 1 November 2006, which was prepared on the basis of the provisions of Articles 53 and 93 of the Banking Law no. 5411.

VI. Explanations on fees and commissions

Fees and commissions received and paid, and other fees and commissions paid to financial institutions are either recognized on an accrual basis over the period the service is provided or received or recognized as income or expense when collected or paid depending on their nature.

VII. Explanations on financial assets

Financial assets include cash; acquisition right of cash or acquisition right of other financial asset or bilateral exchange right of financial assets or equity instrument transactions with the counterpart. Financial assets are classified in four categories; as financial assets at fair value through profit or loss, financial assets available-for-sale, investment held-to-maturity, and loans and receivables.

1. Financial assets at fair value through profit or loss

1.1 Financial assets held for trading

Trading securities are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, trading securities are measured at fair value and gains and losses arising from a change in the fair value are recognized in the income statement. Differences between the fair value and cost of trading securities are also recorded in "financial assets held for trading" line on the balance sheet.

DFS Group recognized the gains and losses arising from the valuation of share certificates and derivative instruments; which are classified within financial assets held for trading; within "net trading income/loss" line on the statement of income.

Interest earned whilst holding trading securities is reported as interest income.

As of the balance sheet date, the fair values of the Turkish Lira government securities are calculated using the Istanbul Stock Exchange (ISE) last day's weighted average prices for those securities traded on ISE; and for those securities not traded on ISE, the prices announced by the Central Bank of the Republic of Turkey are used. Eurobonds and foreign currency government bonds are initially recognized at cost including transaction costs and subsequent to initial recognition, Eurobonds and foreign currency government bonds are measured at market prices. However, those securities not traded in an active market and whose fair values cannot be reliably measured are valued using amortized cost method based on internal rate of return. For equity securities, closing prices that are listed at the balance sheet date are used. Fair values of derivative instruments are determined by using market prices or pricing models.

1.2 Financial assets at fair value through profit or loss

DFS Group does not have any securities designated as "financial assets at fair value through profit or loss".

2. Investment securities available-for-sale

Available-for-sale assets are financial assets that are not loans and receivables, held to maturity investments and financial assets at fair value through profit or loss.

Premiums and discounts on investments securities available-for-sale are taken into account in computing the internal rate of return and are included in interest income in the income statement. Accrued interest income on investment securities available-for-sale is recognized in the income statement whereas gains and losses arising from the change in the fair values of such securities are reflected in equity under "Securities revaluation reserve" (Unrealized Gains/Losses on Securities). When investment securities available-for-sale are sold, collected or otherwise disposed of, the cumulative fair value adjustments under equity is transferred to the income statement.

DenizBank Anonim Şirketi

Notes to Consolidated Financial Statements

As Of 31 December 2011

(Currency: Thousands of TL - Turkish Lira)

*Convenience Translation of
Consolidated Financial Report
Originally Issued in Turkish
See Note 3.1.2*

3. Investment securities held-to-maturity

Held-to-maturity securities are financial assets with fixed maturities and pre-determined payment schedules that DFS Group has the intent and ability to hold until maturity, excluding loans and receivables. These securities are identified by the Parent Bank management at their initial recognition and are classified as held-to-maturity securities in financial statements.

Investment securities held-to-maturity, loans and receivables are initially recognized at cost, and subsequently carried at "amortized cost" using the "internal rate of return method"; and provision is made for impairment if any.

Interest earned on held-to-maturity securities are recognized as interest income and are presented in the line of "interest received from securities portfolio – investment securities held-to-maturity" in the consolidated statement of income.

There are no financial assets that are banned from being classified as investment securities held-to maturity for two years due to the violation of the tainting rule.

Purchases/sales of held-to-maturity securities are recognized and accounted for on a settlement date basis.

4. Loans and specific provisions

Loans and receivables represent financial assets which have been recognized through supply of money, commodity or service to the debtor.

Cash loans are accounted for in accordance with the principles in TAS 39 "Financial Instruments: Recognition and Measurement".

Foreign currency loans are re-measured to reflect the changes in the currency exchange rates. Currency exchange differences arising from such re-measurements are reflected in "Foreign Exchange Gains/Losses" account in the consolidated income statement. Foreign currency-indexed loans are initially recognized in their Turkish Lira equivalents.

Specific allowances are made against the carrying amount of loans under follow-up in accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside" published in the Official Gazette numbered 26333 dated 1 November 2006, and which was amended with the communiqué published in the Official Gazette numbered 27513 dated 6 March 2010.

When collections are made on loans that have been provided for, they are credited to the income statement accounts "Provision for Loan Losses or Other Receivables" if the provision was made in the current year, otherwise such collections are credited to "Other Operating Income" account with respect to allowances made in prior years. The interest income recovered is booked in "Other Interest Income" account.

VIII. Explanations on impairment of financial assets

If the amount computed by discounting expected future cash flows of a financial asset using the effective interest rate method or (if any) its fair value is lower than its carrying value that financial asset is considered to be impaired; in that case provision is provided for the impairment of the financial asset and it is recognized as expense.

IX. Explanations on offsetting financial instruments

When the fair values of the listed equity instruments that are classified as "trading purpose" fall below their costs, impairment provision is booked for them which is offset against their book values in the consolidated financial statements.

In accordance with the "Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside", the Bank provides specific provisions for its loans under follow-up. Those provisions are deducted from the balance of the loans under follow-up in the assets of the consolidated balance sheet.

Other than those expressed above, financial assets and liabilities are offset when there is legally enforceable right to set off, the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously. Otherwise, no offsetting is made.

X. Explanations on sale and repurchase agreements and transactions related to the lending of securities

Government bonds and treasury bills sold to customers under repurchase agreements are presented on the assets side of the accompanying consolidated balance sheet within "Financial Assets Held for Trading", "Investment Securities Available for Sale" and "Investment Securities Held to Maturity". The funds received on such transactions and the accrued interest expenses are presented within "Funds Provided under Repurchase Agreements" on the liability side of the accompanying consolidated balance sheet.

See Note 3.1.2*

XI. Explanations on assets held for sale and discontinued operations

A non-current asset shall be classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. The liabilities of a disposal group classified as held for sale shall be presented separately from other liabilities in the statement of financial position. Those assets and liabilities shall not be offset and presented as a single balance.

A discontinued operation is a division of a bank that is either disposed or held for sale and represents a separate major line of business or geographical area of operations; or is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations; or is a subsidiary acquired exclusively with a view to resale.

As 31 December 2011, DFS Group does not have non-current assets held for sale and a discontinued operation (31 December 2010: None).

XII. Explanations on goodwill and other intangible assets

There is no goodwill in the accompanying consolidated financial statements as of the balance sheet dates.

All intangible assets are initially recognized at cost in accordance with TAS 38 "Intangible Assets".

The Group's intangible assets consist of software and license rights.

Intangible assets purchased before 1 January 2003 and after 31 December 2006 are amortized on a straight-line basis; and those purchased between the aforementioned dates are amortized by using the double-declining method.

Useful life of an asset is estimated by assessment of the expected life span of the asset, technical, technological wear outs, of the asset. The amortization rates used approximate the useful lives of the assets.

Costs associated with the computer software that are in use are expensed at the period of occurrence.

XIII. Explanations on tangible assets

All tangible assets are initially recognized at their acquisition cost in accordance with TAS 16 "Tangible Assets".

Tangible assets are carried at their historical cost, less any currency difference and financing expenses capitalized.

Tangible assets purchased before 2003 and in 2007 are depreciated on a straight-line basis and those purchased in 2003, 2004, 2005 and 2006 are depreciated using the double-declining method. The depreciation rates used are 2% for properties and 2% - 50% for tangible assets owned or held under financial leasing.

As of 31 December 2011 the Parent Bank has an impairment provision of TL 4,402, which had been recorded in the prior years for its buildings.

Expenditures for maintenance and repairs that are routinely made on tangible assets are charged as expense. Expenditures that extend the capacity of the tangible assets or those that extend the useful life and service capacity of the asset, or enhance the quality of the service, or decrease the cost of services are capitalized.

There are no restrictions such as pledges and mortgages on tangible assets or no purchase commitments.

XIV. Explanations on leasing activities

The maximum period of the lease contracts is mostly 4 years. Fixed assets acquired through financial leasing are recognized in tangible assets and depreciated in line with fixed assets group they relate to. The obligations under finance leases arising from the lease contracts are presented under "Finance Lease Payables" account in the balance sheet. Interest expense and currency exchange rate differences related to leasing activities are recognized in the income statement.

In the event that the lease contracts are terminated before the lease period expires, penalty required to be paid to the lessor is expensed in the period in which the lease is terminated. There are no lease contracts that were terminated before the end of the lease period.

DFS Group has finance lease transactions as "lessor" via its subsidiary, Deniz Leasing. The lease receivables related to leased assets are recorded as finance lease receivables. Periodical financial leasing revenues, total financial leasing investments, unearned finance lease revenues and lease revenues are accounted for during the whole leasing period using the net investment method.

Specific provisions for non-performing financial lease receivables of DFS Group are provided for in accordance with the "Communiqué On Procedures and Principles For The Provisions To Be Set Aside By Financial Leasing, Factoring and Financing Companies For Their Receivables" published in the Official Gazette numbered 26588 dated 20 July 2007; specific provisions are also provided for the financial lease receivables deemed doubtful but not yet due.

Notes to Consolidated Financial Statements

As Of 31 December 2011

(Currency: Thousands of TL - Turkish Lira)

*Convenience Translation of
Consolidated Financial Report
Originally Issued in Turkish
See Note 3.1.2*

XV. Explanations on provisions and contingent liabilities

Provisions other than specific and general provisions for loans and other receivables and free provisions for probable risks, and contingent liabilities are provided for in accordance with TAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by DFS Group management. Whenever the amount of such obligations cannot be measured, they are regarded as "Contingent". If the possibility of an outflow of resources embodying economic benefits becomes probable and the amount of the obligation can be measured reliably, a provision is recognized. If the amount of the obligation cannot be measured reliably or the possibility of an outflow of resources embodying economic benefits is remote, such liabilities are disclosed in the footnotes.

Based on the representations of the Parent Bank's attorneys, there are 895 lawsuits against DFS Group with total risks amounting to TL 78,972, US Dollar 5,179,946 and Euro 3,677,369 as of 31 December 2011. There are also 5,602 follow-up cases amounting to TL 67,490, US Dollar 149,493 and Euro 1,142,046 in total that are filed by DFS Group and are at courts. DFS Group booked a provision amounting to TL 5,577 for the continuing lawsuits (31 December 2010: TL 5,044).

XVI. Explanations on obligations for employee benefits

Provision for employee benefits has been accounted for in accordance with TAS 19 "Employee Benefits".

In accordance with existing legislation in Turkey, DFS Group is required to make certain payments to each employee whose employment is terminated due to retirement or due to reasons other than resignation or misconduct. The retirement pay is calculated on the basis of 30 days' pay per year of employment within the Group or the official retirement pay ceiling and the notice pay is calculated for the relevant notice period as determined based on year of employment.

Employee termination benefits calculated by an independent actuary have been recognized in the consolidated financial statements.

There are no employees with definite employment term contract whose contracts will terminate within more than twelve months from the balance sheet date.

Vacation accruals have been calculated upon employees' unused vacation days and recognized in the consolidated financial statements.

There are no foundations, pensions or similar associations which DFS Group's employees are members of.

XVII. Explanations on taxation

1. Current taxes

In accordance with the Corporate Tax Law No: 5520 published in the Official Gazette numbered 26205 dated 21 June 2006, the corporate tax rate is levied at 20% beginning from 1 January 2006.

Companies file their corporate tax returns between the 1st and 25th days of the following four months period after to which they relate and the payments are made until the end of that month.

The provision for corporate tax for the period is reflected as the "Current Tax Liability" in the liabilities and "Current Tax Provision" in the income statement.

In accordance with the Corporate Tax Law, tax losses can be carried forward for five years. The tax authorities can inspect tax returns and the related accounting records back to a maximum period of five years.

Besides institutions reside in Turkey, dividends paid to the offices or the institutions earning through their permanent representatives in Turkey are not subject to withholding tax. According to the decision no. 2006/10731 of the Council of Ministers published in the Official Gazette no. 26237 dated 23 July 2006, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. In this respect, the withholding tax rate on the dividend payments other than the ones paid to the nonresident institutions generating income in Turkey through their operations or permanent representatives and the institutions residing in Turkey is 15%. While applying the withholding tax rates on dividend payments to the foreign based institutions and the real persons, the withholding tax rates covered in the related Avoidance of Double Taxation Treaty are taken into account. Addition of profit to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The foreign subsidiaries of DFS Group that operate in Austria, the Russian Federation and Cyprus are subject to corporate tax rates of 25%, 20% and 2%, respectively.

*Convenience Translation of
 Consolidated Financial Report
 Originally Issued in Turkish
 See Note 3.1.2*

2. Deferred taxes

In accordance with TAS 12 "Income Taxes", DFS Group accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Individual deferred tax assets and liabilities of the consolidated entities have been offset in their separate financial statements, but have not been offset in the consolidated balance sheet. As a result of offsetting, deferred tax assets of TL 58,031 (31 December 2010: TL 56,269) and deferred tax liabilities of TL 639 (31 December 2010: TL 436) have been recognized in the accompanying financial statements.

Deferred taxes directly related to equity items are recognized and offset in related equity accounts.

XVIII. Additional explanations on borrowings

Instruments representing the borrowings are initially recognized at cost and measured at amortized cost based on the internal rate of return. Foreign currency borrowings have been translated using the foreign currency buying rates of the Parent Bank at the balance sheet date. Interest expense incurred for the period has been recognized in the accompanying financial statements.

General hedging techniques are used for borrowings against liquidity and currency risks. The Parent Bank applies cash flow hedge accounting to maintain protection for a portion of its floating rate liabilities by interest rate swaps.

The Parent Bank, if required, borrows funds from domestic and foreign institutions. The Parent Bank can also borrow funds in the forms of syndication loans and securitization loans from foreign institutions. Financial instruments representing borrowings are measured at amortised cost based on the internal rate of return subsequent to recognition.

On 6 May 2011, The Parent Bank issued discounted bank bills with 176 days maturity and 8.43 % simple interest rate amounting to TL 350,000 and 351 days maturity and 9.15 % simple interest rate amounting to TL 150,000.

On 2 November 2011, The Parent Bank issued bank bills and bonds of 300,000 TL with, respectively, 175 days maturity and 10.81 % simple interest rate amounting to TL 270,458; and 399 days maturity and 11.03 % simple interest rate amounting to TL 29,542.

Bonds amounting to TL 350,000, issued on 6 May 2011 with 176 days maturity, bearing 8.43% simple interest rate were repaid on 2 November 2011.

Funds maintained via financial instruments representing borrowings issued by special purpose entity (SPE) are disclosed under "Funds Borrowed".

XIX. Explanations on shares and share issue

Transactions related to issuance of share certificates are explained in footnote 5.II.12.8. No dividends have been declared subsequent to the balance sheet date.

XX. Explanations on acceptances

Acceptances are realized simultaneously with the customer payments and recorded in off-balance sheet accounts, if any.

As of the balance sheet date, there are no acceptances recorded as liability in return for assets.

XXI. Explanations on government grants

As of the balance sheet date, DFS Group does not have any government grants.

XXII. Explanations on segment reporting

Segment reporting is presented in Section Four, Footnote X.

XXIII. Explanations on other matters

None.

SECTION FOUR CONSOLIDATED FINANCIAL POSITION

I. Explanations related to the consolidated capital adequacy standard ratio

The consolidated capital adequacy ratio is 14.72% as of 31 December 2011 (31 December 2010: 15.70%). This ratio is higher than the stipulated minimum prudential ratio in the related legislation.

1. Risk measurement methods in the calculation of consolidated capital adequacy ratio

Consolidated capital adequacy ratio is calculated in accordance with the "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks" published in the Official Gazette No.26333, dated 1 November 2006. According to the requirements of the Regulation, starting from 30 June 2007, operational risk is included in the computation of capital adequacy ratio. For the calculation of the consolidated capital adequacy ratio, the accounting records prepared in compliance with the current legislation are used. Moreover, market risk value is calculated in accordance with the "Regulation on Banks' Internal Control and Risk Management Systems" and factored into capital adequacy ratio.

The items deducted from the capital base are not included in the calculation of risk weighted assets, non-cash loans and liabilities. For the calculation of risk weighted assets, impairments, depreciation and amortization, and provisions are considered as deductions from related assets.

For the calculation of their risk-based values, non-cash loans are weighted and classified according to related risk groups after being multiplied by the rates stated in the Article 5 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

For the calculation of their risk based values, derivative financial instruments are re-weighted and classified according to the related risk groups after being multiplied by the rates stated in the Article 5 of "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

II. Explanations related to the consolidated credit risk

1. Information on risk concentrations by debtors or group of debtors or geographical regions and sectors, basis for risk limits and the frequency of risk appraisals

Credit risk is the risk that the counterparties of the Parent Bank and consolidated subsidiaries and associates may be unable to meet in full or part their commitments arising from contracts and cause to incur losses.

Credit risk limits of the customers are determined based on the customers' financial strength and the credit requirement, within the credit authorization limits of the branches, the credit evaluation group, the regional directorates, the executive vice president responsible from loans, the general manager, the credit committee and the Board of Directors; on condition that they are in compliance with the related regulations.

Credit risk limits are determined for debtors or group of debtors. Credit risk limits of the debtors, group of debtors and sectors are monitored on a weekly basis.

Information on determination and distribution of risk limits for daily transactions, monitoring of risk concentrations related to off-balance sheet items per customer and dealer basis:

Risk limits and allocations relating to daily transactions are monitored on a daily basis. Off-balance sheet risk concentrations are monitored by on-site and off-site investigations.

Information on periodical analysis of creditworthiness of loans and other receivables per legislation, inspection of account vouchers taken against new loans, if not inspected, the reasons for it, credit limit renewals, collaterals against loans and other receivables:

The Group targets a healthy loan portfolio and in order to meet its target there are process instructions, follow-up and control procedures, close monitoring procedures and risk classifications for loans in accordance with the banking legislation.

In order to prevent the loans becoming non-performing either due to cyclical changes or structural problems, the potential problematic customers are determined through the analysis of early warning signals, and the probable performance problems are aimed to be resolved at an early stage.

Care is given to obtain collaterals against loans. It is preferred to obtain highly liquid collaterals such as bank guarantees, real estate and ship mortgages, pledges on securities, bills of exchange and sureties of the persons and companies.

2. Information on the control limits of the Group for forward transactions, options and similar contracts, management of credit risk for these instruments together with the potential risks arising from market conditions

The Group has control limits defined for the positions arising from forward transactions, options and similar contracts. Credit risk for these instruments is managed together with those arising from market conditions.

3. Information on whether the Group decreases the risk by liquidating its forward transactions, options and similar contracts in case of facing a significant credit risk or not

Forward transactions can be realized at maturity. However, if it is required, reverse positions of the current positions are purchased to decrease the risk.

4. Information on whether the indemnified non-cash loans are evaluated as having the same risk weight as non-performing loans or not

Indemnified non-cash loans are treated as having the same risk weight as non-performing loans.

Information on whether the loans that are renewed and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations or not; whether new precautions are considered in these methods or not; whether the Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk or not

Loans that are renewed and rescheduled are included in a new rating group as determined by the risk management system, other than the follow-up plan defined in the banking regulations.

Long term commitments are accepted as having more risk than short term commitments which results in a diversification of risk and are monitored periodically.

5. Evaluation of the significance of country specific risk if the banks have foreign operations and credit transactions in a few countries or these operations are coordinated with a few financial entities

There is no significant credit risk since the Parent Bank's foreign operations and credit transactions are conducted in OECD and EU member countries in considering their economic climate.

Evaluation of the Bank's competitive credit risk as being an active participant in the international banking transactions market

Being an active participant in the international banking transactions market, the Parent Bank does not have significant credit risk as compared to other financial institutions.

6. DFS Group's

a) The share of the top 100 cash loan customers in the total cash loans portfolio

The share of the top 100 cash loan customers comprises 20% of the total cash loans portfolio (31 December 2010: 23%).

b) The share of the top 100 non-cash loan customers in the total loan non-cash loans portfolio

The share of the top 100 non-cash loan customers comprises 44% of the total non-cash loans portfolio (31 December 2010: 48%).

c) The share of the total cash and non-cash loan balance of the top 100 loan customers in the total assets and off-balance sheet items

The Bank's total cash and non-cash loans from its top 100 loan customers comprise 14% of the total assets and off-balance sheet items (31 December 2010: 17%).

7. DFS Group's general loan provision for its loans

As at 31 December 2011, DFS Group's general loan provision amounts to TL 291,975 (31 December 2010: TL 183,074).

Total	23,098,636	690,883	23,789,519

(*) Past due or impaired amounts include only the overdue installments.

14. Carrying amount per class of financial assets whose terms have been renegotiated

	Current Period	Prior Period
Loans and advances to customers		
Commercial Loans	231,912	156,413
Consumer Loans	105,012	110,612
Total	336,924	267,025

15. Credit rating system

Corporate and commercial credit risks are evaluated according to the Group's internal rating / scoring system that is formed by taking into account Dexia Basel II criteria and classified according to their probability of default.

Classification and rating/scoring of commercial and corporate loans is as follows:

Rating Grades	Current Period	Prior Period
Above Average	51%	41%
Average	34%	40%
Below Average	10%	14%
Unrated	5%	5%

A different rating system ("scoring") is applied for consumer and SME credit risks at the Group.

As 31 December 2011 ratings compatible with Basel II criteria is shown as below:

Rating Grades	Current Period
Above Average	38%
Average	30%
Below Average	32%

III.Explanations related to the consolidated market risk

Whether the group within the financial risk management objectives hedges itself against market risk, the precautions taken by the Board of Directors for market risk, the methods used for measuring market risk and time intervals for measurement of market risk

The Parent Bank has defined its risk management procedures and has taken necessary precautions in order to avoid market risks, in compliance with "Regulation on Bank's Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratio of Banks". As the main precaution against being exposed to market risk, the Parent Bank's Board of Directors identifies risk limits determined in the context of economic capital.

Standard method and the internal risk measurement model are used in calculating the market risk. The criteria for the standard method have been set by the BRSA and are reported on a monthly basis. Internal risk measurement model is applied on a daily basis.

1. Market risk

	Amount
(I) Capital Obligation against General Market Risk - Standard Method	40,760
(II) Capital Obligation against Specific Risk - Standard Method	8,614
(III) Capital Obligation against Currency Risk - Standard Method	29,187
(IV) Capital Obligation against Commodity Risk - Standard Method	--
(V) Capital Obligation against Clearing Risk - Standard Method	--
(VI) Capital Obligation against Options Subject to Market Risk – Standard Method	5
(VII) Capital Obligation against Market Risk at the Banks calculating Risk Measuring Models	--
(VIII) Total Capital Obligation against Market Risk (I+II+III+IV+V+VI)	78,566
(IX) Value-At-Market-Risk (12,5 x VIII) or (12,5 x VII)	982,075

2. Average market risk

	Current Period			Prior Period		
	Average	Maximum	Minimum	Average	Maximum	Minimum
Interest Rate Risk	48,927	52,001	45,793	27,399	31,255	24,505
Share Certificate Risk	5,718	10,279	1,882	2,142	2,659	1,811
Currency Risk	23,984	28,631	16,517	12,294	14,670	8,779
Commodity Risk	--	--	--	--	--	--
Clearing Risk	--	--	--	--	--	--
Option Risk	348	561	64	148	265	19
Total Value-At-Risk	987,197	1,092,638	931,100	524,784	600,038	483,850

IV. Explanations related to the consolidated operational risk

DFS Group used the "Basic Indicators Approach" in computation of its operational risk. In accordance with the 4th section (Computation of the Operational Risk) which is valid after 1 June 2007, of the "Regulation on Measurement and Evaluation of the Capital Adequacy of the Banks", published in the Official Gazette dated 1 November 2006 and numbered 26333, operational risk is computed using the gross income of DFS Group for the years ended 2010, 2009 and 2008. As explained in detail in footnote I of this section, value at operational risk within the context of "Capital Adequacy Ratio" and operational risk capital liabilities are TL 3,611,761 and TL 288,941, respectively. Market risk measurements are performed monthly.

V. Explanations related to the consolidated foreign currency exchange rate risk

1. Foreign exchange risk the Group is exposed to, related estimations, and the limits set by the Board of Directors of the Parent Bank for positions which are monitored daily

Foreign currency exchange and parity risks are taken by DFS Group within defined value at risk limits. Measurable and manageable risks are taken within legal limits.

Foreign currency exchange rate risk is monitored along with potential evaluation differences in foreign currency transactions in accordance with "Regulation on Bank's Internal Control and Risk Management Systems". Value at Risk approach is used to measure the exchange rate risk and calculations are made on a daily basis.

Based on general economic environment and market conditions the Parent Bank's Board of Directors reviews the risk limits daily and makes changes where necessary.

2. The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using derivatives

In accordance with TAS 39, DFS Group applies net investment hedge accounting to avoid foreign currency exchange rate risk arising from retranslation of its foreign investments in its consolidated financial statements.

3. Foreign exchange risk management strategy

Foreign currency exchange and parity risks are taken by DFS Group within defined value at risk limits. Measurable and manageable risks are taken within legal limits.

4. The Parent Bank's spot foreign exchange bid rates as of the balance sheet date and for each of the five days prior to that date

US Dollar purchase rate as at the balance sheet date	TL 1.8889
Euro purchase rate as at the balance sheet date	TL 2.4438

Date	US Dollar	Euro
26 December 2011	1.8833	2.4613
27 December 2011	1.8847	2.4633
28 December 2011	1.8897	2.4702
29 December 2011	1.9065	2.4592
30 December 2011	1.8889	2.4438

5. The basic arithmetical average of the Parent Bank's foreign exchange bid rate for the last thirty days prior to the balance sheet date

The arithmetical average US Dollar and Euro purchase rates for December 2011 are TL 1.8593 and TL 2.4512, respectively.

6.1 Currency risk exposure

The table below demonstrates prospective increase and decrease in equities and the statement of income as of 31 December 2011 and 2010 (excluding tax effect) on condition that 10 per cent devaluation of TL against the currencies below. This analysis has been prepared under the assumption that all other variables, especially interest rates, to be constant.

	Current Period		Prior Period	
	Period Profit Loss	Equity (*)	Period Profit Loss	Equity (*)
US Dollar	(15,594)	(16,831)	2,949	5,885
Euro	25,416	25,190	7,063	7,045
Total (Net)	9,822	8,359	10,012	12,930

(*) Equity effect in the table also includes income statement effect of 10 per cent devaluation of TL against other currencies.

VI. Explanations related to the consolidated interest rate risk

1. Interest rate sensitivity of the assets, liabilities and off-balance sheet items

Standard method is used in measuring the interest rate risk of assets, liabilities and off-balance sheet items.

2. The expected effects of the fluctuations of market interest rates on the Group's financial position and cash flows, the expectations for interest income, and the limits the board of directors has established on daily interest rates

The Parent Bank relies on sensitivity in determining limits against negative market conditions and monitors the risk within this context. Sensitivity calculations are made and limits are monitored on a weekly basis.

Market interest rates are monitored daily and interest rates are revised where necessary.

3. The precautions taken for the interest rate risk the Group was exposed to during the current year and their expected effects on net income and shareholders' equity in the future periods

The Group uses sensitivity analysis, historical stress-testing and value at risk methods to analyze and take precautions against interest rate risk faced during current period. Interest sensitivity limits have been defined and limits are being monitored on a weekly basis.

Interest rate sensitivity of assets, liabilities and off-balance sheet items (Based on repricing dates):

5. Possible effects of the sensitivity to interest rates of the Group's financial assets and liabilities on net income and equity in the future

The interest rate sensitivity of the income statement expresses the effects of probable changes in the interest rates on the value of interest bearing financial assets held for trading and on the net interest income on other interest sensitive assets and liabilities as at 31 December 2011. The sensitivity of the equity is calculated by the revaluation of the available for sale securities portfolio and hedging purpose transactions as of 31 December 2011 based on possible interest rate changes.

The effect of increasing TL and FC interest rates by 100 basis point as of 31 December 2011 on next period's income statement is TL (40,674)(31 December 2010: TL (32,174)).

The effect of increasing TL and FC interest rates on equity is TL (22,995) (31 December 2010: TL (13,338)).

VII. Explanations related to the consolidated liquidity risk

1. The sources of the current liquidity risk of DFS Group; whether the necessary precautions have been taken, whether the Board of Directors of the Parent Bank sets limits on the funds available to meet the urgent liquidity requirements and the liabilities which are due

Liquidity risk arises from maturity mismatch between assets and liabilities. Maturity mismatch between assets and liabilities is kept under control based on certain criteria set by DFS Group. DFS Group maintains liquid assets to guarantee sufficient liquidity during market fluctuations. In order to meet any urgent liquidity needs, approximately 11% of the balance sheet is allocated to cash and balances with banks, 9% to investment securities which are easily convertible into cash and the available borrowing limits are not used intensively. DFS Group's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

2. Matching of the interest rates of the payments with assets and liabilities and probable effects of any mismatch on profitability

DFS Group's payments, assets and liabilities match with the interest rates.

3. Internal and external sources to meet the short and long-term liquidity needs, significant sources of liquidity that are not utilized

Approximately 11% of balance sheet is allocated to cash balances, 9% to investment securities which are easily convertible into cash in order to meet any urgent liquidity needs. The available borrowing limits (such as Central Bank of the Republic of Turkey and ISE repurchase market) are not used. DFS Group's short-term liquidity needs are mainly met with deposits and short-term funds borrowed from foreign banks.

4. Evaluation of DFS Group's cash flows and their resources

Cash flows of DFS Group are mainly in terms of Turkish Lira, US Dollar and Euro.

In the short and long run, liquidity needs or surplus funds are utilized in interbank money market placements, deposits and loans.

5. Liquidity Ratios of the Group

According to BRSA's "Legislation on Measurement and Assessment of Liquidity Adequacy of the Banks" 26333 numbered official gazette dated on 1 November 2006, liquidity ratio is required to be 80 % for foreign currency assets/liabilities and 100 % for total assets/liabilities in the calculation of the banks weekly and monthly reporting. Liquidity ratios, prepared based on non-consolidated financial statements of the Bank, for 2011 are as below:

	First Maturity Slice (Weekly)		Second Maturity Slice (Monthly)	
	FC	FC + TL	FC	FC + TL
Average (%)	124.11	157.67	118.63	121.08
Max. (%)	150.77	196.48	139.74	145.17
Min. (%)	104.79	136.65	98.21	108.44

VIII. Presentation of financial assets and liabilities at their fair value

1. Calculation of financial assets and liabilities at their fair value

The fair value of held-to-maturity assets are determined based on market prices, or when they are not available, based on market prices quoted for other securities subject to similar terms of interest, maturity and other conditions.

The expected fair value of the demand deposits represents the amount to be paid upon request. The fair value of the overnight deposits and floating rate placements represent their carrying value. The expected fair value of the fixed rate deposits are determined by calculating the discounted cash flows using the market interest rates of similar instruments.

The expected fair value of fixed rate loans and receivables are determined by calculating the discounted cash flows using the current market interest rates. For the loans with floating interest rates, it is assumed that the carrying value reflects the fair value.

The following table summarizes the carrying value and fair value of financial assets and liabilities. The carrying value represents the sum of the acquisition costs and interest accruals of financial assets and liabilities.

	Carrying value		Fair value	
	Current Period	Prior Period	Current Period	Prior Period
Financial Assets	38,225,347	30,367,661	37,585,563	30,567,500

IX. Transactions carried out on behalf and account of other parties and fiduciary transactions

1. Information on whether the Group performs sales, purchase, management, consultancy and custody services on behalf and account of others, or not

DFS Group performs sales, purchase, management, consultancy and custody services on behalf and account of others.

2. Transactions directly realized with other financial institutions depending on fiduciary contracts and probability of material effect of such transactions on the financial position of the Bank.

None.

X. Explanations related to the consolidated segment reporting

DFS Group is active in three areas, namely, retail banking, corporate banking, treasury and investment banking.

In retail banking, it offers loan products (consumer loans, mortgage, and vehicle loans), distinctive credit cards, investment products (mutual funds, shares, government bonds/treasury bills, and repos), deposit products (time, demand, protected), insurance products, SME loans as well as agricultural loans. Alternative distribution channels allow customers to meet their banking needs without the need to physically visit the branches. Among products that meet every day needs of customers are overdraft loans, automated bill payment, checkbooks and rental safes.

Corporate banking offers financial and banking solutions to large-scale local and international corporate and commercial customers. In order to meet customer needs related to projects, investment and working capital, corporate banking offers short and long-term working capital loans, investment loans, non-cash loans, foreign exchange transactions, export finance, project finance, structured finance, corporate finance, deposit products and cash management services.

Within treasury and investment banking, sales, prop-trading and private banking departments offer spot and forward TL and foreign exchange transactions, trading of treasury bills, bonds and other local and international securities and derivative products. Servicing the upper segment of wealthy and high income retail customers who require sophisticated banking and investment services falls within the scope of private banking.

5.11 Aging analysis of past due but not impaired financial assets

Loans	Less than 1-30 days	31-60 Days	61-90 Days	Total
Current Period	332,918	91,467	55,248	479,632
Prior Period	236,259	85,089	44,842	366,190

The table includes only past due installments.

5.12 Liquidation policy for uncollectible loans and receivables

For uncollectible loans and receivables, the Bank tries to solve the issue with the customer. If no result is obtained, all legal actions are taken. Such actions are completed when the insufficiency of collaterals is documented or a certificate of insolvency is obtained.

5.13 Information on write-off from assets policy

Unrecoverable non-performing loans are written off with the decision of the Board of Directors on condition that receivable of the Group is not material compared to the costs to be incurred for the preparation of necessary documentation. The amount written-off is TL 2,441 in 2011 (31 December 2010: TL 9,854).

13. Information on intangible assets

13.1 Useful lives and amortization rates

The useful life of an asset is determined by taking the asset's expected economic life, technical, technological or other kinds of obsolescence, and maintenance costs into account. The amortization rates used are in accordance with the useful lives of the underlying assets. The useful lives are determined as defined by TAS 38 "Intangible Assets".

13.2 Amortization methods

The Parent Bank uses straight line amortization method for intangibles purchased before 1 January 2003 and after 31 December 2006. Assets purchased in other periods are amortized using declining amortization method.

13.3 Movement of intangible assets

12.10 Information on hedging funds

12.10.1 Information on cash flow hedge items

The Parent Bank hedges a portion of its floating rate liabilities by interest rate swaps. The effective portion of the fair value losses of those swaps, amounting to TL 29,047 (31 December 2010: TL 109,936), has been disclosed in hedging reserves under equity.

12.10.2 Information on hedging foreign net investment risk

DFS Group hedges its foreign currency exchange rate risk from retranslation of its foreign operations by net investment hedge accounting, through recognizing the effective portion of foreign exchange rate changes of a portion of its foreign currency denominated liabilities under equity. The related loss under hedging reserve amounts to TL 138,455 as of 31 December 2011 (31 December 2010: TL 60,323).

13. Information on minority shares

	Current Period	Prior Period
Balance at the Beginning of the Period	16,056	--
Minority interest in net income of consolidated subsidiaries	(737)	2,051
Increase/(decrease) in minority interest due to disposals	--	--
Other	(1,802)	(*) 14,005
Balance at the End of the Period	13,517	16,056

(*) Represents the minority shares of Deniz Yatırım Ortaklığı which has been consolidated for the first time as of 31 December 2010.

V. Explanations and disclosures related to consolidated statement of changes in shareholders' equity

1. Changes due to valuation of investments available-for-sale

The amount of net increases/decreases from revaluation of investments available-for-sale of DFS Group has been TL (153,193) as of 31 December 2011 (31 December 2010: TL 44,135). This amount has been reflected to "Valuation Differences of Securities" in the balance sheet.

As of 31 December 2011, an additional valuation increase of TL 27,943 has been realized from redemption/sale of other item in "investments available-for-sale" portfolio (31 December 2010: TL 23,429)

2. Reconciliation of the beginning and end of the year balances of foreign exchange differences

Foreign exchange differences resulting from the Bahrain branch of the Bank and from the translation of the financial statements of the consolidated foreign subsidiaries amounted to TL 108,995 (31 December 2010: TL 35,308) and included in shareholders' equity as "other profit reserves".

3. Dividend information

3.1 Dividend amounts declared subsequent to the balance sheet date but before the issuance of the financial statements

None.

3.2 Net profit per share decided to be distributed after the balance sheet date

None.

4. Amounts transferred to legal reserves

The Parent Bank transferred TL 22,877 (31 December 2010: TL 26,588) to legal reserves and TL 433,808 (31 December 2010: TL 505,181) to extraordinary reserves from prior period profits in 2011.

5. Information on issuance of common stock

5.1 Rights, priorities and restrictions for all classes of capital shares, including dividend distribution and recall of capital

None.

6. Explanations for other increases in consolidated statements of changes in shareholders' equity

None.

VI. Explanations and disclosures related to consolidated cash flow statement

1. Disclosures for "other" items in the statement of cash flows and effect of changes in foreign currency exchange rates on cash and cash equivalents

"Other" item amounting to TL (1,079,340) (31 December 2010: TL (941,298)) before "changes in operating assets and liabilities" comprise other operating expenses, fees and commissions paid and net trading loss. As a result of these changes in the cash flow statement, the balance of cash and cash equivalents has changed from TL 3,406,475 (31 December 2010: TL 2,711,216) to TL 4,788,326 in 2011 (31 December 2010: TL 3,406,475).

"Other liabilities" item included in "change in assets and liabilities arising from banking activities", amounting to TL 1,833,437 (31 December 2010: TL 346,406) comprise changes in sundry creditors, taxes and duties payable, and other external resources.

The effect of foreign currency exchange rates on cash and cash equivalents is reflected in foreign exchange gains and losses, which is presented as a separate line item as "effect of change in foreign currency exchange rates on cash and cash equivalents".

2. Information on cash and cash equivalents at the beginning of the period

	Current Period 01.01.2011	Prior Period 01.01.2010
Cash	483,074	345,630
Interbank Money Market Placements	1,232,636	700,426
Trading Securities (Net)	98,886	14,835
Banks	1,591,879	1,650,325
Cash Equivalents	3,406,475	2,711,216

3. Information on cash and cash equivalents at the end of the period

	Current Period 31.12.2011	Prior Period 31.12.2010
Cash	607,951	483,074
Interbank Money Market Placements	1,284,157	1,232,636
Trading Securities (Net)	140,503	98,886
Banks	2,755,715	1,591,879
Cash Equivalents	4,788,326	3,406,475

4. Information on cash and cash equivalent assets of DFS Group that are not available for free use due to legal restrictions or other reasons

None (31 December 2010: None).

5. Additional information

5.1 Restrictions on the line of unused credit facilities to be used in banking operations and in fulfilling capital commitments, if any

None.

2. Information on transactions with DFS Group's risk group

2.1 Relations with entities in the risk group of / or controlled by the Bank regardless of the nature of relationship among the parties

DFS Group performs banking transactions with the risk group on an arms-length basis within the market conditions and in compliance with the Banking Law.

2.2 In addition to the structure of the relationship, type of transaction, amount, and share in total transaction volume, amount of significant items, and share in all items, pricing policy and other

The pricing policy and other terms of transactions with the risk group entities are set in compliance with the market prices. As of 31 December 2011, cash loans and other receivables of the risk group represent 0.6% of DFS Group's total cash loans and bank deposits granted, the deposits and borrowings represent 1.2% of DFS Group's total deposits and borrowings. Non-cash loans granted to risk group companies represent 0.001% of the total balance.

2.3 Explanations on purchase and sale of real estate and other assets, sales and purchases of services, agency contracts, finance lease agreements, transfer of data obtained from research and development, licensing agreements, financing (including loans and cash and in-kind capital support), guarantees and promissory notes, and management contracts

The risk group, which DFS Group belongs to, has finance lease contracts with Deniz Leasing. The Parent Bank gives brokerage services through its branches for Deniz Yatırım. As part of the consolidation adjustments, these balances and transactions have been eliminated from the accompanying financial statements.

SECTION SIX

OTHER DISCLOSURES AND FOOTNOTES

I. Other explanations related to DFS Group's operations

1. Explanations related to DFS Group's operations

In relation with the share purchase agreement signed with American Life Hayat Sigorta A.Ş. (Metlife) on 27 June 2011 for the sales of the equity shares of Deniz Emeklilik, the Bank also signed a life insurance agency agreement with Deniz Emeklilik on the same date with the share purchase agreement for distribution, marketing and sales of life insurance products via the branches of the Bank for 15 years based on a commission and profit sharing plan.

On 7 July 2011, the Bank signed a non-life insurance agency agreement with AXA Sigorta A.Ş. for distribution, marketing and sales of non-life insurance products via the branches of the Bank for 15 years. In accordance with this agreement, Deniz Leasing will also assure leasing risk of customers limited with its own main operational activities via AXA Sigorta A.Ş. for 15 years. AXA Sigorta A.Ş. made an up-front payment of TL 55,000 within the scope of 15 year agency agreement and will be sharing technical profit with Denizbank depending on the performance in the future years. The amount received upfront is deferred and recognized as income over the life of the agency agreement.

On 6 July 2011 and 28 November 2011, Denizbank AG raised its capital by Euro 20 million (TL 51,370) and Euro 95 million (TL 232,456) totally paid by the Parent Bank in cash, respectively.

The main shareholder of the Bank, Dexia Group, has been applying a comprehensive restructuring plan, approved also by the European Commission, since 2008. Nevertheless, Dexia Board of Directors has authorized Dexia Management to set measures with the purpose of sustainable resolution of the structural problems of Dexia Group, due to the effects of public debts crisis affecting the financial markets. The Board of Directors executed a first set of measures in line with the decisions taken by the French, Belgian and Luxembourg states, aimed at stabilizing the Group's liquidity. In this respect, on 20 October 2011 Dexia SA's entire shareholding in Dexia Bank Belgium was acquired by the Belgian State for EUR 4 billion, to authorize Group CEO to enter into exclusive negotiations with French Banks to maintain support for French operations and to initiate negotiations for the disposal of Dexia BIL (Banque Internationale à Luxembourg), RBC Dexia Investor Services, Dexia Asset Management and Dexia Municipal Agency. As a result, on 20 December 2011, a binding memorandum has been signed concerning the sale of 90% of Dexia BIL's shares, 99.906% of which is owned by Dexia Group, to a Qatari Investment Group and the remaining 10 % to the Grand Duchy of Luxembourg at an amount of EUR 730 million.

In addition, for the debts of the Group, the guarantee granted by the Belgian, French and Luxembourg States with respective rates of 60.5%, 36.5% and 3% has been approved by the European Commission to raise funding up to maximum EUR 45 billion for a period up to 3 years and is effective as of 22 December 2011.

As of 17 October 2011, Dexia Participation Belgique SA initiated studies for the evaluation of strategic options for its stake in Denizbank and authorized Bank of America Merrill Lynch and White & Case for this process. According to the resolution of the Dexia Board of Directors, dated 19 October 2011, Dexia Group CEO was authorized to start the sale process of all shares of Dexia Group in Denizbank. The sale process is still continuing as of the date of this report.

Within the frame of the investigation of the Competition Board for 8 banks where the Parent Bank is also included, TL 2,160 administrative fine was paid on 21 October 2011. The Parent Bank filed a lawsuit of nullity at the Council of State in request for a stay of execution against the decision of the Competition Board for giving this administrative fine.

On 25 October 2011, the Parent Bank signed a syndication loan facility from the international markets with coordination of Wells Fargo and Standard Chartered, with a maturity of one year. The syndication loan consists of two tranches; amounting to EUR 432 million and USD 45.5 million, bearing interest at Euribor/Libor+1.3%.

Bonds amounting to TL 350,000, issued on 6 May 2011 with 176 days maturity and 8.43% simple interest rate were repaid on 2 November 2011.

Regarding to decision of the Board of Directors dated 12 October 2011, the Parent Bank issued bank bills and bonds with 175 days maturity and 10.81% simple interest rate amounting to TL 270,458; and with 399 days maturity and 11.03% simple interest rate amounting to TL 29,542 on 2 November 2011.

On 16 December 2011, the Parent Bank and European Bank for Reconstruction and Development (EBRD) signed a loan agreement of EUR 40 million within the scope of Turkey Agribusiness SME Financing Facility (TurAFF) Program to finance investment and working capital needs of SME's. According to the terms of the agreement, total maturity of the loan is 5 years.
