

NEOHUB Bulut Teknolojileri, DenizBank's new generation subsidiary is offering custody services for digital assets

On a platform that operates under NEOHUB Bulut Teknolojileri A.Ş., a 100% subsidiary of NEOHUB, users can store and manage their digital assets with smart solutions.

On this platform, thanks to its wallet design, users can safely manage and transfer various popular crypto currencies including Bitcoin (BTC), Ethereum (ETH), Polygon (MATIC) and Avalanche (AVAX), and also quickly create NFTs (Non Fungible Tokens) and send them in greeting card format.

"We use the most reliable technologies for the management of digital assets"

Gürhan Çam, the General Manager of NEOHUB, made the following statement on the subject: "As NEOHUB, since our foundation, we have been working with the vision of becoming a factory producing different business models, and we aim to design new technologies for the future banking system and make them widespread throughout the whole sector. With the same vision, we closely follow innovative developments in the world of digital assets. Bulut Teknolojileri A.Ş. is our subsidiary, thanks to which we make the best of digital assets which draw a lot of attention and manage these assets with smart solutions. With this subsidiary of ours, we are able to use the most innovative and reliable technologies in the sector for the management of not only crypto currencies but also other digital assets such as NFT. This platform is initially open to only DenizBank employees, but we are going to make it available to all users as soon as possible."
