

Travel plans get faster and easier with "Travel with Deniz"

DenizBank has launched its "Travel with Deniz" platform, which makes travel planning faster and easier. Required transactions such as flight tickets, hotel reservations and airport transfers can now be carried out safely from a single point.

DenizBank customers can easily access the platform developed through YKM Tourism cooperation via www.denizleseyahat.com website and DenizKartim application without entering additional information. "Travel with Deniz" platform offers uninterrupted access to many services such as air ticket, hotel reservation, car rental, transfer, bus ticket, cruise and package tour purchases to users with the bank or credit card they wish.

DenizBank credit and debit card holders can use the shopping bonuses they earn through the platform three times as valuable and enjoy special advantages offered to them.

"We aim to provide a customized travel service"

DenizBank Retail Banking Group Executive Vice President Aysenur Hickiran emphasized that offering innovative solutions that enrich the customer experience is among DenizBank's priorities. Hickiran continued, "As DenizBank, we are always looking for innovations that will make our customers' lives easier and provide them with personalized experiences. Our Travel with Deniz platform is one of the important projects we have implemented to ensure that customers carry out their travel planning end-to-end, easy, fast and safe. With this new service which we have designed specifically for travelers with its wide range of products, advantageous campaigns and multiples of bonus points, we are delighted to be there for our customers. Travel with Deniz will further enrich travel experiences with constantly renewed campaigns and special financial solutions. With our leadership in technology and innovation, we will continue to offer accessible, easy and secure banking from anywhere, at any time."
